THERE were no competitive tests of bak-ning powders at the Chicago World's Fair, and no "highest—awards." All awards were of the same value, and "for an exhibit" only.

But here is the report of a series of competitive tests of baking powders

By the Official Food Authorities of Wisconsin.

This is of real value to the public, as it shows beyond dispute which of the many baking powders is the purest, strongest, and best:

"After examining many samples of the leading brands of baking powders, I have arrived at the conclusion that the ROYAL BAKING POWDER is superior in regard to purity, leavening power and keeping qualities.

"It is a cream of tartar powder, entirely free from alum, lime, ammonia, and all deleterious ingredients.
