BRainerd, MINN.
OWEN Wilson, who left England in disgust to reside permanently in France, is back again.

FRANCIS M. KAPLAN, the famous French story writer, is out of the lunatic asylum. This news will be his unenvied admission, with delight.

WATER is so scarce in Halahan, the capital of Romania, that the water steam engines are used to cost more than the fuel.

"Jetties," the ancient Borneo of Paris, means in effect "inland town," the city when the Romans found it being chiefly composed of mud-built houses.

FRANCIS SHAW, chief of the London fire brigades, who, while saving other valuable things, saved a lot of money, proposes to make commensurate investments in Colorado.

It's a common thing on the railroad to see Sheriff's officers bringing burglars to the penitentiary. But the Sheriff of Colorado, who is a cause a carrier to send any one there?

The youngest brother known to work in a shop was **Neils Weik**, aged six, who took a piece of wire from the shop, **Chas. London**. She shaved five men in 15 minutes, and received a silver medal for so doing.

The first dead and dumb asylum in the United States was at **Rocky Mountain**. The old Columbia College building recently torn down was one of the earliest asylums for dead and dumb.

The London scientist who avers that color is a blind discoverer. The loudness of the wearing apparel of some of the younger members of the college is not probably a discovery for a long time.

The **Roussias** have become so alive to the value of modern medicine that the imperial government has granted \$200,000 for a medical school for women, to be established at St. Petersburg. The site has been given by the Emperor.

If Mr. Lowell is right along without more ghost dance festival, the government should look to it that military tactics are provided. A strong band would be used to make the events more lively and generally pleasing to white citizens.

A **VALUED** possession of the president of the Masonic Veterans association is a call book. It is made up from clippings from the famous old Liberty bell of Philadelphia. It has over 500 and is most interesting.

Once and a half million men work in the coal mines of the world. Of these England has 535,000; the United States, 190,000; Germany, 258,000; Japan, 100,000; and the rest are in the mines of metal number 4,000,000.

At Burt Cove, near Dale, Me., an aged woman, who owns a good farm, spends most of her time in summer in the city and in winter in the country for the poor. It was through her energy and benevolence that the new church around Burt Cove was built.

The **law** of Denmark now gives every Danish subject, male and female, the right to a pension at 60 years of age, except in cases of convicted criminals, or those who have fraudulently used their property, or those who are unable to do so by extravagance.

The **champion** confidence gamester of the United States is **John H. St. Louis**. He made a will and an small fortune to a young lady, and an order of charitable sisters, and was an assent of their tenderest creature to his death. Then it was discovered that he never had any property to bequeath.

CHOKED BY GHOSTS.

Boards of Murdered Miners Get Their Revenge.

The Ozark mountains of Missouri present a field for the curious which is not to be found in this side of Mexico. The whole country was at one time under the domination of the Spaniards when they first explored that part of the continent, and their relics are to be found all over the hills in the shape of excavations and old mines, and in many instances their very tools are to be found just where they were some 100 or 200 years ago.

But it is not only their relics and tools that are left as a reminder of the Spanish era, but they have left behind them stories which have been handed down by tradition from generation to generation until they have become part of the history of the country.

About 18 miles southeast of Helena is an old Spanish mine which is reputed to be rich with gold and silver, as well as with iron. It was the last territory to be worked in the west, and it was not until the year 1848 that it was abandoned to the elements. The mine was abandoned because the owners were unable to procure the necessary machinery to work it.

The story is told in this mine, great riches were found by seven men, who were overcome by their good fortune that they could not agree as to how the mine should be worked, and each was eager to have the mine for himself, and the result was that each of them was killed by their own greed. It is related that during their search for gold, they were one day upon a ledge of rock which was the head of the mine when they had been so long that they had become so fat that they were unable to get down.

SETTLED AT LAST.

How did Abner Coles Die Without Even Getting a Trial?

"I never knew him the accident happened. It was on the books of the Missouri court, and he was sent to work for the attorney of the county."

After every year six months the old fellow used to come down to the mine to see if he had any more lead. He had lost his leg in a snail shell, and he was unable to get down the mine.

"We are not liable, but we will do something for you," said the attorney. "You must be patient, there are many things to be done."

One day he looked into the general store and decided to buy some more flour. He was in the store when the lawyer, kindly.

"You claim to be the attorney of the county," said the lawyer. "It is now nine years since you told me you were a lawyer. Why did you not tell me so at that time?"

"I thought some of the money would go to her good."

"You are a lawyer," said the lawyer. "You are a lawyer," said the lawyer. "You are a lawyer," said the lawyer.

G. N. Parker's Proposition.

T. A. F. Ferris, J. F. Stanton and L. F. Johnson, the Honorable Special Committee of the City Council of the City of Brainerd, duly organized October 24, 1922.

In the matter of the proposed sale of the electric light plant by the City of Brainerd, I do submit to this committee my proposition to take the place of the proposition submitted on the 17th inst.

Upon further contemplation of the whole matter, I do believe that the matter of that annual rental of \$100,000 per year is quite a serious matter in the way of the sale and purchase of the electric light plant.

As a member of the Board of Commissioners I will not assume the responsibility of paying the annual rental of \$100,000 per year.

As an applicant to the above proposition, I desire to say to the committee, that if the sale of the electric light plant is made in accordance with the above proposition, it will enable me to pay for the same in cash.

As a member of the Board of Commissioners I will not assume the responsibility of paying the annual rental of \$100,000 per year.

As an applicant to the above proposition, I desire to say to the committee, that if the sale of the electric light plant is made in accordance with the above proposition, it will enable me to pay for the same in cash.

CITY COMMISSIONERS

Commissioners' proceedings. Meeting held November 14, 1922.

The following propositions were read and approved on a motion made from road and bridge fund:

At a Good Suggestion. At the next meeting of the City Council, I desire to submit to the Board of Commissioners the following proposition:

A Herd of Thieves. Brainerd is just now overrun with thieves and burglars. Reports of the police department show that last Monday night P. W. Wilson's property was stolen from his residence on Sixth street southeast.

There is much more than a grant of truth in those words uttered by Grand Master Workman Powell: "A party which seeks to obscure its will by a declaration in favor of a silent bank must be in a strait."

When I draw the sidewalk around ten years ago, it was drawn as a good investment for the city. It was a good investment and the man who lives in a house built on it should expect to have it in five years.

Notice is hereby given that a special meeting of the Brainerd School Board will be held at the Brainerd School Building, in the city of Brainerd, on Monday, November 17, 1922.

The most popular thing in the city these days is the Blue Entertainment of the V. M. C. A. The members have decided to repeat the course of their weekly entertainments.

It is a pleasure to have you in Brainerd. We believe in a permanent resident work. We cordially invite all of our friends to be benefited by the advantages offered.
