BAD ACCIDENT AT THE SHOPS.

Large Corliss Engine Breaks Down And Work Was Suspended For Time

ENGINEER AUSDAHL IS INJURED

He Tried to Shut Off Steam and His Hands Were Badly Burned

There was a very bad accident at the shops Wednesday afternoon but fortunately no one was seriously injured. The cross head to the big Corliss engine broke and the force of the steam jammed the piston rod with great force and smashed the engine in bad shape, blowing out the cylinder head.

Engineer A. Ausdahl was in the building at the time but did not happen to be near the engine. Of course as soon as the cylinder head broke the steam began to escape and the room was soon filled. It at once became very dangerous to go near the machinery as the steam was boiling hot. With his usual nerve Mr. Ausdahl climbed up the ladder and turned off the steam and in doing so he burned both his hands in horrible shape. The burn is not serious, however, and he is on duty today but is not able to do much.

The whole shop was shut down for a short time after the accident occured until another engine in the boiler room could be started up.

O'NEIL FINED $20.

Officer Hurley's Assailant Pleads Guilty To the Charge of Assault in Third Degree.

The case of Frank O'Neil was called yesterday at 10 o'clock in Judge Mantor's court, but the proceedings were very brief. The defendant plead guilty to the charge of assault in the third degree and the court fined him $20, which was promptly paid.

It will be remembered that O'Neil is the man who without cause made an attack on Officer Hurley on Kindred street in East Brainerd a week ago last Sunday.

The fine was a rather light one, but O'Neil made a clean breast of the whole affair and admitted that he was to blame, and states that he has no grievance against Mr. Hurley for the rough usage he got at his hands.

It was not learned whether he intended bringing the suit against the other two officers, but he has engaged an attorney.

CLERKS UNITE WITH MERCHANTS

A Meeting of the Retail Clerks Association was Held Wednesday Night to Act,

There was a very interesting meeting of the members of the Retail Clerks' Association Wednesday night and the matter of turning out in the parade on Labor Day as a body was discussed. The statements to the effect that the clerks did not care to co-operate with the merchants were refuted by the action last night. The clerks may turn out in a body, but they have no objection whatever to merchants getting up floats and they decided last night that they would make a special effort to help them do so.

Logging Train Taken Off

The logging trains which have been hauling logs from Cass Lake to the Mississippi river at Grand Rapids have been pulled off for the season. Considering the fact that half the time there was but one train running, the record made was very good. From June 20 to Aug. 10 there were 12,122,610 feet of logs put into the river at Grand Rapids. This was 1,711 carloads, with an average of 7,090 feet to the car. The approximate weight was 139,515,015 tons. The greater part of the timber belonged to the Burlington Lumber company, the Backus-Brooks company having in all about 3,000,000.

A VERY PLEASANT JAUNT.

City Officials and Members of the City Council Guests Wednesday of Pres. A. F. Ferris and Sec. J. M. Elder.

Wednesday at 7 o'clock sharp a very jolly party of gentlemen gathered in front of J. M. Elder's office and a few minutes later they were seated in comfortable rigs and driven into the country. The gentlemen included officers of the city and several members of the city council. They had been extended an invitation by President A. F. Ferris and Secretary J. M. Elder of the Minnesota Park Region Land Company to take a jaunt in the country and see the condition of the crops, etc. The gentlemen drove out toward the Long lake country and for several hours they feasted on the fields of excellent grain and corn. They pulled into what is known as the "narrows" at Long lake and to their surprise they found that their hosts had sent a commissary wagon ahead and under the supervision of C. H. Kylio and Ed. Breheny a very sumptuous repast was spread out on the ground. It was a delightful surprise and was heartily partaken of.

The party returned about 12 o'clock. The following took advantage of the invitation: President Crust and Aldermen Wright, Halladay, Erickson, Purdy and City Clerk Low, City Attorney Crowell and J. C. Hessel.

Killed By Cars.

Chief of Police Nelson Wednesday received a telegram from Hans Anderson, of Thompson, N. D., stating that Robert Appelstiel was killed by lightening. The particulars were not given, but it is presumed the man's people live here.

A great many men have gone from this part of the country to work in the harvest fields and it is probably one of these men who was killed. Chief Nelson is investigating.

VERY SUDDEN DEMISE.

Young Man of Valley City Brought To The Sanitarium Saturday Dies Yesterday Afternoon.

William B. Ford died at the N. P. Sanitarium yesterday afternoon of apendicitis. He had only been in the hospital since Saturday last.

Deceased was a fireman on the Northern Pacific, running between Fargo and Mandan. He worked up to last Friday, and when he came down to the Sanitarium it was not thought that he was in bad shape. The operation which followed was too much for him, however, and he passed away before his relatives reached here.

His father, Benjamin Ford, arrived from the west this morning and the remains of the young man were taken west this afternoon. Interment will take place at Valley City.

Look for the ragmuffin band; they will be at the ball park tomorrow afternoon.

PLUMBERS CAN NOW DIG.

A Temporary Agreement Reached So that They Can Work in Streets Until Next Council Meeting.

The plumbers of the city and the city officials reached an agreement yesterday whereby the matter of digging in the streets without procuring a license was amicably settled for the time being at least. Each plumber put up a check for $25, but with the understanding that it would be refunded to them at the next meeting of the council in case the whole thing was decided in their favor.

They of course question the meaning placed on the ordinance claiming that it originally intended to prevent outside plumbers from coming in.

Members of Brainerd Lodge, No. 610, B. P. O. E., will meet at Gardner hall tomorrow afternoon at 2 o'clock.

Those desiring to board or room teachers will confer a favor upon the superintendent by dropping him a card to that effect at once.

ELKS WILL OWN TOWN TO-MORROW.

The Sports Will Be at Swartz Driving Park in The Afternoon

BALL GAME WILL BE GREAT

Social Session In The Evening at Gardner Hall Will Be A Hummer

To-day is the big day of the season among the Elks, and the first anniversary of the organization of the lodge will be celebrated in right royal style. There will be a good delegation of the St. Cloud Lodge present and it will be a great day.

The ball game this afternoon will of course be the feature of the days' sports. It will be played at the Swartz driving park at 3 o'clock and will be the funniest thing ever. The making of the suits for the ball team has been left in the hands of the decoration committee and they are said to be something terrible and furious. The lineup will be selected from the following list: Tom Canan, George Brown, Joe Howe, Mike Reilly, James Murphy; Frank Weisenberger, Frank Murphy, Bert Finn, Frank Hall and J. A. Thabes.

This evening there will be a social session at Gardner hall and it is understood that the program has been prepared that will be great. The hall has been beautifully decorated and everything will be in great style. Si Perkins will be a guest at the hall.

THE GAME IS OFF.

Aitkin Will Have a Good Laugh At The Expense of Brainerd Over The Recent Deal.

Those who were hustling the $500 to be put up as side money in game between Aitkin and Brainerd next Sunday wired the Aitkin base ball management last night that the game was off.

The big excursion coming on Sunday knocked the whole thing in the head and those who had put up their coin wanted to draw it down, claiming that the Company F boys would be sore. Several of the men of the team stated that they would not go to Aitkin and play Sunday, so everything had to be called off.

It is more than likely that Brainerd will not be able to get another game with Aitkin's best team this year. Catcher Burns is going away for a twenty day vacation, and it is understood that Pitcher Rogers will also leave for school very soon.

SHE FORMERLY LIVED HERE.

Mrs. Mary Footner Dies of Old Age at the Home of Her Daughter in St. Paul.

The following from the Pioneer Press relating to Mrs. Mary Footner's death, who was at one time a resident of this city, will be sad news to the many friends of the deceased:

Mrs. Mary Footner, aged eighty-four, the mother of the late W. J. Footner, formerly vice president and general manager of the Great Northern Express company, died of old age at 9:30 last night at the home of her daughter, Mrs. D. Moreland, 235 Selby avenue. Mrs. Footner was born in England and had lived in St. Paul since 1881. She is survived by two daughters, Mrs. D. Moreland and Mrs. Mary A. Reuss of 235 Selby avenue, with whom she lived. The funeral will be held from the house to-morrow afternoon and the interment will be at Brainerd.

The remains of the deceased were brought here today and the interment took place in Evergreen cemetery, Rev. Roderick J. Mooney of St. Pauls church officiating.

Mike Reilly will do the honors on second base and the Murphys will do some great sticking. "Hurrah for Casey"

WANTED—Good girl for general house work. Inquire of P. J. Murphy, over Northern Pacific bank.

WILL TEST VALIDITY.

Plumbers of the City Object to Paying a $25 License to do Business—Will Investigate.

Wednesday a prominent city plumber, had a little experience with the police as a result of the action taken Monday night by the city council relating to plumber's licenses and bonds. The council instructed City Attorney Crowell at its meeting to see to it that the ordinance regulating this matter be strictly adhered to. Consequently the city attorney has been rather diligent the past two days and when he left the city this morning he left word with the police if anyone was seen digging in the street to have them promptly arrested.

The plumber Wednesday put his men to work in the street on the corner of Sixth and Front but he was very promptly stopped by Officer Derocher. No arrest was made because the officers desired to see the mayor.

Mayor Halsted came down later and he said that the men could be procured at anytime, they are residents and business men of the city and he did not think it was necessary to place them under arrest. He did give orders, however, to have all work on the streets stopped pending some agreement between the plumbers and the city council. Mr. Halsted stated this morning that this ordinance was passed a long time ago when he was not in the exoutive chair, but it is his opinion that the $25 license was never intended for local plumbers. It is his belief that it was passed for the purpose of keeping out-side plumbers coming in to do work against local men.

It was stated Wednesday that the plumbers had engaged an attorney and they intend to fight the matter, not for the sake of being obstinate but they would like to make a test case.

ROOSEVELT COMING WEST.

He Will Open the Minnesota State Fair on Sept. 2—Great National Live-stock Exhibit to be Held.

The fair opens on Monday, Sept. 2, with an address by Vice-President Roosevelt, and continues during the week. Half-rate fares have been made by all railroads.

The vice-president of the United States is to open the Minnesota State Fair this year. "Teddy," the idol alike of the New York reformers and the western plainsmen and one of the most loved men in the country without respect to party, has accepted an invitation to make the opening address at the Gopher state fair. In addition the management has arranged for national live stock displays by the Shorthorn and Hereford Associations, is offering $40,000 in premiums and purses, has erected a new building costing $25,000, to increase the exhibition capacity of the fair, announces evening racing and spectacular fireworks for each night, and altogether, promises to make the week of September 2d a particularly hot time in the towns of St. Paul and Minneapolis.

A rate of one fare for the round trip has been made on every railroad leading to St. Paul and Minneapolis for the week of Sept. 2-7

Y. M. C. A. ELECTION.

Board of Directors of the Local Association Held an Important Meeting Wednesday Night.

There was a very important meeting of the directors of the Y. M. C. A. Wednesday in the association parlors. Reports were read from the different committees and considerable routine business was transacted. H. A. Raits was elected as a member of the board to succeed H. W. Simon, resigned.

The following officers were elected:

President—Albert Angel.
1st V. P.—A. E. Losey.
2nd V. P.—L. J. Erickson.
Rec. Sec.—H. D. Wright.
Treasurer—F. W. McKay.

CITY COUNCIL'S WARM SESSION.

It Was Replete Throughout With Interesting and Entertaining Features.

A TIRADE ON POLICEMEN.

The Council Will Take a Jaunt Starting To-morrow Morning at 7 O'clock.

A meeting of the city council was held Monday evening with President Crust in the chair. The following aldermen were present: Messrs. Halladay, Gardner, Purdy, Erickson, Koop, Rowley, Fogelstrom, Doran and Wright.

The president stated that J. M. Elder had something to say of interest and that council would hear him before proceeding. Mr. Elder extended a hearty invitation to the members of the council to accompany him on a tour in the country on some date most convenient to themselves. He stated that the condition of the crops were never better and he desired the body to view Crow Wing county's prosperity. On motion Mr. Elder's invitation was accepted and Wednesday was the date agreed upon.

The council was invited by Mr. Elder, acting in the capacity of secretary of the Minnesota Park Region Land Company. President Ferris, of this company, will accompany the gentlemen on their trip with Secretary Elder.

Alderman Fogelstrom made a big kick on the reading of the minutes, which referred to Manager Walker's proposition to reduce the telephone rates. He wanted it understood that Mr. Walker never made the proposition, but Alderman Doran made the proposition and to him should be given the credit. He was rather loud in his exclamations and insisted on taking a vote on the proposition, but no vote was taken, as there was no motion made to that effect. Alderman Fogelstrom then proceeded to hold everything up, the first onslaught being against accepting the report of the city clerk.

City Clerk Low's report on finances for the month of July was finally accepted. The following is the report:

City Attorney Crowell, to whom was referred the matter of looking up the law with a view to ascertaining whether or not church property is subject to special improvement tax for the purpose of building sidewalks abutting said property, stated that as regarding special improvements which consists of building sidewalks, grading streets, paving streets, laying sewers, laying water mains, etc., there is no difference in the law covering the levying of said tax on church property than on individual property.

The only exemption of church property is in the constitution of the state, which provides that buildings occupied exclusively for religious purposes and all lands occupied by the same are subject to taxation the same as any other real estate in the county.

City Engineer Whiteley reported having received one bid for putting in crosswalks on Fourth street north by Z. LaBlanc for 90 cents per square yard. He also reported that he and Commissioner Paine made a survey and took a level of the height of the new bridge near the dam. The report was received and placed on file.

The committee to whom was referred the matter of paving Sixth street recommended that the request of the property holders abutting this street be granted. The committee also reported that the Mahlum bridge was in bad condition and needed repairing. The report was accepted and filed.

The committee to which was referred the matter of extending mains in the Third ward recommended that mains be extended on First avenue north from Rindred street 800 feet and that the hydrant located on the corner of Ferris and Gillis streets be moved to the corner of Kindred and Gillis streets. The report was received and placed on file.

Alderman Fogelstrom as chairman of the committee on health, sewers and police, addressed the council in a rather forcible manner and demanded that the action of two officers of the police force in abusing a man while taking him to jail be investigated. He went on at a great rate and dressed this class of officers up right, but mentioned no names. On motion of Alderman Halladay the committee on health, sewers and police was instructed to investigate the matter and report at the next meeting.

G. W. Norton's petition, asking that he be granted a permit to build a frame structure on block 39, was referred to the proper committee, but it was reconsidered and the permit granted, Mr. Norton agreeing to put up a brick veneer building.

The ordinance fixing the telephone rates in compliance with the contract made with Manager Walker, of the local exchange, was adopted.

An ordinance providing that all sidewalks constructed in the future on Fifth, Sixth and Seventh streets between Laurel and Front streets be constructed of artificial stone, concrete or glass was duly adopted.

City Engineer Whiteley, pursuant to an order of the city council directing the construction of a pavement on Sixth street south from the mill track and end of Cedar block pavement south to sidewalk line on the north side of Maple street, and thence south to the south line of Quince street, presented estimates of same. The total cost is estimated at $6,162. On motion, the city engineer was authorized to prepare plans and specifications for the work.

City Attorney Crowell brought up the matter of plumbers' licenses and bonds. It seems that many of the plumbers in the city have not taken out their licenses or filed their bonds, and under the provisions of the city charter they are not allowed to dig in the street or make any connections without complying with the same. It was moved and seconded that the city attorney be instructed to enforce the provisions of ordinance No. 112, covering this point.

The bond of F. Gruenhagen in the sum of $500 was accepted and a plumber's license was granted.

City Engineer Whiteley submitted the specifications for the paving of cross walks on Fourth street. The bid of Z. LaBlanc for 90 cents per square yard was read. Alderman Wright moved that the bid be accepted. Carried.

Alderman Halladay moved that the city attorney be instructed to draw up a resolution for the construction of water mains on First avenue in northeast Brainerd. Motion carried.

Alderman Wright moved that the bridge committee be instructed to inspect the Mahlum bridge as to repairs and report at the next meeting. Carried.

On motion the street committee was authorized to open up, Elm street.

On motion the matter of opening an alley in block 50 was referred to the city attorney.

On motion the street committee was authorized to put in a crosswalk at Oak and Tenth streets.

A communication was read from the Aitkin Telephone company asking for the privilege of putting up a telephone line along the N. P. right of way in this city. The writer stated that it was the intention of the telephone company to construct a line between Aitkin and this city. It seems that some of the promoters of the scheme in that town have been looking the ground over with the intention of constructing the line at once if the right of way between here and there can be secured. It is the intention of placing the exchange in this city at the City Hotel. On motion the matter was referred to the three first names on the street committee—Aldermen Gardner, Halladay and Rowley.

The council went into executive session for a short time to discuss some matters of importance.

On resuming business again Attorney Crowell read a communication from the Mississippi & Rum River Boom Company written by the president, Mr. Chute, in which he stated that he did not believe that the city utilized one-half the power it was paying for. He stated, however, that the company was willing to enter into a contract with any responsible party to furnish as much power as is required. He was ready to make a proposition. The city attorney was instructed to write Mr. Chute and get a proposition from him.

Council adjourned.

THE ELKS WON.

There was a Game of Ball Sunday Afternoon Between the Elks and the Brainerd Ball Team.

Elks, 3; Brainerd, 2.

Yesterday afternoon there was a dejected lot of looking faces standing around on the street corners after the train from Duluth had arrived and it was learned that the Duluth team was not on it. There seems to be a hitch somewhere and there seems to be a shifting of the responsibility. Manager Lagerquist states that he sent the transportation on Friday evening at 9 o'clock and he seems to think if the railroad attaches had done their duty there would have been no trouble. No word was sent by the Duluth team accounting for their failure to get here and no one seems to know, but it is more than likely that the matter of transportation was the cause.

Not to be outdone by such circumstances the fans got together and got a game up between the Elks and the local team. There was a very good attendance at the driving park considering everything and the game witnessed was not so poor after all. The Elks seemed to play a good game. Jim Boyle was in the box for the Elks and Tom Canan did the honors behind the bat; both did excellent work. For the other team James R. Boyle was in the box and the boys thought they had all kinds of fun with him. Art Witham was behind the bat for the local team and did good work.

The feature of the game was Mike Riley's hot stops which were effective in putting a large number of men out. J. J. Howe, jr. played a great game at first, Jim Murphy played like a major on second and Frank Murphy held the third bag down very satisfactorily although he did not get many chances to do busines. Dr. Thabes and Bert Finn each played positions in the field.

The indications are that the local Elks can play ball some and the St. Cloud boys will have to get in the game from the start next Friday.

Try to Wreck Train.

A bold attempt was made to wreck the second section of the N. P. excursion train on the return trip to Winnipeg from this city Thursday night at Bowesmont, and the attempt would have been successful had it not been for the fact that the engineer, Jack Downey, noticed the obstructions on the track and reversed the engine so that the speed was slackened materially before striking the railroad ties which had been placed across the track to wreck the train. It is estimated that the train was moving at the rate of 40 miles an hour when the ties were struck near the Bowesmont depot, and the train did not come to a standstill till the far end of the switch at that place was reached. Nothing left the track but the engine and no serious damage was done, the only result being a delay of 40 minutes while the engine was being jacked back on the rails.—Grand Forks Herald.

Is in Manila Yet.

Frank French is yet in Manila, although he was discharged from the army some time ago and then contemplated returning immediately to the United States. He is now employed in the quartermaster's department at Manila, and seems to like the country. In a letter to his mother he says:

"I don't know when I will be at home, as I have received a raise in salary, also a better position. I may next spring get transferred to the United States, and if I do I will have a fine job. If I can't get transferred I am going to stay and get a vacation and come home for a couple of months. I like it very much here. I am just beginning to get straightened around, but I still have the desire for home." You remember Geo. Whartnaby, in "A" company, 3rd regiment, he has just gone home. He is going to Brainerd to visit, and was over to see me just before he left. Give all my kindest regards."

To Save Her Child

From frightful disfigurement Mrs. Nannie Galliger, of La Grange, Ga., applied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in sores, bruises, skin eruptions, cuts, burns, scalds and piles. 25c. Cure guaranteed by McFadden Drug Co., and H. P. Dunn & Co. druggists.

CONVENTION TO BE IN BRAINERD.

Y. M. C. A. Secretaries of Northern Minnesota Will Meet Sep. 14 and 15.

GOOD FEATURES FOR EVENTS.

A Famous Railroad Evangelist will be Present And Speak at At the Meeting.

At the recent conference of Y. M. C. A. secretaries at Duluth, Secretary Wilhelm, of the local association, went up and made a strong play to get the next convention for Brainerd. He set forth the advantages of Brainerd as a central point and yesterday he was gratified to learn that it had been decided to hold the convention here. The conference was composed of secretaries of the association of Northern Minnesota.

There will be a large delegation at the convention and the settings will be very interesting. There will be a two days session, September 14 and 15.

One of the features of the gathering will be the presence of Jim Burwick, who has a national fame as a railroad evangelist. Paul Gilbert, one of the sweetest singers in the land, will also be present.

Secretary Wilhelm is making every effort to see that Brainerd entertains the gentlemen in a royal manner and with his usual push and energy he is making all the arrangements preparatory to the event.

Their Secret is Out.

All Sadieville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whiteaker, who had for a long time, endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's new Discovery," writes her husband. It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough. It positively cures coughs, colds, lagrippe, bronchetis, all throat and lung troubles. Guaranteed bottles 50c and $1.00. Trial bottles free at McFadden Drug Co., or of H. P. Dunn & Co's drug store.

The Standard Oil Company Blue Flame Gas Stove burns kerosene oil. The most celebrated gas stove on the market. Guaranteed odorless. A. L. Hoffman & Co. local agents.

STOP PAYING RENT.

A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.

Announcement Extraordinary.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.

This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing more than the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

FORMER BRAINERDITE FATALLY BURNED.

Mrs. Nathan Barber is Injured in a Fire in Minneapolis, and Death Ensues.

HOME DESTROYED BY FIRE.

Family is Well Known in Brainerd, Mr. Barber Having Lived Here for Years.

News has been received in this city of a fatal accident that befell Mrs. Nathan Barber at Minneapolis on Thursday at which time the lady received injuries in a fire that nearly totally destroyed their home from which she died within a few hours. Mr. and Mrs. Barber were well known in this city, the former having conducted a confectionery and fruit business and later operated a dray line. They removed to Minneapolis some years ago.

The Times says: The home of Nathan Barber, 19 Sidney place, Prospect Park, was almost totally destroyed by fire yesterday morning, and Mrs. Barber was so badly burned that she died at Asbury hospital at 4 o'clock in the afternoon.

But for the heroic work and presence of mind of her 16-year-old son, King, Mrs. Barber would have perished in the flames and her two children, aged 5 and 7 years, might have met a like fate.

About 3 o'clock Mrs. Barber was awakened by the flames that were eating their way through the walls of her bedroom. She leaped from her bed, only to meet the fire as it caught the bed clothing and was communicated to her own light apparel.

Her son, King, hearing his mother's screams, ran to her room, tore the clothing from her body, and, smothering the flames in a blanket, took his mother in his arms and carried her to the street. Rushing back he fought his way to the rooms where his little brother and sister were sleeping, and carried them out of the building.

By that time neighbors had arrived and they helped the boy to care for the injured woman, who was hurried to Asbury hospital. She hovered between life and death during the day, suffering intense pain, and died late in the afternoon.

Mr. Barber was until recently a motorman employed by the Twin City Rapid Transit company, but left for the harvest fields a few days ago. The insurance on the property which had just been purchased, was only about $500. The cause of the fire is unknown."

W. E. Barber, of this city, brother of Nate Barber, left last night for Minneapolis and he will probably bring the children of the family back to Brainerd.

BRAINERD MAN KILLED BY CARS.

No Word Has Been Received in This City That Would Identify the Man.

FATHER LIVES IN BRAINERD,

Was the Notation Found in Boy's Memorandum Book After Death.

According to the Minneapolis papers a young man 25 years of age, whose home is said to be in Brainerd, was killed by being hit by a train.

The papers go on to state that the coroner, after removing the body to the morgue, notified the chief of police of this city and sent description. Up to 3 o'clock this afternoon Chief of Police Nelson had heard nothing from Minneapolis and every one interested is wondering what is the matter with the officers down there.

The following is an account of the killing from the Minneapolis Journal:

An unidentified man, whose home appeared to be at Brainerd, Minn., was struck by a Northern Pacific train on a crossing bridge at St. Anthony Park, about 8:30 this morning and knocked onto the Great Northern tracks, some forty feet below. He was picked up and brought on an Omaha train to Minneapolis. Death came as the unfortunate man was being carried from the train sheds into the union station. His body was taken to the morgue.

The dead man was horribly mangled and almost every bone in his body was broken. There was nothing about his clothes by which his name or address could be learned, save a note in a memorandum book, which read: "My father lives at Brainerd." There was no name in the book.

He was apparently not over 25 years of age. His clothes were those of a laboring man, and in a paper he carried several pieces of soiled linen.

Coroner Williams, acting upon the only clue to be found, has telegraphed a description of the dead man to the chief of police of Brainerd.

There are many in the city who have been around making inquiries, but they had to be turned away. Chief Nelson will wire to the officers in the Twin Cities this afternoon.

THE HOME GOLD CURE.

An Ingenious Treatment by Which Drunkards Are Being Cured Daily In Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a disease and no weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate cases, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

Wives Cure Your Husbands!! Children Cure Your Fathers!! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skilfully devised and prepared that it is thoroughly soluble and perfectly tasteless, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. Do Not Wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on One Dollar. Address. Dept.... Edwin B. Giles & Company. 2230 and 2232 Market Street, Philadelphia.

It would centralize business at the county seat and would furnish an outlet for a vast amount of business in other parts of the county.

Hamline vs. Buffalo.

Minnesota is not exactly trying to rival Buffalo this year, but the managers of the state fair say that if there are any people in the west who do not go to the Pan-American Exposition they will be sure to be at Hamline in the week of September 2d; while those who do go to Buffalo will certainly wish to see what the northwest can do in the way of an annual fair pure and simple. Then there will be visitors from a distance whose inspection of the great Minnesota exhibit at Buffalo will lead them to wish to see more of the northwest.

Dealers Don't Like Raise.

Several Eastern lumber buyers are in the city this week and these predict a good fall trade in lumber in the East. A slightly increased demand along some lines is already said to be noted. The shippers are not taking kindly to the 50-cent raise in lumber rates which the Lumber Carriers' association says will go into effect Sept. 1. The shippers declare that conditions do not warrant it. It is pretty well known, however, that the local lumber docks, as well as those at the other Lake Superior ports, are still crowded with lumber that has been sold, some of it several months ago, that must be moved before the end of the navigation season, and in this the vessel owner see an opportunity for advanced rates. So well have they had the situation in hand that there has been but a short period this season that the boats have been out in for lumber cargoes, fast enough to keep the product out of the new cut. Another ten days, it is claimed, will see the shutting down of night run at two or three more of the sawmills. One, the Merrill & Ring, closed down because of lack of dock room about a week ago.—Duluth Herald.

TELEPHONE EXTENSION.

Rumored That the Northern Will Build Lines North and East of Brainerd Very Soon.

Since the communication was read at the meeting of the city council on Monday evening from Manager Mork, of the Aitkin Telephone Company, asking that he be given the privilege of erecting telephone poles in this city along the Northern Pacific right of way, as he intended to put in a line between this city and Aitkin, it has been learned that this is not the first time the matter has been talked in the city. Some time ago Manager Mork made a proposition to Manager Walker, of the Brainerd Telephone company to connect with his line in this city.

The Aitkin company, has a line from Cloquet as far down as Deerwood, but they have never been able to get further. Manager Walker, of course, was not able to entertain for a minute the proposition originally made by Mr. Mork, for he is under contract with the Northwestern Telephone Co. and cannot connect with any other line.

In connection with this matter it might be stated that the Northwestern people have already been in the field and are contemplating seriously of building their lines all through the northern country, extending from Brainerd to Duluth, and also along the Minnesota & International. An attorney for the company visited the city some time ago and looked the ground over, and it is not among the improbabilities that the company will commence work on the proposed lines in a short time. It will be a great convenience to merchants and others of Brainerd, as there is now no communication to the north country by telephone.

Some Interesting Data Regarding Northern Minnesota and Its Future.

THE M. & I. CUTS A BIG FIGURE.

Built in a Substantial Manner. One of the Best Lines in the Country.

Theodore M. Knappen, of the Minneapolis Journal staff is spending sometime in the northern part of the state and he is writing a series of articles for that publication on Northern Minnesota. In the first article he says:

The extension of the Minnesota & International railway—or Brainerd & Northern, as it has heretofore been known,—toward the Canadian boundary, together with the influx of settlers into regions farther south, long accessible, but neglected until the last two or three years, is opening up a vast new country in Minnesota. A few years ago it was generally believed, and many Minnesota people still think, that that portion of the state north of the Northern Pacific railroad and east of the Red river prairies, is good for nothing except its timber, its iron and its stone and game. It was thought that the soil was worthless and could never be tilled to any great extent.

The Minnesota & International is being built in a substantial manner. It will reach the boundary with a maximum grade of 0.3 per cent which all railroad men will recognize as unusual. This low maximum was obtained at the expense of some heavy work just north of Bemidji but Thomas Croswell, the engineer, justly regards the end as justifying the means. For some years to come the principal freight traffic of this road will be the hauling of logs to Brainerd there to be dumped into the Mississippi or forwarded to Minneapolis by the Northern Pacific. A small gradient means more cars to the logging train and more income to the company.

It is estimated that in a twelve mile strip along the first fifty miles of the road there are 1,000,000,000 feet of pine which are destined to be hauled out by rail. The maximum number of logging cars to a train is forty-five and each car should carry 6,000 feet of logs, making 270,000 feet to a train; the weight of the load being over 500 tons. At this rate it will take nearly 4,000 trains to move the billion feet of pine above referred to; and that means a lively business for the road and points along it for at least five years to come.

In passing it is worthy to note that the scarcity of labor has almost paralyzed operations on the Minnesota & International. Where there should be at least 500 men at work there were only 75 the first of the week. As the weather is now more favorable to work than it has been at any previous time in a very wet season (for this part of the state knows nothing about drought), the determination of the laborer to make off for the harvest fields is doubly distressing to contractors and engineers. But already the men are drifting back and it is hoped that there will soon be full crews.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Ville Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a sufferer chained with painful sore throat and asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-sized bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Congregation Beth Israel
New York, Jan. 8, 1901.

DR. TAFT BROS.' MEDICINE CO.,

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever and its composition alleviates all terrible which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

Very Truly Yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., Feb. 1, 1901.

DR. TAFT BROS., MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill on many others, I chanced to see your sign upon your window on 130th street, New York, I at once purchased a bottle of Asthmalene. My wife commenced taking it about the first of November. They soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can conscientiously recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully,
O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. Feb. 5, 1901.

Gentlemen: I was troubled with Asthma for 25 years. I have tried numerous medicines, but they have all failed. I saw across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am very grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

TO SETTLE THE STRIKE

PRESIDENT SHAFFER SAYS HE HAS PLANS FOR ENDING THE STRUGGLE.

WILL NOT ARBITRATE IT

Such a Crisis to Be Brought About as Will Force an Agreement—Does Not Tell How It Will Be Accomplished. Neither Side Aggressive at Present. Sensational Rumors Are Circulated and Denied.

Pittsburg, Aug. 22.—President Theodore J. Shaffer of the Amalgamated Association said that he had well defined plans to bring the great strike to a close. This is to be done by bringing about such a crisis in the differences between the steel corporation and the Amalgamated Association as will force a settlement. Just how all this is to be accomplished is a mystery, but it will not be by arbitration or litigation. In answer to questions about the numerous stories going the rounds of mediation or arbitration, Mr. Shaffer dismissed all by saying:

"We have not heard from the other side; we have not placed anything before them, and I know of nobody acting for either side or any side."

The steel strike underwent no change during the day. There was no extension of the strike and the steel managers did not attempt to start any more mills. The fires were lighted in the Demmler Tin Plate works at McKeesport, but the machinery was not started and no attempt was made to operate it. It is believed, however, that the move is preliminary to a start with non-union men. The managers of the company have been preparing for several days to reopen a number of their properties and it is thought that they have decided to act at once.

A Day of Exciting Rumors.

On the streets it was a day of exciting rumors, beginning with a circumstantial story of a plot to destroy the Monongahela Tin Plate plant and ending with a tale of the removal of the largest plants of the United States Steel corporation to England. Between the two rumor again settled the strike in several ways. However, official denial was given to all these interesting stories.

John Sternsdroff, a rougher from Richmond, Va., who claimed that he was a member of the party of strike breakers brought to Monessen on Sunday, was at strike headquarters. He said that the facts had been entirely misrepresented to him and that he had slipped out of the works the first time a chance presented itself. He placed the number of men now in the mill at 18 and said very little work was being accomplished.

Assistant Secretary Tighe of the Amalgamated Association said that he was still of the opinion that most of the men in the South Chicago mills would be out before the end of the week. President Shaffer said that the strike would be won by the strikers. He believed that when he started the strike and he still believed it.

CRIPPLES THE FACTORIES.

Effects of the Amalgamated Strike Being Felt Already.

La Crosse, Wis., Aug. 22.—Albert Hirshheimer, who just returned from a national conference of plow manufacturers in Chicago, says the steel strike has already crippled factories all over the country and if it continues three months there will not be one in operation because of the impossibility of getting finished steel. His own supply is shut off by the closing of the Bay View mills at Milwaukee. He says the conference views the situation with great alarm.

SAY THE MEN WILL GO BACK.

Striking Steel Workers Hold a Meeting at Joliet, Ills.

Joliet, Ills., Aug. 22.—The striking steel workers held another joint conference during the afternoon. They were addressed by Vice President Davis of Chicago. Nothing official could be learned of the proceedings, but a persistent rumor says the men are preparing to go back to work. It is said if notice is posted calling them back the men will obey and such a notice is looked for by Sunday. The rod mill men may hold out, but the others will go back.

IMPALED ON SPIKES.

Singular Accident to a Canal Employe at the "Soo."

Sault Ste. Marie, Mich., Aug. 22.—Fred Curtin, an employe on the water power canal, met with a singular accident that may prove fatal. In jumping from an elevator to the ground he slipped on a plank heavily studded with spikes, which penetrated and entered the soles of both feet, imbedding them. It required the strength of several men to release him.

Cyclone Destroys Anadarko.

El Reno, O. T., Aug. 22.—A heavy wind and rain storm swept through Anadarko about 8 p. m. All the larger buildings in process of construction were blown down and a large number of tents and smaller houses. Two persons were killed and many injured.

DAME RUMOR.

Appeals to District Court.

Under a law passed by the legislature last winter, appeals to the district court from municipal and justice courts were provided for, and at the special term of district court Saturday Judge Ensign announced that the judges had set apart the last Saturday in each month for hearing such appeals. They will take precedence over all other special term business, as they are to be heard by the full bench of three judges. Later the court will make a set of rules governing the trials of such cases. An exception is made of the month of July, when no appeals will be heard, as the last Saturday falls during the usual summer recess of the court, when no special terms are held for four weeks.—Duluth Herald.

Prof. Bailey, of St. Louis, is stopping at the Archibald. He, with Mrs. Jefferson and her son John, drove down to the picnic grounds Wednesday.

Thursday evening Sheriff Erickson and Mr. Newell of Brainerd, drove up to our domicile for a night's lodging. They were up in the morning for a little fishing on Bay lake before breakfast. Ole landed a fine string of bass, while Newell came back minus the hook we lent him, and squared the account, by telling us about the big fish that broke it.

Wednesday was an ideal day for the Sunday school picnic at Lookout Point and at 11:30 a. m., as the steamer turned into the bay with its precious load of human freight, their happy voices reminded us that wonderful change had been wrought in a few short years, for we mind the time when we spent whole weeks here, and did not hear the sound of a human voice. The children were soon ashore and enjoying themselves at the swing and in other ways for a while. A large tarpaulin was spread to serve as a table, around which some 70 gathered. After singing "Praise God from whom all blessings flow," they did ample justice to the liberal spread. After dinner, prayer was offered. The children gave a few selections, and Rev. Parish talked to them about the different kinds of Bs, be good, be patient, etc. A ride around the bay was given the people from Esdon and others who did not come on the boat. A snap shot was taken of the group. The children were returned in safety to their homes, and older ones as well as they felt that the day was well spent.

CROW WING'S POPULATION.

She Has 2,069 Native White Voters—An Interesting Feature of Latest Census Bulletin.

An interesting feature of the latest census bulletin on Minnesota is the table showing the distribution of the state's new citizens. Among males of voting age, the foreign born exceed the native born, having 51.4 per cent of the total. Says the Minneapolis Journal. Only 20.6 per cent are native born of native parents, while 27.1 are native born, but with one or both parents foreign born. The remainder, .9 of 1 per cent, are colored and with the exception of a few Chinese and Japanese, are native born negroes and Indians.

An analysis by congressional districts shows the foreign born exceed the native born in three districts, the seventh, eighth and ninth, leaving out a large number of "unknown," probably for the most part foreign born.

A prepared table shows the number of males over 21 in each county and congressional district, divided into: Native whites, native colored, foreign born naturalized, foreign born who have taken out first papers and "unknown." Comparison with the map will show that the foreign born population predominates in the new counties of the north and west. The eighth district, which includes the iron range, has a very large proportion of aliens.

Crow Wing county has 2,069 native whites, 7 native colored, 1,285 naturalized, 324 first papers, 160 aliens and 209 unknown.

ASK YOUR NEIGHBOR.

Hundreds of Brainerd Citizens Can Tell You All About It.

Home endorsement, the public expression of Brainerd people should be evidence beyond dispute for every Brainerd reader. Surely the experience of friends and neighbors, cheerfully given by them will carry more weight than the utterances of strangers residing in far-away places. Read the following:

Mr. James Parker, who lives at 24, Second Ave., East Brainerd, carpenter, says: "Every winter since I had grippe I have been unable to shake off its effects. My back commenced to pain me across the kidneys with a numb sort of aching which I felt always over the same spot, even lying in bed. I was also troubled with headache which I think arose from my kidneys. I got a box of Doan's Kidney Pills at a drug store and took them. Since using them I have been much better in general health. Have no more attacks of headache, no more backache and I regard it as quite wonderful that anything in the shape of a pill could bring about such a change."

Mortgage Foreclosure Sale.

Notice is hereby given, that default has been made in the conditions of that certain mortgage duly executed and delivered by Lewis Lagerquist, (widower), Mortgagor, to Erick Hagling, Mortgagee, dated the twenty-first day of May, nineteen hundred and one, (1901), and recorded in the office of the Register of Deeds, in and for the County of Crow Wing, State of Minnesota, on the 7th day of May, 1901, at ten o'clock a. m., in Book O, of Mortgages, on page 426, which default has continued to the date of this notice, by the failure and neglect of said Mortgagor to make payment of the promissory note by said mortgage secured, which by its terms became due and payable on the 7th day of November 1900, and which default has continued for more than sixty days.

And Whereas the said mortgagee and holder of said mortgage has elected and hereby does elect to declare the whole principal sum of said mortgage and the interest thereon, at the time, under the terms and conditions of said mortgage, and the power of sale therein contained, and whereas there is actually due and claimed to be due and payable at the date of this notice the sum of forty-six dollars, with interest thereon at the rate of ten per cent per annum, from the 7th day of May, 1901, and whereas the power of sale has become operative, and no action or proceeding, at law or otherwise, has been instituted to recover the debt secured by said mortgage or any part thereof:

Now therefore notice is hereby given that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the premises shall be sold at public vendue, to the highest bidder, for cash, in and convey by said mortgage, to-wit: The nine numbered seven (7) and eight (8) of block six (6) in the Second Addition to the Town of Brainerd, now a part of the City of Brainerd, according to the plat of said Second Addition on file and of record in the office of the Register of Deeds within and for said county and state in Crow Wing County and State of Minnesota, with the hereditaments and appurtenances, which sale will be made by the Sheriff of said Crow Wing County, at the front door of the court house in the City of Brainerd, in said county and state, on the 28th day of October, 1901, at ten o'clock in the forenoon of that day, to satisfy the said amount bidden for cash, to satisfy said debt of forty-six dollars, and interest, and the taxes, if any, on said premises, and fifteen dollars attorney's fees, as stipulated in and by said mortgage, in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated Aug. 22, 1901. ERICK HAGLING, Mortgagee.

W. A. FLEMING,
Attorney for Mortgagee.

IMPROVEMENTS ARE STILL LOOMING UP.

Fred Gruenhagen will Build a Modern Brick Block on Seventh Street.

LOCATION SELECTED TO-DAY.

Alderman A. Purdy is Making Some Improvements on Livery Stable.

Saturday last a deal was closed which will mean more improvement in the building line in this city. Fred Gruenhagen, the Laurel street plumber, purchased of S. & J. W. Koop two lots adjoining their big building to the north on Seventh street.

This means that Mr. Gruenhagen will build a fine modern block on the fifty foot lot and it will be a decided improvement to that part of the city. The price paid for the lots was $3,000.

Mr. Gruengagen stated this morning that he would probably decide to build this fall and if he did the work would commence at once. He has about decided upon the general plan of the new structure. It will have a fifty foot frontage and will extend to the alley, 100 feet, with full basement. The new building will be solid brick and will be built to conveniently accommodate the owner in the line of business he is in.

The plans for the same will be prepared at once and there is a probability that the work will commence on the excavation within ten days.

Alderman A. Purdy has let the contract for the erection of an addition to his livery stable on Laurel street, and the work was started this morning. He bought the vacant lot between his place and the Gardner block recently and he will build an addition to his building 41 feet in width by a twenty-five foot frontage and seventy-five feet long.

He will make a store room out of the front of the building and will use the back end for storing buggies, etc. The improvement will cost several thousand dollars.

What a Tale It Tells.

They Fought a Duel.

There was a fracas at the rear end of one of the leading hostelries Sunday afternoon in which two female attaches indulged in a round or two that for fistic maneuvers and hair pulling episodes put anything that has been tried in this line in Brainerd this season way in the clear. It didn't take long, it is understood, for the duchess of the pantry force to knock out her opponent, the girl who deals plates of roast beef, roast pork, potatoes, cabbage, etc., off her arm. There was a rush, together, a clinch, a little scratching, a few bunches of hair pulled out, a break away and then the duchess made a pass and landed squarely on her opponents jaw and the stuff was off. The comical part of the seance was to see the very rapid exits of four or five prominent business and professional men who were in a room near by. When the cries of "murder," "police," etc., were heard every one of them took to their heels, some ducking through the alley and in two seconds there was no more sign of men around there than of a jackrabbit.

A. R. Ross, of Morgantown, Ind., had to get up ten or twelve times in the night and had severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. It's guaranteed. H. P. Dunn & Co. and McFadden Drug Co.

Cement Sidewalks.

Sealed proposals will be received for the construction of a cement sidewalk along the west side of the court house lot up to 2 o'clock p. m., Aug. 21. LIVE STOCK AT THE FAIR.

The Exhibition Will be the Greatest Ever Seen in the Wide World.

In 1900 the Minnesota State Fair secured the national exhibit of the American Hereford Breeders' Association, and with the other animals shown set forth the largest live stock display ever made. In Chicago, last fall, the Minnesota exhibit was eclipsed but the Minnesota men have now secured a joint exhibition by the American Short-Horn Breeders' Association and the Hereford people, with large accessions from many other classes of breeders. The result will be such a gathering together of four footed beasts as was never seen on the face of the earth. It will be a great occasion for farmers who wish to study breeds and for every one who likes to see a fine animal or who may be interested in bettering the condition of the farming districts.

Claims Damages.

Attorney E. W. Crane has been engaged in a suit for the plaintiff, the details of such action being sensational in the extreme and involving some prominent people not far from here in Morrison county.

Frank Micholiski has brought suit against Robert Roche, a prominent farmer of Morrison county, charging him with seducing his wife. The occurance happened a long time ago but of late the complainant has further evidence and has started the suit.

It is claimed that in the month of February, 1899, that the defendant in this suit engaged Nicholski's wife to come to his home on the farm to keep house while his own wife was away. One day while the children were away to school, it is claimed that the defendant forcibly seduced the woman. The case was brought up before the grand jury of Morrison county once before, but it was thrown out, it being claimed that there was a means of escape for the woman.

Micholski brings an action now to recover $2,500. The papers were served on Roche Saturday afternoon.

Wm. Fithn, of Lima, O., obtained excellent result from the use of Foley's Kidney cure. "It relieved my backache and severe pain over the hips. It toned my system and gave me new vim and energy. It is an honest and reliable remedy, a sure cure for all kidney diseases." H. P. Dunn & Co. and McFadden Drug Co.

Shooting At Moorhead.

J. G. Bess shot A. R. McMillan in the left breast at the Exchange hotel Saturday afternoon in Moorhead. The bullet glanced and the wound is not serious, yet a slight deviation in its course would have produced death.

McMillan was coming out from dinner when Bess presented a board bill. The authority of Bess to collect was questioned by McMillan, who said he would pay Mrs. Bell, proprietress of the hotel. A dispute followed and the men came to blows, Bess getting the worst of it.

After he had called "enough" he ran behind the hotel desk, secured a revolver and shot McMillan. Bess was arrested by Chief of Police Murphy and will have a preliminary hearing this afternoon. McMillan is a contracting plumber and never has been quarrelsome.

If the action of your bowels is not easy and regular serious complications must be the final result. DeWitt's Little Early Risers will remove this danger. Safe, pleasant and effective. H. P. Dunn & Co.

TRAGIC DEATH AT DEERWOOD.

Mrs. Willard B. Cross, of Duluth, a Victim of a Fatal Accident.

ONE OF JOLLY OUTING PARTY.

Falls Head First With Force to the Ground and Dies Afterwards.

Mrs. Willard B. Cross, of Duluth, met a tragic death at Deerwood Sunday morning. She, with a jolly outing party, had come to Deerwood and were guests at the beautiful summer place of Mr. and Mrs. F. A. Patrick. Saturday night the party proposed that they take an old fashioned hayrack ride and arrangements were made to leave the Patrick home at 10 o'clock. All looked forward to the ride with a great deal of interest and keen pleasure.

At the appointed hour the wagon was brought around and a chair was taken out so the ladies could climb into the wagon. All had seated themselves and Mrs. Cross was the last. She lightly stepped up on the chair and from that onto a small ladder which was up against the hayrack. She lost her balance in some manner and fell to the ground several feet below, striking on the back of her head with great force.

She was at once removed back to the Patrick house and while it was thought the fall jarred her considerable it was not thought to be serious. Alarming symptoms developing, however, a physician was called. Upon examination it was found that a blood vessel had been ruptured at the base of the brain and there was no hope of saving the woman's life. She died about 5 o'clock last evening. The remains of the woman were taken to Duluth this morning.

Mrs. Cross was formerly the wife of J. M. Derby, a well known land attorney of the firm of Derby & Thayer. Mr. Derby died about twelve years ago. Five years ago she became the wife of Willard B. Cross, secretary of the F. A. Patrick company. She was president of the Ladies' Guild of St. Paul's Episcopal church, Duluth, and one of the most earnest workers.

Mrs. S. H. Allport, Johnstown, Pa., says: "Our little girl almost strangled to death with croup. The doctors said she couldn't live but she was instantly relieved by One Minute Cough Cure. H. P. Dunn & Co.

BICYCLE THIEVES AT WORK.

Two Wheels were Stolen Monday Along Front Street and Chief Nelson Gives Warning.

There seems to be a horde of bicycle thieves at work in the city and it behooves the owners of wheels to be on their guard. Chief Nelson has sounded the warning note and those who leave their wheels out in front of buildings cannot blame the officials if they are taken.

The wheels belonging to A. M. Opsahl and A. Peterson were taken Monday, but the Opsahl wheel was located after some searching by Chief Nelson. It had been removed and it is thought the party who moved it intended later to ride it off.

ORDER A SURPRISE.

The Duluth Members of the National Guard Are Very Much Elated Over The Proposed Buffalo Trip.

The following from the Duluth Herald gives some idea of the feeling among the boys in regard to the proposed trip to Buffalo.

Duluth members of the Third regiment had just about given up making the trip as a regimental organization, when the order came from Col. C. A. Van Duzee, calling on company commanders to fit their men out with khaki uniforms preparatory to the ocular attack on the Buffalo attractions.

The order was something of a surprise. The trip to Buffalo has been thought of, talked of and even dreamed of by the soldiers for several months, but recently it was feared that the plan had dropped through. Col. Van Duzee notified the various commanding officers that it has not, and says that they must prepare their men for the trip.

The entire trip, including a 10-day stay in Buffalo, will only cost each man $20, unless there is a disposition to spend more. However, each company must average forty men.

It was thought that owing to the fact that most of the men in the Third regiment took their vacation in making the march from Milaca to Brainerd in June, few could get off, but it is said that the two Duluth companies will have very little trouble in mustering forty men each for the trip.

In Buffalo the regiment will go into camp, and all the camp equipment will be furnished by the state.

Astounded the Editor.

Editor S. A. Brown, of Bentonville, S. C. was once immensely surprised. "Through long suffering from dyspepsia," he writes "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and, after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For indigestion, loss of appetite, stomach and liver troubles it's a positive, guaranteed cure. Twelve Amalgamated Men Create a Sensation at South Chicago.

Chicago, Aug. 20.—A decided sensation was created among the steel workers in the Illinois Steel mills at South Chicago when 12 of the amalgamated men quit work and decided to join the general strike of the steel workers. These men heretofore have steadfastly refused to obey President Shaffer's order to strike. As soon as Vice President Davis of the Fourth district was informed of the step these men had taken he wired President Shaffer that if he would come to Chicago at once and call a joint meeting of the two local lodges the remainder of the 500 Amalgamated men employed in the South Chicago mills could be induced to strike.

EATEN BY WILD ANIMALS.

Probable Fate of a Two-Year-Old Michigan Child.

Sault Ste. Marie, Mich., Aug. 20.—Nothing has yet been learned of the fate of 2-year-old Willie Kimball of Brimley, who accompanied his parents on a berry picking trip to Wellsburg last Friday. The baby was left alongside a berry case while the parents gathered berries 100 feet away. Soon after the child was missed and about 200 pickers searched fruitlessly all day. A bear and wolf had been seen by different pickers during the week. The child was undoubtedly carried off by a wild animal.

THE BIG EVENT

An Army of Men Selling Tickets in the City for the Great Company F. Excursion.

Capt. Adair is meeting with flattering success in connection with the big excursion to be run to Bemidji on Sunday, the proceeds to help pay for the trip of Company F. to the Pan-American exposition at Buffalo. Some six hundred tickets are already out and the liklihood is that it will be one of the biggest excursions ever leaving this city. The 1000 mark will probably be reached by tomorrow night and the committee in charge urge that if any who intend going want to be sure of being accomodated they had better procure tickets at once.

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, and gases, inhalers and drugs in paste form. Their powders dry up the mucous membrane causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a Treatment which when faithfully used not only relieves at once but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the remedy known to science that actually reaches the afflicted parts. This wondering remedy is known as "Snuffles the Guaranteed Catarrh Cure" and is sold at the extreemly low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfected use.

"Snuffles" is the only perfect Catarrh Cure ever made and is now recognized as the only safe and positive cure for the annoying and disgusting disease. It cures all inflamation quickly and permantly and is also wonderfully quick to relieve Hay Fever or Cold in the Head.

Catarrh when neglected often leads to Consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the Guaranteed Catarrh Cure.

The new schedule regulating the wages of railway conductors, brakemen and switchmen on the Northern Pacific which went into effect August 1, has been received in printed form by the employes. There is not much difference discernable from the old schedule. The switch crews receive two cents per hour more for night work, and the crews on way freight trains receive two cents more per hour for overtime. There is a rumor that the runs that paid the conductors a monthly salary of $125 are now scheduled to pay but $112.50, and some of the boys are wondering what good the grievance committee did in the three months they spent in St. Paul.—Crookston Journal.

FATHER'S FIENDISH DEEDS EXPOSED.

John Westlund Claimed to Have Caused Ruin of His Young Daughter.

HE THREATENED TO SHOOT

His Relatives For Interfering and Taking the Little Girl Away

John Westlund, who was arrested Monday afternoon on complaint of some of his relatives, he having threatened to do some shooting, had a very serious charge preferred against him this morning by his sister-in-law, Mrs. Sofia Anderson, and he was cited to appear before his honor, Judge Mantor, this afternoon at a late hour.

Westlund is charged with indecent assault and the object of his fiendish onslaught is his own little daughter Lena, aged 11 years. Mrs. Westlund died last May and since that time the little girl has been almost constantly in the custody of her father. The relations between the father and the daughter have been continued for sometime it is thought, and the little girl withstood everything until about Aug. 14 when she confided everything to her aunt, Mrs. Anderson and they at once commenced an investigation. The expressions made by the little girl were found only to be too true and two prominent physicians were called in and an examination made.

Westlund will probably spend a term at Stillwater as a result of the fiendish deed. He was arraigned this afternoon and plead not guilty. He will probably have a hearing tomorrow afternoon.

To one of the officers Westlund stated that if he could find some means he would kill himself. He says the charges against him are all false and that he never thought of such a thing. There is overwhelming evidence to the contrary, however, and it is claimed it will be an easy matter to convict the man on the charge as made.

Westlund was arrested Monday afternoon by Chief of Police Nelson and was later turned over to the county authorities. The story of the little girl is told in a straightforward manner and it was she who first gave the information to her relatives regarding the illicit relations her father had forced upon her. She told the appalling story in the presence of her uncle and aunt, Mr. and Mrs. Erick Anderson, and this aroused Westlund's wrath to its highest pitch and he made all kinds of threats.

It is understood that the little girl was taken away from her father by her uncle and aunt and this kindled anew the wrath in the bosom of the man. He is claimed to have come down town Saturday morning and purchased a gun, for the avowed purpose of killing Erick Anderson. He is said to have gone out to practice and made several threats.

Westlund's wife died some years ago and since that time the little girl has been his almost contant companion. He was always thought to be a respectable citizen and is religiously inclined. After he was locked up in the city jail one of the first things he did was to take his bible and read therefrom several passages. The man is certainly off color some and has very little to say regarding the matter.

John Westlund later Monday afternoon waived examination on the charge of indecent assault on his 11-year old daughter Lena, and was held to the grand jury.

This, under the statutes is a felony and he could do nothing else under the circumstances. In the court yesterday afternoon he said that he was willing to go to jail and acted like a man who was willing to throw up his hands and take the consequences. He is, without doubt, slated for a term at Stillwater.

Contrary to all outside appearances Westlund is not a religious man. A prominent citizen of southeast Brainerd said last evening that he has been nothing but a drunkard for years, and he thought the Bible act in the jail was all a guise.

COMBINED BUSINESS WITH PLEASURE.

Discussion of Better Roads Was Primary Object of The Trip Wendesday

WANT BETTER ROADS TO CITY

Something About The Land Embraced in This Part of The County

While the city council enjoyed the hospitality of President Ferris and Secretary Elder, of the Minnesota Park Region Land Co., Wednesday morning on the jaunt in the country the trip was not entirely for pleasure.

The gentlemen are interested in the growth of the City of Brainerd as well as Crow Wing county and a move, they think, in the right direction is to get better roads leading to the city. Primarily this was the object of the trip yesterday morning.

Secretary J. M. Elder addressed the gentlemen on the subject and the following is a resume of what he said.

"Your time is limited, and it is not my purpose, to worry you with any preliminary talk.

"It is generally conceded, at this date and age, that when a man puts in his time or his money, that he has an object in view, and in planning this little excursion for you, we are ready to admit, that it has its object. As members of the city council of Brainerd we feel that it would in no wise embarass you in the discharge of your official duties, to have a general idea of the country, and its resources surounding your city.

"You will first permit me to assure you, that neither my company, nor myself, are any more interested in what you do or do not do, than any other business man, merchant or tax payer, of your city; but we feel, that we have an interest that is equal to theirs, and in the course of our business, we are disposed to give a portion of our time and money, to the up-building and future welfare of our city and its country. From an inspection of the map, you will observe that particular section of country, to which we call your attention, at this time, and which depends upon our city entirely for its merchandise, and upon which our merchants are learning largely to rely for their products.

"This section of country embraces in round figures about 300,000 acres of land, divided up into 160 acre tracts it would give homes to 1800 families. Your observation this morning, will give you some idea of what these 1800 families would have to rely upon for a maintenance.

"You will gather some idea of the quality of the land, its products, its accessability to market, etc. It is to this latter proposition, which I would invite your particular consideration. From your observation this morning, do you consider the products of this soil, and the welfare of its people, worthy of consideration, by the tax payers of your city? If so, is it not time that we were doing something to let these people know, that we are aware of their existence, that we want their products, that we want to sell them our merchandise, that we want them to attend our churches that we want to recognize them as neighbors and fellow citizens?

"Now gentlemen, in order for these people to get into your city, they must traverse the same streets and roads that we have passed over this morning. Have you observed, that the most damnable piece of road that we have been over today, was within the city limits of our city? Now there is no other way, there is no other route, which these people can take to come into you city, without plowing through this same sand.

"You have observed the condition of the roads in the country, they need work, and need it bad; but you can call the attention of any farmer to their condition, and he will tell you at once, that these roads are all right that they have no trouble in getting over the roads in the country with any load that they can get into the city with, after they reach the city limits. By interviewing the merchants of your city, you will find, that nearly all of the people of the northern portion of Morrison county come to Brainerd with their products. Why? Because they have a better market, than they have at Little Falls.

"In conversation with several farmers of Morrison county a short time ago they told me that in loading their teams, that they did so with a view of what they could haul after they reached the city limits. Any farmer within the territory, which I have marked off on the map, will tell you the same thing. I think, that you will admit, gentlemen, that it would be impossible to get the roads in the country worked so long as those within the city limits remain in their present condition."

"Now, I have no doubt, that you are ready to ask the question, what can be done, what can we do to improve the roads within the city limits? Gentlemen, that question I have not considered, you know your facilities, you know your resources; but there is one thing that has occurred to me, and that is, what you do, do with some idea as to its permanency. It strikes me that the first thing to do, is to lay out some one road leading into your city, from each particular locality, lay these roads out where they will do the most good to the greatest number of people, lay them out as they should be, where they will remain for all time to come.

"If you are a tax payer, and want to feel mean, and want to feel like inviting every hobo in the country to come in and participate in giving you a good kicking, go down to our friend, Mr. Purdy here, and hire a team, drive around your city, then go to your city clerk's office, look over the street pay roll for the last ten years, and if you don't feel mean enough, I do not know where you can import the mean feeling from.

"The same condition exists with reference to the roads in the country, go to your county auditor's office, foot up the items that have been paid out through the road and bridge fund, then go through the country, and find the roads on which this money has been expended. Gentlemen, I tell you, that a renewal of these matters by any one who has an occasion to travel over the roads either in the city or country is not pleasant by any means.

"I have in mind at this time one particular piece of road which is not much longer than a coon skin with the tail thrown in,' on which the county has spent several hundred dollars, if it rains for a few hours, a cat can't cross it without snow shoes. Gentlemen, there has been too much of this work done; let us get to work and spend our time and money where it should be done, and in a way that it should be done."

While J. M. Carlson was fishing in the Red river, he found the body of a colored man floating on the surface. He towed it to the shore and notified the police, and the body was taken to Norman's undertaking establishment, where it was searched for some means of identification. Nothing was found that would give any clue, but something was found that established the fact that the negro was one of two who did a hold-up act the evening following Winnipeg day. Mr. Gould, of Rat Portage, formerly an engineer on the Northern Pacific, was preparing to take the last section of the Winnipeg train home, and was standing alone at one end of the platform watching the crowd, when he was approached by two colored men. One of them grabbed him by the throat, while the second went through his pockets. They took his purse, containing $7, and some change that was in his vest pocket, together with a $75 gold watch and some papers. On the colored man whose body was taken from the river was found Gould's purse containing the $7, his knife and some of the papers.—Grand Forks Herald.
