TO ALL DONORS:

The Crow Wing County Historical Society gratefully accepts your gift. In donating objects for the Society's collection, the Donor should be aware of the following:

By accepting the objects you have donated, the Society does not promise to place them on permanent exhibition. We also use our collection for temporary exhibitions, research, and educational programming.

As our collection grows, donated objects may no longer serve our purposes. If, after careful consideration, we deem this to be so, we may remove them from our accessions and offer them to another non-profit organization with similar purposes, designate them for use in educational kits, or sell them by public auction. All funds realized by the Society from such sales will be used to purchase other objects for our collections.

Once we have received legal title to an object, we hold it in public trust. Thus we will not honor requests to return it to the Donor or the Donor's family.
