Trains Arrive at and Depart from the Northern Pacific Depot.  
NEW ORLEANS, July 29.—The steamship *Belleville*, having on board the Imperial regiment under command of Colonel Francis S. Hood, has sailed. Her destination is Santiago.

**W. F. HOLST, Supt.**  
Women love a clear healthy complexion. Pure blood makes it. Burdock Blood Bitters makes pure blood.

## TERMS FOR SPAIN

President and Secretary Day Reach a Conclusion on Their Outlines.

Disposition of the Philippines the Only Point Open to Amendment.

WASHINGTON, July 28.—The terms which the United States government will find acceptable as a basis of peace are being received to form by Secretary Day, the president having reached a conclusion on their outlines. These terms were the formal subject of most of the discussion during the day. They consist of nine points. If the president's purpose was to secure free expression of public opinion on this subject he has been gratified with the response made through the newspapers and in the exhibition of the interest by government officials in the complex problem now presented. Although it was thought probable that an outline of the situation assumed by the United States government on this subject would be presented until after the cabinet meeting there has been the best reason to believe that after the full conference the president had indicated to individual members of his cabinet he has already made up his own mind and Secretary Day has now practically reduced to form the outline of the situation.

OFFER TO THE GOVERNMENT  
AS SUITABLE TO A LARGE ENCAMPMENT. The tract is three miles square and contains an abundance of fresh water, a goodly amount of land, and is well watered, and many other military advantages including salt water bathing. The necessary orders to equip this as a training ground will go forward immediately and every advantage will be taken of the opportunity. In the formation of the great camp at Clark, Arizona and Camp Alger to make the conditions as comfortable as possible for the battle-scarred veterans of Shafter's army. The time for this is now. It is left to General Shafter, the only limitation placed upon him being that he shall not delay the movement of his troops beyond the moment when it shall be for them to leave Santiago, having regard to the severe conditions. Meanwhile, details are being made of troops to supply the force that shall remain at Santiago to continue troops. This force will be made up almost altogether of Spaniards.

SCOVELL'S PLIGHT.  
World Business Him and He Is a Busy Quarter Master.  
NEW YORK, July 28.—The New York World publishes an editorial announcement to the effect that "Scovell is no longer connected with that paper." This statement is in sharp contrast to the statement between the question marks.

RECORDED AT NORFOLK on the transport *Hudson* and is now a closely guarded secret. His office is attempting to strike General Shafter in the face because that officer did not permit him to take part in the flag raising at Santiago de Cuba. A serious question is being asked whether it can be proved, even if it is a civilian, that he is not yet been determined what will be the course of the prisoner.

CONSTITUTIONAL CROW DEMANDS.  
HALIFAX, N. S., July 28.—The demands of the court of inquiry given here concerning Captain Henderson, and the officer of the ship *Comet*, which were made by Captain William Smith of the British Royal Navy Reserve, with whom was associated in the investigation Captain Bloomfield Douglas, R. N. R., and Captain Lewis Anderson, naval surgeon.

## Health Report Shows Much Sickness Among the Men at Santiago.

WASHINGTON, July 28.—Secretary Alger is deeply concerned over the welfare of the gallant troops under Shafter's command, now encamped on the outskirts of Santiago. The health report shows a surprisingly large number of cases of sickness, but an army surgeon authorized the statement that these figures are misleading in a certain sense, but that the situation may not be nearly so bad as they would seem to indicate. The slightest ailment is promptly treated. The slightest ailment is promptly treated. The slightest ailment is promptly treated.

PROCEEDINGS OF THE BOARD OF EQUALIZATION, Meeting Held July 18, 19, 20, 21, 22, and 23, 1898.

Present, Commissioners Smith, Farrar, Cole, Huber, Archibald and Auditor Tuchs. Board was duly sworn in.

# Strained Dispatch.

BRINERD. MINNESOTA.

All things come with the water who get the better of him.

It's easier to love a man after you get the better of him.

With a letter press, four by any other name would smell as sweet.

Drop a screw to the average woman's ear and her tongue begins to wag.

Kindie may not be dangerous, but it often causes palpitation of the heart.

Some men hatch up excuses to call on their neighbors just about dinner time.

The showmaker who fits a woman's feet for her satisfaction performs a benevolent feat.

If it costs \$100 to fit a big modern gun a Commodore Schley saved Spain quite a sum the other day.

The fighting at home is not serious, but men who want to be in the show on either another rather better.

The woman who is a slave to fashion should never marry a man who is a slave to the financial encouragement of slavery.

A woman is always harping on her ideal man for her husband, but she seldom says a word about her ideal woman to her wife.

When a man nearly breaks his neck in trying to do a lightning bolt while creating a street car track for the time for him to sign the plan.

The best thing "Queen Liz" can do is to join the woman's "strong mind" movement, in the course of time she may achieve a new sovereignty in this way and take her place again among queens.

The number of dead heroes' sons is not so large that everybody must needs make a gun when one of them gets a slight military or naval honor.

We notice that the "gilded youth" in bloom wears a regiment that is the sons of rich men take their share of the roughing business with the utmost cheerfulness, and the names of Logan, Haines and Grant are carried by very promising men. Besides, if they make mistakes with the crew of the gun, it is then, won't they catch it?

Altogether plays with my soldiers, some of them representing Americans and some Spaniards, and in every chance make a gun when one of them gets a slight military or naval honor.

The association of the three French girls of history, France, which is the posed of ladies and gentlemen of the best families in that city, and which was founded in 1832 for the purpose of rendering aid to wounded soldiers in time of war, has sent a communication to the American consular at Havana advising him that \$50 France is to be expended by the society for the wounded in the American army. The letter says: "The committee has not forgotten the aid rendered and the assistance offered the French army during the war of 1870, and it trusts that the interest now taken by the French people in your behalf will serve not only to assure you of our profound sympathy but also to give you an opportunity to understand that we are at present at least."

"That is a mean nature which can see no good and acknowledge no capacity in an enemy. Heron is heron still though a fee display in. Here is a story of heroism from a London journal, and the hero was a surgeon of the Spanish army in Cuba. A few years ago, and an engagement was proceeded to the front line to help the wounded. Fortwith a bullet shattered his knee.

With the help of his assistants he dressed his wound, and then went to work. Disabled and suffering, under a hot fire, the surgeon performed so man that twenty-four major operations on a fierce soldier. Could any American have shown more courage, patience, usefulness? This man and his nation will one day cease to be at enmity with us, but need we wait till that happy day before praising Spanish merit?

The mountain howitzer on a living mountain was an ideal thing in the eyes of John Phoenix a good many years ago. According to that gentleman it was a practical proposition and did not weigh well. The mules had the usual characteristics of their kind and proved unmanageable. They insisted on receiving supplies, so the contractor had the gunner their backs were distributed evenly between friend and foe, and several of them were killed by their place over as many projectiles, and when found were available for an purpose whatever.

# GEN. GARCIA'S TROOPS ROUTED

FIRST RESULT OF THE FRENCH DISAGREEMENT WITH SPAIN.

Intercepted Attack a Large Force of Spaniards on Their Way to Santiago. Spanish Troops Rout. Spanish Troops Rout. Spanish Troops Rout.

New York, July 24.—The Herald has the following dispatch dated Santiago de Cuba, July 23.—Over 4,000 Cuban troops for the Eastern department of Cuba were ordered to march on Santiago in engagement with a detachment of Spanish troops. The Spanish loss was 1,000 men. The Spanish loss was 1,000 men.

When the Cuban general withdrew the result to move on to the north of this city. If the American army had proceeded upon this mission when the Spanish troops were marching for some hours, however, they would have captured the city. The Spanish loss was 1,000 men.

The news reported, the "chance" of the Spaniards, when the two bodies of troops met on the road between Santiago and Higuay. The Spaniards had been ordered from the fortified towns in the vicinity of Santiago to march on Santiago. The Spanish loss was 1,000 men.

The Spaniards, quickly recovering from the demoralization caused by the Spanish loss, fought bravely. The Spaniards quickly recovered from the demoralization caused by the Spanish loss, fought bravely.

The American army, which was ordered to march on Santiago, was routed. The American army, which was ordered to march on Santiago, was routed.

# FRENCH CORRESPONDENTS.

Gen. Shafter Throws Some Light on the Grave Offense Committed.

Washington, July 23.—In his report to the war department relative to conditions at Santiago Gen. Shafter has thrown some light upon the difficulties which certain newspaper correspondents there have involved themselves in. From his report it would appear that, animated by an ambition to secure a prominent part in the important events following each other in rapid succession at Santiago after the initiation of the operations for the capture of the city, a few of the correspondents were guilty of grave breaches of military law, necessitating corrective action by Gen. Shafter. This, for instance, one correspondent in his efforts to take part in the flag raising over the city hall, neglected the military orders in the execution of his duty, and even attempted a personal assault on the commanding officer.

A more serious matter, from the fact that it might have led to rioting and disorders was that of three other correspondents, who, in efforts to get ahead of the news, by taking inflammatory notices of the operations for the capture of the city, a few of the correspondents were guilty of grave breaches of military law, necessitating corrective action by Gen. Shafter. This, for instance, one correspondent in his efforts to take part in the flag raising over the city hall, neglected the military orders in the execution of his duty, and even attempted a personal assault on the commanding officer.

### DELIGHTFUL TIME

MINNESOTA EDITORS ENJOYED THE EXCURSION TO THE COAST

By invitation of the Dominion Government over the Canadian and New England Railways, July 7 to 14, 1908—Not a Memorial Intention in the Whole Ten Days—Hospitality of the Canadian People as Great as in Ontario Surprises. Specials Through Which the Canadian Pacific Has Done More for the Country Outside—Resolutions Passed—The Report.

The Official Report. Anglo-American alliance is the watchword of Canada. Friendship to everything American, cordiality to their American cousins and a kindly feeling almost beyond belief, is found all through the Dominion, or at least all through Western Canada. This was the political lesson learned by the Minnesota editors who took the recent trip half way across the continent from Winnipeg to Victoria. It was a magnificent trip and full of surprises. But this was the most significant fact of the journey and the most unexpected.

A Most Cordial Reception. The journey of nearly 2,000 miles was made by the Canadian Pacific Railroad company, the hospitality of the Dominion Government and the Canadian people. The request of the Hon. Clifford Balfour, minister of the interior, who also in his capacity of minister of the department has taken occasion to thank the Minnesota editors for their visit to the Dominion of Western Canada. He is a man of great resourcefulness and an adopted son of the Dominion. He is also a man of great energy and a man of great ideas for the conduct of the department.

The excursionists numbered 183—the largest in the history of the White Horse route. They were accompanied by Mr. Will J. White, editor of the Minneapolis Tribune, and Mr. J. H. White, editor of the Minneapolis Journal. They were also accompanied by Mr. J. H. White, editor of the Minneapolis Journal, and Mr. J. H. White, editor of the Minneapolis Journal.

Indeed, there was something to be said for the fact that we were not at home except that nowhere else in our country did we ever have so good a time. The trip was a most delightful one and we were quite surprised to find that we were not at home except that nowhere else in our country did we ever have so good a time. The trip was a most delightful one and we were quite surprised to find that we were not at home except that nowhere else in our country did we ever have so good a time.

Starting from Winnipeg we traveled to the Rocky mountains over a magnificent route. The trip was a most delightful one and we were quite surprised to find that we were not at home except that nowhere else in our country did we ever have so good a time. The trip was a most delightful one and we were quite surprised to find that we were not at home except that nowhere else in our country did we ever have so good a time.

The only puzzle to us was the fact that the problem for the prairie country, but it is considered as practically solved by the cheap coal problem, for it is possible to transport coal from the west to the east at a cost of from \$2.00 to \$3.00 a ton, while the northern timber it supplied at \$3 a cord.

It must not be thought that grain and cattle are the only products of that vast country. Hides, furs and skins are an important source of revenue. For example, in Manitoba the hides and skins of the bison are worth from \$1.00 to \$1.50 a head, and the skins of the caribou from \$1.00 to \$1.50 a skin.

The points of special interest in the agricultural division are too numerous to mention. Fortage in Prairie, with 200 population, is the first large town west of Winnipeg on the whole line of the Canadian Pacific main road. Here the Manitoba and North-western roads run 22 miles north and branch from Gladstone through the Lake Umbagog district and will extend to the Great River country. The station from here are but five to six miles apart, varying population in towns having 1,000 people. Brandon, the next

large town, 5,500, is the headquarters of the Dominion land department. It has a provincial parliament and an experimental farm, one of the five supported by the general government, and attending the greatest interest in agricultural problems. Another branch railroad here extends south and connects with the Soo. Smaller towns succeed each other to the west, the market town of Dunsmuir being 227 miles from here and also being 227 miles from here. Another branch railroad here extends south and connects with the Soo. Smaller towns succeed each other to the west, the market town of Dunsmuir being 227 miles from here and also being 227 miles from here.

The extreme western provinces, British Columbia, is a country of vast range and fertile valleys. As the distance from the prairie to the coast increases, the Dominion government are not only the most important, but also the most beautiful in the world. The British Columbia coast is a country of vast range and fertile valleys. As the distance from the prairie to the coast increases, the Dominion government are not only the most important, but also the most beautiful in the world.

To all more particular attention to certain districts outside of Manitoba, the land section should not forget the northern part of Assiniboia and Saskatchewan, which have the same to the westward as the prairie. The land section should not forget the northern part of Assiniboia and Saskatchewan, which have the same to the westward as the prairie. The land section should not forget the northern part of Assiniboia and Saskatchewan, which have the same to the westward as the prairie.

Labour Day Preparations. An adjourned meeting for the purpose of completing arrangements for the proper observance of Labor Day was held at the Y. M. C. A. rooms on Wednesday evening with a good attendance. The only committee to report was that of transportation. A. L. Hoffman stating that Supt. Hoar of the B. & N. M. had agreed to give a rate of \$1.00 for the round trip from Walker to Brainerd with free transportation for the Indian hall players, and that the Northern Pacific people had not yet met and the committee is regarded to rates.

Several committees were enlarged by the addition of new names among these being:

Parade—C. S. Martin and W. H. Sandler.

Executive Com.—P. F. O'Brien, Danes—A. L. Mattie.

Speakers and Vocal Menio—Thos. E. Canan and J. P. Early.

A committee consisting of N. H. Ingersoll, A. L. Hoffman and Otto Schiller was appointed to ascertain if the Northern Pacific shows any tendency to the Brainerd Lumber Co's mill would close on Labor day.

A committee on program was created and Timothy Toboy, H. Poppeberg and S. L. Thomas appointed as members.

The committee of Joseph Matras was substituted for that of T. E. Canan on the committee of sports of the latter gentleman's request.

The moste adjourned until next Wednesday evening at which time it is expected several of the committees will have reports to make.

The Pious of Tuesday. The Congregational and Episcopal church Sunday schools united in holding a picnic at Hubert lake on Tuesday last. The day was a gift divine. Pleasant and cool breeze made the day a delight. Nothing marred the pleasure of the occasion. About two hundred and eighty six people, young and old availed themselves of the opportunity to enjoy an outing at Hubert and Clarke lakes. The two lakes are near each other, one on the north and the other on the south side of the railroad track.

Mr. Freeman Thorpe, a famous artist, who has an charming cottage close to the lake, acted the part of an hospitable host, being exceedingly kind in furnishing water and boats and the freedom of his cottage to the picnicers. All present felt that their lines had fallen in pleasant places with Mr. Thorpe as host. Mrs. J. N. Seaborne was indefatigable in giving comfort to the weary and rest to the tired ones at her lovely cottage overlooking Clark lake. The children and young folks enjoyed the cool waters of Hubert, bathing and swimming in the Hubert waves, some of the older ones standing by looked as if they wanted to do likewise.

The Brainerd & Northern road furnished comfortable cars for all the party, and the thanks of both Sunday schools are due to Manager Hoar for his kind attention to the welfare of all who went on the picnic.

It is hoped that the union of these Sunday schools will again be repeated in days to come, and thus help on the glorious day when Christians will dwell in unity in joy in one common law and abolish the littleness of sectarianism.

Hoffman negotiates chattel loans.
