Great Damage at Chippewa Falls. Chippewa Falls Wis., Special Telegram Sep. 11.—The most disastrous flood ever known in this section is now upon us. The Chippewa river has risen twenty feet since last night, and is still going up at the rate of a foot per hour.

Winnipeg Falls has thus far withstood the flood, but whether the water has reached its height is impossible to say, as the Chippewa water drains a large part of Wisconsin, which has no communication by railroad or telegraph.

Later.—The East Claire and O'pawa river at East Claire are 100 feet higher than they have ever been before. The water is now flowing over the principal business streets. Many of the houses on the lower ground are floating away. Streams are full of floating logs. Half a million feet of logs have broken from the boom near the Edgely mill and are floating down the stream.
