Marrying a title is the dream of millions of young men.

A girl's mirror reflects in pleasant reflections.

The man with the least money often carries the biggest price.

The darling of a man's confidence naturally loses his face value.

Matches may be made in heaven, but how can be made in any old place.

Laugh a little more at your own troubles and a little less at your neighbors.

A woman seldom loves her friend with the same intensity that she hates her enemy.

It may never be too late to mend, but a woman sooner learns to mend than her small boys.

Methuselah probably lived to a ripe old age just to spite a girl who married him for his money.

The lady who horsewhipped Mayer has not yet selected the man in which she will start a new season.

A St. Louis bride-to-be broke up a wedding by slipping with her maid who proved to be the worst fellow in the crowd.

A summer resort, established thirty years ago on temperance and religious principles, has today as large a list of guests as any hotel in this country. The very restriction from which it was founded has become the secret of its triumph.

Young people cannot be too often reminded that it is by raising rather than by lowering one's standard that success is permanently won.

Citizens of Belgium who neglect or refuse to vote are promptly arrested, tried and heavily fined for their unwillingness to participate in the politics of the nation.

The Belgian law enforced in this country would cause a marvelous shaking-up of serene old folks.

"Soft-minded" people who do not feel for the depths politics and men who never go to the polls when the weather is rainy.

It is one of the curiosities of human nature that a man against whom the most indubitable evidence of inferior conduct is brought might get out free through such a clerical error as the writing of a wrong given name in the indictment.

The defendant, Richard H. Lavelle, on trial in Chicago, made several confessions of the murder of his wife, but perhaps the most important point in his case just turns on the minute he made in drawing the indictment.

The indictment read: "Richard H. Lavelle, on the 15th day of August, 1900, unlawfully and maliciously killed the said woman named Theresa Lavelle."

TREATY IS SIGNED

NEGOTIATIONS WITH FRANCE SUCCESSFULLY TERMINATED.

Most Important Treaty Concluded Under the Reciprocity Provisions of the Dingley Law and the Only one of the Kind to be Signed by a Commercial Nation — Both Sides Express Satisfaction With the General Results Secured.

Washington, July 26.—The long-pending reciprocity treaty negotiations between the United States and France were brought to a successful close at the state department late yesterday afternoon when Ambassador Cambon, in behalf of France, and Commissioner Keanon, in behalf of the United States, signed their signatures to the reciprocity treaty.

The treaty, which is the most important provision of the Dingley law, and the only one of the kind to be signed by a commercial nation, was signed by both sides.

It is believed that the treaty will result in a large increase in commerce between the United States and France.

WAR NOT INTERFERED.

A Showdown Jangling With Words in the Canadian Parliament.

New York, July 26.—A special to the Herald from Washington says that there will be neither war nor arbitration between the United States and Great Britain, one nation making concessions on this question in return for concessions by the other on some other question at issue between the two governments.

This is the view expressed by an official having much to do with the pending negotiations. Referring to the withdrawal of Laurier's speech in the Canadian house of commons, in which the Canadian premier declared there were only two ways by which the difficulty could be settled—arbitration or war.

The official said that the Canadian government is not prepared to accept arbitration as a condition of settlement.

TROOPS IN CONTROL

WELLS HUNDRED MEN ORDERED AWAY BY CLEVELAND.

No further serious rioting is reported and it is thought that the militia are present in sufficient numbers to overcome any disturbance. The militia are being kept in line and are being ordered to move out of the city.

Cleveland, July 27.—Strikers and their friends last night held a meeting and various speakers protested against the presence of troops and the carrying of arms by private citizens, meaning non-union street car employes. The day brought forth no new reports of rioting and violence. Rain fell during most of the afternoon and did what the police have been doing for some time—keeping crowds from collecting and mobbing cars.

The Mississippi Reservoir.

The Mississippi Reservoir.

The annual report in regard to reservoirs at the headquarters of the Mississippi River has been issued, of which the following will be of interest:

The report says that the deficiency of 1898 allowed the use of the unexpended appropriation for the construction of reservoirs at the head waters of the Mississippi and under this clause funds appropriated for the Great Lake reservoir were applied to the reconstruction of the old dam at Lake Winokogosh and to the building of the new distant Pine river. The river and harbor act of the last session clearly approved the policy of making the reservoir permanent by suitable changes in the types of dams and sluices. The question of land damages should be determined by accurate surveys and all lands actually submerged should be purchased or forgoe easements to them should be procured by the United States. Under the terms of the act, says Major Abbott, it will be possible to replace the decayed wooden structures which now constitute the dam at Winokogosh and Leech lake. It will be the middle of the summer of 1900 before the work at the former will permit the transfer of the plant to the latter point. Leech lake will, therefore, be replaced in the summers of 1900 and 1901. By that time it will be urgently necessary to replace the Pine river dam with a suitable concrete structure. By this time the Pine river dam is renewed, the Pokegama dam will require immediate attention. The dam at Saulty lake is in good order and should need no extensive repair for at least eight years.

During the past year a dike about 200 feet long partly built at the Pine river reservoir. It will be completed this summer. Plans for the concrete dam at Lake Winokogosh were approved and the purchase of material begun. Some progress was made in securing forage rights at the Pokegama falls dam. The condemnation proceedings will have to be resorted to. Completion of the surveys inaugurated under the act of last March will enable the government to dispose of intricate and intricate matters of fact and right to forgoe rights over all lands affected by the reservoirs permanent. The amount expended on dam work during the year was \$40,125.

Under the bond appropriation and care of reservoirs Major Abbott says the dam at Leech Lake and Winokogosh were so much out of repair that it was unsafe to use them for impounding water. Dams at Pokegama falls, Pine river and Sandy lake have been operated as usual.

Cass Lake Wins Out.

A telegram from Washington says Secretary Hitchcock has announced that the government has determined to sell the north half of Section 15 of Cass Lake township, under the act of 1892.

The land will be subdivided in the regular way and settlers will be allowed to remain until the sale is effected. Settlers on Section 15 will have to move, but the government will not use any harsh measures. It was decided that, as section lands are agricultural, they cannot be sold until other parts of the law are complied with. This order will allow the whites to remain. Under the act of 1892, all the lands of the township will probably take place October 1st.

GRAVE LAKE ITEMS.

Abel Spohn returned from Lincoln on Saturday last. Gus Lasso was re-elected clerk of the Grave Lake school. Elsworth Martin is working with his team over at Houdis. F. W. Billings left for the Dakota wheat fields on Monday last. Millie Heath returned from an extended visit below last week. M. W. Wickham was re-elected director of the Eagle Lake school. Everybody here is haying or blue-berrying, and there is a good crop of both. Mrs. Randal, of Lincoln, Morrison county, is visiting her father, John Howard. Fred Martin was an active bidder at the Scandinavian picnic on Saturday last. There will be a dance at the Grave Lake mill on August 5th, a birthday occasion.

J. W. Billings has disposed of his interests here, and will soon leave for the west. O. O'Brien, of St. Paul, who has been stopping at the Rice-Barber cottage, left for home last week. Two of Warren Hastings's daughters are visiting the old gentlemen at his home in the north part of the town. The Lee Barber party that have been stopping at the cottage on Heron lake started for their home in St. Paul Monday morning after a sojourn of four weeks. The residents of school district No. 17 in the northwest part of town gave a picnic dinner on Saturday last for the purpose of raising funds to build and equip a school house. They had for sale to the highest bidder productions of the Ladies Sewing Circle, children's clothing, etc., which was readily disposed of and quite a sum was realized.

ENDOS ETCHINGS. The Goola boys have bought a new binder. Miss Susie Shew is visiting her grandfather, Mr. J. Shew. Sam Hammett is on the sick list, having an attack of quincy. Mrs. Conrad Isle and children returned to Brainerd last Saturday. Mr. R. Wellwood is talking of selling his farm and going to Michigan to live. Mrs. Emma Shew has returned home from her sister's feeling nearly well again.

Warning to Farmers. As I am reliably informed that some foul-mouthed sheep hirelings of competing machine firms are going around the farming country and endeavoring to sell machines by finding falsehoods in regard to the Deering Ideal Harvesters and Binders which I represent, I call attention to the same and warn the unsuspecting farmers of such men, who would do better as scavengers than to try and ply the machine trade with the help of lies. The Deering Ideal Harvesters and Binders are as much superior to those competing machines as electric lights are to the old fashioned candle dip. Farmers, if you want a machine you can depend on buy the "Deering," reliable and good, at BESSELY'S, corner of Fourth and Front streets. Wheelmen's Excursion to Boston and return via Nickel Plate Road, at \$19 for the round trip. Dates of sale August 11th and 12th. Good returning for arrival at initial starting point not later than August 31st, by depositing tickets in Boston with Agent Fitchburg R. R. Two through trains daily with vestibule sleeping cars to Boston-Chicago depot, Van Buren Street, and Pacific Avenue, on the Loop. Women love a clear healthy complexion. Pure blood makes pure blood.

JUDGE FOR YOURSELF.

Which is Better, Try an Experiment or Profit by a Brainerd Citizen's Experience. Something new is an experiment. Must be proven to be as represented. Be successful at home or you doubt it. The statement of a manufacturer is not convincing proof of merit. But the endorsement of a friend is. Now, supposing you had a bad back, a lame, weak, or aching one. Would you experiment on it? You will read of many so-called cures. But they come from far away lands.

It's different when the endorsement comes from home. Easy to prove that it is so. Home endorsement is the proof that backs every box of Doan's Kidney Pills. Read this case. Mr. W. S. Benjamin, practical band, gang or rotary saw filer, of 71 Third avenue, East Brainerd, says: "Doan's Kidney Pills did me so much good that I have prevailed on many others who complained of kidney ailments, to use them, and I know of many cases where benefit has resulted. My own trouble was, I believe, the remote result of a fall I incurred several years ago, at any rate, ever since then I have had more or less pain and the renal secretions seemed to be slow in nature, thereby causing considerable distress. My fall spring got a supply of Doan's Kidney Pills and within the day they had the effect of wholly relieving the condition of my kidneys referred to above. I shall certainly continue to advise others to use this remedy if annoyed any way from their kidneys. Doan's Kidney Pills are for sale by all dealers. Price 50 cents. Mailed by Foster-McMillan Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no substitute. For sale by the McFadden Drug Co., and Johnson's Pharmacy.

—Ten thousand demons gnawing away at one's vital could be much worse than the tortures of itching piles. Yes there's a cure. — Doan's Ointment never fails. Get your binding twine at Beck & Remond. Several different varieties kept in stock, which will be sold at very low figures. 3217. Kodos to rent or will trade you a new one for your old one at McColl. "It is a surprising fact," says Prof. Hermal, "that in my travels in all parts of the world, for the last ten years, I have met more people having used GAZER'S AUGUST FLOWER than any other remedy. For dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and seamen, or for filling office positions, where headaches and general bad feelings from irregular habits exist, that GAZER'S AUGUST FLOWER is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at M. R. Sward's drug store. Sold by dealers in all civilized countries. Mrs. R. E. Sturgeon has opened a lying in hospital at No. 76, Second avenue, East Brainerd. Terms reasonable. 3117. Did you ever see a Snow Storm in Summer?

We never did; but we have seen the clouds in this time of the year so covered with snow that it looked as if it had been out in a regular snow storm.

No need of this snowstorm.

As the summer sun would melt the falling snow so will Auer's Hair Vigor.

They bear well and regularly, and are among the best for planting, where profit is concerned. Especially in this time of the year, and improved varieties we now have, like Paragon and Hildreth. The Paragon is a large nut, of excellent quality, bears very young, producing yield after the second year from graft, and trees less than five feet high will often have several dozen nuts of three or four ounces. The Hildreth is very similar to the Paragon, every way except that it is a smaller nut, but it is a little better in quality. There are quite a number of other varieties that are said

FARM AND GARDEN.

MATTERS OF INTEREST TO AGRICULTURISTS.

Some Up-to-Date Hints.—About cultivation of the soil and plants, the most important of which are the following:

Grasses for Oklahoma.
The director of the Oklahoma Experiment Station says:

The experiment station receives more inquiries from Oklahoma farmers concerning grasses or clovers than any other one subject. Aside from our native grasses there is no true grass well adapted for pasture of hay or both which with our present knowledge and experience we can recommend with confidence for cultivation on the territory generally, and the same is true of the clovers proper. Experiments in Kansas and Texas have given great value in helping us to form conclusions. Over much of these great states no one of the cultivated grasses proper has been found to thrive. At the experiment station at Stillwater, Kan., some grasses have been obtained on some trials with timothy and blue grass, but other trials have proved failures. Orchard grass has done well in growth, but a full stand has not yet been secured in any trial. Fescue grass has resulted from repeated trials with timothy and blue grass. Fescue grass which has been recommended for this region. Bermuda grass grows readily and spreads rapidly in many parts of Oklahoma, and it is a complete lawn for both as well as pasture grass. Johnson grass, a native of the tropics, is a coarse grass, and the difficulty of eradicating it is such, that it is not recommended for cultivation. It can be strongly opposed to its use.

SCIENTIFIC TOPICS.

CURRENT NOVELS OF DISCOVERY AND INVENTION.

How an Inventive Woman Made the Fish-Baiting Spider. The inventor of the fish-baiting spider, a woman who lives in the water and feeds on the bodies of fish, has been discovered. The spider is a small, delicate creature, and its web is made of a fine, silken material. It is used to catch fish, and its invention has been a great help to fishermen.

Use for an Old Hurdling. The inventive mind of man usually turns itself to the construction of some new article of use or ornament, some addition to the earth's treasures evolved by patient study and thought. Not so the inventive mind of woman; it is usually employed in devising ways of utilizing the useless, or turning to some secondary purpose that which was intended for some entirely different matter.

The daffodil merit which the club is supposed to possess is a greater sign of the absence of blighting at the point where the head and shaft are usually joined making the plant sterile.

There are certain large sea spiders (two feet from top to tail), called daffodils, that live in the water and feed on the bodies of fish and worms. The carnivorous web spider, an amphibious inhabitant of the tropical regions of South America, is said to prefer a fish diet, although it is not averse to eating mice, young birds, and even snakes, resembling in this respect the Phoridae, or bird-catching spiders of India and Queensland, some of which equal a cat in size. The collembola is the most formidable spider on the spider family, measuring six inches round the body and possessing twelve long hairy legs with which it trips its prey. It attacks fish several times larger than itself, and after biting them through the back and stinging them to death, gists itself by sucking the juices from the bodies of its victims.

During the absence of the pastor of the Presbyterian church, Sunday evening services will be discontinued. Morning exercises at 10:30 o'clock will be regularly held. Mr. Carver and family will take a vacation at Bay Lake.

The Latest Cyclometer.

The newest thing in cyclometers is the "Security," which is attached to the hub of the wheel between the spokes where nothing can strike it and dislocate or injure it. Herein lies its great advantage over other cyclometers that are fastened outside of the wheel, and are knocked out of position and broken every time the wheel falls or is brushed against something. Other cyclometers rarely last a year for these reasons, while the Security will last all the time. They are kept in stock in this city only by A. L. Hoffman, and are sold at \$1.
