Crimes and Accidents.

The failure of Lyman, of Lynn, Massachusetts, formerly a shoe manufacturer, but lately engaged in real estate speculations, is announced. Liabilities, \$300,000.

At Large.

The House Committee on Patents has agreed to report favorably on the request of Mr. Wm. C. Calkins, for leave to take out a patent on his cigar ship. He made an application for this some years ago, but it lapsed some time since, and requires a special act of Congress to enable him to take out a patent.

Washington.

The Senate does not look favorably on the bill in aid of geological and other surveys in the several states, and will probably kill it. The debate on the Sanborn contract business is looked for with a great deal of interest, as it is said General Butler has finally decided to go into the matter extensively, and for this purpose, has obtained the evidence, which he is carefully studying. It was thought, from intimations from him, that he was inclined not to touch it, but he has changed his mind, and will make a vigorous fight for the defendant.

Foreign.

Several shocks of earthquake have been felt at Hamada Ken, Japan, causing great alarm among the inhabitants.
