CURIOSITIES OF ANIMAL LIFE

From the Edinburgh Review.

"There can be no doubt," writes Mr. Darwin, "that dogs feel shame as distinct from fear, and something very like modesty, when begging too often for food..."

A CORRESPONDENT writes from St. Petersburg: "In regard to public works, St. Petersburg is not up to some of our cities..."

THE PEOPLE OF MUNICH.

From C. D. Warner's "Sauterlings."

No one can help admiring the simplicity, kindness and honesty of the Germans. The universal courtesy and friendliness of manner have a very different seeming from the politeness of the French...

COMING ROUND A CURVE.

Any one who has passed over the Boston and Albany railroad will remember the sharp curves and deep cuts in which that route abounds...

Attempts have been and are continually being made to make political capital of the fact that large tracts of public land have been granted by Congress as a subsidy to enable railroad companies to construct and equip railroads...

In these days of millions of iron, copper, and zinc nails, tacks and brads, of lightning, self-feeding, and almost automatic nail machines, it is wonderful to find wooden nails coming into use...

WOODEN NAILS.

First ruffian—Wot was I hup for, and wot ave I got? Well, I floor'd a woman and took her watch, and I've got two years and a floggin'...

NEWS ITEMS.

—One million four hundred and twenty eight were coined at the United States mint in San Francisco, in April.

—Three hundred and fifty millions of people are a good many for a youth of sixteen to rule over, and that is the age of the present Emperor of China.

WOODEN NAILS.

THE WOOL MARKET.—The wool market is still up in figures. The farmers who have sheep this season are indeed fortunate.

—Contracts to the amount of nearly half a million of dollars have been made for buildings to be erected at Salt Lake during the next six months.

SEEDING LANDS.

From the Farmers' Union. A few years since the process of seeding down land in this State was attended with a good deal of difficulty.

This is a law of nature and a very wise one at that. Of all other crops, we consider the hay crop of the State a very important one—we were going to say the most important, but we are reluctantly obliged to admit that wheat comes in first.

POTATOES WITHOUT BUGS.

E. P. F. Brander, Redfield, Mich., gives the following mode of planting potatoes, in the Western Rural:—Prepare the ground as usual—the drier and richer the better.
