At Chicago
Royal Leads All.
As the result of my tests, I find the ROYAL BAKING POWDER superior to all the others in every respect. It is entirely free from all adulteration and unwholesome impurity, and in baking it gives off a greater volume of leavening gas than any other powder. It is therefore not only the purest, but also the strongest powder with which I am acquainted.
WALTER S. HAINES, M. D.,
Prof. of Chemistry, Rush Medical College,
Consulting Chemist, Chicago Board of Health.

All other baking powders are shown by analysis to contain alum, lime or ammonia.
