

Brainerd Dispatch.

Reached every Friday morning at 9:30 a.m. and leaves for Chicago at 6:00 p.m. ADVANCE.

W. H. Ingersoll, Editor and Proprietor. N. W. Wislizenus, Business Manager. OFFICIAL PAPER OF BRONX, N. Y.

Owned and Published by W. H. Ingersoll. Entered as Second-Class Matter, March 10, 1879.

Occur while the sunflower fame, has recently become a father. Up at Vernale the authorities had put a stop to Sunday baseball playing.

Collector Cameron of Little Falls will begin his duties at St. Vincent about Sept. 1st. The Ferguson Journal thinks it is a good early for business papers to bring out a candidate for governor.

Drick-Pomeroy nominates Thomas H. Hendricks for president at Fitchburg Lee for vice president in 1888.

The Deloit Herd truthfully says that the cry for an extra session is growing louder and louder and the arguments in favor of it strong and stronger.

Doc. Whelock, a colored man of New York, has a young white girl in his arms, telling her he was sunbathed, and the white girl replies: "You are as white as any one."

We are in receipt of a neat portfolio from the Chicago, St. Paul, Minneapolis and Ontario road containing illustrated sketches of General Grant's life from West Point to Mt. McGregor.

Washington Territory wheat promises to be making in the markets of the East this season. The Northern Pacific is making preparations to bring the bulk of it to Duluth.

A grandson of John Bonch the first American to engage in the fur trade in New York city, has made an arrangement. He charges George W. Lusk as the cause of the collapse, claiming that the fall of the ship builder cost him \$100,000.

Alabama has an excellent tramp law. It provides that any person convicted of being a tramp shall be fined not less than \$10 nor more than \$200, and shall be sentenced to hard labor for the county for not less than six nor more than twelve months, and on second conviction for such offense for not less than one hundred nor more than five hundred dollars.

The contract has been closed at \$1.25 for the building of a dam across the Mississippi river at St. Cloud by the St. Cloud and Northern Pacific. The city gives the company, which made up entirely of home capital, \$400,000 for the dam, which will cost at least \$250,000. It is estimated that the dam will generate 100,000 horsepower and booms for 100,000,000 feet of log between here and Sauk Rapids. The plan is to build a dam 550 feet long and thirteen feet high, and a high dam joining this with the river 200 feet long and twenty feet high. It is to be finished before 1887.

A Dangerous Precedent. The doctor who waited on the lady at Watertown, D. T., who produced the quartet of blooming roses, is reported to be going to Gio, where he will be the cognation of the public event. The doctor, who is a member of the United States attorney before the recent grand jury at Fargo, excuses himself on the ground that he has no statute covering the case. It is believed, however, that he is not to be encouraged, as he is reported to be sending to families of all classes, and is endeavoring to retain emigration to the territory.

Rial's Family. Rial's wife, on hearing her husband's name, pronounced it as if he were prostrated since. It was feared that she would die, but lately she has recovered her health. Rial's mother and family being in the city, were found good friends. The poor old mother, who has refused almost all food since the death of the news. They all expect she will be happy, and offer prayer daily for his safe transition to heaven. There is a feeling here that his lawyers did not exert all their powers in conducting his case. Archbishop Tuckey and other influential Frenchmen are said to be exerting influence to save Rial from the gallows. This influence is said to be exerted in consequence of the suspension of apostasy to protestantism. When Rial was named Sioux Indian who joined the army at Duluth, he was arrested and taken to Regina, Winnipeg.

Will Miller Go Free. A very curious legal question has arisen in connection with the trial of George Miller, the Grand Juror. He would have been a plea of guilty. The law was before him in 1888 he would have been sentenced to be hanged. In that year the law was changed so that a man guilty of murder should be imprisoned for life, and the penalty should be imprisonment for life. This law was changed so that a man guilty of murder should be imprisoned for life, and the penalty should be imprisonment for life. This law was changed so that a man guilty of murder should be imprisoned for life, and the penalty should be imprisonment for life.

On our front pages to-day will be found an exhaustive account of the case of Gen. Giles.

Some Brainerd card telegrams the Globe that Villard is the president of the Northern Pacific road after Eschbacher.

Albert Treadwell, a stranger, was arrested by the police for the charge of his gun near George.

A Convention Held.

Those who are talking of C. F. Gilman for president of the National Association of Game Wreckers, called the man from Brainerd. Politics like the weather, is a changeable thing, and the mind varies as the wind blows.

An Innocent Sufferer. Nashville, Tenn., Aug. 11. - One of the most interesting cases ever committed in Tennessee, was committed here last night by a woman named Miller. She had a fight with another woman named Miller. Miller was heard to threaten to kill her, and she was taken to the hospital. Miller was taken to the hospital. Miller was taken to the hospital.

GAMBLERS TRICKS.

With which Professional Gamblers Pick Their Victims. How Charles Amberg, a Frenchman, and his partner, a Frenchman, were caught in a trap set for them by a professional gambler.

No one looks upon a professional gambler as a being of a high moral character. He is a man who lives by his wits, and who is not above using any means to get his money.
