One glimpse of a social sign will show...

The gruff that prevails in a horse track is indeed mighty.

The only sure way to pick a winner by his history after the race.

When a man is laid back up he sees the necessity of finding his way.

No wonder time flies when the spur of the moment is continually urging it on.

Every dollar lost in playing the race is a dollar found by those who work it.

What man needs a tongue that will stop wagging when his brain stops thinking.

It is a waste of time to explain your actions. People prefer to form their own conclusions.

One Paul says he is not looking for a better, but at the same time he is not doing any back peddling.

Judging by the way you studied your pay rolls the man who does all sorts of things to a bell toll.

It is always difficult for a young man to understand why any other young man should fall in love with his sister.

All things come to the man who waits with the position of waiting for the water with things he is waiting for.

The New York woman who cut her husband's throat in prison did not think he was a man on a pig on a wagon.

The critic who, having seen Bernhard as Hamlet, wants to see Mansfield as Camille, has come pretty close to the right idea.

It was not known how badly used up Senator Foraker was until he threatened to see Editor Kohnsaw for damages to his character.

While a woman may not be able to sharpen a pencil or prop a stone with accuracy, she can make much things into a frank that a man can pile on a wagon.

Any large pecuniary transaction is sure to give occasion for many misapprehensions, and to stir the financial waters far and wide.

On April 20th the United States paid to Spain the \$200,000 provided for in the treaty of Paris.

This payment was promptly followed by a note from the United States to Spain, drawing a million American bills on Jackson, by a fall in the Paris exchange with the shipment of gold from London to France, and by a perceptible softening in the London money market.

In a miniature way and within a narrow circle, similar changes are caused by the dropping of a single dollar into the general circulation.

At the age of 20 Queen Victoria was married to Prince Albert, and at 42 was left a widow. Now, at 67, she is devoted what she regards as her last official duty to the capital of her empire to the task of dedicating to the general cause the memory of the final and crowning military triumph of the Kensington museum which is being built at which the Bell company has been selected to take advantage of its opportunities. Much the greater part of the telephone business in the United States is still done by the Bell company, and the number of Bell instruments in use increases rapidly year after year, in spite of the growth of the independent concern. Nevertheless the independent established, they occupy certain fields and will continue to occupy them for an indefinite time. Their maintenance, too, grows and its extent marks the degree of the Bell company's failure to secure the monopoly which it aimed at, and which, under wise management, it would have attained.

The increase in pensionable receipts will this year be noticeable, according to the present estimates of the department in Washington. In some branches of the service receipts are 25 per cent greater than they were a year ago. In the last fifteen years the pension business of the country has doubled in volume. This indicates not only a direct growth in population, but the increase in military and naval operations, as well as a great growth in the habit of letter-writing.

WILL BE IGNORED

NO NOTICE WILL BE TAKEN OF THE "ROUNDER" BOILER.

The Administration Will Allow the Matter to Drop—Dispatches Received Which Have Given Cause for Suspicion and Recommendation to Send the Matter to the Philippine Islands.

Washington, July 20.—It was stated at the war department that no attention whatever would be paid to the "rounder" boiler of the Manila correspondence. The protest was not sent to Gen. Otis and it is said will not be, and Gen. Otis will not be called upon for an explanation. In addition to this, it was indicated that very encouraging news had been received from the Philippines and that the situation was much better than had been generally believed.

The articles which the president read from Manila, and which gave so much concern and encouragement to the members of the cabinet in the military situation, although a hearing rather on the political than on the military situation, although there is naturally very direct connection between the two in the present time. The commission, on at least one of its visits to Manila, was to see the departure of President Schurman and Admiral Towner, and to see the progress in the effort to restore the condition of the navy, and to see the progress in the effort to restore the condition of the navy, and to see the progress in the effort to restore the condition of the navy.

Some progress has been made, more than the public is acquainted with, for not only have the United States authorities been able to secure the unqualified admission of the natives of the more important islands outside of Luzon in the Philippine group, but also that they have steadily increased on what was regarded as purely insurgent territory, and are arranging for the establishment of full civil governments in some of the provinces of the island which are held by the insurgents here by the strongest. Because this is to be accomplished by peaceful means and with the full assent of the inhabitants, the British cabinet, the administration naturally felt that it had cause for gratification.

The following cabinet has been received from Gen. Otis:

Manila, July 19.—Adjutant General, Washington: Continued heavy rain; cyclonic storm; inside business in Manila; private communication from Warren yesterday; left office at 10:15 a. m.; 130 discharged; one of various organizations took passage; California on Sherman; arrived from Negro; vessel must be cooled. Await news of typhoon in Philippine Islands.

Report that the natives are quarrelling with the Spaniards. Manila, July 20.—The natives of the provinces of Albay, South Camarines and North Camarines are endeavoring to throw off the domination of the Tagals. It is reported that there has been fighting between the people of the provinces named and small bands of Tagals who were quartered upon them, ransoming the local government, and that the people in question are willing to declare allegiance to the United States when troops are sent to protect them.

REPORTS GEN. OTIS.

Creelman Says He Made a Mistake. New York, July 20.—The Journal prints half a page of dispatches from Creelman which it says it withheld because it did not wish to embarrass the government. Among those was the following private cable dated Hongkong, March 17:

Private to Hearst.—Censorship absolutely incredible. Practically impossible to criticise news. Otis himself expressed every except here. Wrote that Weyler's censorship. Otis says he won't allow sensational cables, even if true. Journal not allowed to send news. Have three men assisting me. Otis quite open discussing forcing all but one Journal correspondent out of the Philippines to prevent too much publicity. Downer takes Otis, who is old woman, jealous of every body, wants to cut Lawrence's throat. In a fight here. Will not allow interview with Dewey to be called. Lawton Law Dewey. Think Dewey called McKinley, advising him to put Lawton in command of force in the Philippines. —Creelman.

No Decision Reached.

St. Louis, July 20.—Daisy Magner of Yankton, S. D., stayed fifteen days in St. Louis, waiting for a decision in a fight here. According to agreement made before the battle no decision was rendered.

DEEDS OF VIOLENCE

MAKING THE THIRD DAY OF THE BROOKLYN STRIKE.

Not Attacks a Street Car and Two of the Men Are Fatally Injured—A Number of Arrests Are Made—All Cars That Were Moved Were Seized by Police—Spectators Are in Street and Claim to Be Getting Crowd—Employees Tell Another Story.

New York, July 20.—The Brooklyn trolley strike is still on and in all probability there will be no end to the labor trouble for some days to come. The striking motormen and conductors are very earnest and they claim they are gaining ground. On the other hand, the representatives of the trolley companies are equally earnest and they claim that the strike is only a momentary delay in their full complement of cars. The company did not run any cars over the Brooklyn line yesterday morning, but resumed traffic shortly after 10 o'clock yesterday morning. Numerous cars were run over the street lines, but the time schedule was not lived up to on any one of them and at least four persons were injured in what would be about 60 per cent of the regular number.

The Fifth and Seventh avenue lines were frequently blocked and the cars were held up for several minutes. The Douglas and Irving street cars were run over the street lines, but the time schedule was not lived up to on any one of them and at least four persons were injured in what would be about 60 per cent of the regular number.

SENATOR NELSON PLAYS.

John for a Recall of the Cass Lake Ore.

Washington, July 20.—Secretary Hitchcock, Assistant Secretary Hyatt, Commissioner Jones, of the Interior office, and other officials of the Interior department gave a long hearing to Senator Nelson of Minnesota regarding the order of June 22 last calling for the removal of all intruders and white trespassers from the Cass Lake Indian reservation. The order goes into effect on the 22d inst. The senator made a forcible remonstrance against the carrying out of the order of removal, setting out in detail the equities of the persons who have settled on the reservation and regarding the hardships they would have to undergo if forced to abandon their homes. He asserted that the reservation was public land and that the settlers had a right to enter it. He asked that action be deferred pending the next meeting of congress, at which time he believed some reasonable legislation would be adopted which would result in an amicable withdrawal of the intruders from the reservation. The senator's remarks were directed particularly to the case of the settlers of the town of Cass Lake, which had grown to be a thriving place. Secretary Hitchcock said at the close of the hearing that he would not announce a decision for several days, as he desired some further information on the subject.

Police Changes.

On Monday night Geo. H. Stratton handed in his resignation as chief of police. The play has been made. Koop has as yet made no appointment to fill the vacancy and probably not do so for several days, in the meantime looking the field over for a competent man.

On Saturday night Officers Hurley and Derocher had some trouble over an arrest which resulted in a lively scrap between the two patrolmen, as a result Mayor Koop promptly suspended both of them and installed Geo. H. Merritt and Frank Lewis temporarily in their places until the matter can be thoroughly investigated and the blame placed where it properly belongs.

Always New.

East Lynne will be presented at Gardner opera house on Thursday evening, July 27th, by the Brownridge-Collins Co. Speaking of the company the Duluth News-Tribune says:

The two performances of East Lynne drew full houses and were well received. The play has not been in Duluth many times but it is always new. There is enough comedy put in the piece to afford relaxation of spirits and enough serious and tearful pathos to bring the tears to many eyes. The Brownridge-Collins Co. put on the piece effectively and did forgo sufficient to draw out the heart of every woman and leave a pathos to bring the tears to many eyes.

NEW WHEAT ELEVATOR

Beck & Remmel's Will Construct a Fine Large One Immediately in This City.

Beck & Remmel's, the enterprising grain merchants and dealers in agricultural implements, of this city, will in a few days begin the construction of a large grain elevator adjacent to their warehouse on the N. P. track on Eighth street. The dimension and capacity of the new elevator has not yet been determined, but Mr. Beck assures the Brainerd press, no matter how rapidly the country improves. This enterprising firm have increased their business so rapidly of late that their present warehouses are no longer than is necessary for the machinery business alone, hence the construction of the elevator was imperative. Work on the new building will begin at once, in order to have it ready to receive the new grain this fall.

The wheat raising business in this county and vicinity has increased with great strides lately, and it has been discovered that the soil here grows uniformly a better grade than the wheat lands of the prairies. Mr. Beck says that nine-tenths of the wheat grades No. 1 northern, and a great deal No. 2 hard, and the yield per acre is large. No better crop can be made anywhere, and in building the elevator they have taken this fact into consideration, that the business will increase many fold in a few years, and they will construct an elevator accordingly.

Room Last Night.

A large audience was present at Gardner opera house last night to welcome Prof. Bosco, the world renowned magician, who played in the Sagar opera house in 1888 and also in 1891 and each time drew large audiences, and Brainerd had not forgotten him nor his wonderful performances. The continuous applause denoted the appreciation of the audience, the performance being clever and amusing and kept up a roar of laughter from beginning to end. The presents were numerous and very handsome and crowded houses will greet Bosco tonight and tomorrow.
