The committee on credentials was at work, the following resolution was read to the convention and unanimously adopted: That the committee on credentials be and they are, to inquire into the matter and bring both sides of the contest in Milling and to report thereon to the convention on the 10th inst. We also endorse the resolution of the committee on credentials of the 46th legislative district, which was adopted at the convention at Brainerd, Minn., on the 28th inst. We also endorse the resolution of the committee on credentials of the 46th legislative district, which was adopted at the convention at Brainerd, Minn., on the 28th inst.

The large saw mills in Duluth have closed this season after a few days. The poor logs and saw stock on hand is the cause.

It looks as though the free silver Democrats would control the next state convention, and it is certain that every effort will be made to combat our state with the populists.

The Democratic county convention for the election of delegates to the state convention at St. Paul on Tuesday last, was held in this city yesterday. It is generally understood that by the free silver wing at least, that delegates favorable to the Chicago convention will be elected.

This is the way they speak of Congress. McCleary, who will address the people of our Crow Wing county tomorrow evening at the opera house, will make a strong appeal in favor of fact with a lot of arguments.

The Northern Pacific railroad, including all franchises and all branches of the same, was sold to Superior Saturday afternoon by a representative of the United States. The property was bid in by President Winters for the newly organized Northern Pacific Railroad Co., which it is reported, will assume control of the property about September 1st, and is the greatest sale of property on record.

A number of farmers was held in Kandiyohi county last Saturday to derive means to raise money to stop the sale of the land capital at St. Paul. Resolutions were passed declaring that the creation of a new capital at St. Paul was a violation of the constitution. They also resolved to support the property of the United States.

Nearly two hundred Democratic daily newspapers throughout the country, in the north and west, with the east, have bolted the nomination of Bryan. These newspapers are now supporting the Chicago convention. They are now supporting the Chicago convention. They are now supporting the Chicago convention.

Think He Knows More.
Some of the newspapers are endeavoring to worry at my expense in their articles. I have written in my paper and in my newspaper, and I have written in my paper and in my newspaper. I have written in my paper and in my newspaper.

Another thing which is worrying the people is the question of the silver. It is a question of the silver. It is a question of the silver. It is a question of the silver.

Donnelly's Tale of Woe.
When Ignatius Donnelly arrived here from St. Louis and went to the realization that he had not been a candidate for the presidential nomination he wrote the following:
"Our next is woe of the whole business. Mr. Owen can take charge of the People's party. We shall retire from the field. We shall retire from the field. We shall retire from the field."

What the People Want.
The people want a government that will protect their rights and interests. They want a government that will protect their rights and interests. They want a government that will protect their rights and interests.

What the Front West.
One ounce of gold, American coin standard of fineness, that is 900 parts pure gold to 100 alloy, will contain gold worth \$100.00. Sixteen ounces of silver, American coin standard of fineness, that is 900 parts silver to 100 alloy at the rate of \$1.25 per ounce will contain silver worth \$200.00.

How Do You Like Them?
The following are among the heartiest supporters of Bryan and Sewall. Head the list and then ask yourself the question, "Shall the destinies of this republic be intrusted to such men?"

McKinley Talks Sound Finance.
At the railway station, in Alliance, Minn., on Monday, July 29th, McKinley made a speech in response to a call for a speech. In response Mr. McKinley said:

All of us are interested in the welfare of our country, because in the welfare of our country is the welfare of every citizen. It is the duty of every citizen to do his part for the good of the country. It is the duty of every citizen to do his part for the good of the country.

DISHONEST NEVER PAYS.
The man who is dishonest never pays. The man who is dishonest never pays. The man who is dishonest never pays.

When the People Will Be Satisfied.
The people will be satisfied when they see a government that will protect their rights and interests. They will be satisfied when they see a government that will protect their rights and interests.

The people will be satisfied when they see a government that will protect their rights and interests. They will be satisfied when they see a government that will protect their rights and interests.

GERMAN-AMERICANS
THEY ARE ALMOST UNANIMOUS FOR SOUND MONEY.

Mr. Gustav H. Schwab is president of the German society of New York city and is therefore in touch with German and German-American in this country. Being also a prominent member of the German society, he is familiar with the views of German-Americans on the question of money.
