**HOW A PUZZLE WAS SOLVED.**

When you want a certain article, you want the best kind of article, don't you? But how to determine which is the best is what puzzles you, isn't it? You are puzzled, aren't you? You would like to hear of one person who has solved the puzzle of the whole world, and its solution.

At the World's Exposition of 1889 at Paris, France, the best sewing machine of the world, including those of America, were in competition. They were passed upon by a jury composed of the best sewing machine experts, two of whom were the leading experts of the world, the "Wheeler" and the "Singer".

The "Wheeler" was the best of all, and it was the only one that was made in America. It was the only one that was made in America.

It was the only one that was made in America. It was the only one that was made in America.

It was the only one that was made in America. It was the only one that was made in America.

It was the only one that was made in America. It was the only one that was made in America.

**SORE THROAT**

Bronchitis, cold, cough, asthma, and even consumption, in the early stages, yield to Ayer's Cherry Pectoral. Sore throat, asthma, cough, and all other ailments of the vocal organs find a more speedy relief in this wonderful and well-known preparation. As an emergency medicine, in case of croup, whooping cough, etc., it should be in every household.

**And Bronchitis**

It is proved that if a cold is not cured, it will lead to bronchitis, and if bronchitis is not cured, it will lead to consumption. Ayer's Cherry Pectoral is the best remedy for both.

**Cured By Using**

Ayer's Cherry Pectoral. It is the best remedy for all ailments of the vocal organs. It is the best remedy for all ailments of the vocal organs.

**Ayer's Cherry Pectoral**

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

**NORTHERN PACIFIC R.R.**

Great Transcontinental Route. Through tickets to all points in the West.

**THE DINING CAR LINE**

First-class dining cars on all routes. Comfortable and delicious meals.

# Brainard Dispatch.

**INSURGENT & WIELAND.** Publishers, BRAINARD, MINN.  
The marble bust of Matthew Arnold in Westminster Abbey is the work of Bruce Joy and is pronounced very successful.

The Princess of Wales has been about court. She is thought to read Shakespeare.

GEORGE W. NOAH, aged 38 years, living about six miles from Glades, is considered the smallest man in America. He is three feet eleven inches high and weighs only eighty-eight pounds.

GOVERNOR WOODRUFF, of the National Society's Homecoming, has opened its new theater, to be called the Woodruff. It has three tiers of seats, with all the modern conveniences, and will hold 1,500 people.

COLOMBUS F. CLEVELAND, the United States Pension Agent for New York, now has been forty-five thousand and fifty thousand pensioners in his territory, with the increasing average of seventy-five per day.

It is particularly surprising that aluminum is the lightest of metals, but this is not the case. Magnesium is lighter and also has the same properties and denser. Until recently it was cheaper than aluminum. It is now affected by oxidation than the latter metal and has a high polish.

THERE are many cases in which an extraordinary intellect has accompanied heavy brain tissue, but the records show that men whose brains have never been weighed have had brains under the average in both size and weight.

A THEATRE party made up in Detroit, to run over to Chicago to see a play or an opera, has been formed of Western amateurs. It is only about 300 miles run and the party has a fine luncheon on the way. They will reach Chicago and leave again by the midnight train for breakfast.

THERE are most beautiful butterflies in the Malay Archipelago, of an exquisite blue and orange color, in which measure 8 inches from wingtip to wingtip. In South America, new butterflies have never been discovered before. It is over a foot long legs, all, though its body is not so heavy.

If an elephant was as allisontan or feroocious as a nightingale in proportion to his bulk his trumpeting could be easily heard around the world. In the conditions of our world, in New York about 15 hours after making his noise.

MR. HARRIS KIMBALL, Jeweler, who died at Astoria, Ore., was one of the wealthiest pioneers. She crossed the continent in 1847 and was the Whitman party, and her husband was killed at the Wallapa Mission. Mr. Jewell has seven surviving children.

The physical culture and correct dress people desire 1,400 feet of space in the women's building of the world's fair. They state in their application that they do not consider the class with charities or reforms, but with educational exhibits.

YAMA, the Greek Pluto, the Christian Satan, is 240 miles high. The latter is only one-third as high. He punishes the damned by putting them in beds of boiling oil, sawing their bodies in two, roasting them and lead into their ears, pulling out their tonsils and tongues, and a vast number of other tortures.

There is no pardon for a robbery for the thief for the only one which is irrevocable after rising up the English political situation from the Tory ascendancy. At the present time it is a picture of peaceful contentment in comparison with a statesman who has his power slipping away never to return.

JAY GOULD was healthy and happy yet, as well as wealthy and wise. The leading cry of Texas is said to be "No more Texas." It is a cry of good, while there is no doubt that the recent contributions to sundry charities has done more to give the conscience a lift. In both these particulars there was ground for surprise.

THERE is a good deal that is said about the Galapagos islands, which has been proposed that Uncle Sam shall buy for a coaling station in the South sea. They are 16 in number.

Five big and 11 small ones, without counting over 900 many little islands along the line of the equator, stretch directly through the group. Nevertheless the climate is not very hot, owing to the moderate temperature of the surrounding waters.

More of the big spiders of the New World are of the sort which build nests with trap-door lining a hole in the ground, with silk, and with a door so artfully made that it is almost impossible to detect the fact that there is an opening, and in some cases, actually planting seeds on this daily portal for the purpose of concealing it with surrounding plants.

The largest spiders catch their prey and individuals have been known to capture good-sized flies, lying in wait for them at the border of a stream.

POLLOW are some interesting varieties of the rapidly developing sugar industry of Argentina. The best of the new plantations of this year is 42,000 acres, which, at the usual rate of production, will yield 1,370,000 bushels of sugar.

CULTIVATION in 1897 was 94,250 acres and the yield was 1,807,000 pounds of sugar. In 1898 it was 97,000 acres, as compared with \$6,100,000 in 1899. There is a 30 per cent increase in production as compared with 1899. The actual production in 1899 was 77,000,000 pounds and this year's yield is estimated at 99,000,000 pounds or 82,000 tons.
