ANOTHER FINE BRICK BLOCK

J. F. McGinnis Reveals a Sketch From The Minneapolis Architects of One he Proposes to Build.

J. F. McGinnis has received from Kees & Colburn, the Minneapolis architects, a sketch of the fine solid brick block that he proposes to build on the lots on 7th street, recently purchased by him, and now occupied by the arena office, and other small buildings. These will be removed to make room for the new structure. According to the sketch, the building will be two stories, 50x100 feet. The first floor will be a large and commodious double store room, which Mr. McGinnis will occupy with a large stock of clothing, much too large for the limited quarters he now occupies. The front will be the best and most modern plate glass front in the city, only one eight inch steel column in the center obstructing the entire front, the wall above being supported by a steel truss. It will be steam heated and modern in all its appointments.

The second floor contemplates the making of the finest lodge room in the city. The lodge room proper will be 35x80, larger than Masonic Hall, with a dining hall 12x26, a good kitchen, and ladies' parlors, a reception room, besides several ante-rooms and toilet rooms. The entrance will be from the side to preserve the full front for the store room.

Mr. McGinnis is not yet decided whether he will attempt the construction this fall or wait until spring, but it will be built as soon as possible, and will be one of the most substantial buildings in the city.

Piano Contest.
The following is the total vote cast up to date in the contest for the Schimmel piano:
Ladies Aux. A. O. H. 400,808
I. O. O. F. 34,299
Y. M. C. A. 650,098
Woodmen 716,773
The contest closes Monday. No more votes will be received after 6 p. m. that day.

The vote for the Schaeffer piano stands:
Trades and Labor Assembly 122,818
C. M. B. A. 69,967

A Desirable Improvement.
New granite curbing has been ordered by the owners of the property at the corner of 7th and Front street, to reach from a point in front of Walker's Hall to the corner at the N. E. bank, and from there on 7th to the new Koop block, and a cement sidewalk will be laid the entire distance. An effort will also be made to get the streets at this point paved with crushed stone, which will make 7th street one of the most desirable streets in the city.

DROWNED IN THE RIVER.

James McKeever, of Superior, Aged 38, Loses His Life.

James McKeever, of West Superior, a common laborer, employed in constructing the piers of the new railroad bridge over the river, was drowned on Saturday afternoon last. McKeever and another man attempted to cross the river by a skiff by holding on to a rope stretched across the river. Instead of holding the rope up and the stream down stream and allow the current to force them across, as in a ferry, they held the boat straight and the current tipped the boat over, throwing them in the water. McKeever's companion held on to the boat and was rescued, but McKeever sank and was not seen again. His body was recovered at the wagon bridge about an hour and a half later.

A Fine Barn.

P. O. Bolin has made a contract with C. E. White to build a barn and hen house to replace the buildings recently destroyed on his ranch north of the city. The barn will be 40x80 feet, two stories high. The lower story will be a good kitchen, and ladies' parlors, a reception room, besides several ante-rooms and toilet rooms. The entrance will be from the side to preserve the full front for the store room.

New Residence Property.

J. N. Nevins will at once commence the construction of a fine modern seven or eight room dwelling house in the vacant space in the rear of his residence property on Main street. The new house will face east on 4th street, and will be nearly opposite the court house. Mr. Nevins is building the property for rent, and as an indication of the extreme scarcity of houses in this city, we might state that it was rented even before the plans were adopted. The house will be occupied, when built, by Mr. Downey, the auditor of the B. & N. M., and his family.

Houses are so scarce that it will be impossible for any new corners to locate here, for no place to live can be found, and it is strange, considering the way rents are going up that more people are not building residence property. Heretofore taxes have been so high that even with high rent residence property did not pay, but taxes will probably be greatly reduced next year owing to the enormous payment of back taxes, and it is hoped the increased valuation caused by the new improvements, will keep the tax rate down hereafter, so that residence property from now on will be a good investment.

FOR BURNING THE CREAMERY.

W. J. McLaughlin, the Buttermaker, Arrested for the Offense.

Indicted by the Grand Jury Last Week. Bail Fixed at \$1,000.

Last week the grand jury returned an indictment which was not made public, although the Dispatch had the information, and only revealed from publishing it at the request of the authorities. It was against William J. McLaughlin for burning the creamery. It was not deemed advisable to make it public until McLaughlin had been taken into custody, and he had led the city and his whereabouts were unknown. However, Sheriff Erickson learned that Mr. McLaughlin was near Red Wood Falls, Minn., and he went there on Monday and arrested him and brought him to this city and lodged him in jail. Judge Holland has fixed his bail at \$1,000, which the prisoner is trying to secure.

The evidence against McLaughlin is said to be very strong. He made several statements to the sheriff that seem incriminating, and the authorities are satisfied he is the guilty party. The sheriff gave him to understand that he was only wanted to account for money, and he said "the books were burned, and they can prove nothing against me." Another time he remarked he had been arrested at every creamery he ever worked for.

McLaughlin, it is claimed, used the money received from the sale of butter and then set fire to the creamery to destroy the books to prevent his stealing from becoming known.

GRAND REPUBLICAN RALLY

At the Court House, Saturday Evening, Sept. 22nd.

Capt. S. R. Van Sant, Our Next Governor, and Adam Bede the Speakers.

Capt. S. R. Van Sant, republican nominee for governor, and the witty orator J. Adam Bede, will address the people of Brainerd and vicinity at the court house on Saturday evening, September 22nd, on the political issues of the day. The meeting will be held at the court house because Gardner Hall could not be secured owing to a previous engagement. These gentlemen are both interesting and able speakers, and it will be a treat for every one, member of all parties, to go and hear them. J. Adam Bede is the individual who has been such a thorn in the side of C. A. Towns during the last campaign. He is one of the wittiest and brightest speakers on the stump in Minnesota. Capt. Van Sant is also an able and attractive speaker, thoroughly conversant with the political questions of the day and will not fail to interest all who attend. Come out and hear Minnesota's next governor.

"Whose Baby are You?"

The general verdict of the theatre going public this season is that Mark E. Swan's three act farce "Whose Baby are You?" that is billed to make its first appearance here at Gardner Hall on Wednesday evening next is the funniest and cleverest piece of farcical construction that has been seen on the stage for several years. The piece was built for laugh making purposes only. That is its only excuse for existence. It is to be considered as a sort of dramatic patent medicine to cure the blues, and it is an accepted fact by most physicians that next to fresh air and sunshine laughter is nature's cure for all mental ills. "Whose Baby are You?" is a sort of jolly hurrah from start to finish. The story is a complicated and a funny one. The characters are said to be the incarnation of the spirit of humor. A clever company of farces direct from New York interpret the farce. Several new and clever vaudeville features are introduced and the entertainment from beginning to end is bright and sparkling in the extreme.

Right for the G. O. P.

The Minneapolis Tribune had a newspaper interview with a man at random attending the state fair, and the result indicates that republican success is more certain even than anticipated. Out of the 263 men interviewed 167 favored McKinley and predicted his election, 47 thought Bryan would be successful, and 39 declined to give an opinion. Of 47 men interviewed 167 favored Van Sant and 51 John Lind. 16 predicted the vote would be close, and 14 declined to express an opinion, 38 who voted for Lind in 1898 will vote for Van Sant this year, while only 7 who voted for Eustis will vote for Lind. There were 73 who voted for Bryan in 1898 who will vote for McKinley this year because they are afraid our present prosperous conditions will be disturbed by Bryan's election. Only five voting for McKinley in 1898 will vote for Bryan this year. This vote shows how the people of the country enjoy these prosperous times, and will take no chances on Bryanism. The Tribune also published a number of the interviewees also selected at random. One was with a Crow Wing county farmer and is as follows:
Mr. Osterman, a farmer living near Brainerd, while not familiar with the political situation, was personally a republican. Last year he voted for Lind, but this year will support Van Sant. He reports a prosperous state of affairs in his vicinity with land increasing in value.

What Bryan Said in 1898.

If McKinley and the republican party are successful and are put in power for the next four years, wages will be decreased, hard times will come upon us, and over the land the price of wheat will go down and the price of gold will go up; mortgages on our homes will be foreclosed by the money lenders; shops and factories will close. We will export so goods and we will import foreign lands all the goods we use; thus will ruin, want and misery be with us.

FALL OPENING SALE

The AUTUMN season, with its wealth of Scenic color, its bright and crisp atmosphere, and its return of happy school and festive days, has roled into position once again. Nature and custom provide in many ways to our general happiness and comfort, but man arranges for some matters which they overlook or are too busy to attend to. With diligent search and advantageous opportunities our buyer has filled our two stores from cellar to garret, not in one department alone have we succeeded in getting "The Best," but all through the store you will find style and price surprises that will appeal in an impressive manner to all. An outline of what you may expect during this sale is given below. Read carefully and remember that prices are just as advertised.

Clothing Sale.

One of the largest clothing manufacturers in the east decided to quit business this fall and close out every thing. We took advantage of this and made a bid for several lines of suits which we purchased at our own price. We quote below a few for your consideration:

FRIDAY, SEPT. 14, 1900.

REPUBLICAN NOMINEES.

- President - WILLIAM MCKINLEY, of Ohio. Vice President - THEODORE ROOSEVELT, of New York. United States Senator - SAMUEL H. VAN SANT, of Wisconsin. Governor - LYNDON S. SMITH, of Minnesota. Secretary of State - PETER E. HANSON, of Minnesota. ...

OFFICIAL CALL.

- Republican County Convention and Platform. A republican county convention for the County of Crow Wing, Minn., will be held at the City of Brainerd, in the County of Crow Wing, on Saturday, Sept. 15, 1900, at 10 o'clock a. m. ...

Legislative Convention.

A republican convention for the 40th Legislature of the State of Minnesota will be held at Little Falls on the 12th day of October, 1900, at 10 o'clock a. m. ...

The local political pot has begun to boil furiously.

This office of sheriff in this county must be a nuisance, judging from the number of aspirants for the position.

This republican legislative convention for this district has been called to meet at Little Falls Saturday, Oct. 6th.

Tell your neighbors that the next governor of Minnesota, Capt. S. R. Van Sant, will deliver a political address in this city Saturday, Sept. 22d.

Every citizen of the United States should read President McKinley's letter of acceptance. It is an able document, and states the position of the administration and the republican party on the great questions of the day with a clearness and logic that is irresistible. How any honest person can cry imperialism and militarism after reading his view of the Philippine situation, or advocate any other course, it is impossible to see.

A DISMAL FAILURE

DEMOCRATIC STATE CONVENTION SOLEMNLY ATTENDED AND INTERESTING IN THE EXTREME, BUT TOTALLY FAILING.

OVERSHADOWED BY STATE CALL

Conventions Made Up Wholly of Officeholders and Professional Patrioters, and the Whole Programme Manipulated by Ringing Machines.

The Democratic convention which met in the great Auditorium building in St. Paul on Thursday of last week, and which was so generally expected to be so successful, was a total failure.

It is not necessary for the republican party to keep declaring its loyalty to the principles of the Declaration of Independence. It was born and came into being to put those principles into practice and make them a reality, and it has never sanctioned any action contrary thereto.

Bargains in Records. To any reader contemplating the purchase of a supreme court record the Democrat takes pleasure in commending the wares of the Arena Manufacturing Co. (limited). This make is absolutely the cheapest on the market, guaranteed to wear, safe and rip at the seams, and can safely be recommended as requiring more explanation than a regiment of men could furnish in ten years.

In last week's issue of the local democratic sheet three of these sample records were exhibited. Each contained the other two though the general design was the same—a frantic and hysterical attempt to get as far away from the truth as possible. Some editors might have hesitated about printing in the same issue three statements, each nullifying the other, but the Arena with superb courage lived up to its conviction that quality is never a substitute for quantity.

The records published were presumably constructed on a special order from Judge Holland, as he is not at all fastidious with the history of the past two terms. The first was a neat and attractive though not gaudy one line pattern, revealing 47 affirmations and 43 reversals, the whole being trade marked "Correct Figures." It did not agree with the two that followed. The Democrat understands that when distressed manufacturers will sell substantial props with this record, as it cannot be made to stand alone. In ordering please use the words "correct figures."

The "White Elephant" model was exemplified in the second record—45 affirmations and 33 reversals. This is a chainless, wheelless, handleless, frameless good thing that takes a 140 ton tandem freight locomotive to push it along. No repair kit is furnished as all goods are warranted to be perfect when shipped from the factory.

Every modern improvement including hot air accompanied the third record. It was advertised to the trade as the "Hopedly Punctured" and claimed 46 affirmations and 30 reversals for Judge Holland. The plans indicated a large lex box on the first floor, intended to accommodate concealed judicial mistakes and to prevent unpleasant and tell tale odors from arising.

But seriously—when did Judge Holland find time to acquire three sample court records. At the rate of a record for every two terms he has been on the bench for 26 years, and while "records" is the record? Will the Arena stand by "Correct Figures," by the "White Elephant" or by "Hopedly Punctured"? Or will it explain again next week and introduce to the amused public another dozen or two of records. The lightning calculator certainly hasn't become fatigued after so modest an effort. Being entirely unhampered by facts he ought to be able to do much better than 47-33, or 45-33, or even 46-30. There yet remains the 41-44 series to be exploited.

L. W. Burrell has a large stock of gun repairs at his shoeing shop, on 4th street between Front and Laurel. All work in that line promptly attended to and satisfaction guaranteed.

All kinds of plows, best Clipper plows, one, two, three, five and seven shovel cultivators with potato lifters, rakes, walking and riding cultivators at Hessel's, corner 4th and Front streets.

D. M. Clark & Co., carry a full line of carpets, wall paper, furniture, iron beds and other household furniture.

LI HUNG CHANG'S TRAITS
A Civil Engineer's Experience of Chinese Officials.

TURNING THEIR CHIEF WEAPON.

That before Li Hung Chang the great force of the Chinese Empire, trained by him—desert of Chinese Diplomats, Foreign Agents at the Yenching-Whang Tai Corvettes.

In the cosmopolitan city of San Francisco are people who have a scientific, almost knowledge of men and things in the Chinese Empire, says the New York Sun. Among these is John C. Ferguson, a civil engineer who spent more than 20 years in the service of the imperial government. He was in charge of the construction of the first railway in China, which ran from Tientsin up the Peking river to a large copper mine about 40 miles distant. At that time China had not begun to go in for foreign improvements and he has had to see the last few years, Mr. Ferguson found the Chinese officials quick to see the advantages of modern machinery, but they frankly admitted that the masses were not educated to the point of accepting the latest foreign devices.

ALLIES' FIRE ACCURATE.

Guns on the Walls of Peking Reported by Dead Chinese.

The guns on the walls of Peking were mounted in pairs along the battlements. The artillery fire of the allies was extremely accurate, as on the morning of Aug. 15 all these guns were reported to have been destroyed by shells. The 17th-century fortifications of Peking were...
The guns which had been trained on the bastions were less than 200 yards distant. They fired on an average 400 times a day during the hottest period of the attack. The small number of casualties was due to the fact that the shells were fired from a high angle and the shells were well known to them personally.
