It was reported here this morning that Joseph Myers and family had perished in the same late and violent storm which proved the report to be unfounded, and it is now thought that no families here are afflicted, although many narrow escapes are reported.

The fire in the vicinity of south-east Brainerd is now thought to be fully under control.

For the next two days he will be in the city making his prints. Come early and avoid the rush.

Allen and Gunn.

The legislative ticket placed in the field at the republican convention for the 53d district held at Brainerd on Saturday last was a very strong one. Senator Allen who received one nomination is a gentleman whose record in the last legislature has been of the closest scrutiny and the people of his district voted wisely when they chose him for their candidate on Tuesday.

D. M. Gunn was nominated for representative by acclamation. Mr. Gunn is an old Brainerd boy and has pleased at the recognition he has received at the hands of his friends in his new home. It is a great pleasure to see a native son doing so well and it is nothing can be said and nothing will be elected to the position on Nov. 6th.

PIERCER FOREST FIRES!

They Sweep Over a Large Portion of the County Doing Much Damage to Farmers.

The people of this county, or the southern and eastern end of it, realized yesterday, to a small extent what it is to have the Piercer forest fires were all through this writing no loss of life has been reported. A fire springing up in the woods on the southern end of the county, and the flames of smoke filled the air. About four o'clock alarming reports were brought to the city and an army of men was sent to endeavor to stop the fury of the flames but little could be accomplished as a strong wind was blowing and the dense smoke and heat made it almost impossible to get to a position where effective work could be done. The fire started in the vicinity of St. Matthews and swept up through the meadows and over farms and farms lighting rapidly everything before it, and last night was burning brightly in the marsh on the north end of the county. It is almost impossible to ascertain the extent of damage done today as the reports that are coming in seem to be very unreliable. It is thought that there has suffered are as follows:

THE CROW WING COUNTY.

The farm owned by James T. Fraser was the first path of the fire and all the buildings and fences fell a prey to the fire first. Len. Beach who has been on the farm during the past season barely escaped with his family being everything he had except his house. It is thought that he saw the fire coming some time before he imagined there was any real danger to the buildings and was so quick to get out that he did not get into any real danger. It being apparent however that unless the fire was stopped it would sweep through the place and he was in a hurry to get out. He was in a hurry to get out and he was in a hurry to get out. He was in a hurry to get out and he was in a hurry to get out.
