INCREASED TAX LEVY.

The Board of Education Increases Last Year's Enormous Levy.
A special meeting of the board of education was held on Tuesday evening to make the tax levy for the coming year and transact other business. The finance committee reported the following resolution, which was adopted:

Resolved, That the Board of Education of the Brainerd School District, that the sum of twenty-nine thousand one hundred dollars (\$29,100) be raised by taxation in the ensuing year upon the taxable property of the district for the purposes hereinafter specified, to-wit:
For operation of schools.....\$23,600
For interest on bonded debt.....3,900
For fund for interest on bonds and interest.....1,600

Total.....\$29,100
The above tax is to be levied upon all property, real and personal, within the said School District, except such as may be exempt by law. Adopted Oct. 23rd, 1900.

The amount called for, \$29,100, is about \$2,000 in excess of last year's levy, which was about four thousand dollars more than previous levies, and considered exorbitant by many. It means 30 mills or one-half the entire tax rate for all purposes.

A bid was received from Ernest Hussema, offering \$150 for the two lots facing 9th street in block 133, which was accepted, also a bid of Jack Strickler of \$600 for lots in Hayes addition.

The bills of T. D. Irvine, \$27, for trees, and F. J. Murphy \$44.50 for radiators were allowed.

The matter of filling a vacancy in the corps of teachers was left with the superintendent and teacher's committee, with power to act.

A motion was adopted that the board accuse from tuition such pupils as the superintendent, upon investigation, finds have no other home and are not in the city merely to get an education. A motion was also adopted that all parties living out of the city must pay tuition, whether they pay taxes or not.

The board then, it seems, resolved itself into a district school meeting. The following notice was read: worst of school meeting.

A meeting of the legal voters of Brainerd School District is hereby called to be held at the High school room in Washington school building, in the city of Brainerd, county of Crow Wing, state of Minnesota, on Tuesday, the 23rd day of October, A. D. 1900, at 8 o'clock in the evening.

The object of said meeting is to determine upon the purchase of a site for a school house in the Third ward of said city of Brainerd, and the amount of money to be raised for that purpose.

Dated at Brainerd, Minnesota, October 10th, 1900.
By direction of Board of Education of Brainerd School District:
CHAS. HAGBERG, President.
WENNER HENSTAD, Secretary.
Moved that the Brainerd School

District raise by taxation on all real and personal property the sum of \$150 or so much of said sum, for the purpose of buying four lots in the third ward for a school site.
Motion carried by ballots as follows:
Yeas—Ten. Carried.
Ayes—Ten. Carried.
Motion to adjourn.
WENNER HENSTAD, Secretary.

Republican Rally!

Torchlight Procession of Rough Riders.

SENATOR
KNUTE NELSON,
Will address the voters of Brainerd and vicinity at Gardner Hall on Tuesday evening, Oct. 30. Turn out and hear the best speech of the campaign.

The Financial Statement.
The DISPATCH this week contains the annual financial statement of the county for the year 1899. It should have been published early in the year, but owing to the immense and unusual amount of work the auditor has been compelled to do because of the delinquent forfeited tax sale and the making of thousands of certificates afterwards, and the unusual size of the statement, the auditor has found it impossible to prepare the statement until now. The great size of the statement is due to payment of all the floating debt of the county of several years accumulation by the issuance of the \$55,000 bonds last year for that purpose.

By examining the statement it will be seen that it covers items of three years standing, the county having gotten that far in arrears. Future statements will not, probably, be one-third as large.

We ask to have you walk in to our new CLEAR ROOM. It is filled with latest novelties in tailor-made suits and jackets.

NOT MISTAKES JUST LIES

Sample of The Dishonest Statements Made by Truesden.
THINKS PEOPLE FOOLISH.
His "Official Care" Which is Packed Full of Untruths.

Under the above heading the St. Cloud Journal Press publishes the following concerning the glaring lies told slightly by Truesden, the democratic nominee, and with which he insulted the intelligence of the voters at Gardner Hall on Monday evening. A DISPATCH representative visited the local dealers and verified the prices practically as given below. The Journal Press says:

Ex-Mayor Truesden, of Duluth, the popular candidate for congress in this district, has distributed over this district a card, on one side being his picture, and on the other some of the most remarkable statements ever presented to an intelligent people.

He starts out this way: "Here are a few of the reasons why the 'plain people' are not inclined to readily accept the insipid statements of the trust organs and speakers abounding with a natural, necessary and beneficent institution the trust is."

And yet if Truesden had been in congress he would regulate or suppress the trusts.

Here are his reasons:
Lie No. 1—"It requires 50 per cent more wheat to buy a stove than it did in 1896."
A stove which cost \$10 in 1896 can be bought today for \$12.

On Oct. 4, 1896, wheat in St. Cloud was worth 65 cents a bushel. In 1896 it was worth 74 cents. In 1896 it would have taken 171 bushels of wheat to have bought a stove and this year the same stove cost but for 144 bushels. Instead of taking 60 per cent more wheat this year than four years ago it actually takes three bushels less.

Lie No. 2—"It requires 20 bushels more corn to buy a wagon than it did in 1896."
As a matter of fact it takes less corn to buy the same kind of wagon this year than it did in 1896. Ask your dealer and see what he says about Truesden's reputation for truth and veracity.

Lie No. 3—"It requires 100 per cent more corn or wheat to buy a copper kettle than it did in 1896."
Copper kettles sold for \$8.50 per dozen in 1896, and the price is now \$10 in 1896 and this year it is worth 20 cents, while wheat is worth 20 cents more a bushel. And yet Truesden says it will take 100 per cent more corn to buy a copper kettle now than it would in 1896. This is about a 400 per cent lie—which indicates that Truesden has gotten himself into a "pretty kettle of fish."

Lie No. 4—"Truesden has gotten himself into a 'pretty kettle of fish,' and while his 'plain people' know anything about copper, that he has plenty of brass—that he can be best described as an animal that rhymes with that metal."
Lie No. 4—"It requires twice as much corn to buy a coil of rope as in 1896."
Give a fool rope enough and he will hang himself. Rope cost no more than in 1896 and corn is over twice as high. It will take only half as much corn to buy rope this year as in 1896, and this is another 400 per cent lie.

Lie No. 5—"It requires 40 per cent more grain to buy a plow than in 1896."
A plow that would cost \$14 in 1896 can now be bought for \$15.
In 1899 it would have taken 974 bushels of corn to have bought such a plow, and now it only takes 415 bushels, a saving to the farmer of 40 bushels on one plow, to say nothing of all the rest of his corn being worth 20 cents more a bushel.

Lie No. 6—"It requires 70 per cent more grain to buy a hog, a rick, or a shovel than in 1896."
It takes less grain to buy either of these articles than it did in 1896, as any dealer in Stearns county will tell you—the advance in the price of grain being much larger than the small advance in farm implements.

Lie No. 7—"A set of common wheels that cost \$7 in 1896 now cost \$12."
This was shown to St. Cloud dealers, who said:
"The man who makes a statement like that must have wheels in his head. Owing to the fact that certain patents on wheels expired several years ago, and are making several new ones, and the result is that they are cheaper than they were four years ago."
Lie No. 8—"Galvanized barbed wire cost from \$4 to \$4.50 per hundred more than in 1896."
This is the price lie of all. Mark

the "more." Any farmer can buy this wire of any St. Cloud hardware dealer today for just \$2.50 per hundred. If Truesden is telling the truth the dealers must have given the farmers \$1.00 for hauling away a 100 pounds of barbed wire in '96. The bars on this wire will purchase Mr. Truesden a congressional boom so badly the democrats will never be bothered with him more.

There are a few more lies on Mr. Truesden's card, but more repetitions of the above. He says that "freight rates have declined back to the exorbitant prices which caused a popular revolt in legislation a few years ago. Freight rates have not advanced as every man who ships freight knows."

And Henry adds—"And all these things have been done by the trusts. He is either a willful pretorator, or else he is an ignoramus. In either case he is not fit to represent a great district like this congress. His card of 'prices' is an insult to the intelligence of the people of this district, who know that every statement he makes is an untruth."

But Henry knows a little about trusts as he does about prices. He is either a willful pretorator, or else he is an ignoramus. In either case he is not fit to represent a great district like this congress. His card of 'prices' is an insult to the intelligence of the people of this district, who know that every statement he makes is an untruth."

This district requires an honest man in congress, and one who does not take them for a pack of fools as does Truesden. They want a man of ability and standing. Truesden, you won't do.
Catholic Pair.

The first evening of the Catholic fair brought out an unusually large crowd. Gardner's Hall is the scene of the entertainment and skillful decorating and a nice sense of the artistic have accomplished wonders with the ordinary unattractive interior. The stage was handily and splendid effect in the general plan of decoration. It represents a support from curtains off from the floor below, thus lending an air of retirement to the spot.

The booths are located to the right of the stage along the wall. To the right facing the stage Misses Early and Lillie have a corner in which the walls are adorned by a number of works of art. Here is displayed Pharo's Horses, a handsome piece for which there is a lively contest.

Next comes the handkerchief booth, then the supper room, and then a parlor in Victorian rod and hangings. On the opposite side next the stage is the fish pond, a most popular resort last evening. The fancy work booth is next. The fair was presided over by Mrs. Henstead last evening.

The fair promises to be quite as successful as last year, notwithstanding that there is no stimulus in the form of a financial burden to spur the parish on to strenuous efforts. There was music by the band last evening, and their concert tonight and tomorrow will further contribute to the entertainment.

CONSOLIDATING RAILS ASSISTING THE EMPLOYEES.

Better Chance for Railroad Men than Ever Before.

A Return to the Old System of High Freight, High Fare and Jerky Water Retains in its Possibility.

By William H. Baldwin, Jr., President of the Long Island Business.

To appreciate the significance of the value of railroad consolidation to the public, it is only necessary to attempt to conceive of a return to former conditions. The small independent railroads, with their relatively small number of employees, each road with its own standards of equipment dependent upon the ill-considered whims of its particular officers or directors; each road with responsibilities to the public as a carrier only to the extent of its own short line; all these limitations suggest a local industrial growth would permit to the railroad the employment of labor on the basis of supply for its small demands.

On the other hand, the gradual growth of large systems composed of many such small lines produces a new and constantly growing responsibility to the public, could finally point to a greater extent the law of supply and demand affects but recently the skilled labor engaged in transportation services. The function performed by railroads has become too important to the body politic to permit of any addition of these serious labor and wage questions, even by intelligent consideration on the part of the representative body of the management and of the employees.

The effect of consolidation has brought many good results to the employee. An increased ability on the part of the railroad to pay higher wages; to employ more men, an improvement in the standards of tracks and equipment, which has reduced the hours for a day's work and more money in the pocket of the employee. It has also made the employment of men in the service more regular throughout the year and thus kept together a regular force, and has decreased a code of morals, governing the army of employees, which has dignified their employment and made more permanent their positions.

The saving by consolidation is due to the ability to develop business economically. Conversely, the business of any trunk line today could not be handled by a series of independent lines with varying standards at the present rates of transportation. Rates have consistently declined and traffic has been increased. With increased density of traffic, the cost of proportion and has been paid a higher wage. The improved facilities and higher speed of traffic have increased the day's work for a trainman, not one hundred miles at a maximum, but at a minimum, so that today, with high speed trains, the trainman can get in two hours time a wage higher than he earned in earlier days in the "slow" time. Now through the war per mile run were also the same as in the past, the actual work which the trainman can physically do within reasonable limits. This comparative ease of today may average only one hundred and seven cents a day, but at an increased rate of pay over the one-hundredth day of the war.

In railroads, more than in any class of labor in this country, we have seen the results of wise consolidation. The results of the trade unions, both capital and labor aim at something, the end result obtained only where intelligent counsel prevails. The railroads are moving on toward greater consolidation and with constantly increasing benefit to their million employees and to the public. Now and more each year the management of railroads acknowledge their public debt, more and more each year the operation of railroads is becoming a governmental function, so that, as I see it, the best condition will be reached when the railroads are intelligently owned, with the management and operation left in the hands of private persons. The ideal condition is to so operate the railroads as to approach an ideal governmental operation and yet to retain the ownership in private capital.

The history of railroad wages has shown that the public has been willing always to recognize the responsibility of railroad men, and has given its approval to them in their reasonable demands. The employee, as a rule, has shown an intelligent understanding of the reasonable wage, and where they have not acted fairly and wisely they have not been supported by the public, and have learned that reason must prevail.

W. H. BALDWIN, JR. New York.

REMEMBER! If there is anyone who believes the Gold Standard is a good thing, or that it must be maintained, I warn him not to cast his ballot for the man who promises him it will not be maintained. In this country longer than I am able to get rid of it.—William Jennings Bryan in a speech at Knoxville, Tenn., Sept. 14, 1909.

Wheat In 1909 was imported 30,000,000 pounds of wheat. That was free trade. In 1908 was imported only 7,700,000 pounds. That had protection. Which do the farmers prefer?

Not at all. With wheat, corn and cotton prices at the top, it is hard to convince the farmers that prosperity is a myth.

EVOLUTION OF DEMOCRATIC PARTY.

FROM KICKER TO CROAKER.

A Set-Back for Democracy. Mr. Bryan and his followers are having a hard time to convince the farmers that they are worse off in 1909, with protection and sound money than they were in 1896, with ill shadow of free silver impeding and a free trade law in operation. A general comparison of articles of farm consumption and farm production between the two years completely disproves the Bryan theory. In the item of farm animals alone, the farmers are worth \$200,000,000 more than they were in Democratic days. The table printed below, which is from the reports of the United States Department of Agriculture, in 1909.

Table showing the evolution of the Democratic Party, with columns for 'Value of farm animals', 'Value of farm products', and 'Value of all cattle'.

Export of Cattle Products. Total exports of corn to all foreign countries in 1908 were 9,600,000 bushels and in 1909 they were 14,000,000 bushels. The following shows the value of the exports of beef and hog products in 1908 and 1909.

NOW WARRANT OUT

Indications That Bank Officials Are Trying to Make Teller Alford Disgorge.

Said to Have Had an Enormous Sum When He Took His Final Departure.

Is Under Close Surveillance by Detectives and His Escape Is Impossible.

New York, Oct. 26.—The Evening World, following up the report that Cornelius L. Alford, the absconding teller of the First National bank, was hiding at his Mount Vernon home, says: "Developments indicate that the whereabouts of Alford, the absconding teller of the First National bank, are known both to his attorneys and the bank officials."

"That no warrant for his arrest has been asked is due to the efforts of his friends to induce him to make restitution."

"Negotiations are now on with the bank officials in the belief that this will lead, it is said, to the restoration within a few days of almost half the amount stolen. Alford's arrest would be an immediate bar to restitution on his part."

Keeps an Impassibility.
Alford is said to be in the hands of his intimates who are under the strictest surveillance by detectives. His escape is an impossibility.

Alford is said to have had an enormous sum in ready cash when he took his final departure from the bank.

"This, with his real estate holdings, several blocks of securities, his wife's diamonds, his horses and ivory and his interests in several New York business concerns are under consideration in the negotiations between Alford's friends and those from whom he is said to have stolen."

"One of the absconding's friends asserts that Alford's holdings will make him only \$100,000 at the work on the amount of his delinquency."

KING LEOPOLD TOO SWIFT

Arrested by Paris Police for Not Staying in His Automobile.

Paris, Oct. 26.—The king of the Belgians, while riding on an auto car in the Bois de Boulogne, was pulled over by the police for exceeding the regulation speed. He was going at the rate of 50 kilometers an hour.

A policeman was about to take down King Leopold's name in his notebook when the driver of the auto car, who knew his life was in jeopardy, explained that he had put things right.

Neighbors Cannot Attend.

Boston, Oct. 26.—Hear Admiral Sampson was held at the Chatham barracks and in reply to an invitation said that he had received no invitation to attend the Alabama state fair at Birmingham, but that it was impossible for him to accept. He said he had put himself in the hands of Dr. Boyer of the Wabash and felt that his health would suffer greatly from a trip to Birmingham. He said he was gaining steadily.

Many Streams Out of Their Banks

Birney, Tenn., Oct. 26.—In upper East Tennessee many streams are out of their banks. A road bridge and several railroad trackage over the Holston and Clinch rivers have been washed away. At South Wabanga a boom broke and thousands of logs were carried away. The Tennessee river is 15 feet above low stage here.

Was the Strike to End?

WILMERSBURG, Pa., Oct. 26.—The striking miners of the Wyoming valley are anxiously waiting news from Hazleton which will end the strike. The men believe that nothing can prevent a settlement now and that they will all be back to work by Monday.

An Indiscreet Murderer.

INDIANAPOLIS, Oct. 26.—Leola Wilkins was found murdered on the west bank of White river in the city of this city. Apparently she had been strangled and robbed. John Williams, husband of the woman, John Melrose and Felix Robbins, have been arrested.

Will Dress in Life as Writing.

HEALING, Oct. 26.—Prince of Wales, according to The Korea Zeitang, possesses voluminous and highly valuable material attending book some 50 years, and will devote the rest of his life to writing his recollections.

Died From His Indignity.

ST. PAUL, Oct. 26.—A. J. Johnson, physician of English Company No. 1, died at Indiana hospital at 3 o'clock from injuries received Sunday morning in the Miskany St. John's in the fifth victim.

SOME DEBAY OCCASIONED

Settlement of the Miner's Strike Still Some Days Ahead.

Hazleton, Pa., Oct. 26.—The conference of the United Mine Workers was resumed during the morning. The indications are that it will be 48 hours before the labor officials can come to a definite conclusion as to the manner of ending the mine workers' strike. This delay is occasioned by the completion which has arisen through the different notices that have been posted. Some of them are entirely satisfactory to the labor officials, while others in certain particulars do not comply with the demands of the Federation miners' convention. A new difficulty presented itself when the Laughlin and Williams Coal company posted a supplemental notice at its collieries in the Hazleton district to the effect that the company will pay its men 3 1/2 cents additional on a car of coal to make up the 10 per cent increase in wages. The notice says nothing about the addition of the sliding scale, nor does it guarantee the payment of the increase until April. The mine workers say these are two vital points. These notices are the same as those previously posted by the company at the mines in the Williams baro district, where the sliding scale is not in effect.

TOTAL LOSS \$50,000.

MINNESOTA TOWN EXPERIENCES A DISASTROUS FIRE.

MINNESOTA, Minn., Oct. 26.—The two elevators of the American Milling company here were destroyed by fire during the night. The loss is estimated at \$50,000. The grain, of from \$13,000 to \$20,000, was burnt, causing a loss of from \$1,000 to \$5,000. The stores Messrs. Foshier and Greenwood also suffered and the boiler works was damaged. Every thing in the depot was burnt. The total loss may reach \$100,000.

The fire is believed to have started from a spark from a passing engine, as it was first discovered in a barn owned by Brooks Bros. The only fire protection here was had was a hand pump and surrounding towns sent aid and assistance.

AN IMMENSE UNDERTAKING.

Removal of Volcanoes from the Philippines.

WASHINGTON, Oct. 26.—It is said at the State department that the United States has been made for bringing home the volcano troops in the Philippines. It is probable the honorarium would begin on the 15th proximo and be continued until all the volcanoes have been landed in the United States. There are nearly 33,000 of these troops and their transportation across the Pacific will be an immense undertaking.

NO ONE WAS INJURED.

Explosion at the Indian Head Proving Grounds.

WASHINGTON, Oct. 26.—Admiral O'Neill, chief of ordinance of the navy department, has received a telegraphic message from the proving ground at Indian Head reporting that about 10 p. m. a fire and explosion occurred in one of the filling houses and magazines to one was injured. About 25 tons of powder were destroyed. The powder stores, which were two miles from the scene of the explosion, was not damaged. The cause of the explosion is not yet known.

The loss is estimated by Admiral O'Neill at between \$15,000 and \$20,000 on powder and ammunition. The loss to the building is considered trifling.

NOT BY BIRDHAND.

Lord Roberts Says the Orders Have Been Filled in America.

LONDON, Oct. 26.—Lord Roberts has sent the following dispatch to the war office:

"Pretoria, Sunday, Oct. 26.—Referencing your telegram of Oct. 9, orders have been filled by Colonel Clouston in America. I believe Wm. Bell & Co., setting for various mining firms, have owing to the liability of English houses to complete orders in time, placed a portion of their order in America."

Firecut Was His Last Act.

PAIS, Oct. 26.—Colonel Picquet's suit for libel against Le Jour, ending from the Dreyfus polemics, has been decided by his favor. The court condemned the manager of the paper, M. Fouch, to pay a fine of 2,000 francs and to the printer of the article, the writer of the article, were sentenced to a month and one month's imprisonment respectively, and all three were sentenced to pay 100 francs damages.

Head a Property Feud.

CHICAGO, Oct. 26.—The Marquet club held a property harvest home festival at the Coliseum.

People sat at the banquet tables on the main floor, besides a number of spectators in the galleries. The immense hall was decorated with grain, fruit, pumpkins and other products of the farm, giving the appearance of the straw building of an old-fashioned country fair.

Magnum Receipts for Relief.

CANON TOWN, Oct. 26.—Mr. Redvers Bates landed from the Hawaiian Islands and was accorded a magnificent reception. The mayor of Cape Town presented to him an address in the presence of thousands of enthusiastic city citizens, enjoining his great services to the colony, and to the empire.

Speeches in the same strain were made by the mayor, Mr. Bates, and the mayor of Cape Town.

Woman's Foreign Ministry Hosts.

WORCESTER, Mass., Oct. 26.—The 21st annual convention of the Foreign Ministry Society of the Methodist Church of the United States opened for a session to last eight days at Trinity church. About 2,000 women were present, and the prominent mission workers and missionaries from all parts of the world.

WANT LARGER SUBSIDIES.

British Lines Say They Cannot Maintain Their Present.

LIVERPOOL, Oct. 26.—An agitation is on foot here to persuade the government to pay larger mail subsidies to the Canadian and White Star steamship companies. It is recognized that such a subsidy to the Liverpool lines must be subordinate to the German in the matter of speed.

The German government pays one of the German lines \$1,800,000 yearly, while the American lines receive \$750,000 from the United States government. The companies are paid so much per cent of mail, this amounting annually to probably \$800,000 each. Their only hope of recovering their lost speed prestige lies in an increased subsidy.

It is not likely that the government will yield while the suggestion of subsidy is unpopular with each of the political parties.

Northwestern Flour Output.

MINNEAPOLIS, Oct. 26.—According to the Northwestern Miller the flour output at Minneapolis last week was 250,000 barrels, against 220,000 for the corresponding week of 1910. Superior-Duluth last week ground 11,200 barrels against 11,000 for the corresponding week of 1910. Again the milling trade has witnessed a dull and almost featureless week, so transactions in flour were unimportant, but with the mills of the country generally running at full capacity.

President of the Miles College.

MINNAPOLIS, Minn., Oct. 26.—George L. Adams, D. D., of Kalamazoo, Mich., was chosen by the Iowa Baptists in session here to the presidency of Miles college, the leading Baptist school of the state. The state convention has the largest attendance in the 50 years history of the church.

Canal Finish Dunes Telegraph Line.

VICTORIA, B. C., Oct. 26.—Rehalele Williams, who has just arrived from Outlook confirm the report that the parting wire on the Dungen telegraph line had failed to connect on account of an error in their survey and that it will be impossible to complete the work before next summer.

Killed Her Children and Succeeded.

CHICAGO, Oct. 26.—A negro woman who has just arrived from Outlook confirm the report that the parting wire on the Dungen telegraph line had failed to connect on account of an error in their survey and that it will be impossible to complete the work before next summer.

BRIEF HITS OF NEWS.

Dr. Laurence Turnbull, an eminent physician and chemist, is dead at Philadelphia, aged 79 years.

At Aurora, Ill., Mike Kirgan, a Russian, in a fit of drunken rage, shot and killed his wife and then shot a bullet through his own heart.

Operating under the cloak of agents of the Republican campaign committee, rogues have succeeded in obtaining \$100,000 on forged checks in New York city and state.

VAN SANT, of Wisconsin. Lieutenant Governor - LEONOR A. SMITH, of Minnesota. Secretary of State - FREDERICK HANSON, of Louisiana. State Treasurer - JULIUS H. BLOCK, of Iowa. Attorney General - WALLACE B. DOUGLAS, of Minnesota. Chief Justice of the Supreme Court - CHARLES H. STANTON, of Minnesota. Associate Justice of the Supreme Court - EDWIN H. COLLINGS, of Minnesota. Railroad Commissioner, 4 year term - JOSEPH H. MILLER, of St. Paul. Railroad Commissioner, 4 year term - J. B. WELLS, of Moorhead. Railroad Commissioner, 4 year term - CHARLES F. STAPLER, of West St. Paul. Congressman, 18th District - "AGE MORRIS" of Duluth. Judge, Fifteenth Judicial District - W. S. McCLANAHAN, of Brainerd.

REGISTER next Tuesday.

See that your neighbor is registered.

Vote the straight republican ticket from president down.

P. H. KELLY, the veteran St. Paul merchant and politician, died on Wednesday of last fall.

Don't neglect to see that your name is on the roll list. Tuesday, Oct. 30th, is the only day for registration.

The man who believes in property and admires a full dinner pail will vote the straight republican ticket.

A vote for A. F. Ferris and Joel Smith for representatives is a vote for the return of Hon. Knute Nelson to the United States senate.

Consult your memory and your patriotism when you go to the voting booth on Nov. 6 and there is no danger of your making a mistake.

The republican city ticket is the strongest yet nominated by the party, and should receive the loyal support of every republican in the city.

A vote for Dr. Henstead means a vote against Knute Nelson, for United States senator. Remember this republican when asked to vote for a local man.

PAUL MORRIS has made one of the best congressmen ever elected from the state. He will be re-elected by a much larger majority than he has heretofore received.

TERLSON'S speech in this city Monday night made many votes for his opponent, Page Morris. His speech proved conclusively that he is entirely unfit for the office which he seeks.

MORE straight republican votes will be cast in Crow Wing county this year than was ever known in its history. The people seem to be able to appreciate a good thing when they see it.

The republican candidate for sheriff, J. W. SIPP, should receive the vote and support of every republican in the county, and all others who desire to elect a model man to that position.

HO, FOR LITTLE FALLS.

Special Train to The Nelson Rally There Monday Evening.

Little Falls will be treated to a touch of high life on Monday evening, when a special train of McKinley and Roosevelt-shouters of this city will go down to the river...

The financial and business conditions of the entire country have nearly improved over that of four years ago, and the people at the coming election will vote for a continuation of the prosperity they are enjoying by casting their ballots for William McKinley and the republican candidates.

TRAILER'S NIPPLE.

Henry Truesdell, the democratic congressman, for congress, was the star attraction at a democratic rally at Gardner Hall, on Monday evening. A large crowd completely filling the hall was in attendance. The majority were republicans, who attended to listen to the amusing if not intelligent remarks of the speaker.

NO ONE HAS YET ADVANCED ANY REASON WHY JOHN T. FRATER SHOULD NOT BE RE-ELECTED COUNTY TREASURER.

There are many reasons why he should be retained in his present position, the principal ones being that he has been a faithful servant, a painstaking official and has always been found at his post of duty.

A SCRAMBLES CIRCULAR BEARING THE NAME "IMPREPARED" IS A VOTE FOR THE RETURN OF HON. KNUTE NELSON TO THE UNITED STATES SENATE.

CONSULT your memory and your patriotism when you go to the voting booth on Nov. 6 and there is no danger of your making a mistake.

FOR FARMERS TO CONSIDER

WHAT CAN BE LOST BY ELECTING MR. BRYAN.

On the Farmers Want Prosperity of a Republican at the Hand Time of the Cleveland Administration.

Evanson, Ill., Aug. 9, 1900-Editor: Kindly show space for a few thoughts from a farmer who has been there, upon that portion of Mr. Bryan's Indianapolis speech which refers to the Philippines.

After the Philippines had added up in the west, Spain, we could not honorably turn them over to their former masters, we could not leave them to be the victims of the ambitious designs of the European nations, and since we do not desire to make them a part of us, or to hold them as subjects, we propose the only alternative, to give the Philippines from our hands against molestation from without.

More than half of these tramps had families at home, suffering for the necessities of life. So hard was their lot that thousands of despairing women accepted employment at starvation wages, to live, thus again driving men out of employment.

When the election of McKinley gave an assurance of better times, money was made to get, and shops and factories began to open.

The tramps disappeared. The condition of the people, generally, improved. They were no longer so destitute, or greatly reduced by many who had formerly been suffering from debt, or saving their bones.

Do we want to farm products to sell at 180¢ or at 190¢ prices? Do we want to see our farm products to sell at 180¢ and to support their prices in comfort, as they are now doing, or do we want to send them to the Philippines to support their prices in comfort, as they are now doing?

Do we want to let well enough alone, or shall we try a change, but the men in charge of the country who passed the Wilson bill, and try the chance of getting back to the conditions of 1895?

BEGINS AT ONCE

Minister Conger Authorized to Open Negotiations With the Chinese Envoys.

Will Consider Only Such Points as Agreed Upon by the Powers Interested.

Two Thousand Villagers Killed at Pengkoh in a Battle With Boxers.

WASHINGTON, Oct. 26. - Minister Conger has been authorized by his government to begin negotiations at once with the Chinese envoys on the basis of the points in the German and French notes upon which all of the powers have agreed.

Upon these points where disagreement of view had been found to exist the governments themselves will negotiate with a view to reaching a further agreement.

It is understood that the ministerial representatives at Peking of the other powers have or may have agreed to meet at Peking and to discuss the Japanese proposals.

Negotiations With China shall for the present be entrusted to the foreign representatives at Peking in respect to the German case.

Germany has taken similar action in the case of Minister Mumm von Schwarzenstein.

Some surprise is expressed here at the insistence of the powers upon a settlement of the question of the efficacy of credentials of the Chinese envoys at this point.

It is stated that the powers are desirous of opening negotiations to allow the plenipotentiaries themselves to pass upon the results of the survey, which invariably is deferred until the first meeting of the plenipotentiaries.

MAKES NO MESSACE.

Count de Quadts gives out a statement on Washington, Oct. 26.

In view of the widespread comment that the Anglo-German alliance concerning China was open to the possible construction of an implied or indirect menace or threat against some other power interested in the Chinese question, the attention of Count de Quadts, the German charge d'affaires, was called to this point.

Count de Quadts said that he was able to give a categorical and very positive statement on the highest authority, that the agreement involved no menace whatever to any power concerned in the Chinese affairs.

Count de Quadts stated that there was no foundation for reports of features to be transmitted to the various governments and made public.

Count de Quadts covered the entire transaction.

TWO THOUSAND KILLED.

Villagers Defeated by Chinese Rebels at Hong Kong.

The governor of Hong Kong has been informed that 2,000 villagers in the Shan-toi district were attacked by Chinese rebels.

The rebels, who numbered 4,000 men, killed 2,000 of the villagers and captured the village of Pengkoh.

The village was burned and 4,000 of the villagers were killed.

General Ho with 2,000 troops has returned to Wong Kong having burned the village of Shan-chuan and Mian-lan.

MANY BOXERS SLAIN.

Execution Done by Germans in a Recent Campaign.

KIAU CHAI, Oct. 26. - A detachment of German marines, in a battle near Kauwhi with Boxers, killed 800 of the latter.

The Germans also captured two walled villages. There were no casualties among the Germans.

ANGLo-GERMAN AGREEMENT.

LIND'S RECORD WITH THE RAILROADS

Senator Young Hands the Governor a Few Warm Questions.

MORE EXPLAINING IS DUE

It is Up to Gov. Lind to Give a Little Information of His Actions.

The open letter addressed by Senator E. A. Young to Gov. Lind is perhaps more explicit and personal in its character than the prophecies of the occasion might have demanded, but it has its justification to a great extent in the personal attacks made by the governor on the senator.

There have been some things about Gov. Lind's campaign speeches in his failure to explain the things that his long promised and seasonally advertised railroad rate revision did not do. The commission had completely abandoned the original proposal, and instead of making any revision of reduction of rates, it had made a rather substantial increase to add to the list of terminal points three or four towns which shipped some of the commodities included in the commodity rate allowed at the terminal points.

The fact of the whole matter, as any one conversant with the subject knows, is that the Democrats are simply appealing to the voters to elect a Republican in certain cases, and making the same kind of indiscriminate promises that they made two and four years ago without any hope or intention of fulfilling them. Two years ago Gov. Lind made violent promises as to what he would do to accomplish in the direction of reforming the twin plant. Instead of reforming it he has made a great many promises of reforming it, but he has not done a thing to reform the railroad.

There have been some of the usual charges by the Democrats that Judge Miller's office of railroad commissioner had been friendly to the Democrats. It is not at all necessary to extend a discussion of this subject, but it is well to note that many of the best railroad laws in the state have been drafted by Judge Miller. One of these laws is the law providing for the construction of elevators and the law providing for the construction of the farm buildings as they are now being erected. The question is whether it is in the interest of the state to have a man who is a member of the Democratic party in the office of railroad commissioner.

ROISING THE RUN

The Tammany Hall Machine is Becoming Badly Demoralized.

THE LEADERS GROW DESPERATE

Some Incidents of the Campaign and a Few Thoughts for the Consideration of Voters.

The only expression that can adequately describe the condition of Democratic affairs to-day is that old, familiar phrase, "On the Run." In the cities they are claiming that Lind is going to show his great strength in the state and in the country they are talking of the phenomenal showing he is going to make in the cities. The country must know for itself that kind of a showing is going to make there. As to the showing he will make in the cities and the sentiment in St. Paul, Minneapolis and Duluth, it is sufficient to say that the Democrats could not get a single dollar of Lind money Tuesday last week in St. Paul. It was made known that there were \$1,000 in deposit in two different places ready to be put up on a bond, but the Democrats refused to accept the money. It was \$1,000 of Republican money was looking for the \$1,000, on even terms, but the Democrats refused to accept the money. It was \$1,000 of Republican money was looking for the \$1,000, on even terms, but the Democrats refused to accept the money.

Another law, which is acknowledged as one of the most meritorious ever passed by the legislature, is the law which was passed in 1899, which is now being enforced. It is a law which is now being enforced. It is a law which is now being enforced. It is a law which is now being enforced.

Another good law which Judge Miller drew was that which relates to the handling of stock at the South. It is a law which is now being enforced. It is a law which is now being enforced. It is a law which is now being enforced.

The attempt of Gov. Lind to vitiate the memory of former State Auditor Braden, now deceased, is shown up by "The" Daily. It is one of the most despicable as well as despicable claims imaginable. Mr. Braden with his well-earned state school fund out of \$12,000,000 by converting to mining companies a tract of state mineral land. It is shown by "The" Daily that at the time of this conversion the valuable ore deposits were there in a quantity of two roads to the same as any other state land. This was before the wonderful release of the Minnesota range was discovered, and there was no law on our statute books regarding the disposal of such property—simply because up to that time there was no occasion for such a law.

The attempt of Gov. Lind to vitiate the memory of former State Auditor Braden, now deceased, is shown up by "The" Daily. It is one of the most despicable as well as despicable claims imaginable. Mr. Braden with his well-earned state school fund out of \$12,000,000 by converting to mining companies a tract of state mineral land. It is shown by "The" Daily that at the time of this conversion the valuable ore deposits were there in a quantity of two roads to the same as any other state land. This was before the wonderful release of the Minnesota range was discovered, and there was no law on our statute books regarding the disposal of such property—simply because up to that time there was no occasion for such a law.

Death of Wallace Bain.

Wallace J. Bain, for many years a resident of this city, and well known to a great many people in this city, died at his home in Lothrop, Minn., yesterday, of stomach trouble, with which he has been afflicted for many years. His remains will be brought to this city tomorrow, Mr. Loney having gone to Lothrop to prepare them for burial. The funeral services will be held at St. Paul's Episcopal church on Sunday afternoon at 2:30, the local lodge of Masons having charge.
Mr. Bain lived here for many years, being in the drug business with C. D. Johnson, the firm name being Johnson & Bain. He has lived in Lothrop for six or seven years, conducting a hotel.

ROYAL Baking Powder

Absolutely Pure

Makes hot breakfast-breads wholesome—no yeast germs, no alum. Makes cake, biscuit and pastry of superior fineness, flavor and delicacy. Makes food that will keep moist and sweet. Is most economical, because it is the purest and greatest in leavening strength. In the easy, expeditious preparation of the finer cakes and pastries appropriate to the season, Royal is indispensable.

Care must be taken to avoid baking powders made from alum. Such powders are sold cheap, because they cost but a few cents per pound. Not only will they spoil the cake, but alum is a corrosive acid, which taken in food means injury to health.
