COMPANY FOR BRAINER. FIGHTING BOB EVANS

Under the Second Call for Volunteers Gov. Clough will Give the Brainerd Boys a Chance.

CALL MAY COME AT ONCE.

No Late News from the War.—Little Doubt but that Cervera is Trapped in Santiago Harbor.—Commander Schley Guarding the Entrance.

An associated press dispatch from Washington says Secretary Long has no word from any of the scouting vessels so numerous in West Indian waters concerning the Spanish flying squadron, whereabouts of which Commander Cervera was still in Santiago harbor. It is supposed that Schley is laying outposts to prevent the escape of the Spanish vessels, but while there is evidence of a certain kind on that fact, there has been no official confirmation of it.

There is no doubt but that the Brainerd boys who have been organizing a military company will be given a chance to enlist under the second call for troops. The services were offered Gov. Clough at the time the organization was started but there was no chance to enlist under the first call as the quota of men from Minnesota was filled. However Gov. Clough informed the Brainerd people that they would not be forgotten and as soon as it was known that a second call had been issued his attention was called to the fact and in response A. F. Ferris and H. C. Silvers each received telegrams from him stating in substance that Brainerd was liable to receive a call at any moment and it is expected that official notice will be received within a very short time.

There will be no trouble in filling a company from Brainerd. To-night is regular drill night for the company and it is expected that there will be a full attendance as the expectation of a call to go to the front has greatly enthused in members.

There are numerous hair tonics on the market, but nothing will stop any man's hair from coming out except death's drift.

The surprise created by the fact that an editor of a yellow journal put his crazy talk to be accounted for. We thought all these editors were crazy.

This is a land of liberty where the president, right or wrong. No good citizen will do it habitually or as a party line, but the freedom to do it in great freedom.

The sensation of blue we are told, "probably makes appeal to the mass of all-time, pretentious, and when blue is combined with red and white, American minds are convinced of the same idea."

The New Hudson Swift, fleet secretary at New York, has presented a brief report of the work of the American Trust Society.

The work to which a community may be called for the fault or the sin of one of its members is illustrated by a story, which may be traced to the Rev. J. P. Corbett, founder of the university which bears his name.

There is no more numerous idea than that often put forward even by men of intelligence, that an occasional war is a good thing for a nation.

These did I do in a Tennessee mine when a young woman was five years ago, in a fit of jealousy, killed her most intimate girl friend because the latter had chosen to enlarge the circle of her companions.

Prof. Lawrence IV of Buffalo brings this incident as an example of present civilization. "Never was there a time when such atrocious efforts were made to prolong the lives of a race which suffered, as the speaker says, from the fertility of the woman."

A MINNESOTA allyman has been convicted of perjury. Whether he is a drinking man.

The thirteen-inch projectile which are being shipped to Dewey at Manila are called "McKinley pemecokers."

There are still foolish people left in this country for occasionally the city papers announce the departure of a party for the Klondike.

This ought to be a pretty good year for Fourth of July celebrations. Extortionism is abroad in the land and by that time the Spaniards ought to be whipped plenty.

The recent rains raised the Mississippi river a foot and as a consequence a few of the Mississippi saw mills have started up with the expectation that the present stage of water will float the logs down to them.

The federal statutes authorize the payment of a bounty of \$100 for each man in an enemy's ship of war that is destroyed in action. Assuming that there were 2,000 men on the Spanish ships at Manila, there will be \$200,000 to be divided among the men of Admiral Dewey's fleet.

St. Cloud has a stone pile on which they exercise their vigils and tramps. It is a good idea and will go a long way towards solving the tramp question for these tramps of leisure do not admire the idea of being tied up to a rock pile and swinging a hammer in the blazing sun.

The state auditor's office is sending out to county auditors a list of former state lands which will be taxed for the first time this year. These lands have been "proved up" on by settlers and have an area of 287,247.43 acres. The state, within the past year, has sold lands to the number of 11,688.34 acres to private parties.

Those who have absolutely depended on John Lind to become the fusion candidate for governor on the democracy ticket are casting around for a new Moses judging from the following from the New Ulm Review, here: "Of an ardent supporter of Lind."

Should John Lind absolutely refuse to run for governor, Senator Ringholz of Crookston would be the most likely candidate. He is able, honest and fearless.

One of the leading populist orators of Clay county was at Moorhead the other day, says the Fergus Falls Journal and was accosted by a Republican farmer thusly: "What are you going to have to say to the farmers the fall with wheat at \$1.25 a bushel?" "I shall have enough to say," was the reply, "but the farmers won't listen." This is going to be a serious trouble for populist orators the fall. It will be a poor calamity year.

The supreme court on Monday handed down a decision holding that Indians have no more right to violate the game law than other people. They can kill what game they want for their own consumption, but must be amenable to the general statute so far as disposing of it to others is concerned. It is no defense for a white man found with game out of season that he purchased it from the Indians. It is probably the most important game law decision that was ever rendered.

The convention at Anokanast Wednesday will nominate the congressman who will be elected to represent this district in Washington for the succeeding term—Hon. Page Morris.

At Minneapolis on Wednesday Congressman Fletcher was recommended by nomination. The Fifth district has done for Fletcher what the Sixth will do for Page Morris at Anokanast next Wednesday.

Over ten million American flags have been sold in this country since the Maine was blown up. The Spanish idea that there were two flags in this country has been somewhat shattered by recent events.

Presser McKinley yesterday issued a call for 75,000 more volunteers. This is the second call and the response will be so great that many who offer their service to the country will be refused the opportunity to go.

The opposition to Van Sant is indisputably declining the report that there is a scheme on hand to re-nominate Clough for governor. Van Sant will be the nominee and the "other fellows" might as well admit it.

A NEBRASKA man whose wife has just presented him with little boys has named them Dewey, McKinley and Sampson, and is very much put out because there was not four boys as he could have remembered Lee also. Man is never satisfied.

Here's the way Bears Chew the great New York banker and broker sums it up: Expressing my view in genuine Yankee phrase and spirit, I should say that American citizens have enhanced in the world's valuation at least 50 per cent through the result of the American-Spanish war, and every thing American will appreciate in the same ratio after the war is over. Admiral Dewey marked up American history over 100 per cent by smothering the Spanish fleet and at the same time silencing Manila's guns in the obnoxious and offensive way he did it. It was the American way of doing it you know, and not Spanish. We can take Manila, Cuba, Porto Rico, the Canary Islands and bang the Spanish coast to pieces wherever we want to. We have the naval command, we have the ships, we have the sailors, we have the plank; we have the skill; we have the weapons; we have the food supplies; and we have the money to back us all the way through. What, therefore, is the use of Spain pretending to fight such a host? It is simply an evidence of imbecility.

The new North-western Limited Twentieth Century Train, is the title of a handsome brochure just issued by the passenger department of the Omaha road, containing the opinions of the Twin City daily papers about the beauty of the new limited train to Chicago. The brochure is handsomely printed and illustrated and is a most creditable bit of railroad advertising. After one's hasty perusal of the pages one is seized with the desire to make a trip to the Windy City on one of these two famous trains. Send your address for a copy to T. W. Wendelin, G. P. A SCHOOL GIRL'S BATTLE.
From The Hill, Miss. 12d.

Miss Emma Toth, a representative school girl of the South, is at present in the hospital of the University of Mississippi, where she is recovering from a severe attack of typhoid fever.

"The doctor," said Miss Toth, "told me that I was in a very bad way, and that I must be careful of my health. He said that I was in a very bad way, and that I must be careful of my health. He said that I was in a very bad way, and that I must be careful of my health."

Pink Pills for Pale People, and decided to try them.

She had no faith in proprietary medicine but tried the pills, and after taking a dozen doses she began to improve. It was about the first of April when she began, and by the middle of May, after taking about eight boxes, she was entirely cured.

"I can't say," she said, "but I have never felt better, and I have never been so strong as I am now. I feel like a new woman, and I am sure that I shall never be troubled with this kind of trouble again."

A Question as to Air.
"Inquired the man who is usually in the office."

"I don't know," answered the intensely patriotic citizen, "but judging from the general complexion of the people, I should say that quite enough to go with it."—Washington Star.

MEMORIAL DAY.
The most of battles has passed away. Peace, glorious peace, is ours today. The dead are at rest in the perfect flower. So do I see in you the womanhood. But have you enough love? The sun is so warm that I am ready to go with you. I am ready to go with you. I am ready to go with you.

THE DUTY OF MOTHERS.
Daughters should be carefully guided in early womanhood. What suffering frequently results from a mother's ignorance or more frequently from a mother's neglect to properly instruct her daughter? Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment and her mother should see that she gets it.

AT GRANT'S TOMB.
They make good men better sometimes they make bad men good. It is a grateful and beneficent custom which has been established of devoting one day to the memory of the dead. Their memory comes to us in the form of a blessing. It comes to us in the form of a blessing. It comes to us in the form of a blessing.
