Wanted - An Idea. The one who can think of a new idea for a business...

MURDER FIRST DEGREE!

The four years of Grover and clover are over. Misses are spring throughout the country and in kinds of business is improving.

There will be no more bond syndicates, and Uncle Sam will be placed on a paying basis.

Now the government of the United States will be conducted in the interest of America and Americans.

The fight of Hastings to get the first place system located there has been received in the legislature, after it has been located in Anoka and the state purchase of changes now would be an outrage as well as a vicious waste of money.

Anoka in the most central location, and the most accessible, and was rightfully selected at the start. Any attempt to change would be a piece of foolhardiness, amounting almost to treason.

Don't Wait to Organize. Commissioners Ellis and Bryant of Cass county went to St. Paul on Monday night to protest against the passage of the bill before the legislature for the organization of morganized counties.

They say that the organization made the bill settle in the county, as in a gigantic scheme to furnish fat offices for a lot of town sethames at Walker, and that the bill would have to pay the taxes to support them.

The tax rate now is not over 12 mills, and have got in their deadly work, the rate is over 40 mills, and is a probable like rate would be levied on the whole county when they get control.

According to the bill, the little boy was burned in the building. According to Mrs. Fryer, the boy got on the building on fire, and her father says he did not go to the fire, but presumes Fryer and his father will be getting out of the building, and some farming utensils, but not the boy.

What Mr. Maxwell did about the matter who he came home was unable to learn, but an notice was given to the authorities of the occurrence. The story of the fire and death of the boy is not satisfactory to the neighbors, who, headed by Mr. Abbott, want the man, and in them found portions of the charred remains of the boy.

Further search resulted in finding a portion of the body buried in a manure pile about by. No portion or remains of the head could be found. What reason Mr. Fryer or Maxwell give for leaving the remains of the boy as they are, we are unable to learn.

The night-burned those portions of the body they had found, and anything found in the ruins of the barn. The officers here were notified on the morning of the fire, and the father of the boy with the ax and then the barn on fire. It is also thought that father's opinion is not so good as we are, we are unable to learn but believe as expressed that a criminal was committed and the parties will be convicted and punished.

If there ever was the right man in the right place it is Connel General Lee at Havana, and it is to be hoped that the officers of the law who are in his place, at least until the Cuban difficulty is settled. If Grover Cleveland had his position, and was a by-word and reproach in every foreign country.

The Average Age was Lower, the Death Rate Less, and the Increase of Phenomenal and the Cost of Management the Least of Any Like Order is Existence.

The facts presented below are a few figures from the transactions of the life of the business during the year 1906, as presented by the Census Bureau. The record is unprecedented in the history of fraternal insurance.

The Modern Woodmen of America is creating a new epoch in fraternal insurance that has been compared with any other society. That the year 1907 will present still more marvelous records is the expectation of all.
