The true triumph of democracy.

An Alabamian farmer put cotton in his own patch and broke up a camp meeting.

Conventioneers like a candle lit-made, smother the splendor of a happy for-time in its own glow.

A man that studied revenge brought his own friends green, which others would heal and do well.

Lillian Russell is playing to crowded houses in Berlin and the prospects are good for a German husband. A German delegate in the next international convention of Lillian's ex-husbands would give variety to the proceedings.

A reaction against political bossism is setting in. The system which has ruled the crowded wards of the big cities has grown and fruited in every stratum of American politics. The people are disgusted with bossism.

They are making ready to pull it out by the roots and cauterize the wound. They will begin in the ward precinct and finish in the white house.

It is reported everywhere that Chas. Fager and E. T. Fisher of St. Joseph are dealers who have loaded up with them count them a dead loss. While the really brave and true women of the country have been working and suffering for the boys in blue, cherishing them over every ill that befell and trying to make their life and their husbands an easy and comfortable one, the more hysterical and selfish turn of mind have done their best to make the soldiers aware of it, and even to tempt them to desert.

It is a very good thing that the desertion of this temperance are decidedly outnumbered by the good sensible women, who not only know how to meet suffering bravely themselves, but can teach and help others to bear it with the same fortitude.

"I'm a soldier man that you'll say," said an English laborer to his master, not days ago. "I don't spend my last far make and you durstn't." The laborer never looked forward at all. On the contrary, he thought it often taught the class by the masses. The teacher, a Harvard graduate, realizing that the child could draw a larger check than himself, was away thoughtful.

The close intermingling of ways of peace and ways of war is seen in China, where two rival alien powers have been disputing each other the right of the other to construct railroads and develop the resources of the country.

Their opposition is based on the knowledge that such extension of the appliances of civilization is a means of political control and a source of advantage to war. Cultivate peace for the sake of preparation for war, and go to war for the sake of the blessings of peace—that is the paradoxical rule of modern statesmanship.

FRIDAY, OCTOBER 7, 1918.

As Charles Towne remarked four years ago in this city when accepting the republican nomination for congress...

In Charles Towne actually believes that free coinage of silver at the ratio of 16 to 1 means bimetalism, why doesn't he explain why it is that not an ounce of gold circulates as money in any country with free coinage of silver...

The City Ticket. The republican city convention on Wednesday evening placed in nomination a city ticket that meets with general commendation and its election is assured.

For Mayor Editor Halsted of the Tribune was nominated. He has served one term and the public knows by experience that he will give an efficient administration.

For assessor Jan H. Smith was selected by the convention and it could not have done better. Mr. Smith is an old real estate man...

Judge Hoffmann's nomination for municipal judge is in the line of promotion as he is at present one very efficient special judge.

Mr. Mattson the nominee for special judge is a bright young man from the Fourth ward and will undoubtedly make an efficient officer.

The various aldermen are all good men and deserving of the support of all republicans in their respective wards.

Towne's Speech.

Charles Towne, demo-pop nominee for congress in this district opened the campaign in this city on Tuesday evening at Gardner hall. Mr. Towne has the reputation and undoubtedly is one of the best stump speakers in the country...

He argued that he said he was a good republican ever, which is certainly pleasing to republicans. He will insist the party led him and not he himself.

JUDGE FOR YOURSELF. Which is Better, Try an Experiment or Profit by a Brainerd Citizen's Experience.

Something new is an experiment. Must be proven to be as represented. Be successful at home or you doubt it.

The statement of a manufacturer is not convincing proof merit. But the endorsement of a friend is. Now, supposing you had a bad back. A lame neck or aching eyes. Would you experiment on it? You will read of many so-called cures.

By they come from far away places. It's different when the endorsement comes from home. Easy to believe that it is so. Home endorsement is the proof that backs every box of Doan's Kidney Pills.

The Journal Changes Hands.

H. C. Stivers, for seventeen years editor and proprietor of the Brainerd Journal, yesterday morning sold the newspaper plant to Geo. Smith, of this city, and Mr. Smith took immediate possession and got out yesterday's issue of the paper. Mr. Stivers retains the job department including all machinery, both newspaper and job presses. The consideration was \$1700, \$700 down and the balance \$1000 to be paid Nov. 15th. In fact the title of the plant remains in Mr. Stivers' name until the balance is paid although Mr. Smith will in the meantime conduct the paper. Mr. Smith has changed the politics of the paper and will make it republican in fact in this issue looming Page Morris.

Mr. Smith is an able, enterprising young man with a good education and will no doubt conduct a very creditable sheet. We wish him success in the journalistic field.

Welcomed Home.
Kaley Dressell arrived in the city Sunday after a three months army experience with the 14th Minnesota regiment at Chickamauga and Knoxville. Mr. Dressell enlisted as a musician on the 23rd of April, and enjoyed good health while gone with the exception of a slight attack of pneumonia for four days which he spent in the hospital. He was met on his return by a large delegation of citizens headed by the City band, of which organization he was a member. The boys of the house also gave him a welcoming salute with the cannon.

The crowd formed a procession headed by the band and Mr. Dressell was provided with a carriage and accompanied to his father's residence on 8th street north, where a reception was held and speeches were made welcoming him home. While none of the boys of this regiment saw facial service they realized that that intention and very much desired to do so, hence are entitled to just as much credit as if they had.

Shot Through the Leg.
Cleon White, a nine year old son of C. B. White, on Saturday afternoon was accidentally shot through the left leg midway between the knee and the thigh, the ball passing close to the bone and within a half inch of the heart. The accident occurred near Boom lake, where the unfortunate lad in company with Leo, an older brother and a son of Alderman Purdy had been out shooting with a small 22 rifle. Leo had entrusted the rifle to his younger brother and young Purdy to take home, and the Purdy boy was carrying the gun when it was accidentally discharged. Mrs. Reinhardt who lives close by hearing the cries of the boys, went to their assistance and carried him to her home, where Dr. Reinstead was summoned and the wound dressed, and the lad taken home. The wound is healing nicely and they hope complete recovery is only a matter of a few days.
