LEOPOLD BROS.

The President's message will be found on our inside pages.

An aged and blind widow made a homestead claim at St. Cloud on Saturday.

The state press largely favors General Andrews' plan for a soldiers' home.

Fergus Falls is getting thrash on the location of the third or fourth acre system.

The Walena Tribune, democrat, is disgusted with Doc. Amos because of his howling fraud.

W. A. Fleming has been elected to fill the unexpired term of L. E. Lam, resigned, as city attorney. Mr. Fleming will move to this office.

The attorney general of the state has given an opinion that a person may legally fill the office of clerk of the court and justice of the peace at the same time.

The cost of the county seat fight to Verdalis is said to have been \$15,000, and with all this expenditure of cash the county seat still remains at Walden.

Mr. Kretsch, the Aikth Eye man, after a turbulent career of two months, has concluded that he knew nothing about running a newspaper and has gone out of the business. The public have been aware of the fact for some time.

The city council have at last provided money for protection for the fourth ward. At their last meeting they ordered the erection of a house high in that ward and the purchase of a hose cart and 200 feet of hose. The city are grateful.

Among the leading papers of the west the St. Paul Globe holds a front place. It is an industrious journal, well edited, and is well arranged. The people take it because it is first-class in all branches. The Sunday Globe particularly enthralls all the features of modern journalism, and is one of the best papers published in the northwest. For detailed information rate card see advertisement.

Says an old resident of Minnesota: "Many of the old pioneers of Minnesota are indignant over Capt. Glessner's proposition to locate the river of the Mississippi here. The region round about the river's headwaters is quite well known by the government surveyor. Glessner's claim to the honor as a discoverer of the river is, in fact, a mere war is empty of literary merit."

It would also be handy to attain. Brainerd is one of the four cities that have a rail road. The new line is a very fine one, and the delegation that appeared for her offered every inducement for a report that they could give the legislature the best routes for the rail road. It would be a fine thing to have right upon the town (without mentioning names) and save the state transportation money.

The Agge order after publishing the above went out of the business being afraid that the system would be located too near him. He would have been a fit subject had he remained in the business.

This is a return.

The Wisconsin Central line has moved upon a reform which will benefit the people of this country. It has decided to increase the pay of the porters and waiters employed on its sleeping and dining cars to an amount which will give them ample compensation for their work, and prohibits them from receiving "tips" from passengers. Orders are issued to them to receive no money from any passenger except for black shoes "when requested" to do so. For that reason they are permitted to accept the money from the passengers on the Wisconsin Central after this will not be annoyed by the in-American system of the Wisconsin Central. The wages paid to the porters and waiters have been hardily increased to pay their bills, and they have been forced to rely upon the good will of the passengers for their leading them to obstructive attention upon those who feel themselves wronged, and who are, accordingly, neglected. The central rail road, it is said, is now for getting the example of paying its men fair wages and prohibiting "tips" on our inside pages.

Northern Pacific caboose was burned Saturday at Duluth.

What Train Men Will Do.

The unprecedented sale of Egan's German Syrup within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung Trouble. It acts on an entirely original principle from the usual prescriptions given by Physicians, as it does not stay in the stomach, and leave the disease still in the system, but it positively removes the cause of the trouble, breaks the parts affected and leaves them in a purely healthy condition. It is kept in the house for use when these diseases strike, and, in great numbers, will save doctor's bills and long spells of serious illness. It is positively sold by all druggists and general dealers in the land. Price 75 cents, large bottles.

Show of all descriptions, at cost and below.

Do not say your holiday presents until you have called on me. I have a full stock of everything in the jewelry line, from diamonds to plain jewelry, and I am prepared to make up a present for you. Everything I sell I warrant, and have not bought a dollar worth of cheap goods, and have only the best, everything must come up to warrant or articles may be returned. This is business. V. V. Star, Bank Block.

A Good Suggestion.

The Little Falls Transcript proposes that the new Minnesota Soldiers' Home be located upon the site of Ft. Ripley, the old hold and a large surrounding tract of the old military reservation still being the property of the United States. This is a beautiful location, high and dry, bordering on the Mississippi, well drained and healthful.

Some Favorite Recipes.

Some time ago the Royal Baking Powder Co. conceived the idea of collecting from its users the most of its quality. Five kinds of this are now being sold in the market. Pick was in for congratulatory letters, and writes for further information, visitation—Chicago Times.

The tree was cut on the 12th of Nov. and was 400 feet long, and 12 feet in diameter at the base. It was cut on the 12th of Nov. and was 400 feet long, and 12 feet in diameter at the base. The Queen's birthday present to the Crown Princess of Germany was a good in the form of a medal given to Berlin. The interior is lined with blue silk, with a fringe and tassels. The outside is of the finest gold and silver, and is encased in the most beautiful of cases. The medal is a masterpiece of art and is a fitting tribute to the Queen.

It is some time since we saw a better condensed piece of reporting than the following paragraph from a medical paper: "The 'Solofino' union, Nevada, has been found at the twelve hundred-foot level and a piece of coal and its coal at the thirteen hundred-foot level. This comprised the recoverable effects."—N. Y. Independent.

The London system has been developed to such a fine point in New York that it is now being introduced upon a dial and then spreading his hands.
