We had the pleasure this week of meeting A. K. Murray, Esq., of Audubon, who with Dr. F. S. Bodie, of White Earth, have been subpoenaed to appear and testify before the congressional committee.

Who shut the prison doors for Cordozo and McLaren—opened by detective Nichols? Gone to meet Babcock.

Has M. V. Nichols been reinstated as U. S. detective yet? If so, through whom did he get his appointment? Was it for preferring charges, or suppressing them?

What has become of those charges against U. S. Marshal McLaren and U. S. Commissioner Cardozo, prepared by detective Nichols? Send them to Clymer.

Was that "statement" of the ex-detective to the effect that after examining the books and accounts in the marshal's office he found he was mistaken and that his charges were entirely groundless, the fact and deed of said detective, and made without fear, favor or reward, or the promise or hope thereof? Or was it made upon the promise of re-instatement?

Gen. G. A. Custer Thrashes a Claim Agent at Washington.

THE Black Hills Tribune material has been shipped. The paper will be printed by X. S. Burke, late of the Perham News, and Col. Lounsbury, of the Bismarck Tribune, who will not abandon his connection with his first love.

THE Deluth Tribune says the Lake Superior & Mississippi railroad company is to build a line from the N. P. Junction to Knife Falls.

INDIAN WARE. Since our article upon this subject appeared in the Tribune of the 25th ult., matters have been waxing a little warm in this line, and additional developments have come to our knowledge of a highly interesting character.

BOOM LAKE BRANCH. We learn through Mr. E. H. Bly, of this city, that the N. P. officials at New York have rejected his proposition to have a track laid on the Boom Lake branch to his mill.

Express office for California Peas, Oranges, Lemons, Apples, Cranberries, Dates and Figs. Collins' panorama to-night at Bly's Hall at 8 o'clock. There will be a Fellowship Meeting in the Congregational Church next Wednesday evening at eight o'clock. It will be conducted by Rev. L. H. Cobb, superintendent of Home Missions, assisted by Rev. E. S. Williams and others. All are cordially invited. On Fri.—That Fred Sweetman, conductor on the Dakota Division, J. G. Pinkerton, train dispatcher at Brainerd, and John Powers, locomotive engineer, have severed their connection with the road this week. We have not learned who their successors are to be. Passion Week Services in St. Paul's (Episcopal) Church.—During Passion, or Holy Week, the suffering of the Saviour before his crucifixion are brought to mind. There will be service every morning at 11 o'clock, with a meditation on one of the seven sayings of Christ upon the cross; and every evening at 7:30 o'clock with an account of the events commemorated on that day. Good Friday service at 11 a. m., with a sermon; Easter Sunday, service at 11 a. m. and 7:30 p. m., with Easter anthem and choral services at 2:15 p. m. As we presumed in our last, James Hopkins, the victim of the sad accident on the railroad bridge at this point on Saturday last, did not live an hour after he was struck. His wife reached here on the Monday night train, and his funeral took place on Tuesday. It is stated that the menial her at the time of the accident saw the timber falling, and called to him to get out of the way, and that he apparently thought they were "sprung" him and did not move, though he might have done so and avoided the blow. Another victim to this very curious custom. For NOBLY HATS, go to H. A. Campbell's. THOS. H. CAMPFIELD has resigned the position he has held for the past five or six years, that of President of the Lake Superior & Puget Sound Land Co., and George Stark, vice president of the Northern Pacific, has been appointed in his place. Our townsman, L. P. White, still retains the local agency of the company here. Mr. Canfield will personally supervise the working of his mammoth farms on the N. P. this summer, and is now building a large barn at Lake Park and making preparations for putting in his crops. Mr. L. P. White has purchased for him over 1200 bushels of wheat for seed and ten span of heavy farm horses. There will be some wheat raised on the N. P. this summer if the grasshoppers behave themselves—probably more on the farms of Mr. Canfield, Oliver Dalrymple and Gen. Hawley alone than in the whole New England states united. The best stock of Boots and Shoes ever brought to Brainerd, at H. A. Campbell's. Personal. A. A. White was in town yesterday. J. L. Starcher returned this week from the Saulty City with new goods. E. W. Weed, of the Headquarters Hotel, has been very sick, but is around again as good as new. N. K. Hubbard, of Fargo, D. T., returned home last week with his bride. There was no fooling about it this time. M. C. Russell, of the Lake City Leader, dropped in upon us last Saturday and returned Monday. He is well pleased with his new home. Mr. C. D. Child, clerk in the auditor's office of the N. P. R. R., has returned to Brainerd after an absence of several months in the East. Jno. N. Nevers fell from a ladder while painting the Leland House this week and narrowly escaped being severely hurt by catching hold of the veranda as he fell, which broke his fall somewhat. As it was he got off with a bruised side and a dose of pain. Captain A. R. Russell and John S. Seget passed west this week en route for the Red River of the North, to be on hand when navigation opens to take charge of their boats to run between Moorhead and Fort Garry. They expect a heavy business on this line the coming season. Hon. C. A. Ruffner returned Wednesday night from Washington, where he has been the most of the winter. He thinks the bill extending the charter of the Northern Pacific will pass without any trouble, likewise the river and harbor appropriations for Minnesota recommended by the committee. He is going to take care county matters in hand, and thinks the organization of that county is not so bad as much as it might be.

That it is the right and duty of the national legal tender notes, as greenbacks, should be a legal tender for all debts, public and private, including duties on imports.

That we demand the gradual withdrawal of the national bank notes, on the bonds securing the same, and the issue in lieu thereof of greenbacks of which the people will have the free use of taxation.

That we demand the immediate resumption of 1875, believing the same to be most destructive to the business interests of the people, and that it has already brought large numbers of business men to bankruptcy, and the laboring classes to pauperism and suffering.

That we demand the tender notes of the nation should be interchangeable—national registered bond, bearing a rate of interest not to exceed 3.50 per annum.

That we demand that the present bonded debt of the country be refunded as speedily as possible.

That we demand that the present high prices of school text books as a serious tax upon education, imposed on rich and poor alike, for the benefit of book publishers and stationers, be stopped.

That we demand that the present high prices of school books as a serious tax upon the children of the State with school books at prices but little more than the actual cost of the same.
