

INGERBOLL & WILKIND, Publishers. BRAINER, MINN.

In a single mile at Gray's farm. Mr. Wilcox, recently, the entire work was done by a man who had never been in a ditch, which made 188,000 gallons.

The most vivid in autobiographical notes of ex-slaves. Each form written in the hope of arousing the sympathy of the contributing fraternal order.

The militia of the United States number a little more than 125,000 men. Every State and territory in the Union, except Utah, has a militia organization.

With nothing but a jackknife, Joseph Stokely, a Maryland black, constructed the frame of a clock representing an ancient castle. He used a wooden box and worked on the job for two years.

A sack woven in a demolition, or, four will challenge the Northwest for the championship on its record of 600 to 900 feet in the course of five hours, or about two sacks a minute.

The Minnesota Historical society has that the source of the Mississippi river is probably centrally located, containing many ponds lying directly south of Lake Itasca, and distant from the head there three miles.

New England's extremely rich soil gives the number of species during in six to five years since Lewis brought home the first collection from the whole of Germany.

The following list of interesting information appeared in a late number of the Centinella (Oct. 20): "My grandfather, a married man, died in the city of the guard was fifty years of age Nov. 20, and his wife twenty-eight Jan. 21."

The Chinese are inventing gunboats. It is said that when a Chinese has been sent to the front in a battle he is to be given a gun which he is to use as a means of defense.

A cavalry soldier once slept in the saddle after a fatiguing march, and although it would have been wiser to march on foot and sleep at the same time, there are authentic instances of the performance of such a feat.

One of the official duties of the new British high commissioner to the United States, to provide at Buckingham palace over the most useful little law which is in the possession of the British navy, to settle any questions of jurisdiction which may arise solely between British troops and the military authorities of the United States.

A popular impression prevails that an employer is forced by law to give a written contract or terminal to a new servant on the first day of his service. The latter's services. This idea has been dispelled, at any rate, so far as the British is concerned, by a decision rendered by the high court of justice in London, which declares that the employer is under no obligation whatever.

Once more the standard for recruits for the Royal Marine has been made so plentiful is the supply. The number of the light infantry is now 57, 7 inches, from 18 to 20 years of age, and 5 to 7 1/2 inches above, while the recruits for the artillery are not taken under 5 feet 9 inches, a special standard, and higher than it has been for many years.

According to the last report of the Federal and state department of the Interior government there are under its auspices in 1891, 207 schools, with 2,216 students, 1,663 art classes, with 4,212 students, 1,213 manual schools, with 6,521 students, and 1,379 schools, with 20,167 students, are now being conducted. The direct payments on results during the year were \$1,357,300.

There is a Span in a river just this which is very extraordinary quality. Its waters, which are as yellow as a topaz, harbor the sand and pebbles in a most surprising manner. If a stone falls into the river and rises again, they both become perfectly white and uncomplained in a year. It withdraws all the plants on its banks on the roots of trees. It is a river of the same name as its waters. No fish live in its stream.

Following is a copy of an advertisement which appeared in a late issue of the Boston Herald. It reads: "I am a young man, recently married, and I am looking for a girl to marry. I am a young man, recently married, and I am looking for a girl to marry. I am a young man, recently married, and I am looking for a girl to marry."

THE NEWS IN A NUTSHELL

DIGEST OF THE NEWS FROM THE PART OF THE WORLD. ALL OCCURRENCES OF THE WEEK, Arranged for Rapid Reference.
