

The postmaster in the chief married his money in England. He said that all pretty women, but has never proposed to one.

A man in London to recover the unpaid debt of £75 developed the fact that the borrower had paid per cent interest at the rate of 120 per cent per year for six years.

St. John MacDonald, in the Canadian Parliament, said that should the United States reduce the import duty on sugar from \$1 per hundred feet Canada will reduce on logs.

Mr. M. A. Schwartz of Monroe, Ga., has held the postoffice at that place for twenty-three years and has been in it on account of sickness for over a year.

Dr. W. H. Winfield, a young Brainerd physician, has been the recipient of the statement that the grip is as most prevalent now as it was during the last winter. He has had many cases of it.

John Kelly, Jr., son of the late Tammany hall leader in 1909, is said to be in the "down" among his youthful companions.

A man with a wooden leg, he has written that more than 4,000,000 of the ordinary human being during the lifetime of seventy years.

The Minnesota supreme court says the railroad company's right-way of station is without the right-way of the company on the ground that the station is public use.

John Swaine, who has just been granted a pension of \$20 a month, is calmly declared to have been the first man wounded in the war of the rebellion. There was at least one more other wounded in the army but John is said to have distinction.

The tenet advanced at pretty well with the railroad so far. When thirty of them can start off in a bunch on one evening, it is a sign of coming the day, it goes to show that the tenet is after them no immediate danger to their lives.

Contract accidents will happen in connection. A citizen of Norwich, Conn., was recently hit by a pipe with his hand, a pair of burning tobacco and his hair in the eye. He returned a doctor's note home that he had no serious treatment, save the sight of it.

As Englishman, who manifested his indignation by pinning a note to each post a broken bottle, says he had not been free from elements of a recent time, years, and that he was to commence immediately after the application of the maids.

Gov. Paves of New Mexico recently passed through Chicago enroute, with a committee of leading citizens through Chicago for a moment, when he was what can be done by Congress to settle all questions pertaining to the grants and titles in their Territory.

Governor McCall's punishment in Nevada. The punishment for his term for a period of three years will mark his record with a far sin. The retention of his name on the list of commanders for three years is a serious loss of time on the slow road to promotion in the navy.

According to the statement of the English chamber of the exchanger last year the total length of the last year was \$961,000,000. This covers specie, debt, and wages. For an estimated population of 37,000,000 this is about \$10 per year for each individual, or nearly \$52 per head of family.

When the average man or woman comes to be fitted with the first pair of glasses, some curious discoveries will be made. Seven out of ten will see a stronger sight in one eye than the other. In two cases out of five one eye is out of line. Nearly one-half of the population of the world are nearsighted.

The statement is made that Mexico has solved the problem of preventing railroad conductors from eating their tickets. A machine looking like a typewriter is carried through each car. The photograph card is taken, the amount of the ticket is inserted and the name is printed. The device is simple, it is thought desirable that the weight of the ticket be in German form being made, also from glass river by him. James was looking at it.
