## A FITTING RECOGNITION.

Labor Day was One Continual Round of Pleasure and Enjoyed by All.

On Monday last, the day set apart by congress and also by the State legislatures of this country as a holiday for laboring men, woman and children, Brainerd did herself proud and the first public observance of Labor Day in this city will long be remembered. The rain had a tendency to get a damper on the morning exercises but notwithstanding the elements the program was carried out. The parade, while not as imposing as it would have been under more favorable conditions, was creditable and after marching through the principal streets with music from the Stuyvesant speaking took place and was listened to with attention by the audience. The Quartette and Germania Maennerchor furnished some very fine music. The exercises were opened and closed with prayer by Rev. President Johnson introduced the speakers, Rev. Father Lynch and Hon. H. C. Stevens. The exercises occurred immediately after dinner and the entire afternoon was taken up with them, the results of which were as follows:

**WHEELER RACE.**  
Bicycle race, 5 miles—Fred Burton led, other exp. John Thompson took one; Z. H. Rosenberg 3rd, bottle of wine.  
Ladies bicycle race, one mile—Mrs. F. Locke led, ladies gold chain; Miss Annie Swanson 2nd, bicycle lamp; Miss Sofia Moe 3rd, coffee pot.  
One hundred yard dash—J. Moore led, silk umbrella; W. Mincer 2nd, pair of shoes.  
One hundred yard dash, married men over 45—John Haber led, mackerel can; B. Bowers 2nd, bottle of wine; F. French 3rd, pair of shoes.  
One hundred yard dash, over 14—Miss Nina Nykosen led, package merchandise; Miss Lizzie Springer, 2nd and Helen photograph; Miss Mary Wallace 3rd, work basket.  
Cigar race—Cland Kyle led, box cigars; Alva Hall 2nd, bottle wine.  
Cigar race—W. Mincer led, one ham; Frank French 2nd, collar and cut box; Alva Hall 3rd, one ham.  
Cigar race—H. P. Pary and J. Guyett led, \$2 due bill; F. Briggs and A. H. Bennett 2nd, bottle of wine; L. Howe and Sam Engelbrecht 3rd, one ham.  
Fut man's race—Cland Kyle led, hat; H. Fitzgibbon 2nd, bottle wine; Standing broad jump—C. Kelly led, pair shoes; Fred McGivern 2nd, gallon wine; Al Mattos 3rd, box cigars; Running broad jump—E. H. Simmons led, traveling bag; Fred McGivern 2nd, bottle Greenleaf.  
Wheelbarrow race—Cland Kyle and F. Enright led, 100 pounds flour; J. O'Brien and J. Guyett 2nd, one-half gallon rye.  
Egg race for girls—Mabel Brown led, jewelry; Olga Johnson 2nd, one bill, \$2.00; Ida McGivern, 3rd, cyclo-meter.  
Potato race—W. Connors led, \$2.00 due bill; C. Schill 2nd, pocket knife; Lander climbing contest—A. H. Bennett led, case beer; F. Briggs 2nd, box cigars.  
Hose race—Hose Co. 1 and 2 divided the honors and prizes, end of the contest and case of beer.  
Standing high kick—W. Bane led, hat; J. Douglas 2nd, bottle rye.  
Standing high jump—R. C. Croyer led, box cigars; Fred McGivern 2nd, old calico.  
Tug of war, married men against single men, lined up as follows: Married men—Albert Otto, F. Jents, N. Penaley, Henry Hurley, Ray Paine, Smith Gray, Sparks, John Boyls, Sam Ellis, Wm. Stearns, Gilford Holmes and Al. Mattos; Single men—Harry Blackburn, O. Lindson, Fred McGivern, P. Hansen, J. Douglas, J. Anderson, H. Peterson, H. McNab, A. Sundline, T. Edwright H. C. Johnson and H. Bane. The married men won the contest and first prize, one of beer, second prize, box cigars.  
Prof. Stoteson won the slow race against Senator Blackburn, of Kentucky, prize being one-half gallon of old rye.  
In the ball game Brainerd defeated the Staples nine in a game of six innings, score 9 to 5, and took the prize of \$15.

## AT THE DANCE THE FIRST PRIZE FOR BEST DAILY WALKER WAS AWARDED TO MAN OLIVE M. STEVENS.

Large portrait, and second prize to Miss Mamie Hamilton, pair ladies' shoes.

Prize for best gentlemen waiters was given to Fred Boor, picture.

The Northern Pacific boiler makers captured first prize for best appearance in the parade and the barbers second.

The cake walk was participated in by the following: Harry Fitzgibbon and Stretch; Somers "taking the cake"; Thomas Perry, leader; Pete Bivany and J. J. Guyett; Fred French and Ed. Drennon; Ed. French and Ed. McO'Brien; Robert Perry and Harry O'Brien.

There were no files on the boiler makers on Labor Day and their appearance, 48 strong, in the parade was one of the features of the occasion.

The race, presented many of the civic societies from turning out, more especially on account of the damage it would do to their uniforms.

The dance in the evening at Gardner hall was one of the largest attended events of the kind ever held in the city, the cake walk bringing out a good many who desired to see the much anticipated E. T. Ingraham.

The barbers were in line and attracted considerable attention. The dance in the evening at Gardner hall was one of the largest attended events of the kind ever held in the city, the cake walk bringing out a good many who desired to see the much anticipated E. T. Ingraham.

One fine feature of the occasion was the fact that financially it was a net success. The Young Men's Christian Association took in a net profit of \$217.50 in favor of the plaintiff.

**Y. M. C. A. Penmanship Contest.**  
What is needed today is an "all-round man," a man developed in all his powers, mental, physical, spiritual. The Young Men's Christian Association seek to give just such a man to the city. The evening classes, lectures and reading room and library are for the development of the mental. The Bible classes, men's meetings and special meetings are for the spiritual. But a man is no more a perfect man without the physical than he is with the mental and physical without the spiritual. The penmanship contest on the morning of Labor Day is one means used for the physical development.

The contest consisted of five events and each man must enter all the events in order to get sufficient points to gain the contest. The following are the events and the points made by each man:

Name	Points
W. Connors	100
C. Schill	80
F. Briggs	60
J. O'Brien	40
J. Guyett	20

This is the first contest of the kind ever held in the Association, and it is nothing more than justice to say that in some of the events the boys had had no previous, and it is difficult to make points without. Twelve and one-fifth seconds is the first that counts, and the track egg so damp it was hard to make good time. Some of the events were not entered, bringing the points low in those cases. Future contests will show a must better record.

## THIS IS COURT WEEK.

David Maxwell is indicted by the Grand Jury for Murder in the First Degree.

District court opened Tuesday morning for the September term, Judge Eolland presiding, and from the present outlook it will continue in session the greater part of next week.

The grand jury finished its labors yesterday afternoon, having returned six indictments, one each against Cove Croy, Neil Tyson and Stella Brown, for keeping houses of ill-fame, Fred Perrell for attempted robbery, Jacob Kirchoff for grand larceny in the second degree, and David Maxwell for murder in the first degree.

In the case of the woman charged with keeping houses of ill-fame, they were arraigned and plead guilty, a fine of \$25 in each case being imposed. Fred Perrell plead not guilty to the indictment and the court appointed P. J. Murphy to defend the prisoner. The court also appointed W. H. Corwell to defend Jacob Kirchoff and Judge Alderman to defend David Maxwell.

Among the civil cases disposed of is that of C. J. Berrill vs. P. H. Ormay, in which the jury disagreed. Mary Waldrop vs. city of Brainerd and A. A. Stenslow, verdict for plaintiff of \$100.

J. L. Côté vs. A. J. Jolinsky, under instructions from judge, jury returned verdict of \$217.50 in favor of plaintiff.

L. E. Lum vs. Dowe and Howe, dismissed.  
Phelps Wind Mill Co. vs. John Baber, dismissed.  
City of Brainerd vs. city of Brainerd and First National Bank referred to J. H. Warner to take evidence and report.

J. J. O'Neil vs. Con. O'Brien, dismissed.  
Frank H. Hall vs. John Baber, referred to G. W. Moody.  
A. Fleming vs. Henry Moberg, dismissed by plaintiff.

First National Bank vs. C. F. and Ethel E. Rindred, to be taken up in October before judge of another district.

Nob. Holm vs. Chas. Swanson, continued.  
Ole P. Erickson vs. J. F. McGuire & Co., court case.  
Frank H. Hall vs. James McCabe, referred.

The case of the State vs. B. Benson was settled on the payment of \$40 by the defendant, and in the case of the State vs. Rev. Amos Wheeler, the fine imposed by the lower court was paid.

In the appeal case against J. G. Taylor for cruelty to animals, the case was dismissed.

There are three more civil cases to be tried this term, besides the criminal calendar, which will occupy the situation of the court the greater part of next week.

The attendance at the Northwest Editorial Association which is being held at Walker today is somewhat limited owing to bad weather and the fact that many of the members of the association are in attendance at the state fair. Among those who were in city yesterday on their way to Walker were Alvah Eastman and wife of the St. Cloud Journal-Press, L. Osborn and wife of the Ogden News, J. G. Norby and wife of the Ada Herald, C. C. Eastman of the Wadena Pioneer, and C. C. Trenham of the Alexandria Citizen.

Between 60 and 70 naturalization papers have been issued by Clerk of Court Parker since court opened on Monday.

## White Dome Geyser Yellowstone Park.

"A mile and a half from the Fountain Hotel, and easily reached by bicycle, tourist wagon, or by walking, lies a hidden basin full of nature's caprices. At the entrance, as if on guard, stands the immovable White Dome. As one approaches, he almost expects to be challenged and asked for a counterpane. If such challenge is given, it is in a curious fashion, in the form of a geyser eruption, for the white dome is a geyser. It is not unlike the Geysers of the White Sulphur of the Upper Geyser Basin. The geyser is a very white rather dome-shaped mound, built up from the secretion of its waters, and is the most conspicuous feature of the locality. It is perhaps 25 feet high, with a circumference at the base of 75 or 100 feet. Its eruptions consist of intervals of from twenty to forty-five minutes, being somewhat irregular, and the water is thrown to a height of from ten to twenty-five feet."

FRIDAY, SEPTEMBER 10, 1897.

The Labor Day celebration was a hummer.

In the gubernatorial election contest to increase until the campaign opens in 1898 it will be a howler indeed.

Parvoters in Vermont reached the dollar mark this week. The farmers will soon become the millionaires at this rate.

The Sunday Minnesota Times contained an excellent write up of old Ft. Ripley and the article was illustrated very accurately.

According to the Princeton Union there is no regard whatever in that section for the game law. The same is true in many localities.

Mrs. LEASE and Gen. James Baker crossed swords at Mankato one day last week. It is needless to say that the woman had the last word.

Some one has tried up the situation correctly when the remark was made that Towns in politics will soon be like R. G. Ingersoll in religion—a preacher without a church.

Courtesy is rapidly increasing the production of gold, the deposits in the branch mint at Denver being four times as great in August 1897 as during the same month last year.

Yves Oglethorpe died in the right hand in the country, his father's ship having made him heir to \$500,000.00. A boy of 20 years with that much money ought to have a pretty good time.

A Methodist church at Albertville, Alabama, is reported to levy an annual tax of \$10 on its members who use tobacco and that the church is prosperous. This might be a good pointer to most any church.

Marion Nevins submitted a report to the city council at its last meeting showing that the city was running behind financially every month. This is not a pleasant state of affairs, and should be remedied at once by reduced expenses.

The Ads Index remarks that it would be well to the politicians for the people to get together in state convention and say who they want to represent them in the United States senate. Does Bro. Lightbourne speak from experience.

NONAM county sends up a protest in regard to the state debtors in that section while the drainage commission reports everything in first class shape. There's a discrepancy somewhere, and it is probable that the people who live in the vicinity of the work are the most competent to judge.

What Towns, Lind and others didn't say about what and where last fall would make a big book, according to their present statements. The present condition of affairs has produced that "fired feeling" so often read about to such an extent in the silver party of Minnesota that a majority of the followers of the white metal agitation would take it all back if they could.

According to the mayor's report to the council, the receipts from the electric light plant for the first seven months last year were \$5,096.74, and the expenses \$3,264.48, or over four-fifths of the receipts. These figures speak volumes for the management last year. The council, however, should have no time in finding out why expenses are so much greater this year and receipts less, and remedy the matter at once. It is a duty they owe to the tax paying public.

THE CITY COUNCIL.

Mayor Nevins Calls Attention of the City Fathers to the Financial Condition of the City.

The city council met in special session last Friday night, because Monday the regular time for meeting was Labor Day, a legal holiday.

A communication from the mayor was read and accepted submitting a summary report of the receipts and disbursements of the city during the first seven months in 1896 and 1897, as follows:

HEARSTEN, MINN., Sept. 8, 1897. To the Hon. Board, the City Council, Brainerd, Minn.

Mr. PARSONS: I have the honor to submit for your consideration a summary of the receipts and disbursements of the city during the first seven months of the present year, also a comparison of some items of receipts and disbursements for the corresponding months of the present year. I wish further to call your attention that we cannot expect very much revenue for the balance of the year to accrue from licenses, or from any tax collections from the county and town, you may be able to see some way of cutting down expenses, so as to save our pockets from increasing each month over our receipts, and perhaps eventually arrange so as to have our city run at a profit.

I am respectfully yours, JOHN N. NEVINS, Mayor.

SUMMARY OF THE RECEIPTS OF THE CITY DURING THE FIRST SEVEN MONTHS OF 1897.

Table with 2 columns: Description and Amount. Includes Total receipts, Total disbursements, and Balance.

There is no regard whatever in that section for the game law. The same is true in many localities.

Mrs. LEASE and Gen. James Baker crossed swords at Mankato one day last week. It is needless to say that the woman had the last word.

Some one has tried up the situation correctly when the remark was made that Towns in politics will soon be like R. G. Ingersoll in religion—a preacher without a church.

Courtesy is rapidly increasing the production of gold, the deposits in the branch mint at Denver being four times as great in August 1897 as during the same month last year.

Yves Oglethorpe died in the right hand in the country, his father's ship having made him heir to \$500,000.00. A boy of 20 years with that much money ought to have a pretty good time.

A Methodist church at Albertville, Alabama, is reported to levy an annual tax of \$10 on its members who use tobacco and that the church is prosperous. This might be a good pointer to most any church.

Marion Nevins submitted a report to the city council at its last meeting showing that the city was running behind financially every month. This is not a pleasant state of affairs, and should be remedied at once by reduced expenses.

The Ads Index remarks that it would be well to the politicians for the people to get together in state convention and say who they want to represent them in the United States senate. Does Bro. Lightbourne speak from experience.

Palaces on Wheels. The Burlington's new Minneapolis and St. Paul Chicago and St. Louis train consists of a buffet library car, a combination sleeping car, a standard sleeping car, a compartment sleeping car, a dining car, a reclining chair car, a day coach (high back seat). The most costly, beautiful, luxurious cars on earth. Steam heated. Electric lighted. Wide ventilated. No extra charge. Leave Minneapolis 7:20 p. m., St. Paul, 8:05 p. m. daily. Tickets at 300 Nicollet Ave., Minneapolis, 400 Robert Street, (Hotel Ryan), St. Paul, 8-20-11.

Every Teacher or Scholar in the public schools of the United States, 15 years of age and over, should have a copy of the Northern Pacific's new and beautifully illustrated book, "Wonderland, '97." It is especially adapted for use in the public schools in the study of geography and history, and as an aid in the study of the Northwest and its varied and vast resources.

The book has a large amount of valuable data, but not by any means the only feature of its interest. The beautiful Lake Park Region of Minn. the Red River Valley of the North, the remarkable wheat land of the country, and Pyramid Park, where hundreds of thousands of cattle are raised, are described.

Yellowstone Park and its wonderful canyons and lakes, waterfalls and geysers has a long chapter given to it. A chapter on several of the reformed mining districts of the Northwest, telling how they were discovered and developed will be an interesting one to everybody. Some of these discoveries were made in very funny ways.

Four great snow mountains, old volcanoes, on the North Pacific Coast have a chapter devoted to them which gives much of their history.

A new mountain range, one almost unknown in the Northwest corner of the United States, is brought to the reader's attention. It is a glorious region, with deep, beautiful lakes, full of new varieties of trout, made famous by a Rear Admiral of the U. S. Navy. Alaska also has a place in its pages. The booklet has a handsome cover and is beautifully and profusely illustrated.

Any teacher or scholar can have a copy by sending six cents in postage stamps to Chas. S. Fee, General Passenger Agent, St. Paul, Minn.

**No Convictions Made.**  
On Saturday last, the case against O. E. Essner, of Philadelphia, was called in the municipal court and dismissed. The gentleman was charged with having killed two deer at or near Wisconsin lake, but it appeared that a mistake had been made and that the party whom Essner was with had killed the animals and that it had been made up that he was to claim the glory, the case was dropped, as the guide who was the actual guilty party had left the country. Mr. Essner paid all the costs in the matter and came from Philadelphia on purpose to stand trial, and it is almost certain he will not claim game killed out of season again.

Arthur Hastings, who was arrested on a warrant sworn out by Game Warden Albertson charging him with having killed five ducks out of season, was tried on Saturday afternoon and acquitted. The testimony of L. W. Barrell said a boy that they saw Hastings with five ducks was acquainted by the young man and substantiated by the evidence of Louis Barrell that the game was simply decoy ducks made from the skin of ducks with the feathers and stuffed, giving them all the appearance of recently killed birds. Mr. Barrell was recalled to the stand but stated that he could not swear that the birds were not decoys and the defendant was discharged.

**Finest Train on Wheels.**  
That is what Mr. Pullman says of the Burlington's new train between Minneapolis, St. Paul and Chicago. Finished throughout in royal fashion, with wide vestibules, steam heat and electric light, and composed of compartment and standard sleepers, buffet library car, chair car, and dining car, it is without an equal in this country or abroad. No extra fares.

**Brainerd to Entertain the J. O. U. A. M.**  
The second semi-annual session of the State Council Junior Order United American Mechanics will be held in this city on Tuesday, Oct. 15th, and the members of the local branch of that order in Brainerd will make every effort possible to entertain the visiting brothers from various sections of the state in royal style. The best that the announcement has been made that the Brainerd meeting will be honored by the presence of Joseph Powell, National Councilor, who will render much valuable assistance in settling of an unusual nature as this is the first time the National Councilor has visited a state meeting in an official manner. The announcement throughout the state by circular letters will bring a full delegation from every Council, and it will be seen at once that on the date above mentioned we will have a very distinguished body of gentlemen with us. The full particulars of the arrangements for the coming session will be published as soon as made public.

**Two \$1400,000 Trains.**  
On the first of June, 1897, the Burlington Route placed in service between Minneapolis and St. Paul and Chicago, two new trains, built at a cost of considerable more than \$1000,000 each, and recognized by every one who has seen them, as the Finest Trains on Earth.

**River Men Scared.**  
The Afton Age says Ben Clark came up from Brainerd Monday to hire all the drivers he can secure for work on the big job above the Brainerd dam. He secured but one, there being a scarcity of laboring men in town at present. Ben states that the Boom company has a hard run above the dam to take off, and estimates that it will take 76 men at least 20 days to sluice the logs over the dam. All the booms were washed out by recent flood, and the logs are lodged in bad shape among the timber along the banks of the Mississippi. He also reports that the Fremont & Gray drive has reached Pine River, and that near Clump's place the drive is in such a shape as to make it almost impossible for the rear to be returned over the dam this year.

**For Those Who Want The Best.**  
The Burlington's "Minneapolis and St. Paul-Chicago, and St. Louis Limited." Now from end to end. Most costly, most beautiful, most luxurious train ever placed in service on any railroad; in fact, it is pronounced by Mr. Pullman the "Finest Train that ever stood on wheels."

**Lighted by electricity.** Heated by steam. Compartment and standard sleepers, library car, buffet car, a chair car. No extra fares.

**Grand Canyon of the Yellowstone.**  
On both walls thousands of pinnacles, towers, obelisks, and needles seem to be growing like the trees around them. On the south wall there are gigantic buttresses supporting smaller ones. The north wall rises mainly of craggy, jagged, and craggy areca, through which knife-like ridges and tongues of rusty rock are thrust.

Between our rocky perch and Inspiration Point, which stands well out into the canyon an absolute precipice and almost aloof from the main wall, the forest pines half way down to the river. Its dark green intensifies the vivid walls on each side of it.

It also shelters numbers of deer, that can be seen if one wishes to climb down into it.

The pinnacles of rock above us are used by the eagles for nesting purposes. Their nests can be seen, as can also the young eagles.

Sent for "Wonderland '97," a new book issued by the Northern Pacific Railway and read a long description of this Canyon. Sent six cents for it to Cass S. Fox, Gen'l Agent, St. Paul, Minn.

Nels Holm was quite seriously injured on Sunday. Mr. Holm is employed on John Parson's farm near Long Lake and was leading a colt in some manner the animal got the best of him and he was trampled under the feet of the colt, three ribs being broken, one of which penetrated the lung. He was brought to this city for medical treatment.

Fatally shot.

Andrew E. Fritz, well known in this city, accidentally discharged a rifle at Fergus Falls on Sunday and the bullet struck his companion, John Glabier, the latter dying from the result of the wound. Speaking of the accident the Fergus Falls Journal says:

Frank Hunt and others had a camp in the island on that lake and eight Fritz were in the party, having driven out to bring Frank in. About 11 o'clock they were shooting at a target with a repeating gun. A shot had been fired and there was some discussion as to whether the bullet had hit the target, and the boys began to get together to talk it over. Andrew Fritz, who had the gun, pulled the lever to discharge the cartridge, not knowing that the movement also reloaded and cocked the gun. He was so intent on the hammer was raised, and as he went to lower it he touched the trigger and it discharged. As it did so, Glabier, who was advancing, stopped in front of the gun and the bullet struck him in the back just above the hip. It passed through the lungs and lodged just under the skin in front. The wounded man was conscious and he was very anxious that no one should be blamed or convicted in the least for the accident. He felt that he was as much at fault as anyone in stepping in front of the gun.
