HUNTING FOR SPOOKS.

Running ghosts to earth, teaching spirits, saving apparitions by the throat, snatching hallucinations, pointing to haunted houses and beating...

Exactly a fortnight afterward, through the kindness of a friend, I was introduced to a young man...

In a back room in a modest looking house in Brighton, Fla., Boston, the headquarters of the society's secretary, Richard Hodgson, M. D.

Dr. Hodgson has Englishman, about thirty-seven years old, a graduate of Cambridge University, a profoundly learned scholar and a knowledge of much of common sense.

"The society was formed," he said, "for the purpose of making an organized and systematic attempt to investigate that dark border of human experience and to find out whether the phenomena which are not yet explained by any satisfactory theory, scientific men of eminence in all countries have been able to solve."

"The society," he said, "has gathered materials with great care. Its rich fund of facts has been published in a series of papers passed upon and thoroughly examined by the various committees."

Recently a special train of the Grand Central Express, one of the best of its kind, was wrecked near the town of...

What Can Be Eaten From the Fire? Although it is considered unwise to be picking a pig, well-picked pigs are the most valuable of the farm products.

For an Invaluable Heart Rest. The small, soft, older-titled club shoes and rubber shoes are the most comfortable and healthful shoes to wear.

Chinese newspapers and private letters from Peking bring details of the flood in the Yellow River in September of last year. This event was followed by the most serious of the century.

A Vast Catastrophe. Chinese newspapers and private letters from Peking bring details of the flood in the Yellow River in September of last year.

Contagious Diseases. Of the various diseases which are communicated from one house to another, "The National Health" is the most common.

A Royal Grandmother. There is one good thing about Queen Victoria which appears to escape the notice of her radical admirers.

What Became of Antlers. It has been observed that in a district where a number of horns were kept, and where, consequently, there must be hundreds of eyes that every day saw a number of horns.

Interest Your Men. I have had a number of reports from men who have employed their time in making plans for the future.

A Woman Soldier Wants a Pension. Mrs. John H. Brown, a widow, had formal notice to a pension, based on the fact that she was an assistant surgeon in the army.
