as against the fears of many Republican authorities that our majority would not exceed five or six thousand, is certainly refreshing in the extreme.
Three cheers for the victory for hard money, national character, progress, the loyalty of the American people, and the stability of our Centennial Republic!
Below we give the official vote of our own county of Crow Wing, which will be found interesting, and a valuable table for future reference.

It is evident a mistake of three occurs in the count in second ward, while a fourth is in dispute, both sides claiming it.
Upon the whole it is considerably mixed, and will doubtless wind up in a count.

Letter from Rev. H. J. Crist.
We are in receipt of the following letter from Rev. H. J. Crist, which we cheerfully publish in full. It corrects our statements of two weeks since, somewhat, but does not improve materially the record of the Church here in the premises.
AUSTIN, MINN., Nov. 30, 1875.
W. W. HARTLEY:—My dear friend,
We feel greatly obliged for the outspoken words in your issue of "Tribune," received last week (for which accept thanks), concerning the matter of my financial support during the past year. I think it may possibly be the means of awakening a deeper interest in the welfare of those who may now or hereafter serve the people in any of the churches. But justice and truth demand a better understanding of my financial support than your article represents, as matter of fact, and I hasten to bring to you the desired correction which I know you will cheerfully make public. It should be known that all churches of various denominations in part from missionary funds received from funds for domestic missions, collected and disbursed by the missionary societies of the various churches. To my charge, therefore, for the past year, the amount of \$300 was apportioned, and received in regular quarterly installments. The business records of the church will show that I received last year, inclusive of amount received after my prostration and sickness, and in addition to the above \$300, an additional amount of something more than \$400, of which the church in Brainerd paid \$165. The balance was gathered at various points along the line where I labored, including Detroit.

These figures make an aggregate of something more than \$700, besides the use of the house in which I resided. Upon that amount I have lived, and had enough left to get to my new appointment. Of course I could have made good use of my entire salary, which was estimated at my request as low as \$800, and the parsonage; but I determined not to exceed my income in my expenses, and many favors received from various sources enabled us to do so by exercising a possible economy. I have felt no spirit of complaint, for I thought there were so many persons with whom I came in contact who were in much greater need than myself, that, on the contrary, I felt thankful I had even so good a promise of support for myself and family. And yet I have no doubt I could have earned in secular employment, if that had been my life work, at least \$1,500 and upwards.

But I have no envious desire for the perishable pelf of worldly good, and am content to allow those who will, to enjoy all they find in the "deceitfulness of riches," believing not only that "the laborer is worthy of his hire," but that every true laborer in Christ's vineyard will and does receive in this life a hundredfold, and best of all, in the end, shall reap "life everlasting," which is a compensation beyond all computation for every sacrifice we make in this life.
As my present wants are, therefore, reasonably well provided for, I greatly prefer that no further effort will be made in our behalf, but suggest that the people esteem those who now labor among them as "worthy of their hire," and provide liberally for them, while I express the hope that they may labor with great success in your midst.
Please publish any part of this you may think proper. Glad to say I am still on the gain daily.
H. J. CRIST.

A CHANGE took place in the proprietorship of the Brainerd Drug Store this morning. Mr. Sherwood has sold his interest to N. McFadden whose card appears in another column.

DR. J. C. McCRAWL, Licentiate of Dental Surgery, will be at the Leland House, November 13th, and remain four or five days only, when he will be happy to wait upon those requiring his aid in any of the branches of his profession in a superior manner. 195-2w
("ZEE CUMMER") says that at a public installation of the officers of a lodge of the I. O. O. F., a brother admonished the officers elect that hereafter it would be "pragmatic" upon them to attend every meeting and thus do honor to the banner upon which was traced the letters F-r-e-e-d-o-m, L-i-b-e-r-t-y and T-r-u-t-h.

The beautiful weather, for which our Minnesota autumn is noted, is prevailing in this section; and while snow is falling in abundance all around us, and winter is setting in early and in earnest north, south and west of us we have as yet had no snow worth the name, two little flurries, the "ragged edges" of our neighbors' blizzards, and which twelve hours' sun dispatched entirely, being the extent, Hurrah for Minnesota!

VINCENT WILLIAM, step-son of our jeweler, E. L. Straus, Esq., was out hunting Tuesday, about two miles south-east of town. He emptied his gun at some game and put in another charge before it had cooled. He don't know what became of his thumb, a part of two fingers, and his ramrod, and will have to get along without them through the balance of his life, which fortunately was preserved. Dr. Rosser dressed the wounded hand, and he is doing well.
MORAL.—When you load your gun with fire in it, don't use powder, otherwise, don't put your hand over the muzzle.

DR. L. MATO and F. X. GOULET, the Democratic candidates for Senator and Representative from this District are probably elected, though we are not in receipt of full returns, and cannot state positively.
Mr. Goulet's election is considered doubtful by some, but we think he is safe. Returns from Crow Wing and Morrison are all in, and give him 372 majority, while a telegram from Mr. Holton, of Elk River, to Mr. Goulet, Esq., Mr. Allen's majority in Sherburne, Benton and Miller Lakes at 300, which, if true, gives Mr. Goulet a majority of 72. This is the latest.

POETRY.

IN THE WEST.
Gather them close to your loving heart—
Cradle them on your breast;
They will soon enough leave your brooding care—

SHALL WE HIRE HANDS WHO SMOKE.
Sam Ellison looked sullen and gloom;
and it was evident to all who knew him,
that something had gone wrong, and very wrong too.

MISCHELLANY.
"Listen then, some one screamed,
I am as sure as the boys home!"
By this time the wife had been conscious that it was not enough to distinctly see every object in the room.

"If Seth only did not swear, or drink,
or smoke!"
"Never he must not on my farm, in the
bearing of my family, nor touch one drop
of liquor while in my employ; I told Joe
Downs I would hire him on no other con-
ditions, and he said, 'Only make that in
the bargain and Seth will live right
square up to it.' I don't think it such a
sin for a man to smoke, Martha."

THE BARN.
The boys were delighted. Norman,
William, Joseph, and even Paul, the
seven year old boy, were all going. Mrs.
Ellison was worried, but Seth had been so
steady, and the boys were all so much
about the idea of going fishing.

SWALLOWING A CENT.

Journal of Health, who is himself an
educated physician and surgeon, while
on a railroad train the other day, was
consulted by one of the simple ones on
the train in relation to his little boy, who
had that morning swallowed a cent.

DESTRUCTIVE WEEDS.
Anybody who has taken the trouble to
observe the tendency of weeds to spring
up immediately after a shower, has also
observed the fact if the ground is loosened
after a rain no weeds will appear.

CUCUMBER PICKLES.
Every one knows how to make those
of our country; but here is a space left on
my paper, which I will use for the
cucumbers when not more than three
days' growth; pack into a keg or jar in
close layers; over each layer place a
layer of salt in which alum—a tablespoonful
in each pint of salt—has been mixed; do
not add any water, as the water drawn
from the cucumbers will cover them.

For Representative: S. G. Comstock, 44; John Wait, 43.

Please mention the fact that some individual, name unknown, voted for Mr. Durant, just once.

Charlie Peake, our popular "Store-keeper," has sold out his entire stock in trade to Dan. Pineo, of Atwater, Minn. Mr. Pineo will put in a large stock of goods, consisting of every thing that goes to make up a first-class country store.

Mr. L. F. Yeaton will have full charge of the store, and will be assisted by Henry Presson. We wish the new man bountiful success.

Mr. L. F. Yeaton has now taken up his residence in the "city" in the rooms formerly occupied by Mr. J. Peach.

Mr. Barwell, of the town of Compton, has also moved his family into the former residence of Rev. R. Kerr.

A. J. Howard has also changed his abode for the winter, and is now living in the house of L. F. Yeaton.

The family of J. H. Sanders has removed to Fergus Falls.

Jimmy McStay, who has made it his home for several years at Wadena, left on Thursday's train on a visit to friends in St. Louis, York State, and other places.

Jimmy leaves behind him none but friends, who wish him a safe journey and a pleasant sojourn among his friends.

Billy Brown remained over Sunday at the Wadena Hotel. William was well and looked happy.

The popular landlord of the Leland House, in the form of W. H. Leland, was in town a few days last week visiting old acquaintances and pricing butter and eggs.

Mr. Wait, the man who was shot by that "infernal machine" in the form of a set-gun, is doing well, and will come off whole.

We pass. Yours, Hock.

The Price of Wheat. THE MINNESOTA WEEKLY TRIBUNE is doing a good work in keeping its readers posted in the price of wheat.

It not only gives the price at Minneapolis, the great wheat market of the State, but also gives accurately its prices in Milwaukee, Chicago and New York; its reports being made up from special dispatches whenever the regular reports are not full and satisfactory.

THE TRIBUNE deserves great credit for its enterprise, and deserves the title of "The Commercial Paper of Minnesota," because it has fairly earned it.

Dyspepsia. Americans are particularly subject to this disease and its effects; such as Sour Stomach, Sick Headache, Habitual Constipation, Heart-burn, water-brash, coming up of the food, coated tongue, disagreeable taste in the mouth, Palpitation of the Heart, and all diseases of the Stomach and Liver.

Two doses of GILBERT'S AROMATIC FLORA will relieve you at once, and there positively is not a case in the United States it will not cure.

If you doubt this go to your Druggist, S. V. R. Sherwood, and get a sample bottle for 10 cents and by it. Regular size 75 cents.

The Creator never gets credit for all his kindness to his people. As evidence of this you will constantly hear the expression, "For this beautiful weather we shall catch it by and by."
