All of the members of the 40th legislative district have declared for Governor Nelson to succeed to W. D. Washburn. In so doing they only reflect the sentiment of the people of this city and district. Nelson has made as good a governor as Minnesota has ever had, and he will be equally as successful in the future. He has the support of the people and the agricultural part of the state, he will be more in touch with the large majority of the people than any other man who does not know much of Minnesota, outside of Minnesota.
