THE NEW OPERA HOUSE
NOW A CERTAINTY.
Practically All The Stock Has Been Subscribed For to Build The Same.

The construction of the new opera house and city hall has been in a measure contingent upon the amount of stock that would be subscribed for by citizens, but that element of doubt has been removed, as nearly enough stock has been sold to build the same and pay for it when completed, hence there is no longer any doubt whatever that the opera house will be built, and completed by Oct. 1st. Up to last night stock had been sold aggregating somewhat over \$15,000, and the placing of the balance is assured. The people of Brainer are to be congratulated.

PARDONED AFTER SIX YEARS.
Robert Fitzgerald, Sentenced From This County for Indecent Assault, Granted a Pardon.

The state board of pardons has granted a pardon to Robert Fitzgerald, sentenced by Judge Holland to 20 years imprisonment after having been found guilty of indecent assault at the March 1896 term of court in this city. The complaining witness was Tullie Haglund, who has since died. Concerning the matter the Pioneer Press says:

Robert Fitzgerald, sentenced from Crow Wing county, March 22, 1896 to prison for twenty years for indecent assault, was granted a pardon pursuant to the recommendation of the trial judge and the prosecuting attorney upon the grounds that subsequent facts raised doubts as to the applicant's guilt.

While the judge and county attorney recommended the pardon and signed the petition to that effect, Fitzgerald's pardon is undoubtedly due to Hon. W. A. Fleming, who defended Fitzgerald, and thoroughly believes in his innocence. Mr. Fleming drew up the petition, secured the signatures, procured new and important evidence, and by these efforts secured Fitzgerald's pardon.

The press also contains the following concerning Henry Jackson, sentenced from this county for self-contempted murder:

The case of Henry Jackson, sentenced from Crow Wing county, Sept. 19, 1896, to prison for life for murder in the second degree was continued and will come up again with the other cases in July. Jackson is the man in whom United States Senator Knute Nelson has interested himself.

If Jackson is pardoned it will not be at the solicitation of any one residing in this county, where the crime was committed, as all those familiar with the facts in the case believe in Jackson's guilt, and consider a pardon would be a miscarriage of justice. Jackson's father-in-law is trying to secure the pardon, and it seems has interested Senator Knute Nelson in the matter.

Nearly Fatal Accident.
Nick Betzold met with an accident at the shops on Monday that nearly cost him his life, and may yet prove fatal. He was running a lathe in the old machine shop, and while at work at his machine a bar of iron weighing 37 pounds was accidentally dropped by workmen in the employ of the American Bridge company, who are putting in a trestle for a traveling crane that is shortly to be installed. The bar fell about 30 feet and struck Betzold on the head felling him to the floor and crushing a portion of his skull into his brain. A switch engine took the injured man to the hospital as soon as possible, where he was given surgical treatment. Several pieces of steel were picked out of his skull, but notwithstanding these injuries, Mr. Betzold is alive and improving, and may possibly recover.

She Got The Farm.
Mrs. Flora Erickson, whose efforts to get the farm of August Lockow for the street of E. E. Hamilton, on a charge of forgery. The complaint was made by Peter Plein, bartender for Jerome Killeber, who cashed a check of \$25 made payable to Hamilton, signed by Swan G. Johnson and which proved to be worthless. The check was cashed for Mr. Johnson, whose name was signed to the check, and who admitted to the sheriff that he endorsed Hamilton's name on the back of the check. Mr. Johnson, it is said, returned to Mr. Killeber the money fraudulently obtained on the check, and the matter was dropped, as it was evident Hamilton had nothing to do with it, and Mr. Killeber having recovered his property did not desire to proceed against Mr. Johnson, as the latter said he expected some money had arrived at the bank from Iowa to his credit, and thought the check would be good. Mr. Johnson owns a place at Slyman, and Mr. Hamilton is employed by him.

CITY HALL PROPOSITION ACCEPTED
Special Meeting of the City Council Held on Friday Evening to Consider the Matter.

A special meeting of the council was held on Friday evening to hear the report of the special committee appointed to consider the city hall proposition made by the projectors of the new opera house.

The committee reported recommending the proposition be accepted and if a portion of the basement be fitted up for an electrical supply station, and the report was adopted.

Mr. Ferris, on behalf of the gentlemen making the proposal, said they would be glad to comply with the council requirements of an electrical supply station if it could be done without raising insurance rates on the whole building.

Quite a little other business was transacted by the council.

J. H. Kellehan applied to purchase a yard of crushed rock, which was left with the street committee.

The purchasing committee recommended that the bill of the board of education for \$250 for use of the old West Brainer school for a pest house be rejected, which was done on motion.

A liquor license was granted to John Vise, proprietor of the Stratton House.

Residence Property Burned.

The residence of Fred Thomas at 705 8th street south was practically destroyed by fire Tuesday afternoon. How the fire caught is unknown. Mrs. Thomas had gone to a neighbor's for a few minutes, and when she returned the house was all in flames. An alarm was turned in and the fire department was promptly called, but the building was gutted before the flames were extinguished. Mr. Thomas and family lost all their household goods and had no insurance. The property was owned by Anton Lang, was worth probably \$500, and was insured for \$250.

Barn Burned.

The barn on the farm of Jacob Shew, who lives 10 miles east of town, was totally destroyed by fire on Monday night. The barn was belonging to a Mr. Mathias, boarding with Mr. Shew were burned, also a cow and calf, the latter the property of Mr. Shew. The barn was a new frame structure of the value of \$200, and is a total loss, with no insurance.

Arrested for Forgery.

A warrant was issued on Monday for the arrest of E. E. Hamilton, on a charge of forgery. The complaint was made by Peter Plein, bartender for Jerome Killeber, who cashed a check of \$25 made payable to Hamilton, signed by Swan G. Johnson and which proved to be worthless. The check was cashed for Mr. Johnson, whose name was signed to the check, and who admitted to the sheriff that he endorsed Hamilton's name on the back of the check. Mr. Johnson, it is said, returned to Mr. Killeber the money fraudulently obtained on the check, and the matter was dropped, as it was evident Hamilton had nothing to do with it, and Mr. Killeber having recovered his property did not desire to proceed against Mr. Johnson, as the latter said he expected some money had arrived at the bank from Iowa to his credit, and thought the check would be good. Mr. Johnson owns a place at Slyman, and Mr. Hamilton is employed by him.

THE ASSASSIN TAKES

Assassination of J. P. Railway

Assassination of J. P. Railway... in the City...

My friend, Mr. Tax Payer, do you honestly mean it, or are you simply trying to make the rest of tax payers who do not know any better believe that the above real estate does not pay taxes, because the assessor has not done his duty?

Sec. 1537, Chapter 11, statutes of 1894, reads: "The county auditor shall annually provide the necessary assessment books and blanks at the expense of the county, for and to correspond with each assessment district. He shall make out, in the real property assessment books, complete lists of all lands or lots subject to taxation, showing the names of the owners, if to him known, and, if unknown, as stated opposite each tract or lot, the number of acres, and the lots or parts of lots or houses included in each description of property. The list of real property becoming subject to assessment and taxation every odd-numbered year may be appended to the personal property assessment book."

Sec. 1540 of the same chapter reads: "The assessor shall every odd-numbered year at least once a year, in all of personal property, also assess all real property situated in his town or district that may have been assessed subject to taxation since last previous assessment of real property therein, and of all new buildings and other structures, etc."

Sec. 1541 of same chapter reads: "The assessor shall perform the duties required of him during the months of May and June of each year, except in cases otherwise provided in the manual before referred to. He shall actually view, when practicable, and determine the true and full value of each tract or lot of real property listed for taxation and shall enter the value thereof in the assessment book, and shall also enter the value of all improvements and structures thereon opposite each description of property. This is not much of a trick to understand, the assessor has a list of real property subject to taxation and the assessor does the assessing."

Now, my friend Mr. Tax Payer, you say the city assessor takes an oath to perform his duties faithfully and can not omit this property, which is not used for real estate. It should be assessed for the past six years also.

In the case at hand the property in question has never appeared on the lists of real property subject to taxation to which it had appeared. It certainly would have been assessed, whether it will be placed on the list of real property subject to assessment or not. It is appended to the personal property assessment book for the year of our Lord 1891 remains to be seen, if it appears on said appended list I shall make the assessment and if it does not appear I fail to see how I have omitted it. I hold, that the assessor does his duty in either respect, if he assesses each and every description contained in the list of real property. To assess the property in question for the past six years is entirely outside of the assessor's jurisdiction and can be performed by the county auditor only.

Sec. 1547, same chapter, on duties of city board of equalization reads: "In case any property, real or personal, shall have been omitted by inadvertence or otherwise, it shall be the duty of said board to place the same upon the list with the true value thereof, etc."

I can not see that it is the assessor's duty to place the property in question on the list.

It just struck my mind that the "Tax Payer" is trying to have me raise the question as to taxation of this property by placing the name on the list and assess it. This I can do, but I don't think it is my place to do it, and my knowledge, there is no law compelling me to do it. If the property in question does not appear on the list and the city board of equalization, whose duty it is to place it there, fails to do so, Mr. "Tax Payer" can apply to the court for a writ of mandamus compelling the county auditor to place said property on the list for taxation.

I am anxious to do my duty as city assessor, but do not think it is fair for any tax payer to expect me to shoulder somebody else's burden and responsibility simply because I have the privilege to do so. The assessor has trouble enough of his own with out borrowing.

Respectfully,
A. G. THOMAS,
City Assessor.

Their Clothes Recovered. Last Saturday evening a man, who gave his name as Harry Solberg, entered the room of Bert Johnson and Will Higgins in the Bennett Hotel and carried away a suit of clothing in sight. Bert and Will were spending the evening up town and when they returned to the hotel they discovered that their clothing and personal belongings had been taken and at once informed Marshall J. J. Horns with Bert and Will made search and at about 4 o'clock Sunday morning they caught sight of a man whom they suspected. Marshall Horns arrested the man and placed him in jail. The Marshal at the time of the arrest put another man in the lock-up and Solberg taking the fellow for a brother, identified the man and told him where the plunder had been secreted. After a few hours the other man was let out and the stolen articles were found and returned to the owners. - Cass Lake Times.

Last winter I was confined to my bed with a very bad cold on the lungs. Nothing gave me relief. Finally my wife bought a bottle of One Minute Cough Cure that effected speedy cure. I cannot speak too highly of that excellent remedy. - Mr. T. R. Housman, Manassas, Va. H. P. Dunn & Co.

Spring coughs are especially dangerous and serious if not cured at once. Serious results often follow. One Minute Cough Cure acts on the lungs. It is not a common mixture but is a high grade remedy. H. P. Dunn & Co.

"Stick To It"

George L. Heard of High Tower, Georgia, writes: "I was cured of my trouble on my belly covering his entire body. Under treatment of our family physician he got worse as he could not sleep for the burning and itching. We used a box of 'Balsam' but it was of no use. The Doctor seeing it was curing him said, 'Stick to it for it is doing him more good than anything I have done for him.' He is cured and is well." - H. P. Dunn & Co.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers' never thought of using any thing else for indigestion or biliousness. Doctors were scarce and they sold the heart of Agopodidilla, Nervous Prostration or Heart Failure, etc. They used August Flower to calm the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is, all they took when feeling dull and had with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by all druggists in the city. HAD TO WORK FOR NOTHING

Natives of All Classes Impressed into the Service of Preparation—Feeling Against Foreigners Becoming Very Bitter on Account of Harsh Treatment—Many Peaceful Chinese Join the Revving Bands.

Peking, April 25.—The international detachment of 400 men under Colonel Bradford, which left Shan Hai Kwei to punish the force of Boxers and robbers that recently attacked and killed Major Brittain, met the enemy in force, killing 52. Of the international detachment 4 British, 4 Japanese and 1 Frenchman were killed. "The enemy" had 100 mounted, but will be closely pursued. The body of Major Brittain was recovered.

The troops have been ordered back from the Pao Ting Fu expedition. Their behavior has been so indignant that the British legion had a similar expedition. Mr. Lincoln, manager of the bank, was stopped and made to prove the ownership of a cart. The Chinese there is intense feeling throughout the province against foreigners, largely because of the harsh treatment the Chinese have received from the Germans. They have engaged many peaceful Chinese who have joined the revving bands.

GRISCOM IN WASHINGTON.

Charge d'Affaires at Constantinople Calls on Secretary May.

Washington, April 25.—Lloyd C. Griscom, who has been United States charge d'affaires at Constantinople since the departure of Mr. Straus, from that capital, called at the state department and reported to Secretary Hay concerning the status of affairs there. He is here on leave of absence, so that the report is not regarded as significant of any material change in the situation. Mr. Griscom declines to make any public statement concerning the status of American claims against Turkey for indemnity. Mr. Griscom refers to the courtesies which the Turkish authorities have shown him and their disposition to give most friendly consideration to all subjects in which the United States is interested. The latest manifestation of this was when Captain Cha Chaier and his brother officers of the Kentucky went to Constantinople, where they received many attentions from the officials.

MUST NOT CARRY MAIL.

Any Company Attempting It Will Be Promptly Dealt With.

Washington, April 25.—Regarding a report from Omaha that he had closed that a messenger company doing business in a number of the states and offering to carry mail matter at about one-half the rate fixed by law cannot be interfered with. Assistant Attorney General Tynes for the postoffice department said that no such option had ever been rendered by his office and that it would be absurd. Congress, he said, had already settled that question. He gave warning, therefore, that any company that attempts to perform such service in violation of law will be promptly dealt with.

OFFICIALLY COWBOYED.

Two Women Publicly Whipped at Suffolk, Va.

Suffolk, Va., April 25.—As a result of an anti-vice crusade Carrie Palmer and Lavilla White were officially cowboied in the city hall by Chief of Police Ames. The young women quivered with pain as 20 stripes from a rawhide were laid upon their backs. When the whipping was over, they were called from town, never to return on the penalty of 50 lashes on the naked skin. The officials mean to continue the stringent penalties until objectionable conditions in the town are wiped out. This was the first cowboying of women in Suffolk's history.

Americans Sent to Prison.

Kingston, Jamaica, April 25.—Frank Fuller and Thomas Smith, Americans, have been sentenced to six months' imprisonment for having made false contracts here with Jamaican laborers to work in Cuba. A police investigation shows that large swindles had been perpetrated. Fuller and Smith stand passage money from each laborer with whom they made contracts. Fuller is also held on a charge of forgery.

Predicts a Protective System.

London, April 25.—Sir Henry Campbell-Bannerman, speaking in London, severely criticized the budget of Mr. Michael Hicks Beach, predicting that a system of protection would eventually result from the introduction of new imports.

WAS UNGEREMONDUS.

Remains of Abraham Lincoln and Family Found in Their Crypt at Springfield, Ill., April 25.—The remains containing the remains of the late Lincoln and other members of his family were deposited in the crypt in the reconstructed Lincoln monument during the afternoon. Since March 10 of this year the caskets have been removed to a temporary stone vault, pending the completion of the extensive repairs to the monument. The removal was unceremonious, being quietly witnessed by Governor Yates, United States Judge Humphrey, Mayor Phillips and other state and city officials, besides about 200 citizens of Springfield. The exact time of removal had been withheld from the public as far as possible.

The temporary vault was so thoroughly secured that it was 8 o'clock three hours after the work of removal commenced, that the remains of the president, which were the last to be removed, were finally placed in the marble sarcophagus in the crypt, where they were sealed up and where they will probably remain through all the coming years. The exact time of the identification of the body of the martyr president, as had been expected, their sons, Willie, Thomas and Eddie, and Abraham, son of their eldest son, Robert T. Lincoln.

Brown, a foreman electrician, who had been employed by the company for almost 20 years. The principal actor in the affair was George H. Brown, a foreman electrician, who had been employed by the company for almost 20 years. The principal actor in the affair was George H. STEAMERS ICEBOUND.

Fourteen Vessels on Lake Huron Unable to Help Themselves.

Port Huron, Mich., April 25.—Surrounded by a field of ice piled high and generally able to be seen from the shore there is a fleet of 14 steamers on Lake Huron. They are caught in the misty fog and are unable to assist to boats within halting distance. The Penitentiary and the Campbell have been held fast since last Thursday. Among the boats and the rest are still in their fortified position and say that they will not surrender. WILL PASS THE JUMP.

OHIO VALLEY FLOOD SITUATION SHOWS NO SIGNS OF IMPROVEMENT.

UPPER RIVER RISES AGAIN

Heavy and Continuous Rains Reported at the Head Waters—Many Localities Under Water and the Residents Are Preparing to Move Out—Believed the Water Will Remain Stationary for Some Time.

Cincinnati, April 25.—The flood out look in the middle Ohio valley is not as encouraging as expected. The predicted limit of 46 feet will be passed here and the estimated limit at other points will be more than has been estimated. It is also evident now that when the limit is reached in the middle Ohio valley that it will be stationary for some time and the water will flow slower than was anticipated, even if there is no second rise. This is attributed to rising waters in the Big Sandy, Muskingum and other tributaries above Cincinnati. All sorts of reports come from Castlesburg about rains in the Cumberland mountains in the southern and eastern parts of West Virginia. At both of these places, as well as at Ashland, fronton, Fort-mouth and Intermediate points, there is much uneasiness reported and at some places they are preparing for the worst.

The weather bureau map shows a rise in pressure in the East that may move westward into the Alleghenies and start another flood in the Ohio. At Huntington, W. Va., the river registers 57.5 feet and is still rising and the rain falling in sheets. The main streams are booming and it looks like the crisis is yet to come. Central, an adjacent town, is under water. The schoolhouses, railroads and freight houses, and even the jail, are utilized for the homeless. Guards are stationed on the roofs of the outside world, with every street flooded. The water has reached the second story of the riverfront hotel.

At Ironton, O., the stage is 52.5 feet, with an increase in the rate of rising, and the rain pouring down. Over 100 families had to move from West Ironton.

At Hanging Rock the water has reached the second stories of some residences, and the same situation exists at Coal Run. Railroad traffic has been suspended and a coal famine exists in all the smaller towns.

At Portsmouth, O., a report was made that the floodgate at the dykes would be opened, as the water would soon be over them. Hundreds have prepared to move.

HAWAII'S LEGISLATURE.

No Radical Measures Have Been Sent to the Governor Yet.

Honolulu, April 25.—The session of the first territorial legislature is now drawing to an end. Not one of the many radical and important measures which the majority intended to pass has reached the governor and none will go to him until after the end of the 50th day of the session, after which his power to veto is abolished. The house has killed the bill of ex-Queen Liliuokalani \$150,000, owing Campbell the measure is now illegal. Other bills for her pension are before the house, but they will not be taken up until the end of the session when the government has the final act to set aside \$10,000 for the use of the delegates at Washington is also before the house. One veto of a one tax bill has come from the governor and several bills have been signed.

ADMIRAL DEWEY'S SUIT.

Hearing of Action to Secure Prize Money is Resumed.

Washington, April 25.—The hearing in the libel suit brought by Admiral Dewey and officers and men of his fleet for condemnation as prizes the Spanish vessels and property captured at the battle of Manila bay was resumed in the court of admiralty. There are many questions of law and fact involved. The hearing will occupy several days.

INGERSOLL & WIELAND, Dispatch
Brainerd, Minn., Jan. 1, 1901.

FRIDAY, APRIL 26

TODAY IS ARBOR DAY.

Plant a few trees—nothing beautifies the city more.

A HUNDRED dollars worth of Standard Oil stock is now worth over \$500.

In the St. Louis county iron prospectors do not pay their full share of taxation it will not be the fault of the Duluth Herald.

Jim Hill, is to railroad world what Morgan is to the steel, and Rockefeller to the oil interests. All the trust magnates do not live in New York.

A LARGO number of cement works are being constructed about the city. They are improvements that add greatly to the appearance of the streets, and should be encouraged by the council.

Some of the papers of the state are beginning to boom Bob Dunn for governor. This is without Mr. Dunn's consent, as he is not a candidate, but is satisfied with his present position as state auditor.

The next thing that could be done to Aguilado would be to turn him over to the "anties" to be "slobbered on," suggests the Grand Forks Courier. No, the "anties" have no use for him since he became an American citizen. They snub on no one unless he is an enemy of their country.

The State Bears the Expense.

It has been the practice for 20 years for counties to bear the expense of bringing prisoners who have fled from the state back for trial and it now devolves the charge is not against the county but the state. The attorney general after looking up the law decided that the statutes state explicitly that such expense shall be borne by the state, not by the county. For the last decade the counties have been in the habit of footing such bills.

As to the amount of fees allowed the officer for bringing back the prisoner, the attorney general holds that he is not entitled to any mileage, but should be allowed only his railroad fare and reasonable expenses.

Discussing the matter Attorney General Douglas said that the legislature has never appropriated a sufficient fund for the expenses of such trips, and that the counties gradually fall into the habit of paying them. No relief can be granted until the next legislative session, and the counties must continue the custom or hold up the bills pending the creation of such a fund.

WHILE THE BOOM IS ON

Judge Holland Will Not Practice Law But Sell Real Estate.

G. W. Holland sells lots in different parts of the city and five acre farms within ten minutes walk of the Northern Pacific shops. He sells land and farms near the city. He will buy or sell lots or help persons to erect residences.

Call and see him before investing; smoke a Havana, figure with him how much more ground the mammoth Northern Pacific shops cover than the Chicago exposition building did; talk of the different styles of architecture in the 97 buildings in the process of construction in the City of Brainerd on April 26th last.

He will not practice law while the boom is on. If requested he will tell you who his business will be big enough to stuff her girl's clothes and appear in long dresses.

When the carpenter's hammer rests tonight and is heard 'days only, when the Northern Pacific Railway branches make direct connections between Brainerd and Koochiching, Brainerd and Mills Lake, Lakelse, Brainerd and Winnipeg and helps to form a new work of railroad tracks in northern Minnesota; when 3000 men are employed at the Northern Pacific shops ten hours per day; when Brainerd shall have passed the 30,000th population post, as up property river she climbs, and the Brainerd Boom passes its breathe, then he may resume law business, although he has already worked in that department of science 29 years in Brainerd.

Don't be afraid to call. It won't cost you anything.

Of Interest to Sportsmen.

For the benefit of hunters and fishermen, Executive Game and Fish Agent Samuel F. Fullerton has issued a circular showing the open season in this state for hunting large game, shooting aquatic fowl and fishing in the streams and lakes.

The information contained in the circular will be of great value to the sportsmen, as the last legislature made many changes in the old game law.

A license fee of 25 cents will be charged residents of the state for a permit to hunt deer, moose or elk, and a fee of \$25 for non-residents.

A license fee of \$25 against citizens of states that have a license law prohibiting citizens of the state of Minnesota from hunting in their respective states, is required to hunt all kinds of game in Minnesota.

The sale, exposure for sale or the shipment by common or private carrier of any of the above named game birds is prohibited and made unlawful under the new game laws.

CROW WING BRIDGE CONTRACT LET

L. H. Johnson, of Minneapolis, the Successful Bidder—Bids Received.

The contract for constructing the bridge across the Crow Wing river at Sylvan Lake was awarded to L. H. Johnson, of Minneapolis on Monday, for \$2500.

The committee of Brainerd business men and Commissioner Sullivan, of Morrison county, and Mr. Tedford representing the people of Sylvan Lake, held a meeting in J. M. Elder's office to open bids and consider the same. Eight different bridge firms submitted plans and bids ranging from \$1750 to \$3507.50, and the committee had considerable difficulty in deciding on what was the best thing to do. The firms submitting bids were: The Joliet Bridge Co., of Joliet, Ill.; Hewitt Bridge Co., of C. B. Rowley, of this city. The bid of Mr. Rowley was the lowest, being only \$1750, but his plans only called for a 60 foot span, while those of Mr. Johnson, the successful bidder, provided for a centre span of 140 feet, which a majority of the committee deemed of sufficient benefit, considering the heavy flowage of logs and ice, to warrant them in paying \$2500 more and accepting Mr. Johnson's bids.

The bridge will be pile bridge 280 feet in length with a 140 foot combination span, the piling to be all oak. The contract requires the bridge to be completed by August 20th.

Old seal skin coats re-dyed. N. W. Fur Co., of course, cannot be beaten.

All voters interested in the welfare of the schools should attend and vote for the proposition.

A great deal more care must be used by the clerk of the district court in issuing marriage licenses than the heretofore treatment of several laws passed by the last legislature.

The clerk must satisfy himself that neither party desiring a license is an epileptic, imbecile or feeble-minded, for it is a misdemeanor to issue a license to a person of that character, punishable by a heavy fine. He also has to ascertain if either party has been married before or divorced, and no license can now be issued to a divorced person whose divorce has been procured within six months. The clerk has a record of all persons divorced in this county, but those who were divorced elsewhere in the state or in another state must bring a copy of their divorce before a license can be issued so that the clerk can see that the decree is six months old. The new laws make considerable more work for the clerk's office, but unless you are an imbecile, or feeble minded in the opinion of Clerk Johnson, you can still get a permit to get into town.

A Pleasing Entertainment. The concert given by the pupils of the public schools at Grandin Hall on Saturday evening, under the supervision of Miss Grace E. Barker, supervisor of music, was a revelation to the people of the city of the remarkably efficient musical training that is being given to the school children in our schools.

The entertainment consisted of songs and choruses by the scholars of the various grades, and concluded with the three act opera, "Mother Goose," all the characters being impersonated by scholars of the various grades in a manner that indicated the efficient work Miss Barker is doing.

The scholars are to be congratulated in having the services of such an energetic and efficient musical director as Miss Barker.

The Bridge Completed. The new steel bridge over the Mississippi river is completed, and is a handsome, solid and substantial structure. The new bridge was built on the exact site of the old one which was removed and the new bridge built without delaying traffic a hour. When once completed the bridge is over 600 feet long and about 75 feet high, it was an engineering feat of no small proportions.

A fee healthy boy made his appearance at the home of Mr. and Mrs. Ira Whitson Tuesday, the 23rd.

Water Soaked Dry Goods For Sale Next Monday At Big Bargains.

For those who are interested in getting goods cheap, here is a chance. The gentleman who does the buying for this concern was summoned to St. Paul this week to attend a salvage sale of dry goods at the ware rooms of Finch, Van Slyck, Young & Co. About two weeks ago the syrup manufactory of Towle & Co., on Fourth street, was completely gutted by fire. The immense quantity of water used to smother the fire flooded the adjoining warehouse and basement, wherein was stored large stocks of domestic dry goods. The losses were promptly adjusted by the insurance underwriters, and we were fortunate enough to pick up some of the least damaged of these goods at greatly reduced prices. We have no time now to quote prices, but will guarantee to make this sale very interesting to everybody that attends it.

Sale Starts Monday Morning

These goods include Sheetings and Pillow Cases, Towels, Ladies' Wrappers, Table Oil Cloths, Table Linens, Calicoes, Shirtings, etc.

Remember

Boarding House keepers and Hotel men can get some snaps in Sheetings. So can you.
