attributed to him, though it was notorious that he was taking his daily rides in Central park upon a black-stone.

There is an apprehension now that he is acting as a candidate for the presidency, and his opponents are again sending forth stories about his utter physical helplessness.

It is said that he is attended constantly by a nurse; that he can take no other nourishment than that conveyed to him upon a spoon...

Mr. Tilden is probably not as vigorous as he was thirty years ago, but that he is very far from being a physical wreck...

Mr. Tilden may be seen there daily. Mr. Tilden may be seen there actively inspecting and superintending the work of reconstruction upon his city residence.

He makes a daily trip from Yorkers on this account, and isn't nearly as feeble of body as the people who set the stories of his condition—that are weak of intellect.

The Tribune

SATURDAY, JANUARY 26, 1892.

A. E. CHASE, Editor and Proprietor.

The Tribune will be sent to any address in the United States for \$3.00 per year, in advance. Single copies, 10 cents.

Two Dollars per Year, in Advance.

The Canadian, Dakota, flourishing mill uses hay for fuel.

Lawson, Dakota, is to have a new hotel, to cost \$25,000.

A six foot letter of complaint has been discovered by Granite Gulch, Madison county, Missouri.

District Attorney Forkhill says that Gilman will not get a new trial and that he will be hanged on the 23d of June.

Charles Dickson, Jr., is an unrepentant young man, who has devoted himself to more lucrative forms of publishing, such as cable books, etc. He has issued the "International A. B. C. Railway Guide," for the use of American and English travelers.

Major A. R. Valentine, father of the Park Valentine, who was killed with his brave wife at Spoutin, Dayton, is quite overcome by the disaster. He has decided not to build the extensive addition to his mill at North Adams the foundation for which are already laid, and to "crash" the house fitted up for Park and his bride.

The latest list of (Indiana's trial can not be estimated, but the following figures are given as far as can be ascertained: Juries' fees, \$154; bond, seventy-two days, including three building, \$3,500; government witnesses and witnesses, \$1,938; defendant's expenses and mileage, \$2,885; of the latter the Gaston family and their connections received \$383.25; reporting marshals, \$1,302; miscellaneous, \$1,099; Judge Porter and Mr. Davidge will receive about \$5,000 each. This places the total at \$25,000 or thereabouts.

A thoroughly American city has been laid out in the state of Illinois, at Mexico. The site is a beautiful plateau of land, through which runs a never-failing stream of mountain spring water, clear as crystal, full of fish, and affording power for any amount of manufacturing machinery, of an altitude of three thousand feet above the sea level on the line of the Mexican Southern railroad. It is called Allen City. Around the city are laid out and taken up twenty-four coffee farms, each to contain one million coffee trees in nursery cultivation at this place within the coming year, all to be transplanted next year, all to be bearing within the next four years. All goods, stores and supplies, agricultural implements, machinery, building materials and furniture for the colonists are exempt from duty; so all exports and imports of productions of the country, and stock for work or breeding purposes are exempt for ten years. The colonists thus far are from California.

The misrepresentation of Mr. Tilden's physical condition, as active now as it was in the years of the Hayes administration. He was expected memorably to die by the persons whose credulity was abused by his enemies. All sorts of illnesses were attributed to him, though it was notorious that he was taking his daily rides in Central park upon "Blackstone." There is an apprehension now that he is again a candidate for the presidency, and his opponents are again making affidavits about his after-physical helplessness. It is said that he is attended constantly by a nurse; that he can take no other nourishment than that conveyed to him upon a spoon; that his voice is gone, etc., etc. Mr. Tilden is probably not as vigorous as he was thirty years ago, but that he is very far from being a physical wreck may be seen by any New Yorker who will take the trouble to visit Gramercy park any pleasant day. Mr. Tilden may be seen there actively inspecting and superintending the work of reconstruction upon his city residence. He makes a daily trip from Yorkers on this account, and isn't nearly as feeble of body as the people who set the stories of his condition about are weak of intellect.
