A Fine Concert.

The concert at the First Congregational church last Friday evening by the Ladies' Quartette, assisted by Prof. Graham and Judge Alderman, was one of the most pleasing entertainments given in the city for some time. The attendance was large, the spacious auditorium of the church being completely filled. The programme consisted of two parts of seven numbers each, and each number was a musical gem, the Quartette appearing in six numbers, the other consisting of duets, solos, and a trio solo by Judge Alderman and a cornet solo by Prof. Graham. The Quartette was composed of Miss Mary Mitchell, first alto, and Miss Louise Starn, second alto. They are all vocalists and musicians of unusual ability, and under the efficient training of Mrs. A. H. Kelsey, their quartette singing is a pleasure indeed, their voices blending beautifully. They were assisted on cornet at each piece by Prof. Graham. The Quartette sang "Sing, Smile, Sinner," was especially pleasing, and deserves special mention. The cornet solo by Prof. Graham, and bass solo by Judge Alderman, were also greatly enjoyed, both being always pleasing. Mrs. H. J. Kelsey was on the programme for a violin solo, but was unable to appear, being indisposed.

We understand the quartette contemplates giving entertainments in some of our neighboring towns in the near future. We can assure the music loving people of those places a rare treat if they do.

CHICKENS 10 CENTS PER POUND AT BANK & BROS. MARKET.

"The Facial Pulse of New York," an old favorite with the theatre goes in the next attraction at Sleeper opens home this Friday evening. Unlike plays of the class, it does not wear out, shows a constant improvement, and becomes more enjoyable each year. The play, though the ice popular in now in the result of its success and every where favored with large patronage, which is proof positive that it is just the sort of a performance the people desire. The company, a large and strictly first class ensemble of artists, is headed by Stel Mayhew and Wm. A. Leary, late principal comedian with Hanlon's "Superstition," a special feature is made of the wonderful position of the play, and twelve high class specialties are introduced during the second act. "The Pulse of New York" is just the sort of a performance the people enjoy, and that's why they always attend it.

DEBS' SOCIAL PLAN.

THE FIRST COLONY TO BE FORMED IN TENNESSEE.

As a One of \$1,750,000 Three Hundred and Fifty Thousand Acres State Land Acquired—Colonial States Outline the Plan.

Colonel Richard D. Hinton, chairman of the calculation committee of the "Debs' scheme of Social Democracy," has affixed his signature to papers which will transfer to the commission \$100,000 acres of land in Cumberland and Fentress counties, Tenn. Colonel Hinton, who left Chicago recently, is the principal promoter of the colonization plan, one of the originators of it. In fact, he will outline the plan of the projectors of the enterprise as follows:

"The Tennessee colony will be the first organized by the Social Democracy and Colonel Hinton. Next year is the purpose to open similar colonies in Idaho and Washington. Indeed, it is my intention while in the west to make arrangements for similar colonies in those states as well as for that in Tennessee. The land which we have acquired in Tennessee cost \$1,750,000. The Kentucky Trust company supplied the commission with the money with which the purchase was made, the company accepting the commission's bond for \$2,000,000. This will have a margin of \$500,000 with which to inaugurate the colony.

"In establishing the Tennessee colony we shall make no effort to secure political control of the state, but we shall endeavor to get through the colonies which we will establish in the western states. Our purpose in Tennessee will simply be to prove that in a favorable location in one of the older states home and security can be obtained by wage earners under a system of collective ownership of land, transportation facilities and the machinery of production. We believe that the conditions in Tennessee are highly favorable to the establishment of comfortable homes and for the creation in course of time of many industries, the products of which will command constant sale throughout the United States. In brief, the idea which we will develop is similar to that upon which the colonies are organized, except that our organization is political and therein it differs. The colonies have now \$50,000,000 lying idle, and they are entitled to live in peace and comfort. That is the condition to which we hope to bring the workmen who associate themselves with us.

"After the commission is fairly started they will control themselves. The colonists will choose their own administrative officers, and every man will be the equal of every other. The man who will form the colony at the start believes that our movement is their only salvation. It is not expected that they will be the least difficult in maintaining discipline among them. Every man will be expected to do his duty, and his labor will have the reward to which it is justly entitled. No other will be accorded in the community. Any man who is willing to work will be warmly welcomed. Those who are not will be asked to leave. They are not wanted among us."—New York Sun.

RICE LODGED IN HER EAR.
Mrs. Albert R. Birk of Bridgeport, Conn., who was recently married at the home of her parents, Mr. and Mrs. John H. Jennings in Green Park, was compelled to undergo an operation in New York city the other day for the removal of a kernel of rice which had become lodged in one of her ears.
Mr. and Mrs. Birk were observed with rice on leaving the homestead by the happy throng which had assembled to witness the wedding. At the railroad station the performance was repeated.
After leaving the home Mrs. Birk was troubled with a peculiar sensation in one of her ears. She concluded that a particle of the rice thrown had become lodged there. She made several attempts to remove it.
While on her way to New York the piece of rice settled farther toward the drum and began to cause her much pain. On reaching New York the pain had become intense, and Mr. Birk called in a physician. The latter made several attempts to remove the trouble, but was unsuccessful.
It was not until the services of three doctors had been employed that the kernel of rice was removed. Then it had to be taken out in small pieces.
The bride attended a loss of hearing, which it is feared will be permanent.

Secretary Snyder Resigns.

After three years of faithful and most efficient service as secretary of the Y. M. C. A. of this city, Mr. J. L. Snyder at a meeting of the directors on Tuesday evening sent in his resignation as follows, which was accepted, to take effect Dec. 1.

Brainerd, Minn., Nov. 9th, 1897.

To the Board of Directors of the Y. M. C. A. of Brainerd, N. P. Ry. Y. M. C. A.:

Gentlemen—

During the past three years I have served you as Sec. I have sought in every way to promote the good name of your institution and the welfare of the hundreds of young men with you in the work for them. And it is with regret that I find it necessary to close my work with you, and that you accept my resignation at your Gen. Sec. to take effect Dec. 1, 1897.

But as I leave you to enter another field, I do so with the hope and prayer that the work may ever grow and widen into fields of greater usefulness, and that my successor may be a man of more power and ability in reaching men.

With best wishes for the future of the Brainerd N. P. Ry. Y. M. C. A., I am yours respectfully,

J. L. Snyder.

Gen. Sec. N. P. Ry. Y. M. C. A., Brainerd.

Mr. Snyder has two other and better positions in view in the same line of work, but has not made up his mind which he will accept. His departure will be greatly regretted.

His successor has not been selected as yet but probably will be shortly. The state secretary has a man in view who will be sent here temporarily, until satisfactory to the local board will be engaged.
