ABOUT \$90,000 was paid to the Chipewyan Indians at Leech Lake last week. It is claimed that the recent census of the country shows that the Chipewyan Indians are now numbered at 1,100. The legislative annual for 1893 will be issued May 15th and will be of very comprehensive volume. WORTHINGTON is a good scheme to clean the cross walks three days with the help of the city engineer. WORTHINGTON will improve in the lap of spring and make a quick move or gutter soon it will clear over to the top. TWO COAL COMPANIES have failed in the past week. Did the Minnesota legislature have anything to do with it? THE POWER behind the throne in Minnesota's political appointments is not questioned. Michael Doran has been a successful candidate for the position of chief clerk of the legislature.

The Steamboat Betrayal.
Capt. De Lauro of the well known firm of King, De Lauro, Ankin, and Co., of Minneapolis, has given some interesting information of the close of the season on the river for the year. The firm has been the last of the season on the river for the year. The firm has been the last of the season on the river for the year. Are You Puffed?
An exchange says the law concerning the use of a straw animal, on which within ten days give notice to your township clerk, who must make an entry for the same. An advertiser the animal in your local paper and sixty days after such advertisement has been given you apply to the justice of the peace to sell the animal. He issues a warrant to the constable who gives ten days notice by posters, then he sells it and you give your pay for expenses. The penalty for taking a stray animal is \$5, and the owner can come upon your premises and take it away, though paying you anything.

There is a crying demand for rights on the north side, and by the request of the citizens of that locality should be heard. The last legislature should be provided for if for no other reason than that they reduced the tax on 2 and two tenths mill to one and one tenths. The legislature has approved a bill that provides for a proposed law which is a feasible one. The bill is a feasible one. The bill is a feasible one. The bill is a feasible one. THE QUESTION OF THE HOUR
is certainly a most timely one, and timely questions always receive an answer. To be certain of a correct answer, you need an accurate time-piece. Our watches keep with unerring accuracy. All our watches are good timepieces. Whether you buy for \$5 or \$50, the time is not affected by the price. The same rule applies to clocks in indigestible time. They are as absolutely reliable as the rule of three. Prices differ only in the running time of the watch. A fine timepiece examined our stock will be side clocks and watches also in stock. A large wall brought stock of every thing in the watch line.

The relationship between sugar and beauty may seem far removed from the figures of the human body. People who have no fat show the projections of the bones through the muscles and skin. The typical Yankee is a rounded, low fellow, and the typical European is a tall, thin fellow. The fat is composed of 86.7 per cent of carbonyl hydrate, or the material that goes to form the sugar in the body.
