GREELEY REPUDIATED.

Hon. E. O. Hamlin, of St. Cloud, one of the most prominent Democrats in this State...

DEAR SIR:—I received last evening your favor of 28th inst., saying you had been informed that I intended to vote for Gen. U. S. Grant...

Your information is entirely correct. All my life I have been a Democrat—not from interest, as is well known...

For years I have clung to the belief that, notwithstanding the blunders of the past, an honest and faithful adherence to its principles by the Democratic party would be recognized...

It appears to me that this recognition outraged the first principles of Democracy in refusing to allow free speech and an organized and disciplined Democratic party to order for its use by dissatisfied Republicans...

As a life long Democrat I acknowledge the power of the National Democratic Convention to bind the party by the nomination of a standard bearer true to its faith...

I find myself then in the position, so far as my humble influence goes, of being obliged to endorse and sustain what in my judgment is a shameless barter of time honored principles for the hope of power...

I regard the lesson which will be taught by its defeat, as of far more consequence than the displacement of one Republican by at least a grand military history...

As between these two Republican candidates I much prefer the man who possesses at least the dignity of silence beneath the most bitter and audacious personal calumnies...

...and who, having heretofore regulated his life by the wish that 'it might be written on his tomb that he never was a follower of the Democratic party...

As between these two parties I much prefer the government of a party of principle to the tyranny of the rapacious and discordant organization whose only claim to support is loud mouthed protestations of honesty...

I am aware that older and more experienced men than myself regard the nomination of Mr. Greeley by the Democratic party as expedient and wise...

But while these are my earnest sentiments, as to which I have no concealment, my private business and professional engagements are such as to prevent my entering into the political canvass.

Regretting that my engagements have compelled me to state my views so hurriedly, and thanking you for the compliment of your invitation, I am respectfully your obedient servant,

EDWARD O. HAMLIN.

WHAT GREELEY NEW IN AUGUST, 1871.

In the Tribune of August 18, 1871, Mr. Greeley thus defined his position:

"The personal views of Mr. Greeley are exactly these: He favors the one term principle, and believes that another Republican candidate for President can be selected who will encounter less opposition and win more support than General Grant, and he therefore advocates such election. But should his views be overruled and General Grant nominated, he holds his election infinitely preferable to that of any candidate whom the Democrats may nominate...

ANOTHER accession for the Greeleyites! The rebel General Jo. Johnson writes to "assure his old comrades" that he is for Horace Greeley for President. He says he is disfranchised because of his rebellion against the Government and cannot vote, but "thinks the overthrow of the present administration necessary as any hope of constitutional government."

"As to Succession, I have said repeatedly, and have repeat that, if the people of the Slave States, or of the Cotton States alone, really wish to get out of the Union, I AM IN FAVOR OF LETTING THEM OUT, as soon as that result can be peacefully and constitutionally attained.—HORACE GREELEY.

Justices and Constables will be glad to learn that a new edition of that invaluable guide to them—the Justice's Manual—is in press, and will be mailed to any address, post paid, on receipt of 50 cents...

LATE NEWS ITEMS.

—Judge Barnard has not resigned, in spite of all that is said to the contrary.

—The Gentile ladies voted in Utah on Monday, and but one was challenged. Her vote was finally rejected.

—The carpenters and joiners' strike in New York is practically ended, only one shop holding out against the eight-hour rule.

—The French government called for a loan of three milliards of francs; and four milliards are already offered. German capitalists are large takers.

—A party of French railroad engineers are to visit the United States to study our railway system, and especially some recent improvements in car building.

—A policeman was murdered in Chicago on Monday morning by a man named Rafferty whom O'Mara, the policeman, was trying to arrest.

—A terrible tornado occurred at Harrisburg, Pa., on Monday. Many buildings were injured and hundreds of trees blown down.

—A Washington dispatch to a New York paper says Secretary Boutwell anticipates that the reduction of the public debt in August will be over twelve millions.

—It has been decided to open the Mankato Normal School as usual for the fall term. The corps of teachers will be reduced.

—The evidence before the American commission at Brownsville shows that the cattle stolen by the Mexicans near Brownsville numbered 50,000, and were valued at a million dollars.

—Horace Greeley is said to be hard at work on a new encyclopedia, which he wants to finish before his inauguration as President of the United States. But he need not hurry on that account.

—The road-bed of the Northern Pacific Railroad will be graded through the Missouri River by the 1st of October next, and the track will be laid by the 15th of November.

—Louisville Ky., gave a routing majority against the Greeley candidate on Tuesday, and scattering returns indicate that the State of Nasby is not so sure for the Chappaquecks as has been supposed.

—Luther Allen has resigned the position of traveling auditor of the Lake Shore and Michigan railway, for the purpose of accepting the position of auditor of the Northern Pacific railroad. His headquarters will be at Brainerd.

—The New York Commercial Advertiser says that the Island of Anticosti, in the Gulf of St. Lawrence, is to be purchased by several Chicago, Montreal and Quebec capitalists, with a capital of \$2,000,000. They propose to colonize it with emigrants from Norway and Sweden, and go into the raising of Northern cereals—wheat, barley and potatoes.

MINNESOTA NEWS.

—They send refrigerator cars from Winona to New York, loaded with butter.

—The grasshoppers have left Meeker county without doing much damage.

—H. G. Page, of Minneapolis, has been elected President of the new National Bank at Fergus Falls.

—Harvest hands are coming by hundreds into the southern part of the State. Wages range from \$3.50 to \$4.50 per day.

—Dr. Thos. Foster and wife are at present rustiating at Lynchburg, Va. The Dr. writes that he meets lots of Grant men among the whites, while the negroes are unanimous in his favor.

—An Eastern exchange says: "Milk is selling at a cent a quart in some parts of Minnesota. The price will not pay for the wear and tear of a cow's tail in switching fire."

—Mr. O. C. Greene, recently of the St. Paul & Pacific road, has been appointed superintendent of the telegraph line of the Northern Pacific Railway, including the Lake Superior & Mississippi Division, with headquarters at Brainerd.

—An exciting trot took place on the St. Paul course on Saturday. Star of the West was distanced on the first heat. A strange horse, "J. D. McMano," beat Hambletonian in three straight heats in 2:31, 2:38, and 2:32.

POLITICAL NOTES.

Hon. James S. Blaine, Speaker of the House of Representatives, has written a terse and vigorous letter to Senator Sumner, in reply to that gentleman's recent Greeley address to the colored people. It deals very strongly with facts, and shows how Mr. Sumner has deserted his party, his professions and his principles...

A large and enthusiastic Grant meeting was addressed at South Bend, Indiana, on Saturday, by Vice-President Colfax. Senator Morton also spoke.

The colored people are holding meetings and repudiating Sumner, who seeks to lead them over to their old masters.

The Democratic and Liberal Republican State Conventions are to meet in St. Paul on the 4th of September—the former in the Opera House, and the latter, which will be a Mass Convention, in Ingersoll's Hall. They will "free" on nominations. A similar programme has been resolved upon in the Second Congressional District—the two Conventions to meet in Farmington.

In his recent speech at South Bend, Vice-President Colfax made the following capital point in speaking of the late Democratic National Convention: "For the first time in the history of Democratic conventions, every vote cast for Republicans for nomination on their ticket was boisterously cheered, while the votes cast for lifelong Democrats were very vociferously hissed." This was the fact, as the reports of the Convention show. To what has the Democratic party come!

The Liberals and Democrats of this Congressional District have united in a call for a Convention to be held at St. Paul on the 3d of September to nominate a candidate for Congress. Stearns county will have eleven delegates, from which it would seem that the Democratic vote was taken as the basis. Pleasant for Republicans!

—A small greenish bug is depredating on the heads of wheat in Washburn county.

—An unfortunate runaway occurred in Minneapolis on Monday, by which Mrs. W. P. Westfall was so badly injured that her life is still despaired of and Mrs. Alexander Tyler was severely bruised.

—Gov. Austin has relieved Farrell sentenced to have been hung on Saturday at Washburn, to August 9th, that his attorneys may prosecute a motion for a new trial.

—Judge Crosby gave Joseph Welch his sentence to the State Prison for life on Monday. Motion for new trial denied.

—The race at Minneapolis on Friday afternoon between Hambletonian and Star of the West was close and exciting. Hambletonian took the first, fourth and fifth heats in 2:23, 2:44, and 2:35; Star of the West the second in 2:30 and third in 2:38. Purse \$600.

—The Alexandria Post reports another proposed railroad line from the extreme southeastern corner of the State, northward via Benson and the Chipewaga Valley, Glenwood and Alexandria to a connection with the Northern Pacific railroad.

—The Congressional committee's mind is in favor of Greeley's election. Speaking of him it says: "He has labored to be President for many years, and the Democratic party have scratched him in the right place. A Birmingham journal professes to have seen, in undeniable black and white, the evidences of a corrupt bargain and sale, as the result of which the nominations at Cincinnati and Baltimore have been made. However this may be, men who know Mr. Greeley, know that if he should now be elected President by Democratic vote, his past Republicanism will have no more influence over his future official action than the hen's nest in which it was surreptitiously incubated has over the grown gosling after it has taken to water. If Mr. Greeley is elected, the rebellion comes back again, and the old sham-Democratic rule which brought upon this nation the horrible and blood-stained years which are not yet forgotten. And, worse than that, Tammany will reign!"

—What is the difference between the entrance to a barn and a door in a printing office? One is a barn door, and the other is a darn door.

PROSPECTUS.

Seven-Thirty Gold Loan.

In its First Mortgage Gold Bonds the Northern Pacific Railroad Company furnishes to the public an Investment Security which combines the ready Negotiability, the Convenience, and the high Credit of a first-class Railroad Bond, with the Solidity and Safety of a Real Estate Mortgage on Land worth at least twice the amount loaned.

These Bonds, WHICH AFTER FULL INVESTIGATION, we strongly recommend as RELIABLE and UNUSUALLY PROFITABLE INVESTMENT, AND WHICH NOW STAND AMONG THE MOST SOLID and FAVORITE SECURITIES, are being offered at the following leading features: 1. The issue is limited to \$50,000,000 of United States tax, the Principal and Interest are payable in Gold—the Principal in thirty years, and the interest (as the Banking House of Jay Cooke & Co., New York) semi-annually, first of January and July, at the rate of 7-10 per cent. per annum—nearly 8-1/2 per cent. currency. 2. Denominations, \$100, \$500, \$1,000, \$5,000 and \$10,000. Present selling price, \$5 and \$10,000. Present selling price, \$5 and \$10,000. Present selling price, \$5 and \$10,000. Present selling price, \$5 and \$10,000.

3. They are at all times redeemable at the face value, or at 110 per cent. in payment or exchange for the Company's Land at market prices—a provision which practically gives the holder of these mortgage bonds the power of foreclosure at will. 4. The interest on all sales of land required to be devoted by the Trustees of the bondholders to a Sinking Fund to the purchase and redemption of the same mortgage bonds, or temporarily to the payment of interest thereon, if necessary. This provision will make the Railroad Company itself a constant and heavy purchaser of its own securities in the open market from the time the road is completed, with the bonds mature, or are all bought in. The effect of this will naturally be a steady rise in the value of the bonds.

EXAMINING U. S. 2-20. In view of the ability and high position of the Government to sell in all its issues, and substitute a low interest bond, the issue of 5-20s are exchanging them for Northern Pacific, thus adding to their principal the present premium on Government Bonds and the fact that their yearly interest income nearly one-third.

All marketable stocks and bonds will be received (by express or otherwise), at current prices in exchange for Northern Pacific securities without expense to the investor. Pamphlets and full information will be furnished on application.

JAY COOKE & Co., Philadelphia, New York and Washington. The Central Agency Northern Pacific Railroad Company. For sale by Banks and Banks generally. no17-6m

MORE TRAPPEE FOLLY.

From the San Francisco Chronicle. The complimentary benefit to W. S. Lawton at Platt's Hall last evening was a perfect success financially and artistically.

—A letter from Washington brings the following information, which will be interesting and gratifying to the people on our western frontier: "Gen. Averill has succeeded beyond his expectations in getting post routes established in advance of the regular season of advertising on the various lines which have been pressing for more mail service.

—The Germans are fortifying the principal strategic points in the occupied French provinces as if they meant to make a lasting stay in them. Thus the new works in process of construction by their engineers at Strasbourg are of the most colossal character.

—An industrious and gentlemanly appearing bug, with a "rip saw" in his mouth, is delighting the Ohio farmers by his expertness in sawing up the Colorado potato bug.

LUXURY OF THE VICEROY.

In the palace of the Viceroy, or Khedive as he is now called, are seen the signs of the Eastern luxury and the material civilization of France; delicately carved and gilded chairs, covered with finest silk; soft-tape-tried divans running around the walls; beds of solid silver, covered with glittering satin, costing as much as \$15,000 each; long Eastern pipes with mouth-pieces of lightest colored amber, set with diamonds and precious stones, some of them valued at \$30,000 apiece; gold trays, plates and goblets of gold, rimmed with gems—even diamonds; silver basins to wash the hands in before a repast; low, round silver tables, a foot high, for dining; magnificent cushions to recline on in smoking or eating; little coffee cups of solid silver, enameled, rubies, or emeralds; hundreds of slaves in each establishment, eunuchs, waiting women in flowing costumes; immense rooms decorated in white and gold, azure and silver, rose and lilac; floors of inlaid marble, porphyry, and alabaster; constantly playing fountains, whose trickling sounds fall so agreeably on the ear in a warm country; masses of gorgeously framed mirrors. One sees in all this the French upholsterer has been at work trying his best to blend Paris and Cairo.

—Peter Cox, aged 101 years, was married in Brooklyn last Sunday evening to Miss Lucy Green, aged 50.—Both are colored, and the union, there is reason to believe, was one entirely of love. They first met, not long ago, in a grocery, where the sprightly Lucy dealt out cabbage. Peter was smitten at first sight, and made overtures at once. In his own language, "the apologized, and Lucy accepted the apology." Arrangements were made for the wedding, and on Sunday evening the bridal party started from Stryker's alley, where Peter had been living in bachelorhood, for the parsonage of the Rev. Mr. Mowbray (colored), 94 Duffield street.—N. Y. Sun.

—The peanut would seem to be a trifling agricultural product, at first blush, but this is an error. Many of the counties in Middle Tennessee are planted almost entirely with peanuts. Careful calculations show that, with favorable weather, the yield for that section alone will not be far from 11,000,000 bushels. They are also extensively grown in North and South Carolina, and in portions of Texas. It is evident from these facts that quantities of them must be consumed.

—A mute boy, only fourteen years old, was drawn into a coal breaker, at Carbondale, Pa., last week; and it is said that while suffering the agonies of being held in the teeth of the machinery, surrounded by lumps of coal, he spoke to the men about him, and begged them to be quick, even while his eyes were fixed in their death-stare, and he was sinking every minute from pain and exhaustion.

—General Sherman is expected to return to Washington about the 5th of September.

—The Germans propose to celebrate Sept. 2, the anniversary of the victory at Sedan, as a national festival, with bonfires, processions, festivals, salutes and illuminations.

NEW ENGLAND'S GRAIN PRODUCE.

Of the six States east of the Hudson, Vermont comes nearest to raising its own bread, producing 454,000 bushels of wheat in 1899, or about a bushel and a peck to each inhabitant. Taking the army ration of 22 ounces of flour per day as a basis for computing the consumption of bread, it follows that Vermont raises bread enough to supply the people of the State 37 days, and that to make up the deficiency they are obliged to purchase 3,886,000 bushels per annum. Maine makes the next best showing in the cultivation of wheat, producing in 1899 278,000 bushels, sufficient to last eleven days, and purchasing 8,500,000 bushels. New Hampshire, with a decreasing population, was a trifle behind Maine, producing 193,000 bushels—a little more than a half bushel to each inhabitant—and purchasing 4,260,000 bushels, or ten days' supply. Connecticut makes a much poorer showing than New Hampshire, producing 88,000 bushels—enough to supply the people with bread fourteen days—and purchasing 7,618,999 bushels. Massachusetts, though having a larger area than Connecticut, raised only 84,000 bushels, which, ground to powder, was sufficient to give the inhabitants of the State bread enough for breakfast and dinner, but not enough for supper! The people of this commonwealth purchase 20,300,000 bushels of wheat. Rhode Island raised 984 bushels of wheat in 1899, and purchases about 3,000,000 bushels per annum. The six New England States to gether purchase in round numbers from 40 to 50,000,000 bushels of wheat, and quite as much of other grains; or in round numbers, 109,000,000 bushels of grain.—Boston Advertiser.

TESTS AS TO WHEN A PLANT WANTS WATER.

The marks by which it may be known when the ball of a pot plant has become so dry as to require fresh watering are—the color of the soil, its feel to the touch, the weight of the pot, and the appearance of the foliage, &c., of the plant. When well supplied, its twigs and leaves present an aspect of fullness and stiffness; but as the ball becomes dry, and less able to supply the waste of evaporation, the foliage becomes relaxed and drooping, and, if unrelieved, begins to dry and wither. In plants with soft, tender leaves when in full vegetation, this appearance is very striking; but in those with thick, leathery leaves, it requires some experience to note change. If the latter, on being bent together, present some resistance, it is a sign of dryness in the ball, but the extent must be learned by practice.—The Gardener.

DOES FARMING PAY IN MINNESOTA?

—In answer to the above, we would say that we know a farmer living about eight miles from Austin, who three years ago last spring had not enough money to buy himself a pair of boots. Now he has a farm of 120 acres, 90 under crops, well fenced, a comfortable frame house, log barn, 41 head of as fine young cattle as one would wish to see, 8 head of horses and mules, a good reaper and other farm machinery, besides hogs, chickens, &c., all paid for. This has all been made off this farm, hewn out of land covered with burr-nuts and grubs. The farm, with crops, stock and improvements, is worth at least \$5,000. This all made in less than four years, besides supporting a family, is pretty good evidence that farming will pay in Minnesota, and that perseverance and industry are certain of reward. Let those looking for a home in the west make a note of this.—Austin Register.

—The velocity of electricity waves through the Atlantic cable has been ascertained to be from 7,000 to 8,000 miles per second. Telegraph poles in the air conduct the electric waves with a velocity more than double the rapidity of the transmission increasing with the height. Wires slightly elevated transmit signals with a velocity of 12,000 miles per second, and those at a considerable height give a velocity of 16,000 or 20,000.

—Hon. Ezra Cornell, founder of Cornell University, who has been claimed for Greeley, has declared for Grant, and presided at a Grant and Wilson meeting at Ithaca, last week.

TO A VIOLET.

BY BEN. A. D. WEBSTER.

God does not send us strange flowers every year. When the Spring blows off the pleasant places. The same dear things lit up the same fair faces.

The violet is here. It all comes back; the odor, grace and hue; Each sweet relation of its life repeated; No thank is left, no looking-for is cheated; It is the thing we want.

So after the death-thing it must be. God will not put strange signs in the heavenly places; The old love shall look out from the old faces. Violets! I shall have thee!

—Several persons have recently been whipped and driven out of Carter county, Missouri, by the Ku Klux.

—Gen. Dix says he shall have none of Greeley in his broth if he understands himself, and he thinks he does.

—Thanksgiving services were held in the French churches on Sunday for the great success of the new loan.

—North river pirates on Friday night stole from the wharf of the Hamburg steamers watches valued at \$50,000 to \$80,000.

—The prettiest woman in Rome is said to be an American, formerly Miss Addison, of Pittsburg. She is the wife of a Spanish Ambassador.

—And still they come. Twenty-one thousand immigrants, principally from Germany, England and Ireland, have landed at the port of New York since the first of the past month.

—A letter from St. Petersburg from ex-Gov. Curtin, whom the Pennsylvania "Liberals" insisted should be nominated for Vice-President at Cincinnati, authorizes his friends to say that he is unqualifiedly for Grant.

—Sixty indignant women in Carthage, Ind., went round among the liquor stores one day last week and begged them to stop selling to their husbands. Their remonstrance being unheeded, they called the next day and made a complete wreck of every liquor store in town.

—Hon. Henry W. Paine, of Boston formerly of Hallowell, Maine, a prominent Democrat, comes out for Grant in preference to Greeley, on the ground that it would be a sacrifice of the business interests of the country to elect sorotchety a man as Greeley to so high a position.

THE Brainerd Tribune
M. C. RUSSELL, EDITOR.

"SPREADING."
The "Democratic" or "Liberal" newspapers have been crowing most loudly and continually about the great "spread" of the "Reform" movement. Yes, and they discovered in North Carolina that other day that this "great spread" was the rich, and so went back on it.

COLONY COMING.
We hear of an English colony, composed of 500 families, who are coming to the N. P. Railroad country early this fall, and who will settle between here and Red River, on the line of the road. We send them a hearty welcome, in behalf of the thousands of good people already citizens of the new Northwest, and congratulate this section on the prospect of so valuable, respectable and extensive an accession to their numbers.

HILLS is selling his Summer Dress Goods out AT COST!

CAUGHT.
The Hank jumper, who has been for a short time in the employ of our friend H. A. Hills, the Brainerd Banker, and who during Mr. Hills' absence to St. Paul—on Friday night of last week—struck out with eight or nine hundred dollars of the bank money, was captured at Duluth on Monday evening, and brought back to this place and lodged in jail. His name was George L'Angier, and had been employed by Mr. Hills a few days before as book-keeper. He will be likely to enter the State service, or long for his folly. Upon receipt of his arrest, Sheriff Gurrell went to Duluth and returned with the prisoner on Tuesday.

SUED FOR LIBEL.
We understand that Sheriff John Gurrell has instituted a suit for libel against the editor of the Detroit Record. We commend the personal of a communication to be found in to-day's Tribune to all who wish to know a reliable and exact statement of the entire proceedings of Sheriff Gurrell during the exciting time caused by the hanging of the two Pillager half-breeds at this place, after which they can determine in their own mind as to the propriety of his instituting a suit against the Record for its statements made against his honor and honesty during that exciting time.

IN TOWN.
We are informed that some of Brainerd's Chicago detectives are in town, supposed to be looking up matters concerning the Indian hanging.

MAIL SERVICE.
It is a pleasure, long sought, to announce that arrangements have finally been made whereby mail service, in charge of route agents, will hereafter be enjoyed on the line of the Northern Pacific Railroad.

THE NEWS.
In reference to the immediate completion of the Brainerd Branch from Brainerd to Sank Rapids, has been hailed by our citizens, and the people all along west of here, with the greatest interest, and Brainerd's future and present is being made the theme of conversation everywhere. "Brainerd" and "business" are acknowledged now on all sides to be synonymous terms.

A SURVEYING party, under Geo. G. Beardsley, Government Surveyor, consisting of 18 men, all armed with heavy rifles, left Moorhead on the 20th inst., to run the 9th and 10th standard parallels across Dakota to the Missouri River—in effect establishing a new base line for the survey of all government lands to the north of in Dakota Territory. This party will also subdivide several townships near Carlton, where the N. P. Road crosses the Missouri, and will return in about three months.—(Detroit Record of July 27th.)
