

THE BRAINERD DISPATCH

VOLUME 30, NUMBER 29

BRAINERD, MINNESOTA, FRIDAY, JUNE 28, 1901.

INGERSOLL & WIELAND, PUBLISHERS

MAY CONSOLIDATE

Members of White Cross Lodge, K. P., to Vote on Important Proposition July 5th.

Quite an important matter is to come up for consideration at the meeting to be held on the evening of July 5th, and the members of the order are being notified to be present.

The proposition of consolidating Medinah Lodge, No. 84, of Staples and White Cross Lodge, of this city is to be voted upon. Medinah lodge was at one time very strong, but most of the members are railroad men and from time to time they are transferred to different divisions and the lodge has lost many of its members. Many are now residents of Brainerd, others live at Fargo, others

at Duluth, etc., so it has been thought advisable to do something in the way of uniting forces. The lodge in this city of course is very strong and the membership consists of men whose homes are somewhat more stable. The proposition will undoubtedly go through by a large majority.

Pass-American Exposition.
For the above occasion tickets will be sold by the Northern Pacific Railroad Co. for the round trip as follows: One and one-third fares to St. Paul, and from St. Paul via standard lines \$35.35, via differential lines \$31.85. On sale daily up to and including Sept. 30th, 1901. Tickets will require continuous passage in each direction. Final limit 15 days from date of sale.

ROWLEY'S BID WAS LOWEST

Brainerd Man Captures the Contract to Build New Opera House.

WORK TO COMMENCE AT ONCE

The New Playhouse Will Cost Nearly Twenty Thousand Dollars.

There was a meeting of those interested in the new Park Opera House Tuesday afternoon after the bids had been opened and after figuring the different proposals the contract was awarded to C. B. Rowley, of this city, he being the lowest bidder. The bid was \$13,295. This of course was the general contract, the bids for the other work such as plumbing, lighting, etc., will be let later. The total cost of the building will be about \$17,000 and \$20,000.

The following firms bid on the work: C. B. Rowley, Fred Kretz and C. B. White, Brainerd; Otto Johnson and Schlenker & Sampson, Duluth; and Fred Nordlander, St. Paul. There was quite a difference in the figures of the different bidders, although there were one or two who were not far off from those of Contractor Rowley.

Contractor Rowley had not had the contract but a few minutes when he began to make a hustle for the site of the new playhouse will be a busy one. Work will commence in a few days on the excavation and the work will be pushed as rapidly as possible and it is expected that the house will surely be ready for occupancy by October 1.

This contract includes all the stone and brick masonry, all carpenter work, painting, glazing, etc., and everything and anything necessary to complete the building ready for use, except the electric wiring, heating, plumbing, light fixtures, stucco and decorating work.

The building will be 29x111 feet and it will have a seating capacity of something over eight hundred. The entrance to the building will be at the center of the block and there will be a vestibule 9x12 feet. In the vestibule the door leading up stairs to the city offices will be located also the door down stairs to the office of the superintendent of the electric light plant. From the vestibule two large swinging doors will open into the lobby which is 16x23 feet. In the lobby will be located the ticket office and the manager's office—and a large and commodious store room. The entrance from the foyer to the lobby will be by two sets of double doors one at each side of the lobby.

The lower floor or the parquet and parquet circle will seat something like four hundred. There are two boxes one at each side and a stairway leading from these to the boxes above in the balcony. From the foyer there will be a stairway at each end going up to the balcony. This division will have a seating capacity of something like two hundred and fifty.

The stage has a certain opening 26x21 feet, and it will have a depth of 35 feet. Right off the stage will be two star dressing rooms. Ample provision has been made so that the greatest convenience will be enjoyed by the actors, large and commodious dressing rooms will be put in both under the stage and over it. A rear entrance will be put in for the actors and a side door for hauling in scenery, etc., is a feature not overlooked. The sanitary conditions of the building will be good; two toilet rooms are to be put in under the foyer in the basement and two under the stage.

The building will be lighted by 271 incandescents lights which will make a capacity of 4386 candle power. Every attention has been given to the acoustic properties and the architect is sure they will be perfect. The stucco interior decorations are to be especially fine and the masonry and stone work on the outside will be beautiful from an architectural point of view.

The brick to be used in the building will be the best Duxon, of Little Falls manufacture, and all four sides are to be laid in colored mortar. The finishing stone, as shown in the plans and specifications, is to be "Portage Entry Stone," free from any white spots, and the arch over the main entrance and cap stones for windows are to be of sandstone, of full thickness of the walls, with cut sides and beds and rock face. The steps of the front entrance and door sills throughout are to be of Kettle River sandstone, of brush hammer finish.

The entire building will be a perfect model of architecture, the interior and exterior being planned after the most modern styles.

EXCESSIVE HEAT

Tuesday Afternoon Was A Record Breaker and Several Fall Victims To Old Sol.

The oppressiveness of the heat Tuesday afternoon was something hot last winter and Mrs. Zimmerman was granted an absolute decree from her husband on the ground of cruelty. Miss Withersell is a prominent young lady in this city and is popular especially in musical circles. She is engaged in the present time in teaching music and has a large class.

The proceedings in Judge McClenahan's court in this matter yesterday afternoon is quite interesting from the fact that never before during the maintenance of jurisprudence in this county has a similar petition for the change of a name been made. It goes on record as the first of its kind.

BOUND OVER

The Jerry Lethere Case and the One Against the Goddards Lay Before Judge Manator.

Wednesday morning case against Jerry Lemere, charged with selling mortgaged property, came up before Judge Manator. The case has been on the docket for two or three weeks and has been continued from time to time until this morning. Lemere decided to waive examination and was held to the district court to await the action of the grand jury.

A Great Stimulus

On Friday last 68 enlisted men were promoted to be second lieutenants in the regular army, having successfully passed the examinations and been found qualified for the position. Such a spectacle must prove a great stimulus to the rank and file to be good soldiers.—Minneapolis Tribune.

GLADIATORS LINING UP

The Managements of the Doctors and Lawyers Base Ball Teams are Busy.

From present indications the game of base ball to be played on Friday evening of this week commencing at 6 o'clock between the teams made up of the doctors on the one side and the lawyers on the other will be largely attended. A large number of tickets have already been sold and they are going fast. The proceeds are to go to the public library and there seems to be a special effort to make the thing a success.

The following line-up of the two teams has been announced: Doctors: P. J. Murphy, C. W. Conroy, J. J. Cronin, J. A. Thibodeau, O. A. Allright, H. B. McDonald, S. D. Folk, W. Hemstead, W. C. Cox, J. L. Fredericks, S. F. Alderman, S. N. Linsenmann, W. C. Crane, C. F. Bickler, W. H. Fleming, W. S. Mowers, J. H. Warner, I. C. S. Reimstead.

ASSUMES HER MAIDEN NAME

Mrs. J. H. Zimmerman Appears Before Judge McClenahan in Chambers.

THE PETITION WAS GRANTED.

The First Case of Its Kind in the History of Crow Wing County.

Judge McClenahan last Tuesday in chambers heard a petition on behalf of Mrs. J. H. Zimmerman, through her attorney, S. F. Alderman, asking that her name be changed and that she be legally allowed to assume her maiden name. The petition was granted and the court ordered that the name be changed to Evelyn Withersell.

It will be remembered that the divorce proceedings in the case of Zimmerman vs. Zimmerman came up last winter and Mrs. Zimmerman was granted an absolute decree from her husband on the ground of cruelty.

Miss Withersell is a prominent young lady in this city and is popular especially in musical circles. She is engaged in the present time in teaching music and has a large class.

The proceedings in Judge McClenahan's court in this matter yesterday afternoon is quite interesting from the fact that never before during the maintenance of jurisprudence in this county has a similar petition for the change of a name been made. It goes on record as the first of its kind.

STRICKEN WITH PARALYSIS

Day Watchman James Clark Drops at Shops Late Tuesday Afternoon.

Late Tuesday afternoon James Clark fell known in the city, day shop watchman for the Northern Pacific, while in the act of driving out two fellows at the shops who were overhauled by the ground crew and when picked up was found to be in an unconscious condition. The old man was removed to his home on the north side and Dr. Mowers was called and it was found that Mr. Clark had suffered a paralytic stroke. His left side was completely paralyzed and for a time it was thought that he would not pull through, and while he is doing very well today under the circumstances, he is not entirely out of danger.

Mr. Clark is very well known in Brainerd, especially at the shops, where he has been employed for years. He has reached the age of seventy-six and on this account the stroke is a hard one for him.

Dr. Mowers was called this afternoon just before the Dispatch goes to press and he said that the patient was doing nicely.

MEATS ARE DOWN AGAIN

Butchers Decide That the Prices Are Too High and Nearly Everything Is Lowered.

Tuesday night the butchers of this city came to the conclusion that it would be a timely thing, in view of the fact that there is not quite the demand the present day for edible animals on account of the sudden raise in the prices, to lower the price of the most meats and therefore have announced in one way and another that from date the following will be prevailing quotations: Porterhouse steak, 20 cents; sirloin steak, 15 cents; round steak, 15 cents; shoulder steak, 12 and 1 cents; rib roast, 12 and 1 cents.

PAID THE BILL

Special Meeting of the City Council Held Tuesday Night in Council Chambers.

There was a special meeting of the city council Tuesday in council chambers, Vice President Koop presiding. Those present were Aldermen Fogelstrom, Wright, Rowley, Eckelson and Doran.

The bill of the Brainerd Water Works company for the rent of hydrants in the city for the six months ending July 1, for \$2,800, was allowed and ordered paid. The meeting of the council last night was called for the purpose of taking up this matter, it having been neglected at the previous meeting.

Alderman Fogelstrom objected to the action of the council. He stated that this matter had come up before and the president of the company had made promises to extend mains and put in few hydrants asked for, but had never done so and he thought it would be a good thing to withhold payment of the rental until such time as the requirements of the contract were fulfilled. Someone suggested that the council could make the water works company dance, but Alderman Fogelstrom insisted that before the year ran out the council would be doing the dancing.

City Attorney Crowell was present, and he stated that as far as he could learn, President Tighe was going to put in the hydrants asked for and he thought he would keep his promise.

REV. GEO. H. DAVIS BEREAVED

Shortly After Returning to His Home at Mankato He Learns of His Son's Death.

Rev. George H. Davis, who was the guest of friends in this city a short time ago, received sad news at Mankato last Saturday and a large concourse of his friends in this city will extend sympathy. He received a telegram announcing the death of his eldest son at Boise, Idaho. The following is taken from the Boise Bulletin:

"George H. Davis, manager of the establishment of the Boise Sundry Company, at Seventh and Main streets, dropped dead in the store today shortly before noon. Mr. Davis was standing on the edge of the counter when he fell. His head struck something that caused abrasions on his forehead and the bridge of his nose.

John M. Simmons, one of the employees, was working in the store shop immediately back of the store. He ran in as soon as he was notified. Davis was still alive, although unconscious and breathing hard. Simmons held him if he was badly hurt but got no response. He then dashed out for a doctor, returning in a few minutes with Dr. Halcy Davis was still alive, but heathed his last soon after the doctor arrived. The doctor gave it as his opinion that death was caused by heart failure. Some thought Davis suffered concussion of the brain by the fall, pointing out that he had never complained of any trouble with his heart, being a very healthy man. Mr. Davis was the son of the Rev. George H. Davis, rector of the Episcopal church at Mankato, Minn., and a brother of Mrs. George F. Rodway of this city.

His father was formerly rector of St. Michael's parish in this city; was deceased, came to Boise in 1893 with his parents. He learned the harness makers' trade under Joseph Permann. He was in business for a time in Weimar, but was burned out. He had been in charge of the Boise Sundry establishment for some time.

"The deceased enjoyed the confidence and esteem of all who knew him. His many and best of friends here, who are shocked at his untimely death. He leaves a wife and two children."

BRAINERD WINS THE CAKEWALK.

The Colored Gentlemen Basted in a Game of Ball Sunday Afternoon.

WAS A DEAD EASY SNAP.

Was a Pitchers' Game, Dorch and Smith Distinguished Themselves.

Brainerd 12; Georgia Minstrels 3. This is brief tells the story of the drubbing that the Georgia Minstrels aggregation received at the hands of the Brainerd team Sunday afternoon at Seward's driving park. There was a very good attendance and the game was thoroughly enjoyed by all, being exceptly throughout, with the exception of the first half of the eighth inning, when the locals didn't do a thing to Smith, the pitcher of the Minstrel team, driving them out into the infield, for to batters and everything else, bringing in seven men over the plate.

Dorch pitched for Brainerd and his work in the box was extremely gratifying not only to the manager but to all the Brainerd fans. He certainly pitched an elegant game, making scarcely an error. He kept his head with him all the time and pitched a good article of ball from first to last. He is a man in a man's box who can be depended upon on all occasions. During the game he struck out seven men, but this was not his strongest point yesterday. He played good even game throughout, the kind of playing that wins. He allowed but one man to get to first on balls, and the colored gang threw were pretty good stickers too.

Smith for the Georgia Minstrels also pitched an excellent game. He had had any support, especially in the outfield, the score would have been a tie. That young Smith is a center there is no mistake as it shows by his record yesterday and with any kind of support all it would be a hard proposition to go up against. He struck out five men during the game. Edwards the second baseman, distinguished himself during the game by some clever work both on the field and at the bat. He was the only man to make a home run during the game. He got a good clean drive way over in the right garden and made the argument and is the game from start to finish.

In the first inning Brainerd was up to hit. Smith made short work of him and struck at the "leaders" as some one called them, in one-two-three order. Fyan for Brainerd met the same fate, as also did Orth. The runner also got in his work in the first striking out Shields, Smith and Sherman before they could hardly realize where they were at.

In the second inning Peterson was up and struck out and Presson met the same fate. Murphy's pop-up was caught in the right garden and still Brainerd was without a score. It began to look like a pretty good game at the end of the second inning when neither side had scored. The good pitching of Dorch prevented the colored gentlemen from scoring again. There were men on second and third, Burton and Langford, and two men out and Mason up to bat. Dorch went after him with a vengeance and struck him out. So it was throughout the game. He pitched good ball at the most opportune time it seemed and he never failed to make his plays count.

In the first of the third Spencer made the first score of the game and that after two men had been out. Fyan, Halladay and Dorch struck out but Spencer got in on a pass and the game went on about in the same vein until the second half of the seventh, when the Georgians made two scores. It seemed as though they might brace up there and make things lively for a time. In the fifth Brainerd also made two scores and in the seventh two, in the eighth Brainerd made seven scores and the colored gentlemen made but one. Neither team scored in the ninth inning.

The Brainerd team played a rattling good game throughout and such an organization is a credit to the city and should be liberally supported. The individual playing

First-Class Machinists, Blacksmiths and Boiler-makers on the List.

Monday noon the beats of about 100 men employed in the motive department of the Northern Pacific shops of this city were made glad, each one receiving a notification from Master Mechanic Bean, that their wages had been advanced voluntarily by the company.

The raise affects all the first-class blacksmiths, machinists and boiler-makers; some of them having their wages advanced from \$2.00 to \$3.00 per day, and others getting an advance from \$2.95 to \$3.00.

There were also some few others who received the raise, and of course there is a general good feeling prevailing. The fact that the raise comes wholly unexpected and voluntary on the part of the company, makes it the more appreciated by the men.

CAREER OF HOSHI TORU.

Former Japanese Minister Was the Tom Reed of Japan.

Like Lincoln, a famous reforming minister of the interior, assassinated in 1878, Hoshi Toru, the former Japanese minister at Washington, was a man of the type of a strong wave of political feeling agitating his country, says the New York Herald. Japan is just passing through something of a crisis, and the unrest prevailing in national and municipal politics has made the life of one of her ablest statesmen.

When the Marquis Ito formed his new party called last October, Toru Hoshi was chosen by him for the post of minister of communication. Within a few weeks, however, Hoshi Toru thought it necessary to resign the portfolio in consequence of persistent attacks impeaching his administrative integrity. He was selected by the government majority in the lower house to succeed through something of a compromise to the office of her ambassador.

When in the United States Mr. Toru Hoshi adopted the western usage in writing his name. In Japan the family name comes first, and hence in official titles the form Hoshi Toru is that generally followed. Born in 1850 at Tokyo, he passed through many hard years in his early years. He studied law in England and in later life made himself a special authority in the international branch of jurisprudence.

DEATH'S GRIM VISAGE APPEARS.

Ex-County Commissioner Mahle Passes To The Great Beyond Thursday Morning.

PIONEER OF CROW WING CO.

Remains Of The Late Mrs. Kate Carleton Brought To Brainerd For Interment.

The death of Ex-County Commissioner, Henry Mahle, which occurred Thursday at 9 o'clock at his farm home about seven miles southeast of the city, will be a shock to many of his friends in this city.

The deceased before moving to his farm was a resident of the city and was an employee at the Northern Pacific shops. He had been a resident of Crow Wing county for the past 16 years, and being yet a young man, his earlier life was spent here. He came to this country from Norway when he was but two years of age, his family locating in the southern part of the state. Mr. Mahle was forty years of age at the time of his death.

Deceased had been a sufferer for some time with that dread disease, consumption, but it was not thought that he would come to this.

A widow and three children, two boys and one girl, are left to mourn the loss. Rev. D. J. Grove, pastor of the Swedish Danish Lutheran church, of this city, drove out to the farm this afternoon and arrangements will be made for the funeral.

Henry Mahle was a man who, during his residence in the county, had made many friends, and few were as today who would not express a word of sorrow at the sudden demise. He was a patient father and a loving husband and the bereaved members of the family have the sympathy of a large number of friends in the city and county.

Mrs. George Gardner and A. B. Carleton came in from the west Thursday with the remains of their late wife, Mrs. Kate Carleton, formerly Miss Kate Ryan, well known in this city. It was a sad journey for the bereaved husband and mother and they are receiving the sympathy of a large number of friends in the city. Mr. Carleton died at Whitehall, Mont. after an operation had been performed for appendicitis. After marrying Mr. and Mrs. Carleton resided in this city for about two years, going west about a year ago, where Mr. Carleton had employment with the Northern Pacific.

The remains were removed to Losey & Dean's undertaking establishment and Friday afternoon at 2:30 o'clock brief funeral services will be held there, after which the remains will be removed to St. Paul's Episcopal church, where the beautiful service of the Episcopal church will be read by Rev. Rodney J. Mooney at 3 o'clock. Interment will be made in Evergreen cemetery.

Notice to Water Consumers.

The attention of water consumers is again called to the necessity of observing the Company's regulations about lawn sprinkling.

No lawn sprinkling is permitted except by those who have paid the rates therefor. These rates are \$2.50 per season for a twenty-five foot lot, and \$5.00 per season for a fifty foot lot.

Sprinkling is permitted by paying consumers between the hours of 6 and 9 a. m. and between the hours of 6 and 9 p. m. only.

The company will be compelled to shut off, without notice, the supply of consumers who violate these regulations.

Apart from this consideration, the company appeals to the public to consult its own interest and co-operate with the Co. in preventing the senseless waste of water. The re-modelled filters are working satisfactorily at present, but they cannot be relied on if strained beyond their capacity. If consumers want good water, they must help the company in its efforts to furnish it.

SAVY IT IS BLACKMAIL.

Man Arrested in Duluth for Alleged Murder in Michigan.

Duluth, June 27.—William Groulx, alias La Jole, wanted by the sheriff of Bay City for murder, was arrested here during the afternoon. Nothing is known here of the crime except the sheriff's telegram asking the arrest. Groulx, however, says that it is a case of blackmail to extort money from his father, who is a saloonkeeper at Bay City. His peculiar story of the crime is that a young boy named Dolores annoyed him one day last November and he grew mad and pushed him. A few days later the boy died of pneumonia, he says, but he was held responsible. He left town and has been a fugitive ever since.

Smart Engagement Rings.

According to the smart jewelry of the day is a pear shaped stone, preferably a diamond, the setting almost invisible, the claret very thin. If a colored stone is chosen instead of a diamond, the accompanying jeweler will surround it with the tinted diamonds, making a brilliant line of white fire, but the individual stones so small as to have the effect rather than the appearance of a bumper crop. The New York Commercial Advertiser. A row of five diamonds, encircled with rubies, is also a favorite engagement ring.

FORCED TO LEAVE CHINA.

Former Brainerd Boy Returns from the Empire After Three Years' Work.

RECENT DIFFICULTIES RELATED.

Diplomats Overlook Some Important Facts About the Boxer Movement.

Rev. A. E. Andre, missionary to China for the Swedish Evangelical Mission Society of America, better known in this city perhaps as Rev. A. E. Sjoberg, arrived in Brainerd last night to visit for a short time with his parents. Mr. Andre is a P. Sjoberg, well known resident of this city. The name of this young missionary was changed when he went to China in compliance with the established Swedish custom for the children to take the surname from the father's christian name.

Mr. Andre arrived in San Francisco about the first of April and spent a month with friends in California, and later went to Chicago, where he spent a month. He sailed from China on February 27, after a stay there of two and a half years, excepting a three months' residence in Japan last summer. Mr. Andre has traveled extensively and went from here to India in 1892 as a missionary to Tibet.

Regarding the recent difficulties in China where Mr. Andre was located at Pan Cheng, he says:

"The first indication of any serious trouble so had was a telegram from Dr. Wilcox, the American consul at Hankow on July 3, 1899, telling us that a large party of American citizens, missionaries and others were coming over land from Kailong Fu in the north and were to embark at Pan Cheng on July 8 for Hankow and advising us to join them if we found it unsafe where we were. We answered that our remaining there was not dependent on local conditions but on the attitude of our government toward China and asked his advice. On July 4 we received his advice to come down at once, which we accordingly did leaving Pan Cheng on July 7.

It is a pretty general opinion that this boxer movement has been a national affair but there are really only four provinces out of the eight that have been seriously affected by it. There was a great deal of excitement among the people although they did not realize what was happening in the north. There were vague rumors of fighting between the Chinese and the allied troops. The Boxer organization or the I Ho Chuan, which translated literally would be 'righteous, peaceful faith,' the real idea being that fight for righteousness and peace, is a secret society dating as far back as three hundred years. This was the first outbreak or rebellion, such have occurred time and again when they have had some special motive. That which seems to have agitated the minds of the people in eastern China which has been the seat of the trouble is that the government has been granting concessions of territory to various European nations giving the Chinese people the idea that the government was playing traitor to its trust and selling the country to alien nations which suspicion has been strengthened by the fact that the Chinese people have practically no voice in government affairs, the government consisting of Manchus who two hundred and seventy-seven years ago, when as a sign of submission they gave China as a vassal state to the Mongols, was compelled on penalty of death to share a portion of his land and wealth. This is a fact that is not generally known, but it will be remembered that during the Taling rebellion some forty years ago which involved the whole of southern China, the rebels did away with the one which was in itself naturally a sign of rebellion and went back to the ancient Chinese custom of wearing a tall head of hair.

This Boxer movement had as its original motive the expulsion of all aliens, Manchus included, from China, the regaining of alien Chinese territory and 'China for the Chinese.' To begin with the government stamped the movement as a rebellion, but found that it was an extensive organization and one with which they could hardly cope. The

REPUBLICANS OF OHIO

STATE CONVENTION OPENS AT COLUMBUS WITH A LARGE ATTENDANCE.

SENATOR HANNA CONTROLS

His Followers Dominate Every Congressional District—Forker as Temporary Chairman Arouses Much Enthusiasm—Resolutions Will Recommend His Re-Election to the United States Senate.

Columbus, O., June 25.—The Republican state convention convened here during the afternoon. The large auditorium was crowded when Senators Forker and Hanna came upon the stage together. They were warmly greeted, almost those occupying seats upon the stage were Mr. Joseph C. Barker, Governor Hittner, members of the executive council of Porto Rico, who are on a tour of general inspection.

After prayer by Rev. W. M. Good of Columbus, W. D. Turner, chairman of the state central committee, in a brief speech congratulated the Republicans on the result of the Ohio campaign last year and predicted victory for this year. Then he introduced Senator Forker as the temporary chairman of the convention. Senator Forker was most enthusiastically received. His address was freer than that of any speaker in the convention. The convention adopted rules submitted by Congressman Dick and approved by Senator Hanna.

The committee on permanent organization has selected Senator Hanna for permanent chairman of the convention. Senator Hanna will address the convention on taking the chair.

Went Forker Re-Elected.

The committee on resolutions has concluded its work. General Charles H. Groves was chairman of the committee. The platform is understood to reaffirm the Philadelphia platform, endorse the administration of President McKinley and Governor Nash and commend the records of Senators Forker and Hanna with the specific recommendation of the former for re-election. The Hanna Democrats are asked to make prize fighting an issue on Governor Nash.

Governor Callahan caused quite a stir by announcing that he would not be a candidate for re-election.

When the delegates met before the convention by congressional district the Hanna faction swept everything in front of them. In the Thirtieth district, Charles Porter, ex-secretary of the treasury, ex-governor, ex-congressman and for many years a delegate-at-large to national conventions, was defeated for member of the state central committee because of his opposition to Senator Hanna. Ex-governor Hanna had been elected as delegate and had been made chairman of the Clark county delegation at the meeting of the delegates of his district. It was informally announced that he would not attend the convention. His friends gave various very pointed reasons for his absence.

NORTH DAKOTA TORNADO.

Much Damage Done by Hill and Wind.

Jamestown, N. D., June 25.—The most destructive hail storm that has ever visited Jamestown, and Steele county began at 4:30 a. m. Plate and common glass windows were shattered, holes knocked through roofs, branches stripped from trees and damage amounting to \$10,000 done.

The principal damage was done on the side of Fifth avenue facing west, where half stones of unusually large size struck plate glass and other windows with great force and shattered them. Heavy rain accompanied the hail and was blown through the holes made by the hail and caused a great deal of flooding.

A tornado prevailed in some portions of Stutsman county and nearly a dozen buildings are reported as destroyed and some stock killed.

On the James river branch of the Northern Pacific a number of cars were blown off the track and badly tilted. The storm was scattering and the injury to crops was light, when its fury is considered.

CONTINUES FAVORABLE.

Mrs. McKinley Able to Join the President at Lanchester.

Washington, June 25.—For the first time since she was brought home from California, Mrs. McKinley was able to go down stairs and join the president at luncheon. She remained at the table for some little time and then returned to her room, having enjoyed a break in the daily routine of life for the past month. Apparently she was not fatigued by the extra exertion. Mrs. McKinley's general condition continues favorable, and Dr. Henry said she was improving steadily.

Senator Dubois Ill.

Boise, Ida., June 25.—United States Senator Frederick T. Dubois is at Hunter Hot Springs, Mon., suffering from a severe attack of neuritis. He went there two weeks ago, but his condition has steadily grown worse.

TOLD OF SIR WALTER.

Incidents in Besant's Life Which His Death Recalls.

WARM TRIBUTE TO MARK TWAIN.

The noted English novelist regarded "Huckleberry Finn" as the American Novelist's Greatest Work—Interesting Side Lights on Besant's Character.

By the death of Sir Walter Besant, who was killed in the New York Times, at one of the dinners of a well known London literary association, with which Sir Walter was closely connected, given to Mark Twain, they were quite sure that Mark Twain would be noticed among the first. They had a very long line of American humorists, with whom English humorists did not compare favorably, although England had such splendid men, and they must not forget the Tom Hood and Lamb and others he would not mention because they were living. He regarded "Huckleberry Finn" as Twain's magnum opus and did not think anybody had succeeded in presenting the portrait of that figure so well as Mark Twain. He could not bear the thought that a man who had increased the gaiety, mirthfulness and joy of two generations of his race was to be buried with such much enthusiasm as rising to reply, he was by monotonous earnestness to embarrass him to bear these words of his so proudly. It only pleased him to be taken into the account, but he had reached the age when he knew how to conceal it. It was a satisfaction to him to be competent than himself to judge of his work. He had a judgment which was such a contentment to his spirit.

No man knew Sir Walter better than Mr. Chitto, the London publisher. His own had business relations with the novelist for a quarter of a century, and out of those business relations grew a friendship as sincere as it was lasting. Mr. Chitto recently gave to a London Chronicle representative many interesting side lights on the character of the late writer.

"I first met him," said Mr. Chitto, "when he was secretary of the Palace Exploration fund, and it was then in 1877, that we commenced doing business together. We took over a number of books that had been published elsewhere among them the 'Huckleberry Finn' novel. The Golden Butterfly.' A little later we published the first title of the 'The Captain of the Fleet.' The Besant-Rice partnership pleased many people, myself among them. No one knew Rice's share in the literary part, but it was Rice who looked after the business arrangements. He superintended the printing of 'The Captain of the Fleet' and the binding, and we simply acted as 'ributors. Since then, however, we have seen everything through ourselves. Over this book we had a little fun. The story relates to the river fleet and to the old Fleet marriage. Judge of the surprise of both Besant and Rice when they discovered that the binder's clerks for the covers consisted of an array of anchors and ropes.

A writer to another London paper reported that Sir Walter, though he belonged to the Athenaeum, the Savile and other clubs was not what is generally known as a clubman. He was too hard and courteous a worker to be ever really at play, and he lacked that flexibility of temperament, that quality of abandon, of letting himself go, which is the essence of holiday-making. He was therefore always at work and was always a somewhat official expression, contracted in the old days when he was a professor in Mauritius and expected to be challenged and questioned by all who approached him. His most few club hours were those he spent at the Savile, where at one time he was a frequent lumberer in the pleasant bow window that commands Piccadilly. Those were days when Stevenson, velvet coated, sat on the arms of chairs to see his long legs and when Mr. Henley added to the gaiety of a group of friends long after midnight.

In the Savile club smoking room Sir Walter Besant did what under all the circumstances was an act of generosity. He wrote to his publishers, Messrs. Hatt & Wain, a letter of introduction for the young novelist, who, more than any one, was to change the fogs and fashions of which Sir Walter despised. Until then Stevenson had done badly from an undisciplined, with his works. The talk turned upon publishers, of whom one after another & Oley dilemma was recalled: "If you are Oley, damn Oley! If you are Saunders, damn Oley!" Stevenson improved the occasion, mentioning the Christian name of a publisher as that of a right good fellow, and then citing his surname as that of a rascal. Some one who was present on the occasion says he has always regarded this incident as a rebuff of the publisher as the germ of the Hyde-Jekyll creation of later years.

NEW ROOFS FOR THE CAPITOL.

These Over Supreme Court and Statuary Hall to Be Replaced—Illustration of the President's Devotion to his Wife—New Plan for Horse, Automobiles For Fire Chits.

The architect of the capitol at Washington has decided that it will be necessary to remove the existing ceiling of the United States supreme court room at the capitol in order to replace the timber roof with a more substantial structure of steel, says the Washington Star. The ceiling has been carefully photographed, and diagrams have been made of it so that the new ceiling can be replaced so that it will not be possible for the observer from below to detect that it has been removed. Material for this work has been in Washington, so that the work of reconstruction can then be begun.

The reconstruction of the roof of Statuary hall will also be begun at the same time. A temporary roof will be built under the present ceiling, so that when the rafters and plastering have been torn out no inconvenience will be caused in the hall, whatever be the character of the weather. The statues will all be moved to the capitol hall before the work is begun. The old construction was of wood, and the new one will be of steel, and this alteration may make such a change as they fear, though no one at the capitol is certain what the result will be.

The president recently gave a pretty illustration of his devotion to Mrs. McKinley and his affectionate regard for all that she admires, says the New York World. A letter of introduction for the young novelist, who, more than any one, was to change the fogs and fashions of which Sir Walter despised.
