SEVERAL families from abroad moved into the city this week, and the few vacant, tenable houses are being filled up rapidly.

Monday's train from Duluth was somewhat interrupted by a land slide east of Thompson that delayed passengers nearly two days.

A new 865 Sewing Machine, in perfect order, will be sold for fifty per cent. discount for cash, at this office, if taken within the next ten days.

Hon. G. W. BENDICK, of Sauk Rapids, was in town this week playing jokes on the boys. He had two certain hotel keepers considerably frightened.

Dr. E. B. DILLINGHAM takes his departure on Monday for the west, intending upon his return to locate here, for the summer at least, and engage in the practice of his profession. He is welcome.

W. H. LELAND, of the Leland House, proposes to raise the roof of his hotel another story and add to the width on the south side. He says he has not room enough to accommodate his large and increasing custom.

POSTMASTERS on the Northern Pacific will do well to bear in mind that the mail leaves Audubon for Fergus on Thursday mornings, and if matter will not hit that arrangement it had best be sent via St. Paul.—Fergus Falls Journal.

We noticed the arrival on yesterday in this city of Andrew, Eva and Caroline Lagerquist, brother and sisters of P. M. Lagerquist, of this place, direct from Sweden. They are stopping with their brother, and propose making this their home.

CUT-WORMS are playing the dickens with the gardens and crops in this section. Will the agricultural editor of the Pioneer-Press, or some of our readers, please inform the public how to holloze this pest? Our columns are open upon this subject, and we should like to see it ventilated.

Ground Feed for Sale Cheap. First class Ground Feed, from pure corn and oats, for sale at \$1.60 per hundred pounds, at the Leland House.

W. H. LELAND, Proprietor.

Go to J. M. MARTIN'S, Fifth Street, for Michigan Cider, Apples, California Pears, Lemons, Oranges, Grapes.

Our foreman, Mr. Parker, has been sick this week, in consequence of which we are obliged to omit several important articles and items, among them an editorial reply to the St. Cloud Journal, Press on the Bond question, and a communication from the "Son of Kiah," from White Earth, for want of sufficient help to put them in type.

The ladies of the Congregational Church of this place gave a strawberry and ice cream festival at the corner of Front and Fifth streets on Wednesday evening last that proved a grand success, some 600 being the proceeds. We had but just returned from our fishing excursion and were unfortunately denied the pleasure of attending.

The entertainment by the Brainerd Dramatic Club at Bly's Opera House on Thursday evening was well attended and an excellent exhibition. The parts were admirably and the play selected was first class. The only noticeable failure in the

performance, if failure there was, consisted in the exceedingly reserved manner in which the salutations were given and received. When my kinsman, by doing so we do like to see it "done up brown."

THOS. H. CAMPBELL, proprietor of the mammoth wheat farm at Lake Park, Minn., was here this evening en route to his farm to look after the hoppers. He has seen the west-iron and far-iron, described in another column, and is quite enthusiastic over its success and thinks it will do the biz. He proposes to order a car load of tar and iron if the pests put in an appearance in his vicinity, and is very confident that he will save his crops like come what may. He thinks the same process a large acre will work equally well on the full grown hoppers as the young ones.

CROW WING MEETING.—Last evening, at C. B. Steep's law office, at seven o'clock sharp, were the time and place for a meeting of lot owners and others interested in Evergreen Cemetery, for the election of trustees, but, contrary to our expectations, not a soul appeared, from which we are to conclude that our citizens are perfectly indifferent to the miserable condition of the resting place of their friends who have passed away. We very much dislike to be continually raking this matter up, and we did hope that a meeting was called for the purpose of something was going to be done, but we were sadly disappointed, and presume that the matter will again result into a blissful forgetfulness unless we continue to parade its phantom before our readers. For shame.

We went out, accompanied by Mr. F. M. Madsen, on Wednesday morning's train, to Serpent Lake, near Wadena, on a little fishing excursion, and, thanks to Mr. R. B. Coffin, of that place, we enjoyed a good time, and captured a good bag of fish. The day was beautiful, and we rowed, trolled, and fished on the lake until we were tired and hungry, then had a picnic on the shore. The fish were cooked and ate of them in regular camp style, burning our fingers, and a goodly portion to our "peck of dirt," fished, rowed and trolled on the beautiful lake again, had our hands, feet and neck finely blistered by the sun, and returned on the evening train pretty tired and hot, but well pleased with our day's sport. Regarding our trip to Serpent Lake, it is certainly a beautiful place to go for a day's sport.

Humiliated Without Hamlet. Considerable disappointment was realized on Monday evening—let us call it the "square and compass and letter G." \$5 reward will be paid for its return to this office.
