FORTS CRUSHED!

Sampson Reduces the Spanish Fortifications at San Juan to Ruins.

Not an American Ship Hit nor an American Seaman Injured in the Engagement.

GREAT NAVAL BATTLE TOMORROW.

The Cape Verde Fleet Appears at Martinique and Without Doubt Saturday will Be the Greatest Battle of the Age.

Five Americans Killed on the Gunboat Winlaw at Cardenas.

A bulletin received just as we go to press says: San Juan surrendered at 6 o'clock last evening. The city considerable damaged by the bombardment, and several of the public buildings collapsed. During the bombardment one man was killed and eight slightly wounded on the New York. The flying squadrons has gone to attack the Spanish fleet which has appeared at Martinique.

The forts at San Juan de Puerto Rico were reduced to ruins yesterday by Admiral Sampson and his fleet. The American squadron arrived off the fatal port just before day light. The flagship New York, the battleships Iowa and Indiana, the monitors Terror and Amphitrite and the cruisers Detroit and Montgomery steamed into the harbor slipped for the fray. Word had been sent ahead that the fortifications were to be bombarded—order to women and children, to aliens and non-combatants to quit the place and seek such safety as the onlying hills afforded. The bombardment was opened by "Fighting Bob" Evans with the great twelve-inch guns at the Iowa and the first shot went straight home and did terrible execution and Castle Morro was soon a heap of ruined masonry. Not a single American ship was hit nor an American seaman killed or wounded.

A telegram dated at St. Pierre, Martinique, states that the Spanish torpedo boats Furor and Terror have touched at that point and immediately put to sea and that five Spanish war vessels were in sight bound northward, apparently in the direction of Cuba. The information has every indication of being authentic, and if so the Spanish fleet will line up before San Juan by Saturday, where probably a great naval battle will be fought. Admiral Sampson's squadron consists of the two great battleships, the Indiana and the Iowa, the armored cruiser New York, the protected cruiser Detroit, and the double turreted monitors Furor and Amphitrite, which are likely to prove as terribly effective as the battleships. The five Spanish cruisers are first-class in construction, speed and equipment, and are aided by three torpedo boat destroyers.

The first loss of life on an American ship in Cuban waters since the war began occurred at Cardenas yesterday afternoon. Three vessels, the gunboat Wilmington, the torpedo boat Winlaw and the revenue cutter Hindon, which had been making soundings, tried to sink or capture some Spanish gunboats and were drawn on by masked shore batteries. The Winlaw was disabled and had four men killed and her commander and one man wounded. The other ships were struck by projectiles, but sustained no damage.

The 13th Minnesota regiment Minnesota volunteers has been ordered to San Francisco and from there to the Philippine Islands. Geo. A. Gallagher son of Rev. Gallagher of this city and Ezra Smith, brother of James R. and Walter Smith, are both members of the 13th. The regiment will go through Staples tonight on their way west.

The evidence that the ex-Spanish minister, Polo y Bernabe, has a force of Spanish spies in different parts of the United States reporting to him at Montreal, so conclusive that it is believed Great Britain will immediately demand his departure.

The Spanish spy, Geo. Downing, arrested at Washington some days ago, committed suicide by hanging himself with a towel yesterday morning at the barracks where he was confined.

A Spanish war ship was sunk by the gunboat Concord at the Philippine yesterday after a fight of two hours. No fatalities on the American side.

A portion of dairy butter was shown them. The pronounced it all right, and then they ask the boy who the oligomargarine was. Being told that they had been the commissionmen went out into the back room where about thirty pounds of the stuff was found, which they confiscated and carried out the back door. Mr. Lightfoot was sent to town at the time the commissionmen called at his place and Ensay Gray was in charge and gave the snuff away to another merchant.

URGE SPAIN TO SUE FOR PEACE

RELEASING DIPLOMATS AT WASHINGTON FOR EXCHANGE VIEW.

Unofficially Considering the Oppor- tunity of a Seven or Twenty Eighteen Months' Truce

Urging Upon Spain the View That Spain is a Party to the War— Re-establishment of Cuba, Promises of War Indemnity and Occupation of Manila by Admiral Dewey Until the Indemnity Is Paid, Suggested as a Basis of Peace.

Washington, May 12.—As a result of the Spanish reverse at Manila, leading members of the diplomatic corps representing some of the most influential of the great powers of Europe have unofficially exchanged views on the opportunities of a movement, dictated by the most friendly spirit and in the interest of peace, toward urging upon Spain the facility of forwarding the release of Cuban prisoners of war and the return of Manila to Spanish control on the basis of the relinquishment of Cuba, the re-establishment of Manila by Admiral Dewey until the indemnity is paid.

The bill as it will be reported will contain a provision requiring that the government be made of all details of this character, however small and that no secret signing be allowed upon the personation. The Democratic amendment will be taken up tomorrow and there is very little doubt that it will be passed. The Democratic amendment of Nevada has indicated its purpose of making the bill more liberal in the principal changes they suggest. It is possible that the bill may be completed to-day, but it is not probable.

To Protect the People of Minnesota.

The legislature of this state, recognizing the danger from the use of alum as an ingredient in food, has passed a law requiring all baking powders containing alum to have plainly stated on each label the fact that such powder "contains alum."

This is a fair warning to protect all consumers from either being drugged or cheated without knowing it.

The highest authorities condemn alum in baking powder as unwholesome.

Let every housekeeper scan the label. Some of the alum powder manufacturers who have been deceiving the public into the belief that their powders are pure and wholesome, are attempting to blind the unsuspecting purchaser and avoid the law by printing on their packages an advertisement which sets forth the fact, "this powder contains alum," in a most obscure manner.

This is a double fraud, and should excite suspicion in the mind of every person.

Don't stop at the reading of this warning, but go down to the kitchen and look upon your can of powder and see if it contains alum; this is what the law is for.

If any grocer offers you a powder over his counter at a lower price than usual, see if it is marked "contains alum," as the law requires.

NOTE. This notice is published openly by the Royal Baking Powder Co., of New York. This company manufactures a pure cream of tartar powder, the "Royal" brand, which is beyond all question as to wholesomeness and strength; true, it costs a little more at first, but it goes farther in the end.

Cream of tartar comes from grapes, and costs to produce much more than alum, which is a mineral the British Government regards as a poison and the law there forbids the use of it in bread.

The Royal Baking Powder Co. feels justified in bringing this matter to the notice of consumers, for the reason that so honorable competition exists in the alum compounds, which are declared unwholesome.

The Royal powder costs only a fair price per pound, and is cheaper and better at its price than any similar article in the world.

Those parties who have heretofore neglected to take out their second papers should not forget that they have one more chance to complete their naturalization before the election. A special term of the district court will be held on Saturday May 20th for this purpose. Unless the matter is attended to at that time those who have failed to get their second papers will be barred from voting. The expense is not one dollar. If you have a neighbor or friend who is uninformed in regard to the matter and who desires to become fully naturalized it is your duty to tell him.

Music is a potent factor in the man's hands in bringing men into himself, so let those whom Christ has given a voice to sing feel that such talent was given them for a purpose in the world, and that often in the voice of a song the better side of man's nature are touched and men are drawn closer to the higher ideal in life.
