

VOL. III NO. 8

BRAINERD, CROW WING COUNTY, MINNESOTA, THURSDAY, FEBRUARY 7, 1884.

\$1.50 PER YEAR

Brainerd Dispatch.

Issued every Thursday morning at Brainerd, Minn. Terms \$1.50 per year in ADVANCE.

M. H. Ingersoll, Editor and Proprietor.

OFFICE OF CHIEF WARD, CORNER THIRD AND ALDER STREETS, AND THE CITY OFFICE.

POPULATION OF BRAINERD 12,000.

Miss Corson is teaching the Minneapolis women how to cook. She would find something to work on if she gave lessons to the cooks of Minneapolis hotels.

Senator Edmunds thinks the Republican party has not for the past fifteen years been in better condition, on the eve of a Presidential election, than at the present time.

Farmer of the Dakota prairies keep their children from idleness by making them gather buffalo bones which are sold to buffalo manufacturers, fertilizers and others at high prices. We can see where Dakota editors get their genuine pearl of cut buttons.

John R. Irwin, governor of Idaho, has returned to the treasury officials at Washington. He says he is working for honor, and not for money. The treasury officials do not know what disposition to make of the money, as Irwin objects to its credit to the conscience fund.

The warehouse building of the 70,000 bushel elevator of the Ferguson Falls Flour mills, burst on Saturday and 40,000 barrels of wheat lay out. Three boxes standing on the track were overturned and thrown from the track by the great force. The wheat was rapidly housed by a large force of men. The loss in wheat and building will be \$6,000.

E. E. Johnson, agent of the Northern Pacific railroad and also of the Northern Pacific Express, misappropriated a package containing \$18,000, consigned to John Bennett, a railroad contractor, by Lead & Tilton, bankers, Lead, S. D. The package was addressed to the agent of the Northern Pacific Express. Johnson disappeared with the money Tuesday, but was arrested and jailed.

The verdict in the libel case of Maj. Edwards vs. the Republican Company, is generally received with satisfaction. The plaintiff seems pleased, regarding it as a vindication. His costs are about \$47 against about \$4,000 for the defendant; the damages returned for plaintiff being but nominal. Each has to pay his own costs. The band serenaded the plaintiff twice. All this for a cent verdict.

The contract for rebuilding the burnt workshops of the Stillwater prison has been awarded to Lutz & Alexander of Lake City for the net sum of \$17,874. They are allowing \$9,000 for material. Work on the temporary repairs to the cell building is rapidly progressing, and everything will be in readiness for a return of the prisoners to their old quarters in a few days. Careful investigations fail to show any grounds for fearing a conspiracy to escape.

The action of the House committee on public lands recommending the passage of a bill to forfeit the entire land grant of the Oregon Central Railroad company, based on the principal that Congress has the right to declare any railroad grant forfeited, where the road was not completed within the time required by law, if applied to the Northern Pacific, would take from the company 15,000,000 acres of its best lands. The committee will take up the matter of the Northern Pacific grant as soon as it has disposed of the pending measures.

Boston, the abiding place of John E. Sullivan and ex-Congressman Murchison of Glasgow, having converted the health in her own streets, is now turning her philanthropic attention to the unwarmed son of the red man of the far West. The fair ladies of the Hub make specialty of the New Mexican Indian, and have contributed the magnificent sum of \$400 to enable some poor mission-ary to carry on the work. The men, on the other hand, are turning their attention to the Northwest; but instead of sending a half-starved missionary, they propose, with a wisdom characteristic of the sex, to ask for a congressional appropriation.

Mr. Hayne, of the government geological survey, in his report regarding the protection of Yellowstone park, makes a timely suggestion that, first and foremost, attention should be paid to the preservation of the forests. If there is any nature for the Yellowstone valley, he says, its water storage must be preserved. He also advises that the boundaries of the park be greatly extended, so as to include greater areas of timber lands.

The Duluth Times says the spontaneous unanimity with which Osh Davis' name for United States senator has been received by the people of the state, has never before been equalled in the west. Should the opportunity of appointing him be given the governor, he need not be afraid of availing himself of it. The appointment might make some losses to Osh Davis, but he would endeavor it.

If the forebodings of a New York correspondent are true, the rate of Gen. Grant is nearly ruin, and hereafter the interest of the country will chiefly center in bulletins concerning his health. If this be, it will be painful news to the country at large. Although few men have been more bitterly criticized and condemned than Grant, few hold today a warmer place in the country's heart, and his falling would be mourned as a national loss.

The record of disasters for the month of January this year is equal to that of the first month of 1883. The calamity at Belleville, the wreck of the City of Columbus, the several dynamite mine explosions, the railroad accidents and various lesser casualties make it altogether a notable month. Other months may not prove so calamitous, perhaps but, with two national political conventions and a presidential election, it can hardly be hoped that the year as a whole will be much less disastrous than its terrible predecessor.

Men out of work and out of money are numerous on the Pacific coast. An Oregon paper says, the majority of them are young men who have cut loss from the ties of home and kindred. They are now having their first genuine conflict in the struggle for bread. It is no unusual thing to be stopped on the street and asked for alms, and only a few days ago some nine or ten men appeared at the county jail and asked to be locked in, because they had no place else to sleep. There is no work for them to do at this season of the year. They are a dozen applications for every position.

MURDER AT MINNEAPOLIS.
MINNEAPOLIS, February 4.—Schwerner's murderer, charged with a Cincinnati housewife, playing a game of billiards in a saloon here with a gambler and sport named Thomas H. Atwood, got into an altercation over an alleged robbery, and was shot. Schwerner was an expert billiardist, and was playing Atwood for a stake for money stakes. Atwood was arrested, but was pretty severely flogged previous to that by Schwerner's friends.

PENNY PHOTOGRAPHY.
B. W. Fellows of Cleveland, after struggling for two years, has succeeded in inventing a way to take instantaneous and absolutely permanent photographs upon any substance having a smooth surface, by the action of the Northern Pacific grant. The cost is less than one cent for each picture. The importance of this discovery can hardly be estimated. It opens up an entirely new field in the art of photography and will work a revolution in all its branches. The system invented will be especially valuable to lithographers. This is the first time that electricity has ever been applied to the art of photography. It is some little excitement among the photographers of Cleveland, and Mr. Fellows claims to have received some flattering notices from capitalists here, ready to be dispatched to the remotest ends of the world. The wood which in the course of last summer was brought over to Jonkoping to make into matches, and which was shipped on the steamer and eight sailing vessels.

The annual meeting of the council of the Dominion alliance commenced at Ottawa yesterday. The object of the alliance is to secure the total suppression of the liquor traffic.

A cot, spring mattress and feather bed were brought to jail by the family of Orin A. Carrington, the indicted murderer of Zora Burns at Lincoln, Ill. The sheriff refused to permit the articles to be placed in the prisoner's cell.

The notorious Ben Thompson, who, pistol in hand, recently cleared a banquet hall filled with members of the late Cattlemen's Convention, and justly assailed W. A. Bower, correspondent of the Star, Antwerp, on Tuesday, became increased at the strictures of the Austin Statesman, entered the composing-room, flourished a pistol and forced the types to beat a hasty retreat. He then piled two calicoes of type, mashed one up and left. On being arraigned in court Thompson threw farjurged a man named Weasles with a chair and was fined \$50 for contempt of court.

Vice President Oakes denies that the rumor regarding the leasing of the Oregon Navigation company by the Transportation has any foundation, though he admits that there is some talk of a lease of that company by the Northern Pacific. Also, according to Mr. Oakes, neither Gould nor Sage are going to enter the Northern Pacific directors. As to the alleged troubles between Western division officials he declares the report entirely unfounded, a matter in which he is substantiated by Assistant General Manager Buckley in an interview published this morning.

There are only three houses in this country that deal extensively in gum arabic. The operations of El Mahdi have shut off the supply from the Sudan, and no gum is coming down from the Sudan, in speaking of the matter to-day, a dealer said that hardly any gum had come forward for a year. Even if the war were stopped now it would take three months to get gum to London. Since October 15th white sorts have come out from 10 to 25 cents, and first pickings from 35 to 45 cents. The conditions, if it is claimed, will suffer heavily by the advance.

The Milwaukee Special claims that while the report of the staff of \$9.00 per thousand on lumber may effect the price in Michigan, it will not in Wisconsin and Minnesota. The reason given is that Canadian lumbermen, if the duty is removed, can compete in some markets now supplied by Michigan manufacturers, but cannot with Wisconsin, on account of freight charges. The Special evidently does not take into account the fact that the price of lumber in Wisconsin is largely controlled by the Chicago market, or that the cost of freight to city agents is a great extension upon the supply in Michigan. "The proof of the pudding is in the eating." But if the duty is taken off of lumber, and it don't adversely affect the lumbering interests of Wisconsin, we shall be agreeably surprised. It will not only reduce the value of stumps, but of labor as well.

Every one has seen the Swedish matches and wondered at the quaint description on the top of the box: "Tandsticker, ständes lösen svafvel och fosfor." Few, however, are there who, when traveling in Sweden in the home of the matchmakers, leave the fjords, rocks and firs for a day and trace the match back to its source. And yet it would more than repay their sojourn at Janhopping to visit the factory where proceeds nearly a small part of the light of the world. The latest novelty, only at work for about a month, is an enormous engine, which daily produces 1,000,000 boxes of Swedish matches. This wonderful machine receives the raw material—namely blocks of wood—one at one end, and after a while gives up at the other the matches neatly arranged in their boxes, ready to be dispatched to the remotest ends of the world. The wood which in the course of last summer was brought over to Jonkoping to make into matches, and which was shipped on the steamer and eight sailing vessels.

A DEVILISH DEED.

A former Brainerd Man Attempts to Kill Wife, but is a Bad Job of it.

Who Detroit Record in its last issue contains the following which may be of interest to parties in this city: The past week has been a remarkable one in this vicinity in point of accidents and deaths of jewelry. As a result of the same accident and arrests that appear so frequently, we are called upon to record the attempt—probably partially successful—on the part of Ernest Bandome, a young German about twenty-five years of age, to murder his wife of scarcely more than a year, in the most unjust and cold blooded manner, and then, supposing the deed had been successfully perpetrated, to place the still smoking weapon to his own head and attempt to blow his own brains out, if he had any. Bandome has lived in this vicinity for several years, but a good acquaintance and possessing a confidence calculated to inspire the general opinion that he possessed ordinary common sense and humane impulses. In November, '82, he took to himself a wife, but matters have not gone pleasantly with the couple, and the troubles reached a climax last Wednesday when the man drew a revolver upon his wife, shot her twice, and then directed three bullets at his own head. The facts in regard to the case have been difficult to obtain, and probably cannot be given in an entirely reliable form at this time, nor can conclusions be reached regarding the final outcome of this terrible deed. The facts, gathered from all sources, are these: Bandome and his wife have quarreled from almost the first, upon which good acquaintances have tried their best to soothe their lives and their love to each other. Last Wednesday morning they were coming into town from Wm. Fisher's a brother-in-law from a load of fire. He was walking behind the load, and Fisher driving the team. The customary ill-felling between the man and his wife was prevailing, when he took from his pocket his money and watch and threw them madly away. Fisher went to pick them up when Bandome drew from his pocket a small 22-caliber revolver and shot his wife twice, but he threw up his hands in fright to her face when she shot entered her right hand, and the other her arm. He then placed the revolver to his forehead and shot three times, but the revolver was not sufficient force to do quickly the horrible work which he intended it should do. Fisher quickly brought them to town, the man going to the Park House, and the woman to the home of a sister, and home promptly for the necessary medical care. The woman was found to be badly shot in the hand and arm, but is not seriously hurt. The Toronto employment having been secured, they had their hands and feet shakily her head. She soon obtained a warrant for her husband's arrest, and he was taken in charge by Sheriff Phinney, and is now at the Wilson House. Dr. Hot, who has the patient in his charge, informs of that she is doing better, but that his condition is serious. His head is badly swollen, and he is suffering greatly from his wounds. He is able to talk but little, but is apparently not disposed to relate the details which led to the perpetration of his wicked act. He says he was in the city when he overheard his wife married; his wife was cross; she shot his wife; says he never told her before that he would shoot her; had \$80 in his pocket book which he threw away; threw his watch and revolver away; don't feel well; and will tell all about it when he gets better. This is all about that can be obtained from him. We called to interview Mrs. Bandome who said: "Have been married about a year; never have lived happily together; he was always cross; don't think he was jealous, or of a jealous disposition; he never seemed to be crazy; had trouble last summer, and he threatened to shoot me; we went to Brainerd to live last summer, and he worked in the car shops, and he really thought he was employed there; he thought it for me to return to Detroit, and went east of Brainerd to work; we returned to Detroit last Saturday morning, and he came to Mr.

MINNESOTA NEWS.

Only one saloon license has been taken out in Verdale so far this year. Ferguson Falls has recently had several deaths from diphtheria. Cedar Rapids will soon have the incandescent electric light. A man named Ryland is in jail at Fairmont for stealing a bobbed. The Houghton Methodist church building was last week destroyed by fire. The Swedish Lutheran society of Litchfield will erect a church edifice this year. Several Olmsted county farmers are in Europe purchasing blooded stock for their farms. Andrew Olson is in jail at St. Peter, charged with stealing a watch and some other property. The First National bank of Shakopee has increased its capital stock from \$50,000 to \$100,000. A man named N. F. Layton of Morrison county, committed suicide at Pittsburg, Pa., last week. H. H. Sargeant, a prominent resident of the town of Sargeant, died suddenly last Friday of rheumatism. E. W. Durant of Stillwater, has gone to Washington as commissioner to the river improvement convention. Miss Meyers, a visitor at the residence of T. H. Loyed, Parisville, fell on the ice Tuesday and fractured her right arm. The county commissioners of Rice county have approved the bond of R. J. Drake of Northfield as court commissioner. The elevator of the Ferguson Falls flour mills burst, letting out 40,000 bushels of wheat, and causing a loss of \$48,000. Mrs. Jewett of Moorhead advised a severe horse-chipping to Capt. Mullet of Glyndon. The matter arose in a scandal and alleged blackmail. Mrs. Cole, an old lady of Kasota, while assisting some friends to take care of sick children on Sunday, fell down the stairs and was fatally injured. The citizens of Red Lake Falls have adopted a set of resolutions praying for the passage of the Nelson Red Lake and White Earth reservation bills. At Buena Vista, Col., eleven prisoners were let out of jail by their friends from the rival town of Salida. The Salida guards are systematically burning the best buildings in Buena Vista, and the loss thus far is nearly \$30,000. The northwest is exhibiting an improved business condition. Within a few weeks business of all kind has picked up amazingly, and merchants are very hopeful. A seventeen-year-old son of Ernest Scholof, living in Stearns county, was lost the balance of Henry Augustin, a double murderer, from La Porte, Ind. The boy is said to be discovered in King's mountains, South Carolina, and if true it is the first discovery of tin in the United States. Jacob Kattel, 15 years old, tried Conrad and Pauline Flint from Mahoney, Pa., to New York and secured \$785 they stole from his father. About a dozen new members were admitted to the New York Stock Exchange today. The last sale of seats was made at \$23,000. Dr. Elihu Harris, secretary of the state board of health and long a principal member of the board of health of New York city, died this morning. A young man named Conner, a book opener in the Detroit post office, has been arrested for opening letters, and confessed to opening 3,000. He said he wanted to get enough money to marry his girl. Mary E. Paige, widow of Samuel M. Paige, the millionaire lumberman of Oshkosh, Wis., has begun suit in the United States district court against the New York World for \$150,000 damages, because of alleged libel. That Charles H. Ragg, now in jail at Jamaica, L. I., was the assassin of John A. Andrew, of Townsend at Oyster Bay, is now settled almost beyond a doubt, as the watch stolen from Townsend was left by Ragg at George N. Jones store, Fulton street, New York, to be the gold face replaced by a white dial.

WINTER WRAPS!

OUR LINE OF FALL and WINTER WRAPS Is now in store and we are offering at remarkably

Low Figures A FINE ASSORTMENT COMPRISING Jersey Jackets, Coatee, Surtout, Dolman, Russian Circulars.

In Silk, Satin, Mattelase Beaver, Cassimere and Jersey Cloth. WE ALSO SHOW NOW A BEAUTIFUL LINE OF DRY GOODS

In all the new shades and fabrics, among which are Wool Satens, Fancy Basket Suiting, Plushes, Velvets, Silks, Satins, Cashmiers, Flannels and the New Wool Broades. Local News

H. D. Terwilliger has returned from Michigan. Anoka and Verdala are to have roller skating rink. See professional card of Dr. Paquin in another column. The accident in St. Paul is the first of the week. Butter, good and cheap, 20 cents per pound, at Parker's. A. P. Farrer has gone to Montreal, Canada, to be absent a few weeks. The city council are advertising for bids for the erection of hose house. A large assortment of tobaccos just received at E. M. Smith's. Geo. W. Holland starts for a trip to Florida, and other southern ports this week. The judges at society met with Mr. R. E. Gleason on Sixth street yesterday afternoon. Mr. J. P. Selye of Verdala representing the city of Verdala is in the city on Wednesday. John Duhar won the prize of \$500 at the ten pin club on Friday night last week, making 272 points. The gentleman days comes on next Thursday. The school children are full of pink-winged cupids. Hannah's hats, and oranges, at Parker's, No. 6, Front street. Monday passenger train got 57 minutes behind in Brainerd, owing to a break of one of the engine wheels. Capt. Spaulding, of Brainerd, looked after the interests of the N. P. at this place. Chas. H. Fox, one of Brainerd's popular druggists, was in the cities before returning, returning on Tuesday morning. Smoke the Imported Pickwick cigars, at E. M. Smith's. Mrs. George Clement of Fay's and Mrs. E. Webster of Brainerd, are visiting the Pages in this city - 6700 N. Jones. Chas. H. Fox, one of Brainerd's popular druggists, was in the cities before returning, returning on Tuesday morning. Smoke the Imported Pickwick cigars, at E. M. Smith's. Mrs. George Clement of Fay's and Mrs. E. Webster of Brainerd, are visiting the Pages in this city - 6700 N. Jones.

Count on Rollers.

Ladies at roller rink. The roller rink which is to come off the roller rink is the most exciting event yet at the roller rink. Quite a serious accident happened to James Willis at the roller rink on Sunday afternoon. The fall and fractured a bone in the wrist of his right arm. We are informed that Miss Rosa Oulick is going to Minneapolis to perfect her skills in the art of roller skating, so as to enter into the contest for the gold plated skates to be awarded to the most graceful lady skater on the 20th inst. The roller rink is to be well patronized as usual, the free use of skates and roller rink during the past week has had a tendency to start by the ladies. The ladies are admitted free at spectators this week but if skates are desired the price is 25 cents. The music nights have been fixed for Thursday Saturday evenings with no extra charge for admission as heretofore. About March first a ten mile race will take place at the rink and the proposition is that "considerable" comment. Already there has been some entries and as the limit is ten anyone else who wishes to enter for the contest will have to make up their minds by the 15th inst. The prize is \$100 which is divided as follows: First best \$50, second \$30 and third best \$20. The music nights have been fixed for Thursday Saturday evenings with no extra charge for admission as heretofore. About March first a ten mile race will take place at the rink and the proposition is that "considerable" comment. Already there has been some entries and as the limit is ten anyone else who wishes to enter for the contest will have to make up their minds by the 15th inst. The prize is \$100 which is divided as follows: First best \$50, second \$30 and third best \$20. The roller rink is to be well patronized as usual, the free use of skates and roller rink during the past week has had a tendency to start by the ladies. The ladies are admitted free at spectators this week but if skates are desired the price is 25 cents. Count on Rollers.

Ladies at roller rink. The roller rink which is to come off the roller rink is the most exciting event yet at the roller rink. Quite a serious accident happened to James Willis at the roller rink on Sunday afternoon. The fall and fractured a bone in the wrist of his right arm. We are informed that Miss Rosa Oulick is going to Minneapolis to perfect her skills in the art of roller skating, so as to enter into the contest for the gold plated skates to be awarded to the most graceful lady skater on the 20th inst.
