NYE'S NOTARIAL BOND

HE FEARED THE OPAL.

The Hummer's Tale The Truth About the Matter.

It was at this time also that I was chosen by the governor to act as notary public. The appointment was wholly unaccounted for my part. I went to bed at night I had no more idea that I would be a notary public the morning than the rooster has. It was a case where the office sought the man and not the man the office. I held this position for six years, and no one can say that in that time I did a wrong official act as notary public. My seat cost me \$8, and in the six years that I held the office I was obliged to give a lot of love and sympathy to my constituents. I do not know exactly, for the few were very few, if I got any reward for my office, but as soon as I was sworn in, I went to work. I had a book and some sunburn will call me a notary public. I had a book and some sunburn will call me a notary public. I had a book and some sunburn will call me a notary public.

Just Winter's one of Allegheny's leading physicians presented Dr. Cyrus King with an opal set of pearls. The opal was a unique piece of jewelry and was very handsome.

Dr. King was physician for the Father Mulliner. One night, shortly before the great pestilence, the doctor was summoned to the parsonage on Mount Zion. The agent priest was weak, and he had apparently perished. He asked the doctor to attend to the parsonage. Dr. King informed him that he had to go to New York that night.

When he returned from New York, he found the parsonage in a state of confusion. The priest was dead, and the doctor had to perform the funeral services. He was very busy, and he had to attend to the parsonage. He was very busy, and he had to attend to the parsonage.

Dr. King was a very kind and generous man. He was a very kind and generous man. He was a very kind and generous man. He was a very kind and generous man.
