Fourth Annual Tour.

The Brainerd Gun Club are preparing for their fourth annual shooting tournament which will take place on Thursday and Friday, June 23rd and 24th, and will leave their printed card and prospectus to the same effect. The event will draw a large number of sportsmen from various sections of the country to this city on that date, and will be a most successful tournament to be held in the northwest this season. The prizes are ample and the sport is of the highest order. The members of the club are already coming in. The old grounds are the finest in the northwest, and of easy access by the railway.

 Mrs. Ed. Hall and family arrived here from Wisconsin last Tuesday, and Mr. Hall will arrive in a few days with the family.

We are getting pretty numerous on this way, and it is a common thing to be called to attention by a woman who is driving a horse and buggy, and she says they got after Dr. Dykeman's shop they mistook the place and one was killed.

We saw by an article in the Journal that there was quite a horse race in Garrison recently, and we are sorry to think we have people in our midst who are ignorant of the facts on both sides of the story. The article would indicate that there was a race of 800 stodes, but nothing was said of the race of 800 which was offered in exchange for it. It would be well for the editor to get his news-mongers to sign their articles in cases of this kind so they would be able to tell the blame successfully where it belongs. We think it is the opinion from Garrison would mind their own business and let other people's affairs they would be better off. If Mr. Hill acknowledged to the writer that Mr. Coffield presented him the note for \$65 in exchange for the note he gave Mr. Hill for \$20.

The Opportunity Has Come.
 The time has come when the future prosperity of Brainerd and the region is dependent on the success of the lumber trade in the center of one of the richest states in the Union, possessing one of the best water powers on the continent. The finest and largest saw mills in the state, the principal source of the great northern Pacific coast, and the most successful and profitable of all, are situated here, and the time has come when the people of this region should be prepared to take advantage of this opportunity.

The Ovensboro, Kentucky, Weekly Messenger, contains the following: Mr. D. R. Elder, of Brainerd, Minnesota, who has been a resident of this city, will be married on June 10, 1905. The wedding will be equally celebrated at the home of the bride's parents, Mr. and Mrs. Philander Road, and the groom will be leaving on the 6 o'clock train for their Minneapolis home. The bride is well known young woman and Mr. Elder is a prosperous farmer.

An inquiry proved the truth of the above assertion, and Mr. Elder left on Tuesday night for Owensboro where he was to be married. It was ascertained in all reports, and was able to solve the mystery, which he had been able to solve. Congratulations are extended the couple in advance by the friends of Mr. Elder in this city, and they will give a hearty welcome to this city. It is a most happy occasion, and Mr. Elder is connected with his brother, J. M. Elder, in the insurance and real estate business, and is one of the substantial business men of the city.
