No. 10 arrives from the West at 1:30 p. m. Departs from Brainerd at 1:45 p. m. Daily except Sunday.

BOUND, GAGGED AND ROBBED.

Masked Highwaymen Relieve a St. Matthias Farmer and His Mother of Nearly \$1500 and Escape.

One of the most daring robberies ever committed in this county occurred at St. Matthias on Saturday last, at which time Robert Magee and his mother, Mrs. Maria McGee, were relieved of nearly \$1500 in cash, which was secured on the premises, having been withdrawn from the bank and laid for safe keeping during the excitement incident to bank failures last fall and winter. The affair occurred as follows, according to the gentleman's story:

On the afternoon in question Mr. Magee had been to the post-office for his mail and some two miles distant, and was returning when he was confronted by two masked men who sprang from behind trees by the roadside and covered him with their revolvers, accompanied by the command "throw up your hands." It is unnecessary to state that the order was obeyed, and while one of the masked men held a gun within a few inches of Mr. Magee's head, the other rubber professed ropes and proceeded to tie his hands securely behind his back, then took him into the woods where they could not be seen by parties passing on the road, and here his feet were tied together and a sack was placed over his head, and another rope tied around his neck to keep the sack on, and he was warned that if he made any attempt to attract attention he would pay the penalty with his life. This occurred at about 4 o'clock in the afternoon, and with Mr. Magee tied and blindfolded as above related, the two men waited until dark, when his feet were released, and he was walked between the two men to his farm house, where he was secured by himself and his mother. Arriving at the house Mrs. Magee was treated in the same manner as her son had been, and the two were tied to the chairs in which they were seated. They were then informed that the object of the intrusion was for the purpose of getting possession of the money which they knew was secured somewhere about the house. When informed as to the location of a small sum in a cupboard the thieves stated that they were not informed where the large sum of money was kept that they would be the building down over their heads, and drove them to the barn. This threat had the effect of inducing Mrs. Magee to tell them the location of a sum of money \$1500, but after getting possession of this they demanded that they be told where the remainder was which the eldest knew Mr. and Mrs. Magee had. About this time Mrs. Magee succeeded in getting loose from the ropes which held her, and got outside the door where she screamed for help, but was caught before her cries attracted attention, being knocked down and gagged. The men persisted in their efforts to get information as to the location of the treasure, and after removing the gag from the lady's mouth, they began preparations to fire the house making the remark that if they burned them where they were there would be no one to give the history of the robbery to the authorities, and at this point Mrs. Magee told them where something over \$1000 was kept which had been buried outside the house.

The masked men had no difficulty in locating the cash, a large part of which was in silver, and after telling them that if either left the house before daylight they would be shot down the men departed with their booty. Before leaving, however, one of the fellows stated that the reason the money was taken was because his business was in such shape that bankruptcy stared him in the face, and he was compelled to resort to robbery, and that it would be returned in November if no effort was made to discover who they were, and also that Tuesday's mail would bring him \$1000 for the amount.

The men were of medium size, the one and the other well dressed, and the ropes used for binding twice around.

The men each shook hands with Mr. and Mrs. Magee before they left, and went through the corn field back of the house, where their tracks were found the next morning.

A Destructive Fire.

Southeast Brainerd was visited by the fire-flood on Monday morning at 4 o'clock, at which time the store building owned by J. G. Bakhal and occupied by Högberg & Johnson with a stock of groceries, and Frank Matson's dry goods stock, was completely destroyed, together with both stocks of goods. A small hand lamp was left burning in the dry goods store, and the fire is thought to have originated from the explosion of the lamp. When the blaze was discovered the entire building was a mass of flames, and the fire department could do nothing to prevent the destruction of the property so far advanced was the fire when they arrived. There was \$4,000 insurance on the building and stock, the Keene & McFadden agency having \$700 on the building, \$250 on the Good Templars altar in the second story, and \$2500 on the dry goods stock, while the Elder agency had \$1000 insurance on the grocery stock. The new Northern Pacific Road had several carloads which had been left in the hall upstairs.

Deerwood Items.

School opens next Tuesday with Miss Jeanette V. Viije as teacher. Our farmers will very soon be through haying and a fine crop is reported.

Mrs. L. S. Butler, of West Superior, spent last Thursday in viewing the sights of Deerwood.

Quite a number of men have left for Dakota from here and all report plenty of work and good wages.

Miss Mahol B. Patterson will leave for Brainerd Monday evening to resume her studies at the high school. The John Keene Brotherhood of the Presbyterian church of Brainerd will hold picnic at Serpent lake on Labor Day.

Dan Campbell has been cutting the farmers' grain with his new Deere plow and his work has proven very satisfactory so far.

Mr. Rathron has taken charge of the Deerwood Inn since the departure of Mr. Luther. All wish him success in his new undertaking.

Mr. and Mrs. J. R. Berryman and Miss Dora Howe, all of Madison, Wis., are spending a few weeks with Judge and Mrs. Viije at the cottage.

Judge Viije and family of West Superior, are spending the months of August and September at their cottage at Point Argenteau, Serpent lake.

We are pleased to learn that Mr. Rathron will be our next Sunday school superintendent. The people of Deerwood do well to attend the Sunday school which it is hoped there will be a larger attendance in future.

A SKEETER.
Couldn't be Better.
That's the opinion of the best dressers on the state we make to your measure. We really do not see how there could be any improvement in fit, finish or style—any are perfect in every way. When your suit is made by the great Chicago Tailors, M. Bore & Co., there's a feeling gone with your purchase that you get your money's worth. All wool suits—tailor measure—backed by a guarantee. L. M. Koss, Agent.
White Dome Geyser Yellowstone Park.
"A mile and a half from the Fountain Hotel, and easily reached by bicycle, tourist wagon, or by walking, lies a hidden basin full of nature's caprices. At the entrance, as if on guard, stands the immaculate White Dome. As one approaches, he almost expects to be challenged and asked for a countenance. If such challenges are given, it is in a courteous fashion, the form of a geyser eruption, for the white dome is a geyser. It is not unlike the Castle Geyser, or the White Plume of the Yellowstone. The geyser is a very white rather dome-shaped mound, built up from the scoriae of its own eruptions, and is the most conspicuous feature of the local scene. It is perhaps 25 feet high, with a circumference at the base of 75 or 100 feet. The eruptions come at intervals of from twenty to forty-five minutes, being somewhat irregular, and the water is thrown to a height of from ten to twenty-five feet.

A HUGE CELEBRATION.

Labor Day Will Be Observed on a Grand Scale in Brainerd This Year—Arrangements Are Practically Completed.

The gentlemen who have had the handling of the details for the Labor Day celebration are certainly entitled to great credit for the amount of work done and the successful manner in which the plans have been carried out. There has been very little change in the program from that announced last week with the exception of the time when the speaking and singing will take place which will be in the forenoon immediately following the close of the parade instead of at 2 p. m., as heretofore advised. The base ball games will be held between the Staples and Brainerd nine and will occur on the common in the west end of town near the bridge.

Mr. R. Alder, W. P. Buckley and C. C. Kyilo, the base ball committee, have completed all arrangements and a hot game may be looked for.

The horse race and ladder climbing contest between the different fire companies will be a spirited affair.

On Tuesday evening at the meeting of the executive committee W. H. Thomas, A. F. Ferris, T. Toobey, GAMES, SPORTS AND PRIZES:

BICYCLE RACE—Free for all 5 miles; First prize, silver cup, \$10.00, from Wm. M. Drumhull; second prize, cup, \$5.00, from Base & Base; third prize, bottle wine, \$2.50, from G. H. Hansell.

LADIES' BICYCLE RACE—One mile; First prize, ladies' gold chain, from Mrs. F. G. Simulberg; second prize, bicycle lamp, \$2.50, from A. L. Hoffman; third prize, elegant coffee pot, \$2.50, from Slipp Bros.

ONE HUNDRED YARD DASH—Free for all; First prize, silk umbrella, from J. P. McManis & Co.; second prize, pair shoes, \$2.00, from R. F. Walters.

ONE HUNDRED YARD DASH—For married men over 45; First prize, silver watch, \$10.00, from F. E. Tiffany; second prize, bottle Red Seal, \$5.00, from U. A. Jamieson; third prize, pair slippers, \$1.50, from Ed. Johnson.

FIFTY YARD DASH—Girls over 14; First prize, package merchandise, \$3.00, from Fred Lehas; second prize, one dozen photographs, \$3.00, from S. D. Rydell; third prize, work table, \$1.50, from G. M. Farr.

GIGAR RACE—50 yards; First prize, box cigars, \$3.00, from J. H. Irlbe & Co.; second prize, bottle wine, \$1.50, from Geo. Gardner.

SACK RACE—50 yards; First prize, cup, \$2.00, from Jas. Hawkins; second prize, bottle and box beer, \$2.00, from R. K. Barker; third prize, ham, \$2.00, from Koenig & Venowite.

THREE-LEGGED RACE—20 yards; First prize, one bill, \$2.00, from Hees & Son; second prize, bottle wine, \$1.50, from J. E. Waller; third prize, box cigars, from J. C. Jamieson.

Pretty Good as It Is.

Ex-Governor Alquist says "the farmer ought to be getting \$1.50 per bushel for his wheat, and that he would be getting it under it to 1 from Chicago," remarks the Chicago Inter-Ocean, and the Omaha Bee very pertinently adds "He can get more than that today if he will take his pay in Mexican dollars."

Take the Children Along.

Give the children a chance to come to the State Fair. It will do them good and it will do you good to see them enjoy themselves. There will be abundant to interest and amuse old and young. On three days there will be balloon ascensions. The balloons will ascend to the dizzy heights of a mile or more and bear from their talons and descend to the earth, by clinging to parachutes, a species of umbrellas. One tries a man will take up a dog with him and drop the dog over board attached to a parachute. A man and woman will make ascents in separate balloons and meet someone who can reach the highest point, leap from the balloon and return to the earth in the shortest time. You will enjoy seeing this yourself—so will the children. Moral—Go to the State Fair, Sept. 6 to 11, and take the children.

Why Snappy Houses Flourish.

The country merchants who feel encroachments of the supply houses would do well to study their methods as an exchange. The city supply houses reach out after trade; they advertise heavily and put their wares and prices before everybody, making it appear that they are selling the cheapest. If the country merchant would get the business he should have had much to be said for it. Getting a store full of goods won't do it. You may sell to a good share of the people who visit the store, but have about the same number who never step into your doors, and who you might sell goods to! Don't be afraid to let people know you are doing business and want their trade. The business men who see doing this throughout the country to-day are the ones who are making money.

Sure to Come.

Two years ago a Minneapolis showman cheated The Herald out of a bill of \$2,500 and this week a gasoline store exploded and burned him to death. The beating of printers bills is a dangerous practice, for although the extortionist sometimes wins it is always sure.—Anoka Herald.

Items from Staples.

From the Tribune.
The 5 year sentence imposed on O. D. Ellis for horse-stealing was reduced by the board of pardons to 3 years. This will set him at liberty in about a year.

Word has been received that Storm Corrigan is not improving very fast, and it is doubtful if he will ever be able to railroad again, as we were told his back was permanently injured. His many friends here and up the road wish him a speedy recovery.

Geo. Schoumaker, who has charge of the electric, is in the sanitarium with an injured finger. He dropped a casting on one of his fingers on his right hand about four weeks ago and lost half of his finger. It is healing slowly.

The railroad restaurant and lunch room in Fargo conducted by H. H. Waco, was burned out on Saturday last. Mr. Waco's loss, in stock and fixtures, is estimated at about \$1500, and was uninsured. The fire started about 1 o'clock Sunday morning, we have not learned how it originated.

A novel sight was seen on our streets Saturday. A man from Brainerd, enroute to the Clondyke, passed through with a small canvas covered wagon drawn by four huge dogs. He has seven dogs, all told, but only uses four at a time. Six of the dogs are half mastiff and half St. Bernard, while the other is a full blooded Newfoundland. One of the mastiffs gets ugly once in a while, and he can not do much with him until he sets the Newfoundland onto him. The Newfoundland gives him a good whipping, after which he is shut for quite a while. He values his team at over \$1000.

Two \$100,000 Trains.

On the first of June, 1897, the Burlington Route placed in service two trains, Minneapolis and St. Paul and Chicago, two new trains, built at a cost of considerable more than \$100,000 each, and recognized by the fact that they have seen them, as the First Train on Earth.

The trains are lighted by electricity, hauled by steam, have wide vestibules, compartment and sleeping cars, six-cars dining car, a buffet-lunch car, chain cars—everything in brief, that any other train has. No extra fares.

He is well Liked.

The Anoka Union contains the following complimentary notice of a former Brainerd citizen:
Out at the Northern Pacific station in this city is my ideal of a station agent, one in whom I'm well pleased. A more accommodating, agreeable, active, progressive fellow you would run across in seventeen states. Never saw one who was willing to do so much for all, rich or poor, high or low, as he. If it don't matter whether a person is a patron of his road or not, it's all the same, he'll go a mile and back to perform a favor. His name is Thomas James Esharkey.

Every teacher or scholar in the public schools of the United States, 16 years of age and over, should have a copy of the Northern Pacific's new and beautifully illustrated book, "Wonderland '97." It is especially adapted for use in the public schools in the study of geography and history, and as an aid in the study of the Northwest and its varied and vast resources.

The book has a large amount of valuable data, but is not by any means a comprehensive one. It is a gem of the North, the remarkable wheat land of the country, and the Pyramid Peak, where hundreds of thousands of earth are raised, are described.

Yellowstone Park and its wonderful oxen and lakes, waterfalls and geysers have a long descriptive list. A chapter on several of the richest mining districts of the Northwest, telling how they were discovered and developed will be an interesting one. Four great mountain, old volcanoes, on the North Pacific Coast have a chapter devoted to them which is one of their history.

A new mountain range, one almost unknown in the Northwest—corner of the United States, is brought to the reader's attention. It is a glacial region, with deep, beautiful lakes, full of new varieties of trout, made famous by a Rear Admiral of the U. S. Navy. Alaska also has a place in the pages. The book has a handsome cover and is beautifully and profusely illustrated.

Any teacher or scholar can have a copy by sending six cents in postage stamps to Chas. S. Fee, General Passenger Agent, St. Paul, Minn.

Have an opportunity which should not be lost to obtain something of interest and value, almost for nothing, and our schools should reap the benefit of it.

County Examinations.

I will hold teachers' public examinations on August 20th and 21st, and on September 2nd and 3rd, in the Washington school building, Brainerd, beginning at 9 a. m. each day. I wish to meet all the teachers of the county at the meeting of the Crow Wing county educational association August 25th.

J. A. Willard, County Superintendent of Schools.

Black Sand Pool Yellowstone Park. "No person who visits the Upper Geyser Basin should fail to see Black Sand Pool. It lies to the south of the main Upper Basin, and is reached by a road leading past the beautiful Emerald Spring. Black Sand Pool is an oval spring some 40 feet long by 20 or 25 feet wide. The water of a light blue sulphur or turquoise color—it is not easy to name the precise color in many instances—extremely beautiful, from whose surface the steam constantly rises. The great peculiarity about it is that the scorching sides, which are in places 100 feet high or more, are composed of black, probably decomposed obsidian, sand."

The above is taken from "Wonderland '97," a new book published by the Northern Pacific Railway, and sent to Chas. S. Fee, Gen'l Pass. Agt., St. Paul, Minn., for it.

Finest Train on Wheels.

That is what Mr. Pullman says of the Burlington's new train between Minneapolis, St. Paul and Chicago. Finished throughout in royal fashion, with wide vestibules, steam heat and electric light, and composed of compartment sleeping car, a standard sleeping car, a dining car, a reclining chair car, a day coach (with back seat). This is a costly, beautiful, luxurious six cars on earth. Steam heated, electric lighted. Wide vestibules. No extra fares.

Palaces on Wheels.

Pistols and Pestles.

The duelling pistol now occupies its proper place, in the museum of the collector of relics of barbarism. The pistol ought to have beside it the pestle that turned out pills like bullets, to be shot like bullets at the target of the liver. But the pestle is still in evidence, and they treat the liver as a friend, not as an enemy. Instead of driving it, they coax it. They are commended on the theory that the liver does its work thoroughly and faithfully under obstructing conditions, and if the obstructions are removed, the liver will do its daily duty. When your liver wants help, get "the pill that will."

Ayer's Cathartic Pills.

ADVICE TO FARMERS.

Proper and Advantageous Way to Ship.
The independent shippers of grain to Minneapolis and Chicago begin to be able that they have a common objection to surmount. The professional grain shippers over a dozen big state tributaries have grown rich from the farmers' wages by a twentieth years' stay at their stations. Some of them have had more success than they ought to have had. They have not only prevented the farmer from getting his grain to market, but they have also prevented the farmer from getting his grain to market. They have not only prevented the farmer from getting his grain to market, but they have also prevented the farmer from getting his grain to market.
