OUR TICKET. For President SENATOR WILLIAM WINDOM of Minnesota.

For Vice-President GEN. JAMES A. GARFIELD of Ohio.

The House committee has favorably reported the Northern Pacific time extension bill.

Look out for red hot theological discussion soon. The King of Siam and Cambodia is expected in this country soon.

Cate at West Point! I thought I could not get the education of a school and all.

A convention has been arranged between the United States and Canada by which the exchange of postal money orders has been simplified and the cost reduced.

The North American Review asks the very pertinent question, "Has the Southern pulp failed?" We say yes, emphatically.

President Billings of the Northern Pacific road is a delegate to the Chicago convention and after its close it is understood that he will take a trip over the road and inspect the bridge tunnel question at Bismark, and other important matters pertaining to the road.

The Blaine train from Portland, Me., to Chicago, is to consist of twenty water cars and the forward car is to contain a band of music.

This is the way Bismark is advertised in a special correspondence to the Minnesota Daily Tribune.

We missed the late convention of the Golden North-western Convention, and regret the force of circumstances that kept us away.

The Fargo Daily Argus anxious to be sectional and wanting the material published under his name, starting headlines an article occupying nearly two columns of space.

The St. Paul Dispatch assumes that every man who opposed instructing the Minnesota delegation for Blaine is second choice was opposed to him altogether.

We undertake to say that there was not half a dozen Grant men in the convention, and none others were opposed to Blaine.

We have thought it wisest in the interest of peace and harmony that the matter should be dropped.

The other faction of the Dispatch itself admits favored Windom if he had any chance, but believing he had none were opposed to what they considered the throwing of the State into the hands of the State upon a floor hope and hence favored instructing for Windom as second choice.

The Northern Pacific. General manager H. S. Sergeant of the Northern Pacific, the engineering department of the company has just

accepted from the contractors twenty-five miles of new road on the extension, making what has been accepted, seventy-five miles of line now in operation with a total of 100 miles.

Who is the Coming Man? Be he Windom, Blaine or Grant we will work for him.

There are strong probabilities that the illustrious soldier and patriot who has had a great share in the world's attention within the last sixteen years and any other historical personage, Gen. U. S. Grant will be the nominee of the Union League.
