SALOON PROSECUTIONS.

Ed Cullen Discharged on a Technicality And Re-arrested.

LICENSE TRANSFERS OPPOSED.

Alderman Geo. Gardner Held to Await The Action of the Grand Jury.

The preliminary examination of Ed Cullen, charged with keeping his saloon open on Sunday, occurred in the municipal court last Saturday, the case occupying nearly the whole day. Coupled for the defendant asked to have the case dismissed because the complaint was not properly drawn, but this was denied. The case of the state was then presented, the evidence showing the facts to be substantially as published in our last issue. In showing that Mr. Cullen was a licensed saloon keeper it developed that Mr. Cullen's license was for the room at 17 Kindred street, and Mr. Cullen has been doing business since last fall at the corner of Kindred street and Second avenue, several doors further east, for which he had no license. Defendant's attorney took advantage of this fact and asked that the case be dismissed because Mr. Cullen was not a licensed saloon keeper for the place where the liquor was sold. As the law only applies to licensed saloon men, the court dismissed the case.

The anti-saloon league was not satisfied with this term of affairs, and on Tuesday had Mr. Cullen arrested for selling liquor without a license. The case came up in the municipal court Wednesday morning, and was continued until Thursday, April 12th, Mr. Cullen giving bonds for his appearance.

The preliminary examination of Alderman Geo. Gardner for keeping open on Sunday occurred on Monday, the trial lasting all day. County Attorney Alderman conducted the prosecution and Judge Fleming appeared for the defense. Mr. Gardner admitted being in his saloon, but emphatically denied that he kept open or sold any liquor. The testimony for the state was to the effect that he had disposed of liquor in the manner already published. After hearing the evidence Judge Mantor held Mr. Gardner to await the action of the grand jury.

The next move of the league will be against those saloon keepers whose license has been transferred either to location or from some other individual. Two transfers were made by the council Monday night, and the league considers the action illegal and will have the saloon keepers arrested and brought to trial in order to test the question in the courts. Rev. Cluett speaking for the league, said that their action was not intended to punish the saloon keepers, but merely to establish the illegality of the custom, the council being at fault. They will proceed against P. O'Connor, who they say changed his location two months ago without asking to have his license changed, and against the licensee transferred Monday night. Mr. Cullen, they desire to see punished because they say he took advantage of his own illegal act in order to escape the penalty of keeping open on Sunday.

Shoes. Dalaty Turns, light and heavy welt, substantial machine sewed. See our window. R. F. WALTERS, Big 9 Shoe Store, 6th Street.

AN EARLY COUNTY FAIR

Annual Meeting of the Crow Wing County Agricultural Association Held Last Saturday.

OFFICERS & DIRECTORS ELECTED.

The Fair to Be Held September 19th, 20th, 21st and 22nd. This Year.

The annual meeting of the Crow Wing County Agricultural Society was held at the court house last Saturday afternoon at 2:30 o'clock. The attendance was not large, but fully as large as could have been expected considering the brief notice given. The meeting was called to order by President Werner Hemsted. The minutes of the previous meeting were read and approved, and the treasurer submitted his annual report, which showed the society to be in debt \$425.00. The cash on hand is \$41.00 and unpaid bills are \$4.00. On motion the bills were allowed and ordered paid. The following officers were elected by acclamation: President—Werner Hemsted. Vice President—J. M. Elder. Treasurer—G. D. LaBar. Secretary—M. K. Swartz.

On motion the president appointed directors from outside towns as follows: Bay Lake—G. A. Hunt. Maple Grove—W. H. Ralls. St. Mathias—R. H. Caplainant. Pointons—W. H. Rosenkranz. Long Lake—John Sangren. Crow Wing—Wm. Livingston. Daggert Brook—Fred Krohnau. T. 133, R. 23—E. E. Bernard. T. 135, R. 23—Wm. Borden.

The question of the date of the fair was then discussed at some length. Some thought it should be quite late so as to give products time to ripen thoroughly, while others feared that a late date would result in the same disagreeable cold weather that prevailed during the last fair, and which made it a failure financially. A motion was finally made to hold the fair four days, Wednesday, Thursday, Friday and Saturday, Sept. 19th, 20th, 21st and 22nd, and it prevailed.

M. K. Swartz then suggested that as the success of the fair depended so much on the efforts of the ladies, a Ladies' Auxiliary be organized, and on motion Mrs. Geo. Forsyth and Mrs. M. K. Swartz, the only two ladies present, were requested to organize a ladies auxiliary as suggested.

After discussing the benefits to the county resulting from the contemplated fair, the meeting adjourned.

EXPENSIVE NEW MACHINERY Now being installed in the Northern Pacific Shops in This City. The Northern Pacific railroad company is putting in some very fine pieces of new machinery in its shops in this city. Yesterday a mammoth new wheel lathe arrived and will be placed in the machine shop as soon as possible. The shop is so crowded that other machinery will have to be taken out to make room for the lathe, which is a magnificent machine costing \$45,000. It was made at Newark, Ohio, by the Niles Tool Works. Two other very fine pieces of machinery have been received during the week, and foundations for them are now being built, and when completed they will be placed in position. One is a bar punch and shears for the blacksmith shop, and the other is a plate punch and shears for the boiler shop, the former machine cost \$2,200 and the latter \$3,400. These machines are all electrically operated by independent motors attached to each machine, and are great labor saving devices. The shops are crowded with work. Every available man, that can be found is put to work, and all are compelled to work over time, and still the work piles up. The blacksmith shop now has more work than the present force could do in eight months, and the shop is worked to its full capacity, and yet the work accumulates more and more. Something will have to be done soon to relieve the congestion.

Rudyard Kipling is going to tell of "The Beginning of the Armadillo" in May Ladies' Home Journal.

Of course, Mr. Kipling brings to bear an irresistibly funny, but withal a highly ingenious, philosophy in describing the peculiarities of the armadillo. He evidently found enjoyment in writing these stories—his call them "Just So" stories—for he has interwoven more laughable humor into his account of the way by which the armadillo came into being, and the others of the series, than in anything else that has come from his versatile pen.

Beware of using the personal pronoun "I" too freely in your talk when you are talking in a room full of people. Egotists are often amusing and entertaining, but as often they are very much out of order—April Ladies' Home Journal.

PLENTY OF IT.

Mr. E. W. Igloh, who is the organizer and proprietor of the most successful and popular collection and guarantee agency in the north-west, has, we believe, made another popular and successful score—in taking note of the Biber war, and our own Tangle inscription, and the waste caused thereby, some of which waste is amply proved by the fact that our own government, and also agents of Great Britain have been, and are now buying up all the same in the country and sending them to the front this has practically exhausted the visible supply of mines, and exhausted their waste many times, and this waste must be made good at greatly advanced prices to stock raisers, thus putting into the hands of farmers and stock raisers a valuable source of wealth if they choose to grasp it, and the means to that end Mr. Lynch has just placed within the reach of the farmers of Crow Wing County. He has, with his usual business foresight, purchased in the southern States the best Jack that could be purchased, and it has just been delivered to him here in Brainerd in first class condition. Farmers, and others interested, are advised to see Mr. Lynch without delay, as delay or neglect to do so will result in disappointment to them as only a limited number will benefit through Mr. Lynch's purchase. Decision and immediate action makes success and often saves regret. Respectfully,
