**ARE INVADING THE TOWNS**

**Fugitives Seemingly Becoming Bolder. People Are Held Up and Freight Trains Boarded—Leader of the Mob Is Captured and Another Criminal Fatally Wounded by the Posses Who Are in Pursuit.**

Topeka, Kan., Nov. 12.—With the capture of Frank Thompson, the negro leader of the federal penitentiary mutiny of last Thursday, 14 of the 29 fugitive convicts have been retaken. The 15 convicts yet at large are increasing much faster among the inhabitants of the country districts. Officers are at work in a dozen different counties and at some points they have groups of convicts rounded up more expeditiously than before morning.

From Council Grove, where Thompson was captured, six convicts have started to Cottonwood Falls and are freshly holding up and robbing people and plundering farms all along. Many have had encounters with the men and people along the route are afraid to venture out of their homes at night. In Iron county citizens and officers are armed and are patrolling the approaches where there is some heavy timber suitable for hiding.

Three suspected convicts were seen boarding a freight train in Ottumwa and they are expected to drop off near Emporia, where there is some heavy timber suitable for hiding.

Near Osage City, Deputy Warden Lemen, with 14 officers, is closely in touch with three convicts whom he expects to capture soon.

The sheriff at Albia is in pursuit of a convict who held up some men there. The sheriff at Albia reports that he has two suspected convicts surrounded.

The convicts are seemingly becoming bolder and are invading towns. In the Union Pacific yards at Wamego two convicts held up a man and compelled him at the point of a revolver to give them \$2. They then boarded a freight train and went west without any attempt being made to capture them.

**THE LEADER A PRISONER.**

Frank Thompson, colored, an Escapee From Leavenworth, Captured.

Topeka, Kan., Nov. 12.—Frank Thompson, the negro leader of the mutiny at the federal prison at Fort Leavenworth, which resulted in the escape last Thursday of 28 prisoners, was captured eight miles north of Council Grove by a posse under command of Deputy United States Marshal E. A. Prescott. Thompson would not surrender, but was taken after a hard fight with the officers in which he was shot in the head but not seriously wounded. No search of the posse was hurt.

Deputy Marshal Prescott, who had been in Council Grove ever since Banjo morning on the watch for escapees, heard of the presence of a negro convict a few miles north of Council Grove and immediately set out to capture him. He was accompanied by Sheriff Michael and some other officers.

The officers had just emerged from a wood track when they saw Thompson running across the open. He was ordered to stop but he resisted by wheeling around and doing some rapid dodging with a 44-caliber revolver. The officers then fired and Thompson dropped. He was stunned and was easily secured.

**ANOTHER ONE WILL DIE.**

An Escaped Convict Mortally Wounded Near Quenemo, Kan.

Kansas City, Nov. 12.—Lawrence Lewis was mortally wounded and captured near Quenemo, Kan., while making a dash through a cord of armed deputies. Lewis is a white boy, 20 years of age, who was sent up in October, 1900, to undergo a five years' sentence for larceny. He was tracked to a wooded place near Quenemo by a posse of officers and a dozen men bearing rifles. An order to surrender was met with defiance, and Lewis, unarmed and although practically surrounded, darted for the nearest opening. He had gone scarcely 100 yards when a bullet from a Winchester in the hands of one of his pursuers pierced his lung from behind and brought him to the ground. Bleeding and fatally wounded Lewis was taken to the marshal's office and cared for while Warden McLaughlin was notified.

Minnesota State Forestry Board of Forestry Received Reports From Forestry County Auditors. The Minnesota state forestry board has received reports from the auditors of Becker, Cook, Ottertail and Pine counties, showing that 2999 acres of land had been forfeited to the state for non-payment of taxes, and that the land is better adapted to forestry than to general agricultural purposes. Many counties have not sent in any reports, and several of the reports received do not give the desired information. Land that accrues to the state for delinquent taxes, after the county commissioners have certified that it is unfit for agricultural purposes, is placed under the care of the forestry board. As many of the county commissioners through the northern part of Minnesota, where the larger part of the land is situated, are known to be favorable to the forestry movement, the members of the forestry board expect a large amount of land will be placed under its care this winter. Until a decision has been made by the county commissioners, the forestry board has no control over such lands. S. M. Owen was chosen president of the board to succeed Judson N. Cross, of Minneapolis, who died last August. Memorial resolutions were passed on the death of President Cross, who was the originator of the forestry board. The members of the board present were: Greenleaf Clark, St. Paul; John Cooper, St. Cloud; B. Magollin, Duluth; O. M. Lord, Minnesota City; Professor S. E. Minnesota State Forestry Board of Forestry Received Reports From Forestry County Auditors. The Minnesota state forestry board has received reports from the auditors of Becker, Cook, Ottertail and Pine counties, showing that 2999 acres of land had been forfeited to the state for non-payment of taxes, and that the land is better adapted to forestry than to general agricultural purposes.

Many counties have not sent in any reports, and several of the reports received do not give the desired information. Land that accrues to the state for delinquent taxes, after the county commissioners have certified that it is unfit for agricultural purposes, is placed under the care of the forestry board. As many of the county commissioners through the northern part of Minnesota, where the larger part of the land is situated, are known to be favorable to the forestry movement, the members of the forestry board expect a large amount of land will be placed under its care this winter.
