Wm. Guthrie Dead.
Station Agent McKay yesterday received a telegram from the agent at Phoenix, Arizona, announcing the death of Mr. Wm. Guthrie, of this city, at that place yesterday morning. Mr. Guthrie has been afflicted with consumption for some time and went to Arizona a few weeks ago in the hope of being benefited by the change in climate, but his hopes were not realized, and he grew weaker and weaker.

Mr. Guthrie was 46 years of age and has resided in this city ten years. He was a painter and paper hanger by trade, and was employed in this manner until prevented by ill health. He was a member of C. O. L. and the local lodge of Foresters, in which organization he had \$2000 insurance. He was a man of integrity and upright character, and had the respect of all. He leaves a wife and two small children in this city to mourn his loss besides two grown sons, Roy and Walter, by a former marriage.

The remains will be interred in far-away Arizona, the Foresters having charge of the burial and attending the expenses. The secretary of Brainerd lodge yesterday wired the Phoenix lodge to conduct the burial there. Mrs. Guthrie and family have the sympathy of all in their affliction.

LIBRARY BALL.

Splendid Social Function to Raise Funds for the Public Library.

A meeting of the ways and means committee of the Library Association was held on Tuesday evening, and it was decided to give a grand ball at Gardner Hall, on Friday evening, May 11th, to raise funds for the Library Association. The committee also determined to make the ball one of the most pleasant social events of the season, and to that end decided to introduce a new and pleasing feature for the amusement and entertainment of the guests, which consists of the dancing of the German by about thirty young couples. This is undoubtedly the most beautiful and imposing of dances, and it will be a great treat to witness it. Dr. and Mrs. A. F. Groves have been chosen to lead the dance. Rehearsals are now being held and it will no doubt be perfectly mastered and splendidly executed on the occasion of the ball. Kelsey's full orchestra will furnish the music. The floor managers have been selected and are as follows: Henry Linneman, R. J. Hartley, Geo. LaBar, Geo. H. Spear, Dr. Heintzsch, C. G. E. Eyer, Dr. Batcheiler, C. A. Allbright, Dr. Fredericks, W. A. M. Johnston, P. J. Murphy and S. M. Adair.

While the ball will be probably one of the most pleasant social occasions of the season, and those attending will be repaid many times the cost of the ticket, yet every citizen, whether able to attend or not, should purchase a ticket and help sustain the library, which is doing a magnificent work in brightening the minds of the people of this community. Tickets are \$1.00 a couple and \$0.50 for extra. If you don't dance, it will pay you to purchase a ticket and see the beautiful and imposing German.

Swallowed a Tin Whistle. About two weeks ago a four-year-old son of Mr. and Mrs. Chas. Winterstein swallowed a tin whistle, which resulted in the child's death on Tuesday morning last. Dr. Groves was called at the time, but the whistle seemed to have gone down into the child's stomach, and it was thought would be passed through the bowels. This did not occur and the child soon seemed unable to swallow solid foods, and developed a disordered condition of the stomach. It was then decided that the whistle had lodged at some point. The Sanitarium has recently acquired an expensive X Ray apparatus, and it was decided to locate the whistle by this means. On Sunday Dr. Groves took the child to the Sanitarium, and after a little search the whistle was located in the esophagus, near the collar bone. An effort was made to extract the whistle, but all efforts in this direction proved futile. It was finally decided that a surgical operation was the only means of relieving the little sufferer, and an operation would have been performed Tuesday morning, but the child died that evening. The funeral occurred on Wednesday at St. Francis church, Rev. Lynch conducting the services. Featherstone wheels at Hoffman's. FROM OUR COUNTY CORRESPONDENTS.

EDSON EITCHING. Our local muskrat, 'Billy Moor,' furnished the strongest music for the dance at Twin Lakes ranch, Saturday night. This accounts for his paw being vacant at church Sunday.

Our P. M. made a flying trip to Duluth one day last week. Must be he is trying to play even with some of the city young men that have plucked one of our spring buds.

At last the wedge of civilization and Christianity has entered the log of negligence and sin in our vicinity. May the good work go on and ere long establish a God-fearing community.

Short Butterfield has shipped a lot of fine trees to a friend in North Dakota, as an experiment on the prairie, and if they succeed he will have some large shipments to make another year.

The high north winds of Sunday caused some happy smiles on the faces of the river drivers, as it accomplished more work on the logs in a few hours than a hundred men could do in a week.

Report has it that a couple of the Webster brothers from Iowa have purchased themselves homes in our vicinity from the R. R. Co. Hope it is true, as men of means are the ones we need in new settlements.

H. G. Butterfield has sown three-fourths of an acre to onions this spring and intends to put in about a third of an acre yet. He is going to try and supply the demand for next winter, if possible.

From all indications the Twin Lakes house warming will not receive a very large attendance from this district, as we are all very busy just about now dancing with the plow or onion seeder.

Wonder what is the great attraction at the ranch for a certain party of our neighborhood. May be it is the excellent pie that Free's cooks puts up to them, as they are quantity seen indulging in such luxuries.

While enroute to Brainerd one day recently, Mr. Butterfield's buggy horse ran away and endeavored to enter the barn door of Pollock Lake ranch, with the buggy attached, resulting in a broken shaft and the buggy pretty well wrecked out of shape.

It is all right, girls, have as many strings to your bow as you possibly can, but be careful you do not get caught in the same trap that you are trapping others. But we suppose these Florida breezes are such a temptation to go buggy riding that we will have to excuse you.

What has become of the young man that went to see one of our local young ladies and did not get a very warm reception. At last accounts he was found asleep in a horse manger. Don't get discouraged, young man, there are large fish left yet that may be caught without bait.

The wolves are getting very numerous near our settlement of late. They are evidently following the deer that come down this way every spring to rear their fawns. What is the matter with Long Butterfield that he does not get his old wolf bustle on him and stay a pack or two.

John Plymmer, of Cincinnati, O., while attempting to run a lot of small logs over deep water in Crook Lake, fell in six times, and still persisting in the attempt, fell in the seventh time and went under the logs. His body has not yet been recovered. This should teach foremen of drives not to allow green hands to be foolhardy and venture into the most dangerous places.

The Rev. G. F. Morion was with us the 29th last and presided over a good session, besides organizing the Eagle Lake Union Sunday school, the following officers being elected: Superintendent, John Lambert; assistant superintendent, E. A. Andrews; secretary and treasurer, H. G. Butterfield. There being a light attendance, owing to the inclemency of the weather the session of teachers was postponed until next Sunday. The liberality of those present enabled the school to order the necessary song books, cards and papers and pay the cash for the whole, thus starting out free from debt.

Good Lord sent us a grand, good blessing last Saturday in the shape of a nice warm rain, something we needed very badly to start the grass along.

Mrs. Martha D. Porter, mother of I. B. Porter, celebrated her 75th birthday May 1st, by giving an elaborate dinner to a number of her lady friends. Several nice presents were to make the day memorable.

SEWELL LAKE JOTTINGS. John Weber went to St. Cloud on his wheel last Saturday to visit friends.

Mr. N. J. Guild and son, Bernat, returned last week from Pine River, where they have been engaged in lumbering the past winter.

The people of this district observed Arbor Day on Tuesday of this week and planted forty-two trees on the school house grounds. A bottle, containing a slip of paper on which was written the name of the planter, the name of the tree and the date was placed among the roots of each tree named. The following are the names of those who planted and named their trees: Mr. Ole Anderson named his McKinley; Mrs. Anderson, Francis Willard; Sam Anderson, George Washington; Ivey Anderson, Harriett Beecher Stowe; Mrs. J. BARBARA GIBBS, Teacher. G. A. Hunt, of Bay Lake, was in the city on Wednesday on business. Mr. Hunt reports that the past winter was very severe on small fruits of all kinds. Strawberry plants are practically all killed and blackberry plants not the same fate. Mr. Hunt says it was not for want of protection as the plants were properly covered, but for some unaccountable reason the roots of the plant have rotted, young grape plants have also been killed, and he has vines twelve or fifteen years old that he fears are damaged if not killed. Apple and plum trees seem to be doing splendidly.

Baking Powder

Absolutely Pure

Makes hot breakfast-breads wholesome—no yeast germs, no alum. Makes cake, biscuit and pastry of superior fineness, flavor and delicacy. Makes food that will keep moist and sweet. Is most economical, because it is the purest and greatest in leavening strength. In the easy, expeditious preparation of the finer cakes and pastries appropriate to the season, Royal is indispensable.

Care must be taken to avoid baking powders made from alum. Such powders are sold cheap, because they cost but a few cents per pound. Not only alum is a corrosive acid, which taken in food means injury to health.

A fine \$60 wheel belonging to Mr. Tyler's son was in the barn and was also destroyed, besides 10 storm windows and two storm porches that were stored there. The barn was insured for \$100.

The instrumental pieces by Miss Clulow were very fine and showed on the part of the pianist talent and culture, as did also the instrumental duets by herself and Miss Lillian Willie and Miss Furl brought down the house. The entire program was ably assisted by the children and as they sang were frequently cheered. It is unnecessary to say anything with reference to Mrs. Clulow's instrumental piece as she is frequently heard in her sweet solos in the church services.
