A company of ice dealers at Duluth cut and stored 100 tons of ice on the 26th of June.—[Detroit Tribune.]

A motion in the lower house of Congress, on Monday last, to suspend the rules and take up the Senate bill extending for eight years the term for the construction of the Northern Pacific Railroad, was defeated by a vote of 42 yeas and 149 nays—19 Republicans and 23 Democrats favoring its passage.

Our friend Major Seip, who, in our late county convention, made a strenuous fight against instructing the delegates for Dr. Stewart, lest he should not prove to be the winning man, is probably now satisfied that no error was committed in so instructing those delegates.

Dr. D'Unger at the Northern Pacific Again. It is well known along the line of the Northern Pacific road, and also to a vast number of bondholders of that concern.

That's old, Doctor. Save your money for better purposes. The Northern Pacific don't owe you a cent, and never did.

1876 CENTENNIAL 1876 Republican Ticket.

For President, GOV. RUTHERFORD B. HAYES, Of Ohio. For Vice-President, HON. WILLIAM A. WHEELER, Of New York.

By Their Own Mouths are They Condemned. The Centennial Enquirer, the leading Democratic organ of the west, now supporting Samuel J. Tilden, as a Reform candidate, in its issue of June 5th, said of him:

He cannot carry his own State in November. He cannot carry any northern State. He is a hypocrite, a political swindler, has long been a public plunderer, and is really the most disreputable candidate prominently named on the Democratic side.

He did what he could to defeat the Democratic party in Ohio in 1875. Should "God's Providence seemingly estranged" his nomination, and by whom and what would he be nominated?

From this it is reasonable to conclude that the Enquirer is a "servile consciousness tool that money can purchase," "one of the most corrupt influences that ever entered into a Presidential nomination."

A report of the Amsterdam committee in regard to the St. Paul & Pacific railroad states that a reduction of \$80,000 a year in expenses has been made by the management; that the president judges it necessary to lay a track from the western terminus of the main line at Breckenridge northward to the junction of the Northern Pacific and the St. Vincent extension at Glyndon (40 miles);

That's old, Doctor. Save your money for better purposes. The Northern Pacific don't owe you a cent, and never did. It might have made you a present of that section of land at one time if you had kept your mouth shut.

The Yellowstone Post. Steps have been taken for the immediate commencement of work on the two military posts to be erected on the Yellowstone. General Forsyth is now in consultation with General Terry as to the location of these fortifications, and by the time the sites have been located, the necessary materials will be ready for those immediately in charge of the work in hand.

TENNISON'S AMY.

O my cousin, shallow-hearted! O my Amy, mine no more! O the dearest, dearest moorland!

TOMRICKES HASSAN.

The Story of the Man Who Murdered the Turkish Ministers. Therapia, June 18.—"Thick-kee Hassan," or Hassan the Circassian, came out of the military school at Constantinople with the rank of lieutenant about three years ago.

unlusters. Midhat Pasha at once made for the bottom door, rushed through it to the inner apartments, and was followed by all his colleagues with the exception of Raschid Pasha, who remained as if spellbound and nailed to his seat, while the minister of marine, Ahmed Katsarili, who alone showed some presence of mind, immediately closed with the assassin, seized him around the waist, and pinioned down both his arms.

Hussein Avni, however, held in his army the surest, if not the only, element of order, an instrument which, perhaps, no man can now wield with an equally steady hand, and without which attempts at innovation are not unlikely to plunge the country into unrelenting anarchy.

Minnesota Productiveness.

The Place for the Man with Moderate Means or with a Modest Estate to Secure a Home. The following extracts are made from a letter written by Thomas Dowse, Secretary of the St. Paul Chamber of Commerce, to the Springfield (Mass.) Republican:

The increased acreage over 1875 put under cultivation in Minnesota, this season, is very largely in the form of wheat. The total acreage of wheat in the Northern Pacific railroad, over forty thousand acres are being broken. Along this same road are six prairie counties of the same fertility, besides five timber or forest counties. On one farm of 30,000 acres, there is a single tract of 6,000 acres being broken; on this to-day they are plowing furrows six miles long, and return to dinner, and return to supper, one team making four furrows or 24 miles per day.

Indisputable Evidence.

R. V. France, D. D., Buffalo, N. Y., writes to me by testimony of the principal medical properties of your All. Ext. or Golden Discovery. I have taken great interest in this medicine since I used it. I was badly afflicted with dyspepsia, liver derangement and almost perfect prostration of the nervous system.

have a short northwestern arm of only 150 miles to Lake Superior at Duluth. So the Chicago and Milwaukee lines must bring their rates down to compete. One can thus see that this city is the focal point of the two lake systems, besides commanding the Mississippi river from here to St. Louis, and the Gulf. This is why St. Paul is to-day, the cheapest eastern shipping and receiving point north of Chicago and Milwaukee, and her 11 railroads and the river make it the finest distributing point north or west of those cities.

Business.

After each one of these disappointments their despair grew greater, and the last of these unhappy beings was left at death's door when, for the fifth time, they saw vessels on their way, at a less distance than the preceding ones. Hope began to dawn in the survivors of the crew of the Isabella, and their joy was without bounds when they saw the vessel, a schooner, come about and steer for the Hampton reef.
