Decision in Tax Law Case.

Judge Holland this morning rendered a decision in the famous Anderson railroad land tax case, which was argued before him on Sept. 24th, in favor of the plaintiff. The action was a writ of mandamus to compel the auditor of Aitkin county to place the railroad lands in that county on the tax list. The decision was a lengthy and exhaustive one covering 17 pages of closely typewritten matter.

Spring chickens at Bane & Bane's 12 1/2 cents per pound.

A Brainerd Institution.

A metropolitan green house capable of supplying the demands of a city much larger than the one in which it is located is something that Brainerd can now boast of and it is an institution that is worthy the patronage of our citizens. On Monday a representative of this paper visited the green house of Mrs. Wm. Dodd on 8th street south and was surprised at the improvements that had been incorporated. When Mr. Dodd bought the property the green house stood on the north side of the lot but during the past few weeks the location has been changed to the south side of the road and an entirely new structure erected. It is 160 feet in length and three feet being made in the ground the entire length, the entire building is placed on a double glass above the ground. The new plant has been erected according to the plans and specifications from experts at the business and Thompson & Greenough, the Laurel street plumbers, have just finished putting in the steam heating apparatus which will not only heat the hot houses but Mr. Dodd's residence as well, and the job is considered to be a very fine piece of work. A new 20-horse power boiler has just been placed in position in a basement under the rear of the dwelling. The green house is arranged to be divided by curtains in four sections and the temperature of each section will be regulated according to the demands of the plants contained therein and in the center is a large water tank. In the rear of the dwelling is the design of the plants in green and in the north side of the house will be located in a beautiful flower garden next season.

The number of plants in the green

houses at present on a conservatory estimate is over 600, and 1000 of them are new additions to the stock consisting of roses, carnations and bulbs. Mr. Dodd informs us that they will be able to fill all orders for cut flowers and anything in their line during the coming winter months and at prices lower than those offered by the green houses of other cities, which will be the saving in express will be an inducement to patronize the home institution.

Oysters at Bane & Bane's at 25 and 30 cents per quart for Saturday.

A daring highway robbery occurred Sunday evening at 9 o'clock near the N. P. depot. Alfred Johnson and companion by the name of Gus Nelson were returning to the Mahlon houses where they board and were escorted by four men who demanded their money and before the two men could realize what was going on they were pelted upon and beaten over the heads with the butt end of revolvers, knocked down and robbed, the victims who did the job taking to their heels as soon as the pockets of their money had been searched. The sum of money taken amounted to \$110 which was the property of Mr. Johnson and besides being the only loser he received a cut on the head which required a physician to sew up. The matter was reported to the police but no clue to the perpetrators has been discovered.

The latest report from Cass lulu in regard to the trouble between the Indians and game warden is to the effect that a squaw and the game warden, whose from Beltrami county, are dead. It is said when the warden attempted to take a quantity of furs from the Indian a fight ensued and in the squaw a light wound and in the warden a squaw accidentally shot. The warden then pounded the Indian over the head and left him for dead, but he revived and succeeded in killing the warden before he could get away.

Rev. M. B. Bird, of the 2nd Congregational church, pronounced the second service in the series on "Ephraim." In the evening there will be general song and drama service. All are welcome. Services at 10:30 a. m. and 7:30 p. m.

Read the special prices offered in this issue by Bane & Bane for Saturday.

Mr. Hugo Katta has rented the large store room adjoining his old stand East Brainerd and has added very much to the appearance of that street.

Head's Headache Powders will cure your headaches.

Mrs. Nels Larson who lives 5 miles west of Brainerd was kicked by a horse on Tuesday receiving serious injuries. Store your stoves and furniture with D. M. Clark & Co.

Resolved the Order.

The board of education at a special meeting held Saturday evening considered to purchase five sets of relief maps at the price of \$500. A very strenuous effort was made by some of the members to have the matter deferred until it could be looked into, but as the proceedings below show the contract was made with the map house. On Monday, however, several of the gentlemen found they had made a mistake in the matter, as the price was exorbitant, and the maps incorrect in many instances, and that the agent had misrepresented things to them, and six of the members issued an order restraining the contract and wired the same to the Chicago house. The proceedings of the meeting are as follows:

Board met in special session at 8 P. M. for the purpose of considering the advisability of purchasing relief maps. Present, Messrs. Critton, Hurley, Cullen, Keene, Preston, Dodd, Hagberg and McKay.

The committee on text books made a report recommending the purchase of five sets of relief maps for the use of the schools from the Central School Co. of Chicago, Ill., at a cost of \$500. Motion was made and seconded to adopt report of committee. Moved by Mr. Keene and seconded by Mr. McKay to amend and suspend the order until the next regular meeting in order to get and place before the Board the written opinion of the superintendent and of such teachers as were desired before purchasing. The vote on the amendment stood, ayes, Hurley, Cullen, Preston, Dodd and Hagberg; nays, McKay, Keene and McKay. Motion carried. No other business being before the meeting, it was adjourned.

W. D. McKay, Secretary Pro Tem.

Try some of our Saxtons Linen Sausage, made up as Paine & McGinn's.

All children suits at Cost to close out. Certain Closure.

Read the special prices offered in this issue by Bane & Bane for Saturday.

Y. M. C. A. Notes.

There is a membership contest in the Y. M. C. A. now and the boys meet tomorrow. Mr. Will Martin, captain of the blues and Mr. Dudley Wilkins, leader of the reds. During the last 15 days over 40 new members have been added to the books. At present the blues are in the lead but the reds are in the light and who wins can be told at the end of the contest. The contest closes Dec. 1st, and at that time the association will give a free supper to all new members and the 40 men who are serving on the two committees. The defeated side will be waiters and dishwashers at the food.

The Association night school at the Y. M. C. A. is in fine condition this year and so good teachers as can be secured are instructing the most interesting classes in the history of their work. Monday evening Mr. F. A. White, pennsylvania class had 18 members enrolled. Tuesday evening Mrs. S. A. Janson instructed 13 in arithmetic. The class in English under Prof. H. Skinner numbered 13. The class in classical arithmetic opened to night with Prof. Tom. Howitt as instructor. The mechanical drawing class will open in about a week with Mr. C. H. Cross as instructor. Those desiring to enter this class should register at once as the association will make an internal table. If there are those who desire book-keeping a class will be organized, half-amounting for the class as now suggested. Dr. Young will give a course of lectures on some things we should know about ourselves. Other lectures and "evenings" will be announced later. Information gladly given at the office about cost and time of classes.

Hello Central. Eleven call two, Y. M. C. A. Thanks to Mr. Farber for reading the special prices offered in this issue by Bane & Bane for Saturday.

HENRY I. COHEN

OFFERS TO SELL HIS ENTIRE STOCK OF

Dry Goods and Shoes.

At the Lowest Possible CASH PRICE

Legal Rates for Legal Notices. We, the undersigned, hereby agree to accept the publication in our paper of legal notices...

FRIDAY, OCTOBER 29, 1907.

CORONADO railroads have been blocked by snow for several days.

The White Earth Indians have a new agent in the person of Judge Substantiel who was appointed to that position on Saturday.

CONGRESSMEN Egan thinks that S. G. Constock would make the best base of any of the Northern Minnesota men yet mentioned for the governorship.

Any new Kansas women are setting the example of removing their hats when they enter church. This is a direct blow at the milliners of the country.

There's not much doubt but what considerable green timber will be mistaken for dead and cut down by the Indian reservations when the actual work of cutting it commences.

Down in Ohio there is a candidate for the legislature who is claimed on neither side nor side. Probably the people in that state desire a legislature that will do the least damage.

Even on the best equipped railroads in the world there is danger as was shown by the recent accident on the New York Central by which the train was thrown into the Hudson river and many lives lost.

The European countries are being flooded with Klondike gold ornaments and many will rush to the gold diggings in the spring. People from all parts of the world are being attracted to this new Eldorado.

The United States last year coined 21,283,701 silver dollars. But it is useless to call the attention of silverites to the fact. What they object to is any dollar kept up to the gold standard, remarks the Globe Democrat.

When the change is made to prepare with the new dollar, H. G. Wirt will be the new official in command by Congressmen Morris. This is an instance in Minnesota politics where a postoffice has slipped away from the newspaper.

The Grand Forks Courier is authority for the statement that there are now 600,000 men at the Forton station of the Great Northern and that the force will be increased to 1,000 with the expectation of completing the line as far as Portland before winter.

A man in Fortland, Ore. will ship to Klondike 4,000 dozen frozen eggs with a large quantity of poultry and systems. He expects that the provisions will reach Dawson in time to serve as Christmas dinners for the miners. He hopes to realize \$100,000 on the venture.

Only sixty men in Morrison county availed themselves of the opportunity to take second papers out at the recent term of court there. The Transcript claims that there are ten times as many men there who should have attended to the matter in order to be able to vote at the next election.

The Anoka Herald thinks that money spent by the juries in looking up the records of public officers is not money wasted, and adds that while some officers do not need watching, most of them will have to be subjected to a semi-annual inspection of records will, in the long run, save many a dollar to the people.

It is stated by a returned Klondiker to the St. Peter Times that he is adding the famine in Klondike, a new discovery has been made, which is carrying most of them will have to be subjected to a semi-annual inspection of records will, in the long run, save many a dollar to the people.

It is stated by a returned Klondiker to the St. Peter Times that he is adding the famine in Klondike, a new discovery has been made, which is carrying most of them will have to be subjected to a semi-annual inspection of records will, in the long run, save many a dollar to the people.

Big Lumber Deal.

A special from Winnipeg brings the information that C. A. Moody, of Warroad, Minn., brother of Geo. W. Moody, of this city, is in Winnipeg as the general manager of a large lumber company which has been formed by the Minnesota & Winnipeg Lumber company.

The company has bought out an enormous pine timber tract south of the Lake of the Woods, millions of acres, and it is the intention of the company to have six saw mills in Winnipeg. The company is composed largely of Canadian capitalists and is formed chiefly with the purpose of supplying Manitoba and Dakota lumber requirements. According to the charter of the company, the company will cut number each year, up to 15,000,000 feet, as required at its Winnipeg mills, which are to be constructed by July 1 next.

The president of the company is Senator Rockness, of Little Falls, and Albert Berg, secretary of state of Minnesota, is the vice president. Mr. Moody in conversation with a reporter, said that as a result of his company's formation, lumber would be sold in Winnipeg from \$2.50 to \$4 per thousand feet cheaper than now. It will bring its logs right from the Lake of the Woods by water to Warroad, and every foot of it will be cut here. The company has secured the permission of the Minnesota government for the cutting of a canal from a point on the southwest of the Lake of the Woods through to the Roseau river, a distance of fourteen miles. Four steam shovels have been purchased for the work. The logs will be floated through this canal to the Roseau river along the water course to where it enters the Red river near Letellier, and thence up the Red river to Winnipeg. Mr. Moody says that the benefit the province will derive through such great reduction in the price of lumber, the employment furnished to many men, etc., will be worth as much to the province as her wheat fields.

From Our Walker Exchanges. Med Thurston is putting up his logging camp west of town and has 30 men at work already.

Sam Hunter started for winter quarters yesterday morning, taking 30 men with him and some horses to work in the woods.

Oscar Miner has purchased for Dr. Camp, a handsome canoe for \$15 from Wright Bros. and shipped it to the doctor at Brainerd.

T. J. Nary now holds the lines over a very handsome pair of dappled gray horses, which he recently purchased at Hubbard's private sale.

A deputy game warden from Brainerd came here a few days ago looking for contraband game. Of course he found none, because the people of Walker do not violate to game laws.

Harry Sumner, of Brainerd, brother of Mrs. Fred Hegon, is spending a few weeks out of his term on the Klondike bay. Harry is up in our town so much he seems to have an interest in the place.

The B. & N. M. are taking the old train from the Sullivan branch, at Lathrop, and which they had paid alongside the track near Lake Mary, to Brainerd, to be used for replanting worn out ties on the main line.

Frank Clime and Geo. French are busy surveying the new addition to the west of town on the T. B. Walker property. It will be the main part of town in the near future. It is more than likely that the B. & N. M. will move their depot over near to or to join that of the Gt. Northern.

Last night Frank Evimer, of Orlowville jumped from the railroad bridge into the river, a distance of over 20 feet, to get out of the way of the passenger engine which was bearing down upon him. His right leg was broken below the knee and his left wrist broken badly. Two companions of his and who had made the crossing called it a jump to hold to the side of the bridge, but, as the night was inky dark and he was a total stranger, he naturally took it for granted that it was only a trifle as there was no light there, as there should be to protect people, he stepped off, the result being as stated. He was carried to Dr. Rodwell's hospital, where he was once dressed of his blood-soaked clothing, his wounds attended to and is now getting on nicely. He was going to work for Sam Hunter in the woods.

Closing out all our children clothing at Cost, going to our old-fashioned store.

FOR SALE—A new Aukland Cape, price \$15. For further particulars address Box 239, Brainerd, Minn.

A CLEVER DETECTIVE.

A Library Card Case the clue to a Detective's Whorehouse.

A manager of a branch office of one of the big packing houses in Chicago was found to be short in his accounts, and the day this fact was discovered he disappeared, says the Detroit Journal. His trail was furnished by the Baltimore company, and Mr. Macbeth was sent to Chicago to take charge of his books and to find out where he had gone. Mr. Macbeth and Billy Fickerton went to work on the case, and the city was searched for two days without revealing any trace of the whereabouts of the missing man. Mr. Macbeth and Billy Fickerton went over his books and personal effects in hopes of finding a clue. They ransacked a private desk without finding anything to which they attached any importance, and Fickerton had turned to leave the room, when Macbeth applied in one corner of the desk a public library card in the name of the man for whom they were looking. He observed by the entries on the card that several books had been taken from the library within a period of a month and that the date of the return of one book corresponded with the date of the leaving of another. He put this card in his pocket and left the office in company with the detective.

"Why did you take that library card?" "I have an idea," Macbeth answered, "I'll make it go at once to the public library."

An examination of the card showed that the missing man had procured different books, and a comparison of the numbers on the cards with the titles in the books at the library revealed the name he had given himself. The first book taken was entitled "A History of Nicaragua," the second "The Trip to Central America," and nearly all the others related to Central America.

"He has gone to Central America," said Fickerton. "That's right," Macbeth answered, "and it's not yet too late to catch him in New Orleans."

Orders were sent to the Crescent City giving full descriptions of the man and the order he was arrested in the office of a steamship company which was waiting for him at the final window. He would have sailed a few days later for Central America.

ASHAMED OF HER CHILD.

A Heartless Mother Drowned Her Son Because He Was Fat.

Idella Powell Banks, widow of a well-to-do cotton planter, was committed to the Brooks county jail, and charged with the murder of Albert F. Banks, her only son. She has confessed the crime and said to a minister who called upon her that she wanted to be hanged as soon as possible. As she continued to her statement, the boy was so fat in appearance, and he looked in intelligence that she was ashamed to have him grow to manhood. She had been visiting relatives in Louisiana recently, and on the train returning home, who sat in the seat facing her, she saw a man who looked like her son. She felt sure that he was her son, and she was so strongly that she was afraid the struggle would attract somebody. After he was in the water she went to her home and went about her business as usual until the body was found and she was called before the coroner's jury.

She is possessed of considerable property and has no other children. She originally came from the north. The murdered boy was not locally informed in any way, but his face was diagnosed from him.—(Cincinnati Enquirer.)

The Number of our Associates. Dr. David St. Jordan computed that the child of Stary-Jordan had had at the time of Alfred the Great 870, 072,000,000 associates and at that of William the Conqueror 8,000,000,000. This is a simple matter of arithmetical calculation. Every child has two parents, four grandparents, and so on, the number doubling with each generation in the ascending line. But to take the later period of William the Conqueror, we know very well that there was not such number of people on earth at that time as any other time \$8,000,000,000. At this point, therefore, our arithmetical appears to break down. It is only by the repetition of these monstrous numbers that we can escape the force of the calculation. From these data Dr. Jordan infers that "the blood of each single person in Alfred's time who left capable descendants enduring to our day is represented in each family of strict English descent. In other words, every Englishman is descended from Alfred the Great, as very likely also from the peasant woman whose cakes Alfred is reported to have burned."

This gives a somewhat modest idea of the value of descent from Alfred the Great or William the Conqueror.—Louisville Courier-Journal.

Recently Made New York Bonds. The discount of Germany by a holder of New York city bonds and draws her interest regularly. The sum of \$48,750 was realized, but a few days ago by City Chamberlain Anson McCook, being together half year interest on \$4,750,000 of 5 percent New York City bonds. The money was sent through the banking house of J. P. Morgan & Co., the agents of the discount company.

On the banks of the city she appears as Frederick, lawyer of Great Britain, and Ireland. Just how she obtained possession of the bonds is not exactly known in the chamberlain's office, but she has been diving interest on them for 19 years, according to the memory of some of the old men.

The Catholic Fair.

The annual fair of St. Francis Catholic church, which closed on Saturday evening last was one of the most successful events of the kind yet held in this city financially and otherwise, the receipts being \$4,224.40, the net proceeds to the society being \$1,900.

In the distribution of articles on which choices were sold Miss Ella Sanderson received the latest bicycle, Bert Finn the gentleman's bicycle, Mrs. P. O'Brien the elegant automobile, Miss Joseph Springer the silk dress, Miss Ella Stitt the miniature house, and James Canfield the boy's suit. Very much credit is due the ladies who managed the different booths and supervised the supper arrangements.

Hay Fever and Summer Colds are "broken up" by "77," Dr. Humphrey's famous Specifics, 25 cents at all drug stores.

Great Music Offer. Send in the names and addresses of three or more performers on the piano or organ together with 10 cents in silver or postage and we will mail you ten pieces full concert music, consisting of popular songs, waltzes, mazurkas, arrangements for the piano and organ. Address: The Music Box Co., Indianapolis, Ind.

Baby's Coming.

menstrual pain, danger of some possible death for some. For others it means practically no trouble. For others it is a reason why children should be prepared for pain and death. See...

It is a common thing for a woman to become a mother before she is prepared for the responsibility of this step. The danger is that she will give birth to a child, and that child will be a burden to her.

Five Books on Mother's Friend. \$1 per bottle all over the world. Send for them by mail on receipt of 10 cents.

WALL PAPER. How do you like the Figures? THEY ARE READY TO GO UP. And now is the time while they are down to put up your Wall Paper. There is no Wall Paper more lasting, more elegant, more reasonable in price than that which we are now selling. J. C. CONGDON, One door East of Arlington Hotel.

Burlington Route. FINEST TRAINS ON EARTH FROM St. Paul AND Minneapolis TO CHICAGO. Electric Lighted and Steam Heated. A POOR JUDGE OF MEAT should always be sure to buy his supplies from the butcher who is an expert judge, and who knows how to cut up scientifically, so that it will be tender, juicy and nourishing. Our knowledge of meats and their dissection guarantees you the prime and the choicest to be procured, and we are not pigs—we only want a reasonable profit on our goods. BANE & BANE.

NOTICE. The undersigned has been named as executor of the estate of John J. Condon, deceased, and has accepted of the office. All persons having claims against the estate of John J.
