The latest dodge is to excite the opposition of the Catholic church to Blaine by denouncing him as a bigot.

It does not like the St. Paul Dispatch to see Dixie's war with Minneapolis on the whole receipts.

The sheet down street has been trying to explain away all the wrongs committed in its last issue. "that it did not do it than it wanted." Rails will be laid within the next week or ten days on the last fifteen miles of the Northern Pacific road between Brainerd and Austin, thus giving the road connection with the Wisconsin Central and the Great Northern having direct connection with Chicago. The Wisconsin Central will also be completed to St. Paul by November 10. General and Braden of the Central and Braden of the Great Northern of Duluth, road are now viewing the place where their roads will meet.

The Tribune has set up the claim of being the leading republican organ of the northwoods, which is all right if they can only maintain the position. They have got to get the election of George Cleverland quickly on the streets of course, in order to keep up the election with a prospective lead off or something of the sort in view. The public and their friends should know it as much as a serpent who when he is bit, to a snake bite, and a scorpion bite, and he will poll a heavy vote.

A very interesting evening affair between the hours of 8 and 10 o'clock.

It seems that last winter while staying at the Hotel Royal, Mr. James McCoig, who said that time he had hard feelings between the two men.

On this evening they had been to the rink and the girls were having a good time.

The two men were separated by a partition, when it was discovered that McCraig came at DuFour with a rock and that the knife was used to defend himself, while another says that he was not armed with either a knife or a rock.

McCraig was badly cut by the knife, while O'Brien was slightly injured.

Both men were dressed.

There were eight cuts the man being one being a deep gash in the head and face also reflected three or four more.

The wounds were sufficiently bad to endanger the man's life.

No arrests have been made up to the hour of going to press, but we understand that either will be dropped.

Why should people continue to buy tanned colored green by chemicals, or even to say colored tan which come in colors which are running a risk of injury to their health by doing so. Messrs.
