STANFORD ALLEN, according to the Carlton Vindicator, wishes to go to congress. Don Deas says he had to stay away from the editorial picnic because his coat and shirt were being washed and he was undressed while he patiently waited in bed for the operation to be performed.

The editor of that excellent weekly journal, the Western Pioneer, works himself into a frenzy because his paper last week unwittingly credited a "tramp" article to his neighbor, the Tribune, instead of the Pioneer. We trust our apology is accepted.

The government is closing away a piece of ground at the south end of the Pokigama dam, preparatory to the erection of a handsome building, to be used as quarters for the officials in charge of the dam.—Grand Rapids Magnet.

A Minnesota paper suggests that Governor Merritt furnish the extra \$100,000 for the Fair, and save the state the expense. If it is as good as his word, the state is in for Minneapolis to complete the "guarantee fund" for the National Convention, we think the Minnesota exhibit will be slim.

The Connecticut water prophet is already out with a prediction about next winter. "It will be a long and cold one," he affirms, "and the reason is that the mep crop is going to be unusually large. Nature never takes the trouble to prepare a big crop of nuts unless they are going to be needed."

It is a truth. United States Commissioner Tipton, St. Paul, Monday morning told Mr. F. Henderson, arrested at Ely, for the marking "Had Deh" on an envelope addressed to a debtor, to the September term of the United States court, and fixed the bail at \$300.

Killed at River. Joseph Hanzeman, a car tinker on the Northern Pacific road, fell from the passenger train No. 1 at River, Saturday night, and was instantly killed. A life insurance policy for \$2,000 and \$75 in bank certificates were found on his person. The remains were forwarded to St. Paul.

Look up the Law. It would be a good thing if some one would prosecute the fellow who is "looking ahead" in Hart. The "looking ahead" should not begin sooner than the Old Gold Club. If Bro. Stevens would look up the law he would find that chickens shooting should be legally done before Sept. 1st.

To Entertain the Law. Game Warden F. L. Stetson is on a hot trail after the violators of the game law. One of the most prominent has been arrested and fined, but in certain circumstances, which for obvious reasons are not yet named, the local authorities are in accord with the warden, and are not enforcing the law. The matter has been referred to the state attorney, and all local authorities will be notified of the pains and penalties which will fall upon them for failure to perform their duties in the premises to a proper manner.

Barkis is Willis'. The Sixth district is a democratic district. It gave democratic pluralities for both governor and congressman last year, and I think it will do so next year. Several of its members, or G. Hartley, of Duluth, will be the republican nominees. As to the democratic outlook, all I can say is that I am the nominee I believe I will not, I shall try to do it in my power to do it in securing the election of the man who is nominated.—H. C. Stevens to St. Paul Globe.

From the above it will be seen that Bro. Stevens expects the fruit to fall into his hands. This looks like business. A dispatch says the Indian bureau has prepared instructions for Commissioner Hall to go ahead and remove the Chippewa Indians to White Earth as soon as possible. Twenty-three thousand dollars are allowed for expenses of the removal of the Indians, \$20,000 for purchase of timber for houses for the Indians when they reach White Earth, and \$10,000 for the expenses of the commission. As to the removal fund, Mr. Hall is instructed to pay cash to the Indians who will remove, and implement to those who will take allotments when they now are. Commissioner Hall will leave for Minnesota as soon as his instructions have been officially approved by Secretary Chandler.

Hall Storms to Otter Tail County. One who has never suffered from a hail storm will fully realize what it means to those who live in this county. Money had transformed in their minds the beautiful golden harvest into money to pay off the mortgage, or to buy the many things needed for the home. Some of the best foreign corn crops of hard times previous years, in a few days, were completely ruined and vanished. The report comes in that the crop is being ruined in other parts of the country. It must take pretty good courage for a man to go to work again after losing his crop by hail. Every time he turns a furrow it means that it may be repeated again and again. Those who have lost their crops are deprived of all income until next fall. A destructive hail storm at a terrible time. The loss on the crops of the county was at least \$100,000.—Tergus Falls Journal.

GLAZIER'S EXPEDITION. The N. P. Co. will sell special excursion tickets on account of the Minneapolis Exposition, to Minneapolis and return, at one and one-third fare for the round trip, plus 25 cents for admission coupon to the Exposition, on the following dates: Aug. 25 and 26, and Sept. 1, 16, 18, 22 and 25; Sept. 5, 6, 7, 8, 9, 10, 11 and 12, and Sept. 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, and Oct. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, and 13. Paul and return, plus 25 cents for admission coupon to the Exposition. Persons desiring to attend the Minnesota State Fair can get special excursion tickets to St. Paul or Minneapolis at one fare to St. Paul, plus 50 cents for round trip, including admission to Fair Grounds. The above tickets are good every one day after date of sale, and for continuous passage from date stamped at destination returning.

The French System of Lighting Passenger Trains with Gas. The French system of lighting by means of compressed gas is pronounced by competent judges to be the best known means of illumination. It is safe under any and all circumstances. It is not affected by atmospheric changes. It burns steadily, steadily than any other light in use. It is clean, and produces no disagreeable odor. It emits no smoke, is odorless and perfectly clean. It is so effective and so readily distributed that travelers in any part of the car can see, read and comfortably rest. It is simple in operation, absolutely reliable and of constant quality. Although the system has been in use on some of the leading lines of the east and in Europe for some time, the credit of first introduction in the Northwest belongs to the "North-Western Line" of St. P. & O. R. R. The ventilated trains on this line, leaving Minneapolis at 6:30 p. m., St. Paul 7 p. m., daily for Chicago and Milwaukee, are lighted throughout with this gas.

In addition to the superior arrangement and comfort of traveling on the ventilated trains, this brilliant light adds to the appearance of the cars, and passengers have expressed themselves as delighted with this method of lighting. The Chicago, St. Paul, Minneapolis & Omaha Railway Company is now constructing a plant in Minneapolis for the manufacture of French Gas in order to supply the entire passenger equipment. This new plant will completely equip the latest standard "North-Western" cars, and will be finished and it has never failed to provide any improvement likely to add to the comfort, safety or pleasure of travel.

THE HAIR. When not properly cared for, loose its lustre, falls out freely, and dries, and falls out freely with every combing. To prevent this, the most and most popular dressing in the market is Ayer's Hair Vigor. It removes dandruff, restores the color of the scalp, restores faded and gray hair to its original color, and imparts to it a silky texture and a lasting fragrance. By using this preparation, the poorest head of hair soon becomes luxuriant.

After Using. A number of other preparations without any satisfactory result. I find that Ayer's Hair Vigor is the only preparation that will restore the hair to its original color, and give it a healthy growth. It is safe under any and all circumstances. It is not affected by atmospheric changes. It burns steadily, steadily than any other light in use. It is clean, and produces no disagreeable odor. It emits no smoke, is odorless and perfectly clean.

On Judge Emery.
Judge Emery, of Minnesota, was in the city on Tuesday, and being an old schoolmate of C. Cole, stopped overnight with him, expecting to leave for his home on the 5:30 train the next morning. According to Mr. Cole, the alarm clock, but by mistake the alarm went off at 3 o'clock, and the judge hurriedly dressed and hastened to the depot just in time to catch the car. The car was only 3:30 a. m., and that he was on the train. The conductor inquired of the judge why he was so late, and he explained that he had been waiting for the car to start. The conductor then let him off and he walked back, arriving in time to catch his train. Of course he does not say that Charlie put a job up on him, but thinks that a distressed party might continue it in that line and be waiting now to get friends with St. Paul.
