Decide water and gas works, two ferries, a street-car line, an abattoir and a factory for making shoes for the firms of municipal employes. Manhattan also operates its local telephone system. Municipal operation began in 1898, at the expiration of a sixteen years' franchise granted by the city of the Bell interests, and the long-distance lines were assumed about the same time by the general government.

It seems strange that with all the scientific achievements of the age man is still at the mercy of nature's most potent creature. Take so small a thing as a mosquito. The greatest philosopher of the world has not been able to overcome this insect, and no invention of science has deprived it of its sting. Country life is robbed of half its joy by a pest, and suburbanization has driven the best of human life to the city.

Satisfaction must be expressed at the present activity of the historical societies in the middle west. They realize that the earlier the work of collecting and preserving the records of the past is begun the better it will be done, and that each year it is postponed valuable material is lost. The German-American Historical society of Illinois will receive the most work it is about to undertake in the collection of information relative to early settlers of German ancestry. The data which it has decided to gather will throw an interesting light upon these sturdy pioneers who did so much to build up the middle west.

An investigation of the watershed of Rock River, Ill., will soon be made by the Division of Forestry of the Department of Agriculture to determine the cause of the destruction of the timber of that stream. This is supposed to be due to the domination of the forest on the head waters of the river and to excessive artificial drainage for commercial and agricultural purposes. The decrease in the volume of the river has become alarming, and in response to the attention of citizens of that locality Representative Hitt appointed the Secretary of Agriculture to investigate. G. P. Schwager, field assistant of the Division of Forestry, will visit Illinois to investigate.

A writer in the Review Socialist asserts that the chief bar to women's advancement is her lack of will. The statement is made by a woman who speaks all of her life yielding to the wishes of some man. When a child she is forced to make sacrifices for the benefit of her brothers, and she learns to wait on them and surrender completely to the masculine will. She grows up with the idea that she must wait on her husband's whims and must defer to him in all the relations she has acquired. Her husband expects obedience, and she must wear a smiling face when she is in pain, and must always wait herself to his humors.

The South African war is now in its final stage, and there is no doubt about the outcome. If the war itself must meet with occasional success, like the capture of Beersheba, troops, their ultimate surrender would be more than feasible. Continued fighting does not serve their great and noble cause, which is lost already, but simply prolongs a period of unnecessary, unavailing bloodshed. Many of their foreign sympathizers who feel for them in the bitter end of the war, hope must deprecate this costly, fruitless struggle and there have been rumors that the Boers themselves have begun to question its wisdom. No one will, however, question its justice. There are those among them who would sue for peace, even though Kruger has declared war. But no matter what they do, their people will resist until they are destroyed.

There is considerable interest in the Belding hares from Kansas City where, at least as a tad, the breeding of these animals began. It extended to Los Angeles, Cal., where the crates spread over the whole southern part of that state. Gradually the boom spread to San Francisco where Belding hares die were formed and the propagation of the hares was given further impetus. An idea of the rapid spread of the hare was given by a newspaper clipping, the hare was brought to St. 84, became very profitable.

**BRAINERD WILL BE INVADED.**

Third Regiment N. G. S. M. Will March From Milne Here In September.

And Engage in Field Manuevers As in Actual Warfare—Through Days Camp On Hills: Laes Lake.

The Pioneer Press of Saturday contained the following notice concerning the operations of the Third Regiment N. G. S. M. this fall:  
 Col. C. A. Van Duzee of the Third Regiment, N. G. S. M., has received reports from all the companies of his regiment relative to his proposal that the regiment give up the usual summer encampment and devote ten days later in the season to practice field manuevers. The proposition received the approval of the adjutant general and was then submitted to a vote of the officers and men of the several companies. The majority in favor of the change was very large, and yesterday Col. Van Duzee made definite announcement to that effect.

The plan contemplates the mobilization of the regiment at Milne about the second week in September. The regiment will then engage in field manuevers covering the territory between Milne and Brainerd where the experiment will terminate. The distance between these two points is sixty miles. It will be in no sense a practice march, which would cover the distance in two or three days but a continuous succession of manuevers, outpost work, advances and rear guard attack and defense, fortification and all the other details that might be anticipated by an army operating in the enemy's country.

Three days will be spent on Milne Laes Lake the camps being pitched at various points on the south and west shores of that beautiful sheet of water. The regiment will proceed in light marching order and will be accompanied by a baggage train. It is already equipped at regimental cost with much of the equipment necessary for such an expedition and the adjutant general has promised the rest.

An engineer corps and a signal corps will be organized at once and there will also be a detail of scouts. Col. Van Duzee expects to take along at least 100,000 rounds of blank ammunition to add a realistic color to the work. The colored troops to go over the ground in advance of the regiment and arrange all the details.

This is believed to be the first attempt in any state to give a national guard regiment an idea of the actual work that would be required of them in actual service, and it is believed that it will afford an example that will be more or less generally followed. There is already some talk of the artillery battalion joining the Third regiment in the expedition.

Uncle Sam has the earth. Hessel has the tools to work it. There's no beauty in all the land. Her lips are red, her eyes are bright. She takes Rocky Mountain Tea at night.

Our school-marm has moved her boarding place from Mr. Neider's to Eagle Lake ranch. Messrs. Wm. Meschen and S. Burditt have gone to Brainerd to meet their better halves.

M. L. Butterfield has built himself another house, making the third building on Garboo Cove. Owing to the numerous forest fires our Sunday school has failed to materialize for the past two Sundays.

Mr. Thomas Kennedy is preparing to take his wife to Brainerd to be doctored for a scrofulous affliction of the face. Messrs. Phelps and Smith, of Breckenridge, Minn., are rusticated a couple of months with M. D. Butterfield.

The weather is so dry up here that the chickens crop will be as short as the other crops. Tom Thacker's boom broke one day last week and the logs were driven back to the north end of Dagget lake again.

The social hop at Geo. Frost's last Saturday night was a great success, every one enjoying themselves to their heart's content. Mrs. Wm. Meschen has returned home from Wright county, where she has been for the past month under medical treatment.

The Cross Lake logging Co. had the misfortune to have their boom break, causing quite a heavy expense to gather the logs up again. Evidently the blind pig's fire-water has too much fire in it, as two or three of the older boys can testify, according to the black eyes to be seen recently.

Mr. Meschum is fencing off a good sized stock pasture. That is right, Will. Let every one pasture their stock and then there will be no one damaged by other people's stock. Senator Wood, also of Breckenridge, is expected up to spend his vacation, making his fourth visit up our way. He evidently finds genial companions as well as a fine country.

The other day a couple of Indians got a good sized duck on and made things rather interesting for a few minutes, but a little forcible persuasion soon brought them to their senses. Messrs. Doan and Gillman have gone to Brainerd together. Taken separately they are harmless, but together they are able to commit almost any kind of depredation on some lanch counter.

The body of John Plymmer, who was drowned about four weeks ago, has been recovered. As he was so badly decomposed he had to be buried on the lake shore. His money and watch was forwarded to his relatives. According to the number of packages of garden seed, sent to this community, by Page Morris, there is but two men living up in this end of Crow Wing county. Page, small favors are thankfully received, and larger ones in proportion. Especially when the people's money is paying the expenses.

The county sheriff was up this way one day recently looking for a poor devil that had been using butterine on his table in a public way without the necessary notice being put on it. If the creameries and dairymen of the state would put their butter on the market at or near the price that butterine costs there would be no occasion to keep a high salaried food commissioner.

Many thanks, friend Oak Lawn, for your suggestion about the heading of Eagle Lake news. But I do not believe the Big Woods would be very appropriate, for the simple reason that there is not a large tree

left standing within ten miles of our neighborhood, and if there is not something done to stop the fire bands there will not even be a small tree in a few more years.

Geo. Jackson and F. B. Congdon are hauling rock for the foundation of L. J. Cole's new store. I. B. Porter has taken the top wire off the fence along the straight and narrow way, and put on a pole, and all the people said amen.

Jacob Tabert is busily engaged hauling wood to Koop's yard with two teams. The Oak Lawn farmer gets there with something to sell every time. Miss Julia Way closed a very successful five month's term of school in district No. 4 last Friday. The event was celebrated with an elaborate picnic, which was held in the grove in the afternoon.

Edwin Eamer wants the people to turn out and pray for rain. We agree to Mr. Eamer's proposition. If he was called on to lead the meeting we would get awful tired waiting for our turn to come. We understand that Mr. and Mrs. Collier, who were here visiting recently from Meeker county, were not very well pleased with the beauties of Crow Wing county. Perhaps the loss, as about 200 acres were covered with a small growth of pine, which was mostly all killed.

We met our old friend, L. W. Stearns, in Brainerd last Saturday. Mr. Stearns is taking orders for tablet made suits for the American Woolen Mills Co., of Chicago, and is having very good success. He is also selling the celebrated H. H. H. medicine. These medicines are warranted to cure any disease from a case of colic to a hole a gate post.

Charles Coleman is wrestling with a new bike. The Messrs. Walker were visitors at this place this week. G. A. Hunt is entertaining a new contingent of tourists. Miller's mill opens Tuesday for the final run of the summer. Children's day exercises were to be held at Cutler last Sunday and at Bay Lake on the 17th.

Mrs. G. Christiansen and Mrs. Larson were visiting their friends last week at Katinie. Mr. Leonard, who lived at Hannel Lake, has sold his farm to Mr. Larson, a new settler. D. Borden was in charge of a crew of men Monday, fixing up the Mills Levee road.

Now that vacation has come, our Sunday school assumes a "large appearance" with the returned students. Bids were handed in Tuesday for building the new school house on Borden Lake. We did not learn who took the contract for building. Quite an excitement was caused last week by the mag that carries the U. S. mail depositing his driver shamelessly at the Edson P. O., and taking a flying trip toward Mr. Gergen's. Upon second thought, he wheeled about and retraced his steps, and like John Gilpin's famous steed, "he never ceased until he had come back again."

Don't forget that Brainerd will have the greatest Fourth of July celebration in years.

The N. P. excursion to Duluth, the first of the season, passed through the city this morning.

Don't miss the excursion to Duluth and Lake Superior on Friday, June 22d. It will be a most delightful trip.

A warrant was issued on Tuesday on complaint of A. W. Miller for the arrest of Tom Murphy for stealing two pigs. Murphy has not yet been apprehended.

R. H. Wise has constructed a fine cement sidewalk in front of the Arlington Hotel, and will build one in front of his property at the corner of 6th and Front streets.

More improvements in the way of beautifying the streets of the city will be made this year than in all preceding years in the history of the city put together. Let the good work go on.

A fine new cement sidewalk has been constructed on 8th street in front of the residence of J. W. Koop, E. M. Westfall, Fred Hoffman, Mrs. D. McTherson and Mrs. Moore. It covers the entire block and makes a fine appearance.

J. A. Wilson, census enumerator of the Second ward, desires us to state that next week he can be found at the court house, and he desires all persons residing in the ward who have not been counted or who know any one who has not been, to report to him at the above place.

The Minneapolis Times on Wednesday contains a notice of the marriage of Miss Sarah Sherman Farnham, daughter of Mr. and Mrs. F. W. Farnham, who at one time reside in this city for several years, occupying the residence property now the home of the mayor.

A 4th of July celebration will be held at Albert's mill, 10 miles east of the city. A 4th of July dinner and also supper will be served at Mr. Albert's residence. The programme of sports, consisting of horse races, bicycle races, foot races, etc., has been arranged, and a bowery dance will be given in the afternoon and evening. A general invitation is extended.

A. E. Andrews, of Cross Lake, on Monday evening sent a warrant for the arrest of R. E. Henneman for selling mortgaged property. Mr. Henneman, it seems, felt that section of the country taking with him horses on which Mr. Andrews holds a mortgage, and it is known that he sold one of them. Mr. Henneman was last heard of near Sisk Center, but he has not yet been apprehended.

E. M. Westfall says: "I should very much like to see Eighth street improved in the same manner that 4th street will be. I will willingly pay \$25 a lot if they will improve 8th street." And there are a great many persons residing on other streets in various parts of the city who feel as Mr. Westfall does, and it would not be surprising before the season ends, if a number of other streets than 4th should be improved.

The national guard of the state has been reorganized, some of the poorest companies being disbanded and discharged from the service, and the rest formed into three regiments, as provided by law. The fourth regiment organization is done away with, and Co. L of this city, has been retained and transferred to the Third regiment as Co. F. It will be with the Third in September, when the march from Milaca to this city is made.

The collection of wild animals which will be seen on the Midway in St. Paul during the carnival from June 15th to the 20th, is one of the finest which has ever traveled through the country. Among the collections is an especially savage lion, whose intrapud keeper enters the cage several times a day, but always at the peril of his life. The streets of Catory will have elephants and camels upon which the visitors can ride if they so desire. In fact, the animal show will be a real feature of the Midway.

The fire department was called out last Saturday to a blaze on 9th street north, that had gotten into a wood pile of Frank Zeitz. It was quickly extinguished.

General Manager W. H. Gemmill, of the B & N. M., on Saturday was elected vice president of the board, and a member of the board of directors, in addition to his present position.

The Northern Pacific will run another excursion to Duluth and Superior on Friday, June 22, giving two days at the cities at the head of the lake, and returning Sunday, June 24th. Fare for the round trip will again be the absurdly low rate of \$2.50.

Wm. Hasloom, of Staples, was arrested last Monday on complaint of Wm. Irwin, charged with selling a mortgaged team. The case was set for Wednesday but the trial did not occur, as it was found that Hasloom was insane, and it was decided to notify the Todd county authorities, where he resides, to take charge of him.

J. H. Zimmerman and wife, and Mrs. Zimmerman's father and mother have removed from Wadena to this city, and will occupy the Henry White house in East Brainerd. Mrs. Zimmerman has been engaged to take charge of the choir of St. Francis church, and will give musical instruction. Mr. Zimmerman is a piano tuner, and is on the road most of the time.

Superintendent Blanchard, of the Superior division of the N. P., and Supt. Brown, of the St. Paul & Duluth, were in the city yesterday, on their way to Minneapolis, where Mr. Blanchard takes charge of the Minnesota division today, in the place of Mr. Lee, who takes Mr. Kimberley's place. Mr. Brown will take charge of the Superior division in addition to the St. Paul & Duluth.
