Free Delivery to all Parts of the City.

GRESHAM'S boom doesn't seem to be losing any of its vigor.

A PROHIBITION city ticket is in the field at Fergus Falls.

JOHN L. SULLIVAN has lost his grip and is no longer "as big a man as Grant."

THE people of New York Mills voted for "No License" at the recent election.

GIVE the little paper down street plenty of rope and it will hang itself soon enough.

THE union labor party will hold its national convention at Cincinnati, on the 10th of May.

MEEKER County will place the St. P. M. & M. railway company's town lots on the tax lists.

FRANK BURNS was beaten to death at Barnum, Minn., Wednesday, by a gambler named Lewis.

THE half breeds in the Canadian Northwest are showing signs of restlessness and trouble is feared.

THE governor of Mississippi is liable to fine and imprisonment for accepting and using railroad passes.

IT is reported that the News stands ready to publish the "list" for its chums if the police push them to the wall.

BARTO stands about as much show of being elected to congress from this district as he does to being nominated for the presidency.

A RAILROAD company in China are hiring 500 engineers, firemen and brakemen at a salary of $250, $175 and $125 respectively.

THE Knights of Labor and alliance men are trying to find out how that "black list" of legislators got into print.—Fergus Falls Journal.

IF the new mayor will only enforce the dog ordinance the city may possibly get rid of the whining curs in the vicinity of the News office.

ST. PAUL is making a strong effort to have the port of entry removed from St. Vincent to that city and the people of St. Vincent are making a protest.

BRECKENRIDGE, was the scene of a thrashing bee the first of the week. The citizens and her husband held the editor of the Wilkin County Gazette while Mrs. Cook laid on the birch.

WHO that read that silly school-boy composition on Hon. A. Scheffer in the News yesterday didn't say "rats!" Oh boy, do let up. You are giving the whole city away with your sickishness.

THE Northern Pacific railway company paid into the state treasury on Wednesday $108,059.94 taxes on gross earnings on their lines doing business in this state for the year ending Dec. 31, 1887.

AS exchange gives an account from Minnewaukan, Dakota, of a father and son being killed and eaten by wolves so near their own house that the wife and children watched the unequal contest from their own window.

THROUGH the efforts of the Press reporter the world has been informed that the Knights of Labor of Brainerd have started a "grocery store." This is refreshing, since the B. C. M. Co. has been in existence and doing a thriving business for many months.

THE News would have the public believe that the result of the recent city election has had a bad effect upon the city and its interests. We point to the fact that more property has changed hands since the election than during the entire winter as proof that the News is off.

AND now the News truckles to the worst element in the city and threatens to publish a list of the frequenters of houses of prostitution, if the police tread on the corns of its friend. What won't do next. A good dose of winter cholera would do the big boy good.

JOHN LANGNER, a German farmer, residing in Holding, near St. Cloud, has been fined $15 and costs for refusing to comply with the school laws in furnishing a 12 year old daughter with proper books and clothing. This is the first case that has come up under the compulsory education act in Stearns county.

POOR McKenzie now puts in his time going from door to door uttering a wail of anguish over the election result, from the effects of which he will never recover. He tells the people, when he can get an audience, that the town is downed, utterly ruined, and the newly elected aldermen will see that it is kept down. He says they are too progressive and hints strongly at ignorance, and usually winds up his harangue with "If I was Kindred I know what I would do!" The young man is really to be pitied. The blow has been such a hard one to him that even his tariff ideas have been stunted.

A NEW SCHEME.

An old Mexican at Nogales is trying to dispose of his 16-year old daughter by raffle. The father wants to sell thirty tickets at $1 each, but is canvassing among those least liable to say anything about it. Both American and Mexican express indignation, and it is probable that the old man's scheme will not be carried to a successful termination. The parties live on the Mexican side of the town. A short time ago a Mexican woman of Nogales sold her 16-year-old daughter to a Chinese merchant for $18. The Chinaman a short time afterward sent the girl home.—Ex.

ALWAYS KICKING.

Little Falls is now shouting for mills and capital. With Brainerd's great dam on one side and St. Cloud's prodigious improvements on the other it is extremely doubtful as to the profits of the investment made up there until years of work have been given to the development.—St. Cloud Tribune.

The Tribune is always endeavoring to down some town through its columns. Little Falls probably stands a pretty good chance of moving right along with St. Cloud in the matter of mills, etc.

THE papers in this city that are talking the loudest about the new city government being antagonistic to certain enterprises, are doing the damage, and while they are trying to make the public imagine there is something that should be done immediately to give assurance, they certainly are creating the impression that there is no impending danger, when in fact there is none. There are some people in this city whose very shadows frighten them of late. The new city government is as much in favor of advancing Brainerd's interests as any single individual in the city, and if you will watch them closely during the coming year, you will notice the truth of our statement.

SECURITY of the News, is tired, tired out trying to murder the English language. Long has he tried to use his mother tongue correctly but he couldn't do it—it was an utter failure and the boys made sport of it and him. Wearied, he sat down, and great despair came upon him. He thought, and the more he thought the greater his dispair. But an idea struck him—it didn't kill him either. He lived and acted. He launched forth again, but in a new and much improved style, and he sees the improvement and is happy once more. Now he uses terms Scandinavian to give expressions to his great (?) mind, and if the good people whose speech he has adopted will pardon him, we know the community generally will forgive him for it, because it is really a great relief to know that the king's English is to be spared from being longer butchered by this great tariff exponent.

MR. C. C. BROWN, the well known marine editor, who is chasing up the position of harbor master with wonderful energy, declares that he is not seeking the position for the money there may be in it. In fact he says, like the ambitious youth seeking employment, that "salary is no object." Mr. Brown has an honest desire to serve the people and will do it for nothing if the council does not feel able to pay him a salary. Mr. Brown is positively not an office seeker for revenue only.—Duluth Herald.

Strike on the Santa Fee System.

CHICAGO, March 15.—Thirty-two hundred miles of railway were tied up this afternoon in exactly ten minutes by the Brotherhood of Locomotive Engineers and Firemen. This entire main line of the Atchinson, Topeka & Santa Fe company and all its branches were brought to a stand-still. A stretch of territory from St. Paul on the north to El Passo on the south—practically from one breadth of the United States—is now involved in the struggle that started between the Burlington company and its employes. At 2:50 p. m. to-day the general manager of the Santa Fee system received at Topeka, Kas., an official notice from the chairman of the grevience committee of the road, stating that the engineers and firemen would stop work at 4 p. m. When the ten minutes elapsed the strike had taken place. It occured on what is called the main line on the Santa Fee, which extends from Kansas City to El Paso, including all the branches, such as the line to Denver, but not the trunk lines further west operated by the company.

Want It Settled.

The county commissioners have decided to allow the suit brought against the county by the city of Duluth to take its course and decide the question once for all as to the liability of the county to pay costs in state cases where the fines imposed are retained by the city.—Herald.

PICKING UP THE RARE COINS.

"Do you know what a good many bank tellers and men who handle large amounts of gold and silver coins do at the close of the day?" queried a former bank clerk.

"Go home, probably."

"Yes; but not until they have looked through their metal cash for rare coins."

"Do they ever find any?"

"Certainly they do sometimes, though not so very often. It is a lottery. The fact that some of the rarest of American coins have been picked up in ordinary circulation keeps their eyes peeled. They know values pretty well, and the sanguine cherish the hope of unearthing one of the missing dollars of 1804, which are worth $300 each. In fact, as high as $400 has been offered and refused. The silver dollar of 1839, representing Liberty seated, is in circulation. It is worth $15. The quarter of 1853, with rays, is also occasionally met. It brings $2. Among silver dollars of certain coinings, the 1859 dollar, representing Liberty seated, is the most valuable. It was worth $15. The dollar of 1836 has a flying eagle on the reverse side. A little worn it would pass without notice. It is worth $15. So is the quarter coin of 1836. Both are in circulation. The 20-cent piece of 1877 is worth $1.50, and of 1876, $1.25. They are to be met, though rarely. The valuable dimes and half-dimes were all coined before 1846. The silver three-cent piece of 1873, with the large star, brings 60 cents; the copper two-cent piece of the same year is worth the same. The flying-eagle cent of 1856 is worth $1. All the gold coins prior to 1833 command premiums.—Chicago Tribune.

THE Republican state committee will meet next Tuesday to decide the date and place of the state convention to nominate delegates to Chicago.

P. T. BARNUM, the veteran showman, may be getting along in years but is still possessed of more than the average amount of common sense. He says: "The press has made me as it will any other man who liberally advertises, and always keeps promises."

Land Troubles.

DULUTH, March 14.—A writer in one of the local papers claims that settlers on government lands near the Northern Pacific railroad are invited to appear at the local land office on the 31st of this month and defend their property against contest. The writer claims that many poor men have filed and made their improvements and are now compelled to contest their places. This claim is unjust for the reason that no one has filed on the land without being notified of the Northern Pacific's desire. Callester Maginnis has personally told applicants that these lands were claimed by the Northern Pacific, but settlers have been in such a hurry that they disregard the advice and go straight ahead. Every application at the local land office had this notice printed at the top: Applicant alleges that said land selected by the Northern Pacific Railroad company is not within the limits of the congressional land grant to said company, and that such selection has not been made according to law and is void."

Essay on Girls.

Girls are of early days and full of mischief, and whosever is deceived thereby is not wise. When the fair young girl sheweth her gum with great haste and stampeth her pretty foot, do then look out. She cometh forth in the evening in low neck and short sleeves, but in the morning she lieth in bed while her mother handleth. When the sleigh bell tingleth she standeth, at the window and yeameth for a beau, and when he cometh she doeth up his purse. He wrappeth the buffalo robe about her and lingereth her much and stayeth out beyond his time, and the livery man adderh four dollars to his bill. In the evening he hieth himself away to her father's mansion. He goeth and sitteth by the fire, and eye he leaveth he popeth the question and she jumpeth at the chance. And the next roweth, he taketh his departure and when he remembreth the smallness of his salary he kicketh himself. —Ex.

Want the Law Enforced.

EGOTOS DISPATCH:—If I remember rightly there was a law passed at the last legislature in regard to killing deer out of season and a State gamewarden appointed, he to appoint county wardens with authority to arrest any person or persons violating said law. It is a foolish idea to imagine that anyone is going to kill a deer and bring it to the warden, but it looks as though there was no other way for the warden to find it out. In my mind the law and the wardens amounts to nothing in reality, no more so than if we had neither. What few deer are killed in the fall before the hunting season commences amounts to nothing compared to what the Indians are slaughtering in the deep snow on this crust. The deer are all yarded in swamps where they have paths to go around just enough so they can browse on brush to keep them alive. The Indians go there with their dogs, chase them out onto the crust, and after a run of eighty rods he is at the mercy of the dogs, who have the hide half tore off him before the Indian gets there. If these wardens get anything for stopping that kind of work it is time some action was taken by them, if the law applies to Indians as well as whites, as I understand it does. For every doe they kill it will be three less next fall. I should like to see the warden for our county take a trip and look this thing up, catch one or two of the rascals, and put the law to them and the rest will drop it.

The Coroner's Inquest.

A telegram from Aitken says: In the early part of last December, brakemen P. H. Kline and O. W. Holmes were killed in a collision on the Northern Pacific road at Tamarack station, Engineer Travis, of train No. 22 passing Tamarack at full speed as train No. 21 was attempting to take the siding. Travis was severely injured, and has not before this time been able to appear at the inquest. The coroner's jury, composed of leading citizens of this place, have been in session from time to time since the accident, and have employed the most searching and exhaustive means in procuring testimony, and they arrived at the following verdict: "We fail to determine beyond a doubt upon whom to attach the blame of said accident."

NOTICE.

Notice of Application for License to Sell Spiritous, Vinous, Fermented and Malt Liquors.

Notice is hereby given that John Wiren has made application for a license to the county commissioners of Crow Wing county, for a license to sell spiritous, vinous, fermented and Malt liquors from the 3rd day of April, A. BRAINERD, MINNESOTA.

It is estimated that 50,000 Americans visited Europe last summer.

Nina Van Zandt, the proxy wife of Anarchist Spies, is going on the stage in a dynamit tragedy. If she would only do that by proxy, too!

During the past ten years no less than six species of North American birds have become extinct, and it is claimed that the English sparrow has been the main cause of their disappearance.

Miss Gabrielle Greeley is almost as striking a figure as her renowned father. She must be hard upon 35, but there is an electric force about her, a splendid vitality, that perpetually renews and multiplies her charms.

A fancy statistician on the New York Tribune has estimated that there are 3,000,000 men in America who get shaved three times a week. That means an expenditure of thirty cents a week, or $15.60 a year for each man, or for the 3,000,000 $15,600,000 annually.

Detectives say that the cocaine habit is more destructive that the habitual use of opium, and is becoming quite prevalent. Its stimulating powers are said to be great, and it is very seductive. Its use, those who have observed its victims say, leads to a complete and permanent relaxation of the muscles, and ultimately to the loss of the power of action by the limbs.

Viscount Hinton, son and heir of Earl Poulett, a wealthy English peer, is believed to be traveling in this country. He has recently left prison where he served a short term for larceny. Although born in lawful wedlock the Earl has always disowned his son and allowed the young man to grow up among loose companions, from whom he acquired a liking for stage employment. For some time he was a clown in a minor theatre. He is described as a man well in the thirties, with dark complexion and eyes and a light mustache. Lord Hinton does not use his title, but calls himself William Thomas. He was recognized, it is stated, a few days ago in Chicago.

Reports from India indicate that trouble for the English may be expected there. Maharajah Holkar has gone morally to the bad. He has made disreputable characters his favorites, has quarrelled with the only Minister who gave him good advice, and lends a credulous ear to astrologers. State matters are neglected, and the stars, through their friends, the astrologers, have pointed out a course which, if persisted in, will soon compel England to interfere violently.

One of the leading dailies of the country recently said: There is a strong and growing sentiment in favor of doing away with the secret sessions of the United States Senate. The prominent journals of the country are one by one joining in the demand that the people be given to know what is justly their right—to know what the august Senators say and do while conducting executive business. The consideration of the Chinese treaty is an auspicious subject from to date this reform, and the Senate will do well to revise or suspend their rules so as to discuss all matters on the treaty in open session. Star chamber deliberations on such matters are very distasteful to the American people. What is more, they are entirely unnecessary.

Within recent years the subject of irrigation has become one of great importance in large sections of the west and southwest. The opening up of the country by railroads and the settling it more densely has called widespread attention to the subject, and the rush of population westward and theraptid occupation of available lands consequent to it, has made it worth while to attempt the reclamation of desert lands. It has been found to pay, and having once assumed the first great question in modern life capable of solution by no means slow in lending its hand to the project, and thousands of acres that but a few years ago were regarded as entirely worthless, or at best only fit for grazing are now growing more and more productive under each succeeding year's cultivation, and abundant the vivifying and developing influence of water.

Cremation is making more headway on the Continent and in this country than in England. Italy for ten years has had an average of seventy-five incinerations, Germany an average of fifty annually for the same time; but England has only had ten per annum. The expense is not so much in the way, the cost being but 10 guineas, but English sentiment is bluishly conservative. People don't like the idea of being put in the fire when they are dead. Very many have an idea that it will some way hinder the resurrection of the body, which to the masses is a literal affair. But as a matter of health the advantages of cremation are certainly very great. It also does away with the vulgar parade of an ordinary funeral, and that, unfortunately, is precisely what is not desired by the classes most to be benefited by economy.

The Fisheries.

A few years ago the most noted rivalist in the United States was Fisries Littlejohn. He fought the matter day in the poor house at Paw Paw, Mich. He was entered as a drunkard and pauper, and was killed by falling or jumping from his window one night. Littlejohn was, in his prime, one of the most effective of orators, and a warm friend of John B. Gough. Such instances are not rare, and the question is at least a just one, whether the method adopted by these men in the end results advantageously for themselves or others. While there is a cry all along the line for less help, pressure in business, in education and social affairs, can not our "helps" be read just our spiritual interests to the same moderation that is demanded elsewhere. Our welfare for this world and other worlds also requires less extravagance and more temperance all through. Have we yet caught the real spirit of temperance as a social and religious principle?

RESUME OF THE NEWS.

Washington News Items.

The senate committee on finance ordered a favorable report on the house bill to provide for the purchase of United States bonds by the secretary of the treasury. The bill secured a strong majority, as was expected. There was some republican opposition, but not enough to defeat the measure. The fact that it has secured a favorable report is a pretty certain indication that it will pass the senate.

The investigation of the sugar trust by the investigation of the sugar trust, which has been agreed by the house committee would seem to show that the representatives of the trust will accept no other position which they did before the investigation commenced, viz., that it is a legitimate, and will refuse to furnish the committee with special statements as to details of the organization of the trust, which the legislative committee was unable to obtain.

The interstate commerce commission has ordered that the new tariff of rates and charges which a common carrier, subject to the provisions of the act to regulate commerce, of itself or jointly with other common carriers, may carriers are or are not subject to such act, shall establish for the transportation of articles of commerce any export from any point within the United States to any foreign port, or any point in or on the boundary of an adjacent country or to any foreign port or place, is required to be filed with the commission and shall be made public.

The new Chinese treaty will be signed within a few days by President Harrison and the Chinese minister. It contains the most stringent provisions against the importation of Chinese laborers. The treaty will be sent to the senate, and it will probably meet with no opposition. It will not preclude coast senators on the ground of the privilege it accords to the Chinese that they have accumulated $1,000 worth of property. The Pacific coast people and nearly all the Chinese would swear to the ownership of $1,000, or any other sum as a means of importing more of their people.

The State Insurance commissioner has decided that the Fidelity and Casualty Insurance Company of New York is entitled to do business in the state of Indiana in that state in spite of the protest of the Travelers' Insurance Company of Hartford. The argument was made that a certificate could not issue to the Fidelity company under the reciprocal law of that state, but the commissioner decided that it was a matter of health the advantages of cremation are certainly very great. It also does away with the vulgar parade of an ordinary funeral, and that, unfortunately, is precisely what is not desired by the classes most to be benefited by economy.

The Fisheries.

Communications have been passing between Ottawa and Washington relative to the settlement of the fisheries dispute on a broader basis and the Canadian answer thereto. The Canadian proposal is as follows:

That with a view of removing all the cause of difference in connection with the fisheries, it is proposed by her majesty's plenipotentiaries that the Government of both countries shall have all privileges embraced in the existing treaty, with the reciprocities of treaty of Washington, in consideration of a mutual arrangement providing for greater freedom of commercial intercourse between the United States and Canada and Newfoundland.

The American reply is as follows:

While continuing their proposal heretofore submitted to the high mission, and sharing the desire of her Britiania majesty's plenipotentiaries to remove all causes of difference in connection with the fishery, they are unable to recommend for constitution, after careful consideration, to decline to ask from congress the legislative authority requisite to consider the proposal conveyed in their note of the 3d instant as a means to the desired end, because of the greater importance of commercial intercourse, so proposed, would constitute an adjustment of the present tariff of the United States by commercial treaties, which experience of the American plenipotentiaries consider to be manifestly impracticable of accomplishment through the medium of a treaty under the circumstances now existing, nor could the American plenipotentiaries advise that such a mutual arrangement as that proposed by her Britannic majesty's plenipotentiaries could be accepted as constituting a suitable basis for negotiations looking to the purchase of United States bonds by the secretary of the treasury. The bill secured a strong majority, as was expected. There was some republican opposition, but not enough to defeat the measure. The fact that it has secured a favorable report is a pretty certain indication that it will pass the senate.

BRAINERD, MINN.

GENTLEMEN:—We take pleasure in informing you that we have commenced the new year with upwards of $30,000 worth of orders for monumental work on our books, to be delivered during the spring, a far better showing than we ever made before at this season of the year. Under the circumstances, and with so encouraging an outlook for the spring trade, we think it advisable that you impress upon those intending to have monuments erected during the spring or summer, the necessity of placing their orders early, to insure their being filled in time. We cannot promise to fill orders for monuments wanted before Decoration Day, unless we receive the orders before March 1st.

Yours Respectfully,

A. E. Taylor was selected as the gentleman best fitted for the trip, as he has a large circle of acquaintances among that class of men in his native state, Michigan, and particularly with several manufacturers who have written for information regarding our city. The selection was a wise one.

Died at Ft. Ripley.

HATCH.—At her home in Ft. Ripley, on Thursday morning, March 15th, 1888, of typhoid fever, Mrs. H. A. Hatch, aged 23 years.

The deceased had been sick some time but had not been considered dangerous and was recovering from an attack of typhoid fever. She suffered a relapse and died Thursday morning at 4 o'clock. The lady was highly respected by a large circle of friends. She leaves a husband and two children to mourn her untimely death. The funeral services will be held at the Ft. Ripley school house Sunday afternoon at 3 o'clock.

Raised the Salary.

A special session of the city council was held last evening to fix the city attorney's salary. The meeting was called to order by President Doran, who stated the object of the meeting, and after a general discussion of the matter it was agreed that the salary of $25 per month, which has heretofore been given the attorney was too small. Ald. Keough moved that the same be fixed at $50 per month, and the motion carried unanimously. Bills of the clerks and judges of election amounting $540 were presented and allowed. The council then adjourned.

The New Regulations.

The police have instructed the gamblers that their places must be closed as no gambling will be allowed. The saloon keepers will be allowed to run their places during the week days but must close them up promptly at 12 o'clock Saturday night and keep them closed until Sunday night at 12 o'clock. The demi-monde will be allowed to remain in the city as long as they keep off the streets and out of the way of respectable people, the monthly fine system being continued. Male habitues of the houses will be obliged to leave or take the consequences.

The Republican Rally.

The Republican meeting at the opera house Saturday evening was attended by a large audience of representative men of that party and a goodly number of the Democratic brethern. The meeting was called to order by President C. L. Spaulding at 8 o'clock, who in a few brief but pertinent remarks reviewed the organization of the club in this city and then introduced the Hon. E. G. Hay, of Minneapolis, as the first speaker. Mr. Hay prefaced his speech with a few complimentary remarks in regard to our thriving city. Mr. Hay spoke at considerable length upon the questions of the day and he was listened to with interest by the audience. He was followed in his remarks by Mr. Byrnes and local speakers and the meeting closed.

New Town Officers.

The following are the officers elected for the various towns in the county at Tuesday's election, as far as we have been able to ascertain:

CAR LAKE.

Board of Supervisors—John Cameron, Chairman; C. B. Slade and S. W. Gray. Town Clerk—Herbert Cameron. Assessor—H. Harmon. Treasurer—A. Cameron. Justice of Peace —Jackson Constables—Frank Cannon and Matt. Cameron.

DAGGETT BROOK.

Board of Supervisors—N. A. Lease, Chairman; C. D. Glidden and Michael Remmels. Town Clerk—John Driver. Assessor—F. Towle. Treasurer—Edgar Place. Justices of the Peace—Andrew Mead and John Knebel. Constables—John Roach and D. McCosby. Pound Masters—Abner Place and John Knebel.

The vote on restraining cattle stood 15 for and 27 against the law.

CROW WING.

Board of Supervisors—M. D. Everett, chairman; Charles Milspaugh and A. F. Ludwig. Town Clerk—Joel Smith. Assessor—S. Hall. Treasurer—A. Everett. Justices of the Peace —Joseph Ball and L. O. Larson. Constables—Frank Hathaway and Geo. Fryfield.

It was decided that the law for restraining cattle from running at large should not be enforced.

Signs of Prosperity.

The News predicts the complete downfall of the city since the election if the present council with Mayor Hemstead at the head. Note the following real estate transfers and see if it doesn't indicate prosperity:

Max Shapiro has purchased two lots in block 99, and will erect a new brick residence.

F. H. Koop has sold three lots on Main street to the Co-operative Mercantile Co. for $2,000.

Dr. Camp has purchased the Ainslie residence on 7th street.

The lumber for W. B. Ankeny's new foundry is being hauled onto the ground.

A new house is going up at Fifth and Pine streets.

W. W. Fleming sold two lots in block 132 to D. E. Walsen on Monday.

Leon R. Lum purchased a lot on Front street of Mrs. Tucker the first of the week.

M. Hagberg received his deed of lots 1, 2 and 3 in block 130 from A. Folse to-day.

Jas. McNaughton has sold his residence property on eight street to N. W Wheatley.

These are only a few of the transfers that have been made, but straws show which way the wind blows, and the News does that Brainerd has gone to the dogs, which the defeated personal organ down street would like to force upon the people outside of the city, for the citizens here well know that it is all bluff and bluster fetched. As the season advances and Brainerd continues to thrive and grow in greatness we shall continue to let the public know whether the words of the people was for the interest of the city or not. Up to date there have been more transfers of property since last week Tuesday than for three months previous.

L. M. Clark & Co. carry the most complete line of crockery, hardware, lamps, nails, and everything pertaining to the business in the city. See them before buying, as you will save money by so doing.

Fifteen Pictures for 25 cents.

For the next two weeks I will make fifteen Gem Pictures for 25 cents, at Robinson's gallery, corner Front and Fifth streets.

A New Order of Things.

Wednesday afternoon the police, under instructions from the Chief, served notice upon the houses of ill-fame that frequenters of these places would be arrested and summarily dealt with. The places were visited during the night by the officers and Pat. Clifford and Frank Gray were found there and were placed under arrest. This somewhat surprised the leaders in that class of society and considerable indignation was manifested by them, notwithstanding the fact that they had been given fair warning. The cases came up before the court this morning with Judge Douglas as counsel for Gray, and E. M. Donaldson for Clifford. In the latter's case the counsel proved that Clifford owned the property and was in his own house but it did not avail, and after some skirmishing about the validity of the ordinance under which they were arrested, the case was submitted without argument. The court found Clifford guilty and fixed a fine of $7.40, or ten days in the city jail. The attorney gave notice of an appeal and bail was fixed at $100.

In the case of Gray nearly the same procedure was gone through with and it resulted in finding him guilty and a fine of $7 was imposed. This case will be appealed.

A piano player by the name of Smith was brought up on the same charge, that of frequenting a house of ill-fame, but he plead guilty and the judge fined him $6.

From Crow Wing.

Perhaps winter will weary of us if given enough time.

D. M. Everest is just recovering from a severe attack of neuralgia.

Mrs. C. H. Sterling has been quite poorly the past week.

Mrs. D. Holmes has been sick for some weeks past and is still on the sick list.

Mr. Leonard, of Ft. Ripley, is stationed in C. H. Sterling's office for a time.

Mrs. Elmer Phelps and Miss Rosa Coon stole a march on the Crow Wing people and were married at Brainerd yesterday.

J. L. Berg took a trip to Minneapolis on Saturday.

Mr. Billings and his crew are cutting logs on Richard Gorst's land, and boarding with J. N. Matheny.

Mrs. Henry Hatch has had a relapse of the fever, and at present but few have any hopes of her recovery.

Wm. Parsons, of St. Cloud, is at Ft. Ripley again, looking after his preemption and making preparations to move on to it.

Temperance meeting at the school house one week from next Sunday evening. Every one is cordially invited to attend.

Chas. Conway and wife started on Tuesday of this week for Washington Territory, it is said. A Mr. Fowler has taken his place in the depot.

A man who lives not far from our village, came to town quite early one day this week and left his team tied in the trest all day without a blanket upon them, while he, himself, was carousing and drinking in the saloon. A good temperance sermon.

Gull River Notes.

Mrs. Campbell is slowly recovering.

Several teams came out of the woods yesterday.

Mrs. John Phillips is on the sick list this week.

W. S. Tracy and wife were in Brainerd yesterday.

F. E. Jago visited his friends in Brainerd last Sunday.

Miss Mary Hanson entertained her friends a few evenings ago.

Mrs. Cobb and Miss Alice Day are visiting their sister, Mrs. White, of Brainerd.

Charlie Samuelson and his son John, started for Sweden last Monday morning.

We think spring must be near for there are trumps in town, a pretty sure sign.

Little Hiram Moores, while playing Saturday, slipped and hurt his back very badly.

Miss Zella Burgoyne, who has been visiting her aunt in Minneapolis, returned last Saturday.

Last Sunday Dr. Rosser was called to attend Ole Oleson, who is quite sick with the typhoid fever.

Mr. Allen, our venerable butcher, has moved his family back into his summer residence on 3rd St., S. W.

The clerks in the G. R. L. Co.'s store are busy unpacking goods since H. F. Downs came back from Minneapolis.

Mrs. T. H. Moores and her son Tom, drove down to Brainerd while exercising their roadsters one day this week.

The W. C. T. U. L. was well attended. There were three new names added to the list and the programme was excellent.

We are informed that John Manson expects his brother George to-morrow, and that he is not coming alone this time. Accept our congratulations.

The De Causey Hotel has just received a fresh coat of paint and the walls are newly papered, which gives it a bright and spring-like appearance.

We were glad to see the smiling face of Mrs. H. M. Chiperfield again in our midst last Sunday. She is now in Brainerd and it is needless to say that she is doing good work.

The New Council.

The city council met on Tuesday evening in a special session, the object being the election of city officers coming under their jurisdiction. The meeting was called to order by Clerk Mahlum and the business stated. The first matter to come up was the election of a president. On the informal ballot D. Doran received six votes for the position and J. G. Camp two. The formal ballot resulted in a similar vote and Ald. Doran was declared elected.

For city clerk A. Mahlum received seven votes on the informal ballot and Geo. S. Canfield one. R. G. Sparks presented a communication to the council asking them to consider him available but his strength did not materialize.

The city attorneyship next took up the attention of the council. On the first ballot W. S. McClenahan received five votes and G. S. Ferrand three. A formal ballot was ordered which resulted in a 6 votes for McClenahan and 2 for Ferrand. McClenahan was declared elected.

For city surveyor S. H. Relf received five votes against three for R. K. Whitley, and he was declared elected. No other business coming before the body they adjourned.

R. L. Weeks came over from Brainerd on business this week. He is stopping with friends while in the city.—Sauk Centre Alavanche.

It was ascertained to-day that a Scandinavian family by the name of Peterson, on Sixth street south, was in destitute circumstances and the man was nearly dead from lung fever. The matter was taken in hand and a physician sent to his relief, but it is doubtful if he recovers. Provisions were furnished and the immediate wants of the family relieved.

FACTS YOU CAN BET ON.

That the *oldest and largest tobacco factory in the world* is in Jersey City, N. J.

That this factory makes the popular and well-famed Climax Plug, the acknowledged standard for fine-class chewing tobacco.

That this factory was established as long ago as 1826.

That last year (1887) it made and sold the enormous quantity of 22,262,262 lbs, or fourteen thousand tons of tobacco.

That this was more than one-seventh of all the tobacco made in the United States—notwithstanding that there were 566 factories at work.

That in the last 21 years this factory has helped support the United States Government to the extent of over Forty-four million seven hundred thousand dollars ($44,700,000.00) paid into the U. S. Treasury in Internal Revenue Taxes.

That the pay-roll of this factory is about $2,000,000.00 per year or $10,000.00 per week.

That this factory employs about 3,500 operatives.

That this factory makes such a wonderfully good chew in Climax Plug that many other factories have tried to imitate it—but without success—every new try to attract custom by offering larger pieces of inferior goods for the same price.

That this factory nevertheless continues to increase its business every year.

That this factory belongs to and is operated by Yours, very truly,

No Other RAILWAY in the Northwest has in so short a period gained the reputation and popularity enjoyed by the WISCONSIN CENTRAL LINE. From a comparatively unknown railway in the commercial world, it has been transformed to an independent, influential, and prosperous **THROUGH ROUTE** with magnificent depots, superb equipment and unsurpassed terminal facilities. Through careful catering to details, it has won for itself a reputation for solidity, safety, convenience and attention to its patrons, second to no railway in the country. **Pullman** sleepers, models of palatial comfort, dining cars in which the cuisine and general appointments are up to the highest standard, and coaches of unsurpassed luxury, run through this route, are among the chief elements which have contributed towards catering successfully to a discriminating public. Located directly on its line between MINNEAPOLIS and ST.
